MAYOR MAKES APPOINTMENTS.

To Fill City Offices and Council Confirms Same—Special Auditors Appointed.

MAY IMPANEL GRAND JURY.

To Investigate Charges Made by Atty. Sken Against City Councilmen—Big Legal Battle Promised.

Ogden, Utah, Jan. 30.—Mayor E. M. Conroy just evening submitted the following appointments to the Ogden city council, who confirmed the same:

Chief of Police—Thomas E. Brown. Street Supervisor—W. G. Wright. City Physician—A. S. Condon. City Engineer—A. F. Parker. Poll Tax Collector—Fred Naisbitt. Chief of Fire Department—T. J. Paine.

Sanitary Inspector—Albert Power. Sexton—R. D. Brown. Coal Oil Inspector—H. M. Bond. Cremator—Richard Douglass. Pound Keeper—C. W. Westmark. Dog Tax Collector—George Johnson.

The mayor and council caucused for nearly two hours in the mayor's office previous to the convening of the council and agreed on the appointments as submitted, and which the mayor did not get some of the appointments he desired, he felt satisfied as did a majority of the council.

After the reading of the mayor's communication making the appointments Councilman Moyes moved that they vote on each name separately. His motion was seconded, but as an amendment Mr. Emmett moved that the names be voted on collectively. Mayor Conroy was given the floor, and said that he understood that the council in secret session had agreed to vote on the appointments as a whole and that he would withdraw all of the names unless the councilmen would keep their word.

Mr. Chambers felt that the council was bound to vote on each appointee separately. The president put the amendment to a vote and it was lost and then the original motion and it was lost. After a short discussion it was moved that the council reconsider its action which motion carried.

Mr. Moyes stated that he believed that under the statutes of 1898, section 15, the council had not the right to confirm other appointments as only in December last the previous mayor had submitted a list of appointments which the council had confirmed and as he understood the law, the appointees would hold their offices until the municipal election next following their appointment.

PAISLEY'S PAL NOW IN CUSTODY

J. G. Gladney, Wanted for Butte Robbery, Arrested in Junction City.

ACCOMPANIED BY A WOMAN.

Sheriff Quinn Arrives and Takes the Prisoners to Butte—Large Reward Offered.

Ogden, Jan. 30.—In the arrest of J. G. Gladney and a woman traveling with him as Nora Gladney, a very clever capture for the Butte officials has been made. The arrest was effected by Capt. Brown and Sergt. Tout of the Ogden police force and Officer J. H. Taylor of Salt Lake. The man is wanted in Butte for robbery, and was taken in charge at the union depot at 1:35 Monday morning.

According to the theory of the officers the arrest of Gladney brings into custody the second principal in the robbery of the Hennessey Mercantile store in Butte, Jan. 9, when the manager was held up and at the point of a revolver, forced to deliver up \$3,000 in gold and currency out of the safe.

William Paisley was arrested in an east second South street roominghouse in Salt Lake on the morning of Jan. 20, and was held as one of the principals in the robbery at Butte. Later he talked of contesting extradition, but abandoned it and was landed in the Silver Bow county jail.

Gladney was arrested by the officers upon a telegraphic warrant sent by the county attorney of Silver Bow county, Mont., and in the telegraphic correspondence, it was arranged that extradition papers would be provided, if necessary. At the time of his arrest, Gladney was wearing a diamond stud in his shirt, worth probably \$200, but the money found on him amounted to only \$80.

SHERIFF QUINN ARRIVES. Sheriff Quinn and Chief Deputy McGarvey arrived in Ogden this morning from Butte and left on the 12:20 train for that city with the prisoners. Sheriff Quinn says a reward of \$5,000 is offered for the arrest and conviction of Gladney and his supposed partner, Paisley, the man arrested in Salt Lake about 10 days ago, and that if a conviction is secured the reward will be divided between the Ogden and Salt Lake officers.

SENTENCE SUSPENDED. Blanche Shupe, the girl who was charged with violating the quarantine ordinance, in having gone to Salt Lake while she was suffering from smallpox, pleaded guilty in the juvenile court this morning, and was ordered committed to

your twice-a-day friend; it will make you many admiring friends—those who have keen eyes to bright, white teeth and pure breath. Your sweetheart knows why.

In handy metal cans or bottles, 25c.

Dr. Graves' Tooth Powder

the state industrial school. At the request of her mother, who resides in Boise, sentence was suspended, with the understanding that the girl would be taken there at once.

ADJUDGED INSANE.

This morning Drs. Dickson, Condon and Coulter examined Annie Nelson as to her sanity and she was ordered committed to the state mental hospital at Provo, to which place she will be taken by Sheriff Bailey.

EVIDENCE NOT SUFFICIENT.

Pat Smyth, charged with being implicated with three others in the theft of coal from the railroad yards, was given a hearing before Judge Murphy this morning and discharged. While the evidence was insufficient to convict the court stated that he could not see how Smyth could purchase coal in the night time without having a suspicion as to where it came from.

BITTEN BY A DOG.

A 14-year-old boy named Peter Ferguson was severely bitten this morning by a dog belonging to Archie Bigelow, the banker. The lad was bitten twice in the right arm, causing a very dangerous wound. The dog will be killed.

MISS NELSON AGAIN ARRESTED.

Charged With Insanity—Home in Desplorable State.

Annie Nelson, of Stewart's Lane who about a month ago was arrested by Sheriff Bailey and several other officers with her brother and sister, but was later released from custody, the physicians who examined her, pronouncing her sane, was again taken into custody last evening by deputy sheriff's Sebring and Wilson charged with insanity.

Hourly for several days past, the sheriff has received telephone communications from the neighbors of the Nelson family, declaring that the noises they were making was unbearable. Sheriff Bailey was not in haste in answering the demand to do something in the case, as when the Nelsons were arrested before they were discharged, but yesterday afternoon the demands for protection by the neighbors caused the sheriff to send his deputies to the home. When they arrived they found the doors locked and were refused admittance. The officers informed Sheriff Bailey of these facts and he had a warrant issued for Annie's arrest, and Deputies Sebring and Wilson returned to the house, but could not get in until the door was broken open. They found Annie and three younger sisters in the house and the three girls being bed and stated that they were sick. Annie fought the officers like a demon, cursing terribly, but was overpowered and taken in a cab to the county jail, where she was locked up in the padded cell. The officers talked to the younger girls and learned from them the sad condition of affairs. Their house was very dirty, they had no food or coal and everything in the house was in a state of confusion. The officers summoned City Physician Gordon and County Physician Gordon who examined the three girls and stated that they were not ill, but the doctors were of the opinion that the older sister had through her actions made them nervous and had great influence over them. Food and coal taken to the home by the officers for their immediate relief and today Annie will be examined as to her sanity.

OGDEN BRIDGES IN PLACE.

Only a small amount of routine business was transacted by the board of county commissioners at its regular session yesterday. Commissioner Wilson reported that the four new steel bridges for the branches of Ogden river have been placed, and today the commissioners will inspect them before making final payment on the contract.

The resignation of William Wilson, justice of the peace at Plain City, was accepted.

The conduit at Randall was reported as being laid and will likely be completed this week.

Dr. Gordon reported on the sick of the county, also that he had visited the infirmary and found it in good condition.

JOSEPH H. TRIBE LAID TO REST.

The third ward meetinghouse was well filled yesterday afternoon by sorrowing friends who gathered to pay a tribute of respect to the memory of Joseph H. Tribe, who died Friday evening.

The funeral services were conducted by Bishop James Wotherpoon. The ward choir rendered several choice musical selections and Hagbert Anderson sang a solo. The speakers were Elders Joseph Hall, C. E. Peterson and Bishop James Wotherpoon. The floral tributes were numerous and beautiful. A large funeral cortege followed the remains to their last resting place in the city cemetery.

BIDS WANTED ON HUNTSVILLE ROUTE.

Postmaster T. H. Davis has given out the information that the second assistant postmaster general will receive sealed bids for the carrying of mail from the Ogden postoffice to Huntsville, Utah, on the route to be established as set forth in the schedule in the possession of Postmaster Davis, for a term of four years, beginning July 1, 1906. Postmaster Davis can give any information desired on the proposition.

THREE COUPLES WED.

The county clerk has granted marriage licenses to the following couples: Amos C. Gindling, 38, of Roosevelt, Ida, and Miss Edith E. Durfee, 38, of Michigan.

Joseph Burger and Miss Annie B. Browning, both of Ogden city.

Rollins Baxter of Los Angeles and Catherine Henry of Ensign, Kas., both of lawful age.

CITY SOLONS IN SESSION.

Irrigation Water Tax Assessments—Witness Goes to Washington.

Special Correspondence. Provo, Utah Co., Jan. 30.—A letter received from N. W. Harris & Co., Chicago, by Mayor Frisby, was read at the meeting of the city council last evening, and referred to the committee on electric light and the mayor.

The letter stated that unless the bonds purchased by the city could be delivered before March 8 the firm would not consider the bid binding.

An invitation to send a delegate to the Utah county fair convention in this city, Saturday, was read from the Commercial club county fair committee. President Booth was appointed such delegate.

The committee on judiciary reported that the city could not legally pay the recorder for extra work and recommended that the services of a deputy be obtained, whose salary should not exceed \$10 a month. Report adopted.

ted a report recommending the following tax for the use of water for irrigation and other purposes be assessed: City lots, 75 cents each; farming land, 50 cents an acre; Provo Woolen Mills, \$250; Tanner's race, \$75; Excelsior Roller Mills, \$110; Provo Foundry and Machine Co., \$40; E. J. Ward & Sons, \$100; Hans Poulson, \$10; Smoot Investment company, \$10; Provo Pressed Brick Co., \$75. The report recommended that Monday, Feb. 19, at 10 o'clock be fixed for the council to sit as a board of equalization to hear objections to irrigation assessments. The report was adopted.

A letter from F. C. Kelsey, asking for data on survey in order to complete the plans for the proposed electric plant was read. Referred to the committee on electric light.

The matter of amending the irrigation ordinance so as to make the tax for irrigation water a lien on the property affected was, on motion of Councilman Johnson, referred to the committee on judiciary, the watermaster and the city attorney.

On recommendation of Supt. Armistead Mr. Homer was appointed assistant superintendent of waterworks and sewers.

T. J. Farrer was confirmed as deputy watermaster, and George T. Peay, Jr., as deputy street supervisor.

WITNESS GOES TO WASHINGTON.

W. J. Thomas, of Spanish Fork, has

WEDDING BELLS.

Marriage licenses have been issued to the following couples: Dr. C. W. Douglass, 30, of Los Angeles, and Florence Sutton, 25, of Provo.

Hyrum A. Anderson, 24, and Mary M. Whipple, 24, both of Lehi.

GARDEN CITY NOTES.

Dean Tucker, the younger son of Mrs. Hannah Tucker, is suffering from a light attack of diphtheria.

Alex Heidequist, manager of the Smoot Drug company, has undergone an operation for a diseased gland of the neck. The inconvenience following the operation promises to be slight.

Revival services are being held in the Methodist church continuing from last week, when services were held every afternoon and evening. Rev. R. E. Gilpin of Corinne is doing the preaching, and the progress of the work is very encouraging.

Judge King is in Provo appearing for the defense in the case of Springfield vs Mrs. Wm. Konold and others, a suit involving the right to waters of Spring creek.

Thomas Pyne, the 7-year-old son of Mr. and Mrs. H. S. Pyne, fell from the

hay loft in George A. Storrs barn Sunday night and broke his shoulder blade. The little fellow is getting along as well as can be expected.

County Superintendent Eggersten has received a letter from Superintendent of Public Instruction Matson of Dodge county, Nebraska, asking him for the "Plan for Schools," issued by Supt. Eggersten to be used with the state course of study.

An Athletic league has been organized among the teachers and students of the Utah county high schools, with County Superintendent Eggersten president and Principal Geo. N. Child, vice president.

Mrs. C. E. Loose is seriously ill suffering from an affection of the heart.

"Uncle Tom's Cabin" comes to the Opera house Wednesday night, and Lewis Morrison appears in "Faust" Friday night.

No. 2 Straight Talks on Patent Medicines

The "Rexall" Remedies are successful and this is why. They were placed on the market three years ago. They have scored already the record of the greatest success ever known in the history of the drug business.

"Come and go" popularity may arise from any number of causes (hullabaloo advertising among them) and may or may not be founded on real worthiness. But the man, the plan, the idea, or the article that truly succeeds, does so because he or it deserves to succeed, and for no other reason.

The success of the "Rexall" Remedies is therefore the first evidence of their real merit. They sell because they cure, and they cure because each one of them is the best remedy known to medical science for the particular ailment it is made to relieve.

There are nearly 200 remedies sold under the "Rexall" name, each for one disease or one purpose. Each of these has been selected by a committee of experts from among all other remedies of its class, for manufacture and sale by The United Drug Company, a co-operative association of leading American druggists.

Wherever you see the name "Rexall," you may know that it stands for a formula scientifically correct and proved efficient in actual, long extended practice. We know these formulas and are glad to answer all inquiries regarding them, giving full information as to the ingredients.

Here are three famous members of the "Rexall" family:

FOR CATARRH—MUCU-TONE	REXALL DYSPEPSIA TABLETS	FOR NERVES—AMERICANIS Elixir
The chief ingredients of Mucu-Tone are Gentian, Culebra, Cascara Sagrada, Glycerine, and Sarsaparilla. Gentian is recognized in medicine as one of the greatest tonics ever discovered. It is the foundation on which Mucu-Tone is built. Gentian combines in high degree the tonic powers of all the known "biters," with none of the disadvantages applying to them. Culebras have long been recognized as a specific in the treatment of all catarrhal conditions. Its action is prompt and its benefit almost invariable. In whatever part of the body the inflamed or diseased condition of the mucous membrane exists, the use of Culebras has been recommended by the best physicians for many generations. Cascara Sagrada is especially introduced for its necessary laxative properties. The combination of these with Glycerine and Sarsaparilla makes Mucu-Tone a remedy that attacks catarrh from every point, gradually restores and rebuilds the diseased tissues to their former health and strength, promotes digestion and creates a normal appetite. Bottle, 50c.	The remarkable success of Rexall Dyspepsia Tablets is largely due to the new and successful method of manufacture, whereby the well known properties of Bismuth Subnitrate and Pepsin have been combined with carminatives and other agents. Bismuth Subnitrate and Pepsin are recognized by the entire medical profession as specifics for acute indigestion or chronic dyspepsia. The pepsin used is manufactured under a new process which develops its greatest efficiency. Pepsin not only supplies to the digestive machinery one of the most important elements of the digestive fluid, but it seems to exert a tonic influence upon all the glands which supply all the other elements. The carminatives add properties which promptly relieve pains caused by undigested food. The combination of the whole makes a remedy absolutely invaluable to any man or woman suffering from Dyspepsia—and not only a remedy but a cure which works gradually and permanently, rebuilding and stimulating the glands which perform the digestive functions. Package, 25c.	The Rexall Americanis Elixir is a tonic nerve food composed chiefly of free Phosphorus, Glycophosphates, Iron Pyrophosphate and Calisaya. The wonderful results of this remedy are due to the fact that it supplies Phosphorus to the nerve cells in a condition in which it can be immediately and easily taken up by them. It is the only known preparation in which free Phosphorus—that is, Phosphorus which remains indefinitely unoxidized—is used. The Glycophosphates, actual nerve-tissue builders, are one of the most recent and valuable additions to the field of this branch of medicine and unquestionably a more efficient remedy than the well-known Hypophosphites. The Iron Pyrophosphates is the most easily assimilated form of iron which gives tone and color, and the combined alkaloids of Calisaya Bark have a tonic effect on almost all the functions of the body. In compounding these various elements, the very highest degree of pharmaceutical skill has been employed. 75c. and \$1.50 a bottle.

This "Rexall" Guarantee Appears on each package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you and we want you to have it."

RHEUMATISM FLESH SORE AND TENDER MUSCLES DRAWN AND STIFF—EVERY JOINT A SEAT OF PAIN

There is no suffering so acute as that produced by Rheumatism, as those who have experienced its cutting pains, throbbing muscles and aching bones will testify.

Rheumatism is the result of a sour condition of the blood brought on through absorbing into this vital fluid the acids and poisons left in the system by poor bowel action, weak kidneys, stomach troubles, etc. The refuse or waste matter of the body, which nature intends shall be carried off, sours and forms uric acid and other irritating poisons, which the blood distributes to the different muscles, nerves, sinews and bones, and Rheumatism, a demon of pain, takes possession of the system. The disease does not affect all alike. Some have it in the inflammatory form, manifested by a red, feverish condition of the skin, while the flesh becomes puffy, sore and tender to the slightest touch. With others the disease is muscular; the muscles becoming drawn and stiff, and while the pain is not so constant as that produced by the inflammatory form, the disease is really deeper seated, and because of the stiffened condition of the muscles and ligaments, is very inconvenient to the sufferer. But the worst form of the disease is known as Articular Rheumatism. The bones and joints become affected, and every movement sends excruciating pains shooting through the body, and where the acid poison is allowed to remain the joints become coated with chalk-like deposits, and as the disease progresses they often become locked and useless.

When Rheumatism becomes entrenched in the system it so completely dominates it that the sufferer's life is almost literally controlled by the disease. Cold and dampness being exciting causes they must govern their every action with regard to the condition of the weather, confining themselves to the house, knowing that the least exposure will bring on an attack. Indigestion is another predisposing cause, and fearing the pain and discomfort sufferers often try to avoid it by depriving themselves of those articles of diet of which they are most fond. A great many people have an idea that because sudden changes in the weather or imprudence of the appetite bring on an attack of Rheumatism that it is a disease which is easily controlled. So when a spell comes on they begin to use plasters, liniments, lotions, etc., expecting to drive out the pain and inflammation, and thus cure the disease. This treatment is all right to ease the pain and make the sufferer more comfortable, but can never cure Rheumatism, nor prevent its return, because it does not reach the real cause of the trouble, which is in the blood.

When neglected or improperly treated Rheumatism always becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant and unwelcome companion. The proper treatment for Rheumatism is S. S. S. This great remedy cleanses the circulation of all acids and irritating poisons, builds up thin, sour blood and permanently cures this painful and distressing disease. S. S. S. possesses solvent properties which dissolve and filter out the salts and deposits, and so enriches the blood that a fresh, healthy stream is carried to all parts of the body. Then the pains and aches cease, the flesh becomes firm and loses that tender, sensitive feeling, the joints all work smoothly again, and complete health is restored. S. S. S. is the treatment for Rheumatism in every form, for whether your case is acute or chronic the cure must come through the blood. Book on Rheumatism and any medical advice desired furnished without charge.
