

GEN. S. M. BELL'S VERY QUEER TALK.

It All Tends to a Justification of
What is Commonly Known
As Lynch Law.

IDEAS OF FUNDAMENTAL LAW.

Lots of Nonsense About "Unwritten
Power to Impose the Lighter Sen-
tence of Enforced Departure."

Chippie Creek, Colo., June 14.—Adj. Gen. Sherman M. Bell, in command of the military here, has issued a statement concerning the deportation of union miners and others from the Cripple Creek district. The statement was prepared at the request of an eastern newspaper for an opinion as to why the deportations do not conflict with the provisions of the Constitution of the United States against depriving any person of life, liberty or property without due process of law. It reads in part as follows:

"The powers of the military in dealing with an organization engaged in insurrection against the lawful authorities of the state in a criminal conspiracy against the lives of its citizens, has recently been defined by the honorable supreme court of this state in re. Moyer, to which I refer you for my authority. I am taking only such steps as are necessary to restore peace in this community and to render safe the lives of its citizens. Many innocent lives have already been sacrificed and the authorities of Colorado apprehend that these assassinations shall cease.

"In order and more settled communities the elimination of those who are not desirable citizens may be a slow process. The people of Colorado love order and peace and law, just as much as those of the older communities, but they sometimes make their elimination of citizens in a hurry, and the murder, unspeakable outrage at the Independence station a week ago, coming as a culmination of many hidden

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains, and general weakness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully, according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, Mrs. MAY FAIRBANKS, 210 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried travelling saleswomen in the West.)—55000 full of other letters proving genuineness cannot be printed.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

crimes, all traceable to the Western Federation of Miners, precipitated such an elimination.

"It is not uncommon over here for the peaceable citizens to go to a man of the community and tell him to go, that he is not wanted. Such a notice is never disregarded. The one notified goes for the good of the community; if there is no other law for it, there is at least the fundamental one that gives the people the power to hang one man, send another to that penitentiary, fine a lesser culprit, and the unwritten power to impose the lighter sentence of enforced departure to other fields for those who, having transgressed the written law, are a disturbing element in the general peace.

"These men were deported to the Kansas-Colorado line and more will follow tomorrow, for which no apologies are made to any one. Should they return they will be immediately placed in the military prison and there remain indefinitely."

TRADE UNIONISM.

It Receives an Almost Crushing Blow in Rochester.

Rochester, N. Y., June 13.—What is regarded as the most crushing blow trade unionism has received in Rochester is the refusal of B. Rothchild & Co. to renew their agreement with the United Garment Workers of America. This action leaves the organization without a single factory of importance in this city. The eight-hour working day is now a thing of the past at the great clothing houses here gone back to the nine-hour system. The employees of the Rothchild factory have decided to remain loyal to the union. At a mass meeting held today President Chambers of local 135 and other leaders of the United Garment Workers of America were present and used all their powers of persuasion without avail to induce the Rothchild factory operatives to oppose the wishes of their employers. The men voted unanimously in favor of remaining at work even with the extra hour. As a final alternative, Mr. Chambers and the other labor leaders told the men that they must choose between remaining in Mr. Rothchild's employ or expulsion from the union.

C. G. KENNISON ARRESTED.

Charged With Murder for Participation in Dynamite Outrage.

Denver, June 13.—C. G. Kennison, president miners' union No. 40 of Cripple Creek, was arrested this afternoon by City Marshal Moore of Goldfield as he was going to the headquarters of the United Miners in this city. The charge against him is murder for alleged participation in the blowing up of the Independence depot with dynamite.

Kennison did not resist arrest, but after his arrest he got into an altercation with Moore, and the marshal struck his prisoner on the head with a gun, making a scalp wound.

Kennison declared that he knew nothing of the explosion and sent for William D. Haywood, secretary of the Western Federation of Miners. An attempt will be made to secure a writ of habeas corpus for Kennison and prevent his removal to the jurisdiction of Adj. Gen. Bell.

The sheriff's office here has a number of warrants for other men who are wanted at Cripple Creek.

COASTWISE TRADE.

That in Philippines Comes Up in House of Lords.

London, June 12.—Lord Muskerry, Conservative, in the house of lords tonight questioned the government concerning the coastwise trade to vessels of their own nationality, and especially to the proposed application to the Philippine islands of the coastwise laws of the United States. Foreign Secy. Lansdowne replied. He said the proposed restrictions on the Philippines seemed inconsistent with certain declarations of the United States government at the time of the drawing up of the treaty of peace. The British representative at Washington, the secretary added, has been requested to call the attention of the United States government to the matter and point out the detrimental effect of the restriction on British trade. The discussion was still proceeding at Washington and it would not be in the public interest to enter into details regarding the exchange of views. The law did not take effect until 1906. Therefore, there was plenty of time to consider the matter, which deserved and would receive the attention of his majesty's government. The colonial governments, Lord Lans-

downe also said, differed widely in their attitude on this subject. Some of them were entirely opposed to the exclusion of foreign vessels from coastwise trade, while others had announced their intention of excluding them. No doubt the present system was a disadvantage to Great Britain, but they must be careful not to exaggerate the extent of the grievances. If Great Britain excluded foreign vessels she would be liable to reprisals on the part of those countries now admitting British vessels. At any rate, the whole question was ultimately connected with the fiscal problem, which the government could not deal with fragmentarily.

MINE EXPLODED.

Killed One Officer and Eighteen Men.

Tokio, June 14, 4 p. m.—While the Taihoku was engaged in laying mines at the entrance to Port Arthur last night a mine exploded, killing one officer and 18 men. The Taihoku, which is a naval transport, was not seriously damaged.

Shot by Her Brother.

New York, June 14.—Miss Annie, daughter of Robert Teddman, a wealthy insurance broker, who came here two years ago from Denver, Colo., has received a bullet wound at the hands of her 16-year-old brother, which probably will prove fatal. The shooting, which was accidental, occurred at the Teddman home in Ridgewood, N. J. Miss Teddman, who is 25 years old, was sitting in the library watching the lad playing with an old revolver which was supposed not to be loaded. He pointed the weapon at her and pulled the trigger. A shell exploded and the young woman fell, badly wounded through the body.

Detectives Vindicated.

New York, June 14.—Subpoena served from the district attorney's office, who attracted much attention laying siege to the Nielson residence in Fifth avenue from Friday night until Sunday in the hope of serving papers on Reginald Vanderbilt, has been sought for for several months ordering him to appear as a witness in the Richard Canfield case, have been vindicated, according to the Herald.

It was learned that Mr. Vanderbilt did not hoodwink the detectives because he was not in the city, much less within the home of his mother-in-law.

Returning from the Philadelphia horse show he is understood to have been met at Jersey City by a tug which carried him around Manhattan to Greenwich, Conn., where he took a train for Boston.

Injurious Adulterants in Cake.

New York, June 14.—Adulterants highly injurious to the health have been found in innocent looking cakes, cheap caramels and other sweetstuffs sold freely to children here, and a report has been made to the attorney-general of the state by chemists working under the direction of the state department of agriculture.

In one instance 11 grains of paraffine were found in four small chocolate covered cakes. The chemists declare that paraffine retards the action of strong acids and is highly injurious to the digestive organs.

Evidently it is now used by these bakers and candy manufacturers to keep their product from becoming stale. Other samples of candies disclosed aniline dyes and lead poisons. In one coloring matter was not confined to cheap candies but was found in some of the most expensive varieties that are made.

Refused Emperor's Decoration.

Seoul, Korea, June 14.—Signor A. Monaco, the Italian minister to Korea, has refused the decoration granted by the emperor at the time he decorated the other members of the foreign diplomatic corps. His refusal is based upon the fact that while the other ministers received decorations of the first class he belonged to an order of the second class.

Dr. Geo. G. Rambaud Shot.

New York, June 14.—Dr. George G. Rambaud, who is at the head of a Pasteur institute in this city, is reported to have been seriously wounded by the accidental discharge of his shotgun in a boat on Saranac lake, N. Y. One of his legs is said to have been badly shattered. The doctor's wife, who was Miss Lulu Brown of Houston, Tex., seized the oars

and managed to haul a steam launch, by which the wounded man was speedily carried ashore for medical treatment.

SCANDINAVIAN REUNION.

Saints of Bannock Stake Have a Joyous Time in Gentile Valley.

Under the presidency of Elder James Larson, who presides over the Scandinavian meetings in Bannock stake, a Scandinavian conference, to which all the leading men of Bannock stake had been invited, was held Friday last in the Central building, recently erected in Gentile valley, Ida.

There were about 300 persons present and two very interesting meetings were held, after which all enjoyed a sumptuous feast and a dancing party in the evening. Among those present were Elder Andrew Jensen from Salt Lake, and Elder Jappa J. Polkman, one of the early missionaries to Scandinavia; also the presidency of Bannock stake. Addresses formed an interesting part of the program and the reports given showed conditions among the people of that valley to be eminently satisfactory. The stake is growing and now has 11 fully organized wards, where a few years ago a few straggling settlers located on the mountain slopes. The people generally are prosperous and have just completed the erection of the Central building, a two-story rock and brick structure built by the four wards of the valley, viz. Moand Valley, Trout Creek, Thatcher and Cleveland, at a cost of \$8,000. It is one of the finest buildings in the stake and occupies a commanding site on the east bank of Bear river, in the center of Gentile valley.

Saved From Terrible Death.

The family of Mrs. M. L. Bobbitt of Bargeton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. Its most certain cure in the world for all throat and lung troubles. Buy a bottle for \$5 and \$1.00. Trial Bottles Free at Z. C. M. I. Drug Store.

HEARING CONTINUED.

Case Against Continental Insurance Co. to Come Up Tomorrow.

(Special to the "News")

Bufile, Mont. June 14.—In the supreme court at Helena the hearing on the motion to show cause why the alternative writ of mandate issued last week to compel State Auditor to revoke the license of the Continental Insurance & Investment company of Salt Lake should not be made effective, was continued until Wednesday of this week. The counsel for the defendant company filed a motion to quash the alternative writ of mandate issued last week.

Smoking in a Powder Magazine.

It is courted death more suddenly but not more surely neglecting kidney disorders. Foley's Kidney Cure will cure a slight disorder in a few days and its continued use will cure the most obstinate cases. It has cured many people of Bright's disease and diabetes who were thought to be incurable. If you have kidney or bladder trouble, commence taking Foley's Kidney Cure today, before it is too late. F. J. Hill Drug Co.

MINERS CELEBRATED.

Outing at Lagoon Was Essentially a Thoroughly Successful Event.

The miners outing at Lagoon yesterday passed into history as a thoroughly successful event. Hourly trains carried great throngs to the popular resort and a more cheerful pleasure-seeking crowd never got together. There were no mishaps. The little folks found plenty to do around the miniature railroad and merry-go-round while their elders boated, bowed, patronized the shooting gallery and buffet, and danced to their hearts' contentment.

The big feature of the day was the ball game between the Park City nine and the Blue Rocks of Eureka. The
