AWFUL MISHAP TO BALLOONIST

W. J. Goda, the Aeronaut, Falls On Electric Wires and is Frightfully Burned.

### DISTRICT COURT HEARINGS.

Three Robberies Saturday Night, One Arrest-Severe Electrical Storms ---Nevada Bank Swindled.

Ogden, Aug. 5 .- While 2,000 people stood horrified, W. J. Goda of Hillsdale, Wash., an aeronaut, while alighting with his parachute, was horribly burned by coming in contact with electric wires bearing a voltage of more than 40,000 near this city at 5 o'clock yesterday afternoon. The breaking of the wires alone saved Goda's life. In the crowd was the balloonist's wife, who fainted at the terrible sight. At the hospital where Goda was rushed in an automobile after the accident, it was reported last night that Goda would re-

The balloon ascension was advertised as one of the features of the resort's program of amusements. On account of the location being close to the moun-rains, and fearing that he might be dashed against the rocks, Goda did not ascend as high as usual. In descend-ing one end of the trapeze bar became loose a short time after he had cut away from the balloon, and Goda was forced to hang on with one hand. This accident took away the only means the aeronaut had for guiding his parachute and he slowly drifted down on the live wires of the Teiluride Power company. When the multitude save the man from a miracle could save the man from electrocuted, a horrified cry went id many people turned their eyes from the awful spectacle. The way from the awful spectacle. The alloonist's feet first came into contact ith the heavily charged wires and im-nediately he was enveloped in a large heet of flame. It appeared that Goda il slightly forward, one wire passing p the inside of the legs until the rotch was reached. He then fell over a his side and the three wires snapped, flowing the almost lifeless body to all 35 feet to the ground. ## TWO ELECTRICAL STORMS.

# Much Damage Done by Lightning-Heavy Rainfall.

Heavy Rainfall. Ogden, Aug. 5.—Two severe electrical storms visited this city in less than 12 hours, the second one arriving about 11 o'clock Saturday morning. Dur-ing its short duration it made things interesting in and about the city. The storm was heralded by a blinding flash of lightning and a heavy peal of thum-der. A tree near the corner of Twen-ty-sixth street and Lincoln avenue was struck and much of the bark was peeled off. People residing in the neighbor-hood experienced heavy vibrations of the houses. A heavy downfall fol-lowed the peal of thunder and soon the gutters in the business district were

The landlord accommo-dated the fellow and obeying the bank's rule he endorsed the check and the imoney was paid. Shortly afterward Wilson went to Sait Lake and since hus disappeared. The draft was forwarded to the Nevada bank and paid by that institution. This released both Peterson and the Ogden bank from liability. It was not until some time later that the draft was found to be a forgery. The Winne-mucce bank will have to stand the loss. DEATH OF MES. SCOFFELD

In a recent interview Dr. Jean Val-lier, the eminent dermitologist, made some very interesting statements con-cerning the beauty of the fair sex. He claimed the highest type of features and those that approach nearest to the old Greek standards are to be found in America. Although the French ladies are world renowned for their beauty, they lack the classical mould of face. But this defect is evidently counter balanced by their matchless complexions, To this they give the most rigid care in the matter of diet and daily messages. Dr. Vallier gave the formula for a skin food which he said had worked wonders for the society ladies of Paris and which, though a simple mixture, is probably the most effective known to science for restoring the normal rosy complexion and building up the undeveloped parts of the face, neck and curve tailsed. have been a serious gin aceident happen-ed here. The Barker and Perry boys had planned a chicken hunt in the canyon. Gus and Irvin Perry were carrying a can of milk to the stand before starting, while Rufus Barker was examining his gun a short distance away; while so doing the gin was accidentally discharged and Irvin Perry fell to the ground exclaiming, "I am shot." He was carried into the house by his father and brother. Dr. Harding of Brigham was summoned and it was found that about 21 shot had struck him most of them boing lodged in the lower part of the leg. A few stray shots also struck his brother. Dr. Harding dressed the wounds and approhends no serious results. The wounded boy has been removed to his grandmother's home in Perry. People here are more firmly convinced than ever that if boys must hunt an older persons should look after them.

bors, was arrested and considerable der was recovered. The three places entered by the ves are located in the heart of the iness district. The supposition is false keys were used in each in-de. The first place discovered to e been robbed was the department e owned by O. D. Rasmussen on shington avenue. From this place robbers took 17 pairs of trousers it was these that led to Strong's oing. The fellow was observed car-ge the quarry toward the new Fed. building grounds and the police e notified. The trousers were found

the four transformers located there, three were damaged. The effect of the bolt of lightning which struck in this city was felt in various places. The American Linen Supply company's building on Twenty-sixth street seems to have received a portion of the bolt. A man at the machine was knocked down. Then sev-eral girls, were dazed from the explo-sion and terribly frightened. A clerk in the office was thrown to the floor by the shock and the electricity played freely about the building. The wires near the city jail also caught a portion of the bolt of light-ning which lighted the lights about the jail and played hide and seek around the steel cells with reports as loud as pistol shots.
