**SPRING VALLEY, Ill., Aug. 8.**—The trouble in this city seems to be at an end. All shafts blew for work this evening. George Schilling, secretary of the state labor bureau, spent some time among the colored people at Seatonville, and came into this city this evening to attend a miners' meeting. He stated at the meeting that he was here for the governor, and would not leave until the trouble was settled. The miners at today's meeting readopted the resolution of yesterday. After the meeting, Mr. Schilling held a conference with General Manager Dalzell, and it was agreed to start the mines in the morning.

In all likelihood Manager Dalzell will bring in the exiled negroes tomorrow and set them to work. The mayor says he will protect them.

**LONDON, Aug. 8.**—A dispatch to the *Pall Mall Gazette* from Shanghai says fanatical outbreaks against Christians have occurred at Ching Chow, a seaport of the province of Kieu, and Hupe Taling and An Hui. These outbreaks, it is added, are not merely the work of the vegetarians, but are said to be organized and carried out by the Chinese officials. The extent of the damage is not yet known, but foreigners are reported to have escaped.

Owing to the unsettled state of the province 200 Sikhs and a detail of British Indian troops from Hong Kong will escort the British consulate from Foo Chow to Ku Cheng, where the consul will conduct an inquiry into the recent outrage.

The Shanghai correspondent of the *Pall Mall Gazette* expresses the opinion that further outrages are inevitable unless Great Britain takes swift and deadly vengeance.

Regarding the dispatch from Hong Kong, announcing that the British and American missions at Fat Chan, near Canton, were attacked yesterday by a large and infuriated mob, which demolished the hospitals and caused some missionaries to flee to Shament, it is stated that the Wesleyan mission has one of the most important missions in China at Fat Chan. The hospital and station are under the charge of Dr. Wanyon, who has just arrived here after being held as a spy. The rest of the mission staff of the Wesleyan mission at Fat Chan are Chinese. They were attacked a few years ago, upon which occasion a missionary was killed. W. W. Rockhill, third assistant secretary of state of the United States, one of the delegates to the recent international geographical congress, who returns to New York on Saturday next, said today that he thought it was a great mistake for missionaries to have returned so soon to the outlying stations after the cessation of war, especially as they had been warned of danger. Rockhill thought the vegetarians must be the North China society, known as Shih, who are not so much vegetarians as abstainers and non-smokers. They are neither a political nor anti-

foreign society, and according to Mr. Rockhill a number of the servants of the United States ministry at Peking are members of it.

He settled in Telluride where he served a long time as marshal, enforcing strict observance of the law. He had the reputation of being one of the best shots in the world.

**MACON, Ga., Aug. 8.**—The people of Twiggs county, in a largely attended mass meeting, have passed resolutions calling upon the governor not to interfere with the hanging of Mrs. Debbie Nobles, the old woman who has been convicted of the murder of her husband. The agitation over this question promises to become of national importance. It seems that several weeks ago when sentence was pronounced, the "new woman" had reached the larger cities of the state. The women concerned took up the idea that Mrs. Nobles had been driven to her crime by the exactions of her husband and they started petitions to the governor to commute her sentence. They wrote to sister societies in other states and already letters are coming in from New York, Illinois and other states, protesting against the death sentence for a woman. So strong has the movement become that the male citizens of the county in which the offense was committed have held a mass meeting passing resolutions for the protection of men by the execution of female murderers. The resolutions adopted at this mass meeting of the Twiggs county residents "earnestly protest against the extension in any form of executive clemency for this murderer, polluted with the life blood of her husband, and do hereby declare our perfect confidence in our chief magistrate and our belief that he will not be swerved from the performance of his sworn duty by a desire to cater to weak sentimentalism or transient public feeling, unless inspired by a desire for equal justice and the sacred execution of our laws."

Three women have been executed in Georgia, a husband poisoner, a girl accomplice in a murder and a colored woman who was concerned in the celebrated Eastman riot.

Marshall said, "This is Mr. Dinkens," and placing a pistol at Dinkens's stomach, discharged the weapon. Dinkens grabbed the pistol just as it was fired, and possibly the first shot did not take effect. As Dinkens backed away from Marshall, there was
