Never Despair.

For fifteen years our attention has been called to the wonderful qualities of Gillet's preparations. His Double Extracts are well known to be from three to five times as strong as most others, and are certainly more delicious, while Gillet's Cream Tartar Baking Powder cannot be excelled. If equalled, for its purity, nutritive, and healthfulness, it, too, is the most economical. Gillet's goods, and say "never despair" to those who have failed when using other powders, etc., but try Gillet's.

LOCAL AND OTHER MATTERS.

Sunday Services.—Meeting in the Tabernacle at 2 p.m. as usual, and in the Ward meeting-houses in the evening.

Home missionaries will visit the suburban wards and other Stake settlements during the day.

Present Symptoms.—Now doth the gentle zephyr, breathing of spring and powdered alkali, sweep the streets of our city; converting Saints into sinners, sinners into demons of profanity, and all into candidates for the bath house. "Cleanliness is next to Godliness."

Theatre.—This evening, the 2nd Ward Theatrical Association appear before the public in two attractive little pieces, "Pride of the Market" and the "Rough Diamond." For amateurs, this combination is a very creditable one, and as the prices have been reduced to 75c, 50c and 25c for this occasion, and in view of these facts the performance should be well patronized. We hope it will be. Encourage home talent and enterprise.

District Court.—Proceedings in the District Court this morning, Judge P. H. Emerson presiding: Elijah Whitaker vs. Andrew Olson; cause referred to H. G. McMillan to take testimony and report amount due.

Louis Reggel vs. A. Grunhag; default and judgment for plaintiff.

People, etc., vs. H. C. Shurtliff; trial still in progress. Counsel for the prosecution addressing the jury.

Broken Leg.—Amputation.—Yesterday afternoon, Andrew Ogerson, of Big Cottonwood, while hauling rock from the cañon, met with a serious and painful accident. By some mischance his wagon, loaded with rock, was upset, and one of the blocks of stone fell upon him and broke his leg above the ankle. He was brought to the city for treatment, last evening, when the fracture was found to be so serious as to necessitate the amputation of the limb.

The Piano Colossus.—Mr. D. O. Calder has the latest thing in pianos, at his music room, in the shape of a beautifully finished, seven octave, upright, from the warehouses of Hallett and Davis, Boston. It stands five feet in height and weighs 1,200 pounds. Its tone is powerful and brilliant, its action quick and sensitive, and its ingenious combination of mechanical contrivances to secure permanence in tune, is something worth examining. It is probably the largest upright piano made.

Juvenile "Pinafore."—Manager Harris is busily engaged, perfecting arrangements for the juvenile "Pinafore" performance. The best available talent is being sought after and enlisted in the novel enterprise, and new scenery and stage effects are also under course of preparation for the occasion. "Pinafore" seems to have attracted us in a variety of shapes.

"Pinafore" group at the soda fountain, but if Ogden don't start a newspaper with that title, we'll bear the others in silent misery.

The "Exponent."—The May 15th number of the Women's paper, which now completes its 7th volume, is from the press. It is of unusual interest, containing an account of the oration given to General D. H. Wells on the 6th inst., with some of the speeches made by the principal characters on that occasion; also the speech of Mrs. Gage at the Washington Convention and other prose matters. A poetical gem, "Three Rain-drops," by "Educa" adorns the first page. While two others, "So Firm" by M. W. W., and "Growing Old Gracefully" (selected) are found within.

Successful Operation.

Mr. Joseph Morris, of the 13th Ward, informs us that his little son, twenty-two months old, who has suffered much with a stone in his bladder, was operated upon for lithotomy about two weeks since. The stone removed was quite a large, rough calculus, measuring nearly two inches in circumference, and was supposed to be a formation of oxalate of lime. The little boy has done remarkably well, being now able to run about as usual, having been unusually free from pain while the wound was healing. The surgical operation was performed by Dr. Anderson, assisted by Drs. Hamilton and Douglas. The patient was under the influence of chloroform.

Home Art.

An oil painting from the brush of our talented artist, Mr. G. M. Oettinger, is displayed in the window of Carey's Music Store. It represents the French heroine, Charlotte Corday, in the attitude of yielding to the scissoring of the guillotine. The features of hair, previous to her execution. There are three characters represented in all. Facial expression is carefully reproduced, as well as the clothing and surroundings. The painting is to be raffled for shortly, 75 chances at \$1 a chance being given, the proceeds to be applied to the Filenem's Mutual Aid Fund.

The Express Robbery.

As expected, Judge McBride occupied the time until the court closed, yesterday afternoon, in his argument to the jury in behalf of the defense. After the opening of the court this morning, Judge Filmore, for the prosecution delivered an eloquent address to the jury, which took up the time till noon. He resumed this afternoon, and after closing his argument, Judge Emerson made a brief charge and the case was then given to the jury. The court room was packed with spectators of both sexes.

Eighteenth Ward Party.

A pleasant and social company attended the Mutual Improvement party in the 18th Ward School-house, last evening. Representatives from the Associations of various Wards were present, and all had an excellent time. The Improvement Society closes for the season in good condition, with prospects for continued success on resuming in the Fall.

Phoenix-Like.

The Taylor Hotel building which was burned so badly a short time ago, is rapidly recovering from its visitation of smoke and ashes. The debris is fast being removed and a new brick front is putting in an appearance, but we do not think that this justifies the water overflow on the sidewalk at that point, from the careless placing of building material to near the culvert.

Will be Rewarded.

Mrs. Amanda Kimball, of the 17th Ward, has lost a dark brindle, line backed cow, with a black head, a brand resembling a wine glass on the ribs, and a double letter brand on the left hip. Whoever will return her to the owner, who is a widow, will be suitably rewarded.

Funeral Services.

The funeral services over the little son of Bro. and Sister Manning will be held in the Eleventh Ward Meeting-house, at 2 p.m. on Sunday, instead of at residence of parents. The deceased died of spinal meningitis.

Novel Lecture.

On Tuesday evening an attractive lecture on "Travels in Europe," illustrated by splendid views, will be given in the Twentieth Ward School-house, by C. H. M. Agamonte. Further particulars on Monday.

Emigration.

The fall emigration will leave Liverpool the first week in September and about the 25th of October. These will be the last for the season.

Personal.

Hon. W. B. Preston is down from Logan.

President George Teasdale, of the Juab Stake, is also in town.

BEAR LAKE STAKE CONFERENCE.

The Quarterly Conference of the Bear Lake Stake was held at Paris, Idaho Territory, on Saturday, Sunday, May 10th and 11th, 1879.

Saturday, 10 a. m.

Present on the stand of the council of the Twelve, C. C. Rich; of the presidency of the Stake, J. H. Hart, George Osmond; Bishop Pugnare and the bishops of the several wards.

After singing and prayer, Pres. Hart called for verbal reports from the bishops of the several wards, which were reported in a satisfactory manner, and showed a good feeling permeating the whole Stake, and the Spirit of God actualizing the brethren and sisters to faithful performance of their duties.

Bro. Aldred, superintendent of Sunday Schools gave a very satisfactory report of the condition of the Sabbath Schools in the various wards.

Sister Linsey tendered a couplet and satisfactory report of the Relief Societies of the Stake showing them to be a prosperous condition.

Bro. H. Woolley, Stake President of the Y. M. M. I. A. presented his report which was full and complete.

Sister Nancy Pugnare represented the Y. M. M. I. A. of the Stake and reported everything in a satisfactory and praiseworthy condition.

Bro. C. C. Rich made a few remarks as to certain irregularities existing in certain wards, that had been brought to his notice, and admonished the bishops to be very diligent in the suppression of any influence that had a tendency to produce evil; he was sorry he could not meet with the Saints in the afternoon, owing to the funeral of Brother Louis Robinson, which he had to attend at Montpelier.

At 2 p. m. the meeting again convened, when President Hart addressed the congregation, dwelling at some length on the duties of the Latter-day Saints in building Temples, and explained the blessings that were to be derived from the performance of the several ordinances and the necessity of the speedy erection of the Temple at Logan. He explained the beauty and grandeur of Solomon's Temple, and at some length on the order

and zeal of this Saints in early days.

he manifested in the building of the Kirtland Temple, and touched on the ordinance of baptism and other ordinances for the dead; he exhorted the Saints to an untiring zeal of the brethren and sisters so far, and urged them to a further exercise of liberality in donating of their means for his rapid completion. He expressed his desire that the Bishops of the several wards be alive to their duties in the matter of sending men to labor on the Temple, and urged, so that no man be compelled to leave until he is relieved by another man, by which means many disastrous occurrences may be obviated and a great assistance rendered Bro. Card and other officers in the operations of their several functions. He dwelt on the business transacted at the conference of the Twelve at Logan, at which a vote was taken to conduct the erection of the Temple so far this fall, that the roof can be put on thereby enabling the workmen to prosecute their labors during the coming winter in the matter of the foundations, tiling, and delinquencies to the F. E. F. Co., the work can and will progress rapidly, and the expectation of the brethren in charge be fully realized. He further explained the duties of the Saints regarding co-operation in manufacturing, and dwelt at some length on the advantages to be derived from using their own produce, showed the importance of co-operation, portraying the folly of exporting good wool, and receiving in return the necessities of life, and again in the form of manufactured clothing, and the necessity of speedily creating a woolen factory; said we are now manufacturing a good article of washboard, which is far superior to the imported kind; we have also an excellent soap maker just arrived from England, who is preparing to engage in the manufacture of all kinds of soap; he asked the brethren and sisters to sustain him, so long as the articles manufactured merit their approval; also to examine the boots and shoes manufactured at our co-operative factory, which would favorably compare with the articles imported as to price and quality.

President Geo. Osmond

endorsed the remarks of President Hart regarding a woolen factory; said we are now manufacturing a good article of washboard, which is far superior to the imported kind; we have also an excellent soap maker just arrived from England, who is preparing to engage in the manufacture of all kinds of soap; he asked the brethren and sisters to sustain him, so long as the articles manufactured merit their approval; also to examine the boots and shoes manufactured at our co-operative factory, which would favorably compare with the articles imported as to price and quality.

President Hart

then read a report of the hands at the Temple mill; expressed his desire that the brethren take into immediate consideration the building of a road to Logan, that easy communication may be had with Cache Valley. Bishop Pugnare said he had just returned from Logan where he was present at the conference, and which time a place such action was taken by the Council of the Twelve, as will be a great support to the people of this Stake and Cache Valley in the speedy erection of the Temple.

Singing, and benediction by Bishop Lee.

Adjourned till 10 a. m. Sunday.

Sunday, 10 a. m.

Present on the stand: Of the Council of the Twelve, C. C. Rich; Counselor D. H. Wells; of the Presidency of the Stake, J. H. Hart, Geo. Osmond, Bishop Pugnare, and the Bishops of the several wards.

After singing and prayer, Apostle C. C. Rich dwelt at some length on the necessity of the saints living strictly honest in their transactions with each other; he said the brethren valued the things of this world too highly, and impressed upon them the necessity of placing a greater value on the things pertaining to everlasting life, and instructing them in the blessings that will necessarily follow the close observance of God's laws.

Notice was given of the conference of the several societies of the sisters on the 17th and 18th of July, 1879.

Adjourned till 2 p. m.

2 p. m.

After singing and prayer the sacrament was administered; after which President Hart read the quarterly report of the Stake, also the quarterly report of the free-will offerings to the Temple at Logan. He then presented the general authorities of the Church, which were sustained by unanimous vote, and the authorities of the Stake, which were also sustained unanimously.

Counselor D. H. Wells said he was happy to see the Saints were increasing in size and lengthening their cords, and that God's kingdom was gaining a foothold in the world. Great events were about to transpire and great commotions were about to take place; ridicule was about to be taken away from us as a people for predicting these things; our revelation had taught them to see, and we were warning ourselves for them and for eternal exaltation. He spoke at some length on the exaltation of those who lived their lives in righteousness, and that the ancient Israelites appreciated the ordinances of the House of God, of which some of us thought so lightly, and the necessity of keeping our covenants inviolate, that we may reap a full and complete salvation.

Robert Calder was ordained and set apart as Bishop of Garden City, Utah, by the hands of Apostle C. C. Rich, Counselor D. H. Wells and President Hart and Osmond.
