

BEAR RIVER VALLEY.

Interesting Article to Eastern Paper Written From Sandy.

BY ONE WHO LIVED THERE.

Good Markets and Plenty of Water in the Land of Sugar Beets, Potatoes, Alfalfa, Etc.

An article of considerable interest, on Bear River valley, appeared in the Dallas Post, published at Dallas, Pennsylvania, on Feb. 10, 1906. The article was written from Sandy, Utah, by a correspondent of the Post, and follows in full:

"Good markets and plenty of water; the valley of sugar beets, potatoes, alfalfa, wheat, oats, barley, cherries, berries, apples, grapes, peaches, pears, plums, prunes and prosperity."

"Everything that goes to make happiness and wealth is the product of the land and labor, and where the land is easily cultivated and very productive the quicker will happiness and wealth be obtained. See what Bear River valley has done."

In the year 1900 Mr. James Carter from Owatonna, Minn., bought 300 acres of Bear River valley land at \$40 per acre. This land has paid for every improvement that has been made on it, and today Mr. Carter could get \$150 per acre for his land. Not only has Mr. Carter made \$30,000 on his investment, but he has regained his health, as he came to Bear River an invalid."

The Yakima valley, Washington, also Cheelan and Lewistown counties in the same state, compare favorably with Bear River valley, Utah, yet these Washington lands range from \$500 to \$500 per acre, while Bear River valley lands sell from \$75 to \$250 per acre according to the lay of the land, its drainage, the most important item in an irrigated country) and its age, good land here, as in all other places, is constantly advancing in price."

Mr. Geo. Hickock added 40 more acres to his 80. AS TO THE "MORMONS."

These men (Cole, the Ferrys, Hickock and Cropley), are all Methodists and will tell any one wishing to know, what they think of the Mormons and their neighbors, business men, and citizens. Address Corinne, Utah."

They all sold their Waukegan, Ill. farm, John Alexander Dowie, upon which that famous leader built a part of his much advertised "Zion."

Two years ago (1903) the Utah Sugar Co., the richest concern in the state, built a sugar factory, costing over one million dollars, in the northern end of the valley, but to their great surprise they find the average yield of beets so great that they had to stop contracting for beet lands early in April of last year, and this year they are going to increase their capacity over two and one-half times."

You will notice by the map I send that Bear River valley is 27 miles long with an average width of less than 10 miles, and that two railroads traverse its entire length. To insure short hauls to market, the Malad branch of the Oregon Short Line has placed sidings and dumps every two miles. This is one of the examples of how Utah, from the first, has bent her energies to favor the farmers, and the unprecedented development and prosperity of the state has shown the wisdom of her course."

Mr. Moroni Mortensen, in Bear River valley, has a seven-acre apple orchard (trees six to ten years old). He sold from this orchard 700 boxes first class apples, and 600 boxes second class. These apples netted him on the ground, after paying for the boxes, the first class 90 cents a box, the second 80 cents a box, or \$300 net from a young seven-acre orchard. His peaches, pears, plums, and cherries did equally well. It. Hanson, who owns a 15-acre orchard, received as much per acre for his orchard as Mr. Mortensen."

Tom Lynch, who came to Bear River valley from Peoria, Ill., harvested in 1904, 1,000 bushels of breeding barley and 1,235 bushels of oats from 26 acres. This same land yielded in 1903 116 bushels of oats to the acre of the entire 26 acres. But enough now. More next week. — Alice F. Bishop.

How to Exercise the Bowels

Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.

This Poison makes a Gas that injures your system more than the food should have nourished it.

You see, the food is Nourishment or Poison, just according to how long it stays in transit.

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely makes slippery the passage for unloading the current cargo. It does not help the Cause of delay a trifle.

It does slacken the Bowel-Muscles more than ever, and thus weakens them for their next task.

Another remedy is to take a strong Cathartic, like Salts, Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed.

What does the Cathartic do? It merely flushes out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it.

That's why Cascarets are the only safe medicine for the bowels.

The gold in the wheat becomes better than gold when it becomes

HUSLER'S FLOUR

Good Markets and Plenty of Water in the Land of Sugar Beets, Potatoes, Alfalfa, Etc.

CROP FAILURES UNKNOWN. There never has been a crop failure in Utah. The high mountains that surround Bear River valley afford a protection against any cold or hot winds. Sudden or extreme changes in the temperature are rare. Blizzards, tornadoes, and cyclones are unknown. Potato bugs, army worm and cut worm are also unknown. The millions of sea gulls from the Great Salt Lake are the scavengers that rid our farms of these insect pests. The elevation of Bear River valley (4,210 feet) is one of the reasons why hog or chicken cholera never made its appearance. There are no rats in Bear River valley.

On June 20, 1897, S. N. Cole, John Ferry, James Ferry and Geo. Hickock of Waukegan, Ill., started westward, looking for farms. Mr. Cole and Mr. Ferry, just previous to this time, had been through Iowa, Missouri, Kansas, Indian Territory and Texas, looking for farms. On the 24th of June they arrived in Bear River valley, and after spending a few days there, Mr. Cole and Mr. John Ferry each selected 160 acres and Mr. Hickock 80 acres. On their return they looked at irrigated land in Colorado and Nebraska. A little later Mr. John Ferry took a trip through Idaho, Oregon, Washington and British Columbia, and after all their search and careful investigation they decided that Bear River valley presented more and better opportunities than any place they had seen. They moved there with their families. Mr. Cole bought 80 acres more land. Mr. John Ferry has given up the future of Bear River valley. After purchasing the first 160 acres, Mr. Ferry added 10 acres more, then 70, then 80, then 160, then 80, then 80 acres.

Mr. Geo. Hickock added 40 more acres to his 80. AS TO THE "MORMONS."

These men (Cole, the Ferrys, Hickock and Cropley), are all Methodists and will tell any one wishing to know, what they think of the Mormons and their neighbors, business men, and citizens. Address Corinne, Utah."

GARFIELD MAKES STRONG DENIAL.

Never Said His Department Had Power to Compel Information.

HE PROMISED NO IMMUNITY.

Only Protection Guaranteed Packers Was for Their Confidential Figures.

Chicago, Feb. 20.—Commissioner Corporations Garfield took the stand today in the packers' case and denied many of the statements made by the witnesses for the packers during the hearing of the case now in progress. Edward Morris, Edward Swift and Arthur Meeker, representatives respectively of the packing firms of Nelson, Morris & Co., Swift & Co., and Armour & Co., all testified that Commissioner Garfield had told them that his department had the power to compel information, but that you would let them know about an oath."

"I did not," "Did you say that all information would be strictly confidential?" "No, I did not." "What did you do with the confidential information you secured?" "It was made into averages and given to the president."

The witness added that no confidential information other than that averaged and contained in his official report had been given to the president. "Did you say anything to Mr. Krauthoff about an oath?" asked District Attorney Morrison. "Did you say that you would let them know about an oath?" "I did not."

The witness then told of meeting Edward Morris, Edward Swift and Jesse P. Lyman, and declared that his interviews with them were similar to the one had with Mr. Krauthoff. "How did you happen to come to Chicago Feb. 23?" asked the district attorney.

"I came here so that the packers might see that I had used in my report the figures taken from their books in line with our agreement. I wanted them to see that I did not use the individual figures on the confidential material."

"The witness then said that he had submitted his report to the packers and that they all agreed that he had made a proper use of the confidential information given to him."

"Nothing, except in so far as that they were to have protection relative to the confidential figures."

"Did you say to Edward Morris that you had the power to compel information, but that you would let them know about an oath?" "I did not."

"Was anything said about the packers having protection?" "Nothing, except in so far as that they were to have protection relative to the confidential figures."

The witness was then taken over his conversation with Meeker, general superintendent of Armour & Co. Mr. Meeker testified that the commissioner had said to him that the bureau of corporations had ample power to compel information, but Commissioner Garfield was on the stand until adjournment of court and will testify again tomorrow.

HELD BY BANDITS. El Paso, Texas, Feb. 20.—The bandits who kidnaped Col. Robert Hannigan, the Denning, (N. M.) ranchman from a stage near Silver City, N. M., are alleged to have collected \$2,000 ransom money to date. (\$1,000 from the colonel and \$1,000 from his son.) yet they still hold him. Officers fear to attack them in their retirement in the Mogollon mountains, lest they kill the prisoner.

McLELLAN STATUE FOR PHILADELPHIA. The equestrian statue of General George B. McClellan herewith shown is to be given a place in Fairmount park, Philadelphia. It was modeled in Paris by Paul W. Bartlett, a noted American sculptor, and is now being cast in bronze. The statue is sixteen feet in height, and it will weigh about 10,000 pounds. It consists of a remarkably lifelike figure of the general sitting upright on a horse. The left hand holds a drawn sword.

formed by the witness that it would be given to the president. Mr. Krauthoff asked what the president would do with it, and Commissioner Garfield declared that he could not answer that question, but added: "I told him that, of course, the president would not make any improper use of it."

"Did you say that the packers would be protected if they gave the information?" "I did not."

"Did you say that all information would be strictly confidential?" "No, I did not."

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, many fatal results are sure to follow.

Your other organs may need attention but your kidneys most, because they do most and should have attention first. If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root will set your whole system right, and the best proof of this is a trial.

Dear Sir: 55 Cottage St., Melrose, Mass. "Ever since I was in the Army, I had more or less kidney trouble, and within the past year it became so severe and complicated that I suffered everything and was much alarmed. My strength and power was fast leaving me. I saw an advertisement of Swamp-Root and wrote asking for advice. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time. I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of my water today and he pronounced it all right and in splendid condition."

I know that your Swamp-Root is purely vegetable and does not contain any harmful drugs. Thanking you for my complete recovery, and its wonderful Swamp-Root to all sufferers, I am, "Very truly yours," "J. C. RICHARDSON."

SPECIAL NOTE.—In order to prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonials received from men and women cured. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the Salt Lake City Daily Deseret News. The genuineness of this offer is guaranteed.
