CITY, Jan. 28, 1875.

Dr. C. W. Higgins:

Dear Sir—Permit me to add my testimonial to the many others that have been published, all testifying to your skill. I have suffered five years with a bad cough, and my friends began to think I had the consumption. In vain I tried every remedy, until father prevailed on me to try your Cough Drops and other remedies, and I am now happy. I am well, having taken your medicines only four weeks. Your friend,
GEORGE WILDING.

A surgeon who lodges over a butcher shop in Pasta, feels much aggrieved at the "Killing" taken place daily in this establishment. The doctor considers that the professional skill is impugned by the noise, and results it sufficiently to go to live about it.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route—

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

SUPERIOR WINES AND LIQUORS.

California pure wines, and especially a most excellent brandy, can be found at H. Sangro's Old City Liquor Store. My friends and the public in general are invited to pay him a visit to find out the truth of my statement.

CHAMBER'S ENCYCLOPEDIA.

Messrs. J. B. Lippincott & Co., of Philadelphia, announce that, by a recent purchase, they have become the sole proprietors of the American Revised Edition of "Chamber's Encyclopedia," and are thereby enabled to offer the work at much lower rates than hitherto. In the course of its recent thorough revision, the American edition was edited with the special view of supplying the wants of American readers. It also possesses a special attraction in containing a series of over seventy-five full-page engravings not contained in any other edition.

"No madman," said an affable Chicago landlord, who was showing a possible tenant over his house on Hoxey street, "I can not say that as yet the street is drained. But, then, do not expect for a moment upon the advantages the situation offers. Four children can skate all day long on the gutter; it is as convenient as a skating rink; doesn't cost a penny, and there they are under your eye all the time."

OUR CLAIMS.—We claim that there is greater certainty and uniformity in the production of good bread, biscuits, &c., in the use of Dr. Price's Cream Baking Powder, and that the articles made with it are more wholesome and digestible than if made with any other kind. That it is one-third stronger, which may be proved by the only reliable and truthful test, a trial by the oven. We claim for it, as also for Dr. Price's favoring Extracts, that they are just as represented, and just what the public expect, and that they are sold under the name under which they are sold. Steel & Price, manufacturers.

CRUPP DISARMED OF ITS TERRORS.—The cruppy cough—so alarming to the ear and so dangerous to life—in which the children

are subject, may be immediately relieved by administering a dose of **HALE'S HONEY OF HOREHOUND AND TAR.** When given to a child who seems to be choking under the effects of a spasmodic and husky cough, the effect is electrical, as many a mother will testify. In fact there is no affection of the throat or the lungs, short of the actual disorganization of the tissues and membranes, which it will not cure.

HALE'S TOOTH-ACHE DROPS.—Cure in one minute.

PURE OLIVE OIL.—Constantly on hand the genuine article directly imported from France, for sale by Louis A. Bertrand, at his residence, half a block west from the Valley House and three doors from the Utah Hotel, and by Mr. Riser, watchmaker, opposite the Herald Office; price from fifty cents to two dollars, according to the size of the bottles.

As a Frenchman, I do testify that my olive oil is the very best in the market. d5

Poisoned to Death.

A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which therefore remains to poison the blood and is conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc., but these organs become overtaxed in performing this labor, in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.

The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart, and it suffers from its office heavily. Hence the symptoms of bile poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizziness, sleep, or nervous feelings, gloomy forebodings and irritability of temper. The blood itself being diseased, as it forms the sweat upon the surface of the skin, is so irritating and poisonous that it produces discolored brown spots, pimples, blotches and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels, and other organs spoken of, cannot escape becoming affected, sooner or later, and constipation, piles, dropsy, dyspepsia, diarrhoea, female weakness, and many other forms of chronic disease, are among the necessary results. As a remedy for all these manifestations of disease, Dr. Pierce's Golden Medical Discovery with small daily doses of his Pleasant Purgative Pellets are positively unequalled. By them the liver and stomach are changed to an active and healthy state, the appetite regulated and restored, the blood and system thoroughly purified and enriched, and the whole system renovated and built anew. Sold by all first-class druggists and dealers in medicine.

THE EVENING NEWS.

Tuesday, Feb. 2, 1875.

Local and Other Matters.

THERMOMETER 82 degrees F in the shade at 1 p.m. to-day. Some clouds, breezy.

Adjourned.—Last evening the January term of the Supreme Court adjourned sine die.

Four not Forty.—In the report of the criminal statistics of the Police Court for January month, it should have read that four cases were sent to the District Court on jurisdictional questions, not forty, as the types made it appear.

Departed in Death.—We regret to learn that a daughter of police officer John V. Smith and Sister Frances Smith, named Elizabeth, died, at the residence of her parents, 3rd Ward, at 1 o'clock this morning, of dropsy. Deceased was a promising young lady, in her nineteenth year.

More Tanks.—Another tank for fire purposes was completed to-day, by the street supervisor, at the Barlow corner, one block south of the railroad depot. It is copiously supplied with the aqueous fluid from a large spring, which gushes forth in the vicinity.

The finishing touches were also put upon another, a few days ago, in the 7th Ward.

Changeable.—Yesterday and in the early evening the weather was mild, genial and spring-like, but later last night the air was keen and biting, with a blustering wind from northward, with snow. The light frozen particles which filled the air were blown and drifted about. One of the most disagreeable nights of the season.

Examination.—Yesterday afternoon Matthew and James Orr, of Grantsville, had an examination before U. S. Commissioner Tophy, on a charge of killing one Joseph McMurray in the Fall of 1874. U.

S. District attorney Carey prosecuted and Judge Thiford defended. Lorenzo Mosher, of Mr. and Mrs. H. J. Faust were examined as witnesses on the part of the prosecution, and no witnesses were introduced by the defense. The evidence showed that the shooting was the result of a drunken row, and there being no testimony to show that Matthew Orr had anything to do with the killing, a motion for his discharge by his counsel was not opposed by the public prosecutor and was sustained by the Commissioner, who dismissed him, and held the other, James Orr, in \$2,500 bonds to appear to answer in the District Court, to any charge that might be preferred against him by the grand jury.

Theatre.—Last evening there was another beautiful presentation of the charming comedy of "An Unequal Match," in which Miss Rogers and the company did as excellently as ever.

This evening will be presented the exquisite comedy of "Masks and Faces; or, Before and Behind the Curtain," with Miss Rogers in the attractive character of "Peg Woffington," Miss Walters as "Mabel Vane," Miss Cogswell as "Kitty Clive," Mrs. Douglas as "Mrs. Triplet," Mr. Lindsay as "Triplet," Mr. Forster as "Sir Charles Pomander," Mr. Maiden as "Ernest Vane," Mr. Graham as "Colley Clobber," Mr. Bowring as "Quin," Mr. Wilton as "Saarl," Mr. Wilson as "Seaper."

The performance will conclude with the farce of "French Spoken Here," in which Messrs. Groom, Marden, and Wilson, Misses Cogswell and D. Clawson, and others of the company will appear.

During the evening the orchestra will perform R. Piefke's "Strand-blumen Waltzes," also "The Reunion Polka," by G. Michaels.

Incorrect.—In giving a statement in the local columns, yesterday, of the difficulty between one Showell and one Grimes, it was stated that the former was fined \$10, which was a mistake, it being Grimes who was fined that amount, no charge having been preferred against Showell.

Sixth Quorum.—We are requested to announce that there will be a meeting of the members of the Sixth Quorum of Seventies, at 6 o'clock on Sunday evening, at the house of Elder John B. Kelly, 7th Ward.

Select Party.—We have received an invitation to attend a select social party to be given in the 17th Ward school house, on Wednesday evening, Feb. 3rd. Messrs. H. D. Folsom and George E. Wallace are the committee of arrangements.

District Court.—This morning after the disposal of some *ex parte* business, the court took a recess till 2 o'clock, when the argument in the plea in abatement in the Rick's murder case was to be commenced.

Encouraging from St. George.—Brother Edward Brain writes thus from St. George, under date of Jan. 30th, to a friend in this City—

"We had several Spring storms last and this week which have made our fillers of the soil rejoice. A great deal of wheat has been sown, and, as yet, everything looks promising."

President Young addressed the congregation last Sunday, the topic of his discourse was the completion of the temple. He encouraged the brethren from the north to stay in the temple, as they are up high enough to receive the roof. He also spoke on the "United Order," showing that this was the last dispensation, and the last time that the Lord would establish this Order on the earth, and it would not prove a failure, only by the perversion of man.

Brother Joseph Scofield, with his corps of hands, is busily engaged in placing the large beams and joists of the first floor, and it looks as if he will overtake the masons in their work. His work has been somewhat hindered, in consequence of not getting those large beams, 40 feet long, 2 feet wide and 8 inches thick, but they are all saved and placed in the building.

Under the superintendence of Brother Edward L. Barry, the work on the temple moves onward, and if every person here will do his duty, and the weather proves favorable, we will have the walls up by April 1st, and go up into the last story, I may say about 12 ft., and ready to turn some of the angles over the windows. About 15 ft. has yet to be built. Brother Barry has men cutting flagging for the basement of the temple, and to lay the foot on, out from our hard black rock. The lumber comes in freely from Mount Tremblant. Trains of horses and mules from Beaver and other places, and one large ox team from Sanpete, under the direction of wagon masters Bennett and Harvey, and others, bring lumber this way.

President G. A. Smith has given very interesting lectures on history, referring to his travels in Rome, Italy and other countries, and has invited other brethren to continue the lectures every Thursday evening.

The few in the Hudson river, between Troy and Albany, is thicker than it has been for fifteen years.

ing during the winter season. The young people enjoy themselves in the dance once or often in the week, not forgetting their daily vocations on the temple.

The musical band is undergoing a finishing touch, such as plastering, heavy cornice, mouldings, etc., and will be ready to play at the new Mormon temple, that is—"Mind your own business."

In addition to the foregoing, a special dispatch from St. George, dated to-day, states that the first arch of the windows in the upper story was turned yesterday, the timbers of the first floor were all in and the joists laid. The weather was favorable and the workmen spirited.

Governor Axtell—S. B. Axtell, Governor of Utah, was expected to arrive last evening, and Mayor Wells, Hon. Willom H. Hooper and William Jennings, Messrs. John Sharp, A. M. Musser and John R. Winder went up on the Utah Central line for the purpose of meeting the Excellency and escorting him to this city. On arriving at Kayville the party learned that the U. F. train was four hours behind time and that the Governor would therefore not reach Salt Lake till this morning, and they consequently returned.

At 8:30 this morning the same party, with one or two exceptions, left, in a special car, for the same purpose, and met the train on which Governor Axtell was traveling at Farmington, where he was conducted on board the special car. Captain Hooper and the Governor being old acquaintances, their meeting this morning was of a most cordial character. On arriving in the City, he went to the Townsend House, where he has engaged rooms.

Choir Meeting.—The members of the Tabernacle Choir are requested by their conductor to meet in the upper room of the Council House to-morrow evening at 7 o'clock.

An invitation is also extended to parties possessing good voices and a taste for music, who may wish to join the choir, to attend the meeting to-morrow evening.

Our Country Contemporaries.

Ogden Junction, Feb. 1—

The U. F. train was six hours behind time. It will be four hours behind to-night. The C. P. will wait for it.

On Saturday evening, Mrs. Mary S. Garner, mother of Mr. W. R. R. Stowell, residing on the Bench, slipped down on the ice and dislocated both of her wrists, also fracturing the large bone of the right arm about an inch and a half above the wrist. The old lady is seventy-seven years of age, and it is feared that the shock to her system may prove fatal.

Dr. P. L. Anderson waited upon her last evening. She stood the operation with great fortitude, and the Doctor is in hopes that with great care she will recover.

"W." writes as follows, under date of Jan. 27, from Franklin, Omaha Co., L. T.—

"A few items of peculiar magnitude and importance have transpired in this place, which show the liberal principles of the so-called 'Liberal party,' who by fraud obtained the offices of the county. The sheriff, Mr. Keeney, came to this place in order to give our citizens who have failed to pay their Territorial and County taxes for the year 1874. Up to this date the people have been notified by postal cards of the necessity of settling up their taxes, thereby causing no necessity of going to law; the additional part added being sufficient for the officers. But imagine the surprise of these poor men when they found that the sheriff had writs for them. One who owed \$4 15, when mileage was added, found his bill was \$40; another, whose taxes were \$12 when mileage was added, had a bill of \$60. A third, whose taxes were \$21, with mileage added, his bill came to \$67, and so on in each case; there is an additional expense of fifty cents per mile added."

"The writs were issued from Deep Creek precinct, Malad, and each of those who cannot get the means are to go there for trial on the 25th inst., where judgment will be rendered, and another trip with writs of attachment, and mileage to the same officer added. Thus the unfortunate parties who failed to know the value, while some have mortgaged what they have in the shape of wagons, teams, etc."

"The plea for legality is that each suit is a separate one, and could be made by any citizen in the same place he would be able to buy out the county in a short time, especially an expert like Mr. Keeney, could secure the writs and return with two thousand dollars in three days. So much for the officers who were going to break off the yoke of Priesthood and liberate the poor 'Mormons' of Omaha county."

"I notice Mr. A. Stalker riding through the streets to-day, he has just returned from Rome, Italy. He has been one of interest to the illiberal party, having effected the division of Omaha County according to the geographical position of the inhabitants who were a small minority. But to secure his election in connection with the rest of the clique, obtained over three hundred fraudulent votes, giving him twenty-eight majority as councilman instead of Mr. L. H. Hatch. But how was the county divided? In a manner that was a gross fraud, and the people are indignant. The same man who tried two years ago, but was defeated by Mr. L. H. Hatch, then our worthy representative."

"This was another of their plans to break off the yoke of the priesthood. Let them drive ahead, for they will surely run against a snag, and show to all reasonable men and the world, their folly in trying to overthrow the 'Mormons' and their leaders."

The few in the Hudson river, between Troy and Albany, is thicker than it has been for fifteen years.

The Marquis of Ripon, previous to his conversion to Roman Catholicism, had begun the building of a large church for the Church of England in the City of London, and had presented it to the communion he first intended it for.
