Some Fine Sulphide Specimens Ex-

hibited by J. H. Turner.

J. H. Turner, the well known travel-

ing man, came in from the west yester-day with a lot of ore samples from the

property of the Mason Valley Copper company, located near Yerrington, Ne-

vada, in which he is a shareholder. Mr. Turner is mighty well pleased with the way development is progressing at

the Mason valley and to day expressed the greatest confidence that the fu-

ture has something interesting in store the shareholders of that corpora-

Superintendent Fred Flindt is making things count and has recently en-

countered some quite extensive bodies of high grade sulphide copper ore.

MINING DEEDS FILED.

Special Correspondence.
Provo, Jan. 23.—Mining deeds have been filed with the county recorder from H. W. Owen et al of Salt Lake to William Schrun of Lawrence, Kan., for

a one-sixth interest in Laura Nos. 1 and 2 mining claims in Silver Lake mining district in American Fork can-

yon, the consideration being \$56; and from George S. Moore et al of Provo to the Little Canyon Mining company for the Copper King, the Moore and Moore

No. 1, mining claims in Little Canyon, about four miles southeast of Provo. The consideration named is \$25.

LAND GOES TO SMELTERS.

The state land board held a public sale at Tooele last Saturday and disposed of a section of school land located about a mile west of the Garfield

smelter. The property was bid in at the appraised valuation of the land by Charles H. Linck, agent for the Gar-

ONTARIO DRAIN TUNNEL.

Foreman William Campbell, who has charge of the work in the Ontario tunnel, was a passenger to the city yesterday afternoon. Work at the tunnel has been entirely suspended on account of foul air, caused to a great extent by the severe storm of the past week. The wet, heavy atmosphere prevents

vents fresh air from entering the tunnel, and Mr. Campbell said yesterday, that a candle will not burn now at the 2,000 foot mark. Until the weather clears up no attempt will be made to

resume work. The face of the drift

where work was being prosecuted when the water broke through has not yet been reached, and the tunnel, at the

day is completely filled up with dirt and debris.—Park Record.

# **NEW STOCKTON,** ITS EQUIPMENT.

Contractors Have Begun Sinking Shaft to the One Thousand Level.

MILL IS NOW IN OPERATION.

Shipments of High Grade Ore to be Made-Installation of a New Compressor.

The mill at the New Stockton mine at Stockton was started up again yesterday. At the same time, the newly installed hoisting plant went into regular comission, and the men who have taken the contract to sink the shaft 150 feet deeper, or to 1,000 feet below the collar of the shaft, inaugurated their work.

The sinking of the shaft will not interfere, Supt. Galiger, who was in town yesterday for the first time since be-fore Christmas, says, with the extrac-tion of ore, either for the mill or for shipment direct to the smelters.

is the intention, the superintend-says, to send considerable of the ent says, to send considerable of the latter to the markets, which is possi-ble since the mine has been equipped with the holsting plant, and which has the capacity of 100 horsepower. A new 8-drill compressor is now be-

ing installed at the mine, and when it is in place the New Stockton will be one of the best equipped properties in the camp of Stockton. The late severe snow storms delayed the work of construction about a week.

#### STOCKS IN GOOD TONE. Park City and Tintic Investments Were Sought-Closing Quotations.

The forenoon sales on the mining exthe forenoon sales on the mining ex-change amounted to the transfer of 16,-300 shares for \$11,994.25. Little Bell, Daly and Wabash were the active Park City stocks sold, and all of them ex-hibited more strength. A 2,000-share lot of Cyclone of Stockton was taken down at \$16 cents.

down at 6½ cents.

Beck Tunnel, Carisa, Lower Mammoth and May Day represented the Tintte district. The market for these stocks showed better tone than during yesterday's calls.

The closing quotations and sales were:

#### WILL INCREASE CAPITAL. Important Move Taken by Wabash Directors Yesterday.

The directors of the Wabash Mining company at a meeting neld yesterday afternoon, at which a full representation of the board was present, issued a call for a special meeting of the sharethe object of this meeting of the share-holders of that corporation for Feb. 24. The object of this meeting, said Presi-dent N. Teweek today, is for the pur-pose of considering the matter of increasing the capital stock of the company from 300,000 to 100,000 chares, and making the par value of the new issue \$5 per share. It is also proposed to

#### STAMP MILLS Today's Metal Quotations. 🔅 FOR COPPER ORES Local settling prices are reported by the American Smelting and Re-fining company:

Metallurgist Bettles Talks About Boston Con. Experimental Mill Work.

#### IS PLEASED WITH RESULTS.

Going to Alaska and Black Hills to Inspect the Big Treadwell and Homestake Plants.

Stamp mills are destined to play an mportant part in the future treatment

of ore in Bingham.

The experimental plant of the Boston says plans have been mapped out for a very vigorous campaign at the Wabash during the preselt year, and within the next 6 days the working force at the mine will be doubled.

John M. Daugherty of Omaha, one of the directors, and who represents the John A. Creighton interests, is in the city. Consolidated, although it has been in operation but about 10 days, has made such favorable demonstrations in the low grade copper bearing porphyries of that property, that there is no longer any doubt in the mind of Chief Metallurgist A. J. Bettles that crushing by means of stamps and the subsequent treatment thereof, will prove to be the most economic method of handling the mill stuff of the Boston Consolidated mine. Marysville, Cal., Jan. 23.—The American Smelting and Refining company, better known as the Guggenheim syndicate, has purchased the Dempsey copper mining properties near Smartville and will erect a large smelter works there on the line of the California Mid-

Mr. Bettles, when seen by a "News" representative, called attention to the fact that some of the greatest mines in the world, productive of large tonnages of low grade ore, are equipped with stamp mills. For illustration, he men-tioned the Treadwell, on Douglas island, Alaska, the Homestake in the Black Hills and several properties in the Michigan copper country.

The work at the little Bingham plant,

which is equipped with a battery of stamps, two wilfley tables and a Wil-fley slimer, has done all so far, Mr. Bettles declares, that was anticipated of it. He expects to be able to show a fine record of extraction and to prove the process up to the satisfaction of everyone concerned within the next 30 days. This does not go to indicate, however, that the experiments will be concluded within that period, but Mr. Bettles does hope to have the case practically settled then, and with only the minor details left to be worked out.

It seems to be a pretty well settled fact that in the Bingham porphyries the best results are obtained in extracting values after the ore is crushed to a fineness hardly made possible by ordinary crushing rolls, and that is the strong point in favor of stamps, which are capable of breaking from five to six tons of ore every 24 hours, and where the whole mass is to be broken to a certain fineness, it would seem that stamps, in accordance with Mr. Bettle's

stamps, in accordance with Mr. Bettle's idea, is the more preferable.

Two points are to be taken seriously into consideration in the treatment of the Boston Consolidated porphyries. The first is, the cost of crushing; and, secondly, the amount of slimes made, Mr. Bettles says there is no more economic way of crushing than by stamps, and that the cre will not slime a read, and that the cre will not slime as read. and that the ore will not slime as read-ily, in the case of the Boston Consolidated as it would if grinding mills, either Chillean or Huntingtons, were

Just as soon as the experiments are Just as soon as the experiments are about to reach a final determination it is planned for Mr. Bettles to visit the Treadwell and Homestake plants for the purpose of getting new ideas and which may be of benefit when the time comes for the construction of the big permanent plant to be built by the Boston Consolidated company near the Garfield smelter.

The initial clean-up at the Bingham experimental plant is now being made. Mr. Bettles, after spending a day at the company's offices, returned to camp this morning.

# AT THE LOWER MAMMOTH

Change in East Cross-Cut on 1500 Level Looked For.

The next ten days ought to show a decided change in conditions at the Lower Mammoth mine at Mammoth.

A "News" representative visited that property on Sunday last and at that time Superintendent William Ball had time superintendent William Ball had a force of men with machine drills pushing the east cross-cut on the 1500-foot level shead at a rapid pace. Superintendent Ball estimated that the men were probably 20 or 25 feet from the ore body being driven for, provided the vain keeps the dia shown in the the ore body being driven for, provided the vein keeps the dip shown in the workings above. It is in this vein that Superintendent Ball expects to encounter some high grade ore, and those who understand the characteristics of it feel confident that he is not going to be mistaken.

In the south cross-cut on the same

In the south cross-cut, on the same level, the ore encountered some time ago is o or out bigger than ever. and as it shows now, is the largest body of ore ever opened in the mine. The width of the body is fully 30 feet, a w'nze sunk 50 feet, a raise for 30 feet has been run, while the body has been drifted on for a distance of 140 feet. This ore nets a fair profit to the company under present market conditions. Shipments are being made to the Salida smelters.

#### MODIFIED BUT CONFIRMED. Mining Suit Decided in Favor of Rutan

And Snyder. And Snyder.

The Supreme court yesterday afternooh handed down an opinion in the case of Frank C. Rutan and Willard F. Snyder vs Louis C. Huck, appellant, in which the judgment of the lower court is slightly modified and then affirmed. The action was brought to secure an accounting for dividends received by Huck on certain shares of stock in the Annis Laurie Mining company. Rutan claimed that he entered into an agreement with Huck whereby the two were to enter into the mining business together. Rutan was to furnish his experience and labor as a mining engiperience and labor as a mining engineer and Huck was to provide the money with which to develop the propertray secured, and the profits from the transaction were to be divided as follows: Two-thirds to Huck and one-

third to Rutan.
Acting under this agreement the two men came into possession of 5,000 shares of the Annie Laurie stock, but Huck refused to pay Rutan his share and refused to account for the dividends on the same.

A decision was rendered in the lower court in favor of Rutan and Snyder who became interested in the trans-

The Supreme court holds that Huck The Supreme court holds that Huck should be charged with 2,500 share of the stock and with the dividends there on and with \$25,000, the proceeds received by him from the sale of 1,000 shares of the stock. The court further holds that he should be required to deliver to plaintiffs 1116 2-3 shares, which is constituted in the latest and the should be required to deliver to plaintiffs 1116 2-3 shares, which is one-third of the total number of

shares held by him upon plaintiffs pay-ing to him one-third of the indebted-ness contracted in connection with the

The defendant is given the option of The defendant is given the option of selling a sufficient number of shares of the stock to pay off the indebtedness and then deliver to plaintiff one-third of the stock remaining.

The opinion of the court was written by Justice Straup, concurred in by Chief Justice Bartch and dissented from by Justice McCarthy.

The defendant Huck, was president of the Annit Laurie company up to the time of his death a little over a month ago.

#### BALAKLALLA COPPER. Captain McVichie Says Plans for Smelter Are Nearly Ready.

Captain Duncan McVichie of the Captain Duncan McVichle of the Bingham Consolidated and Balakialla Copper companies, returned from a trip to the property of the latter corpora-tion in California last night. While away, the captain says, he e ncountered some very disagreeable weather, both rain and snow, but of course the latter did not stay on the ground long. Never-theless the prechitation made it very theless the precipitation made it very bad in getting around. As to the Balaklaila, Captain Mc-

Vichie says preparations are going for-ward as rapidly as possible for the con-struction of the new 750-ton smelter. The plans are now well in hand and should be completed within the next 30 days. The recent difficulty in fixing up the title to the land near Kennett, which was selected for the smelter site.

nas been overcome. Regarding the organization of the proposed Consolidated Copper company or, better known as the Coram syndicate, Captain McVichie declared he is still in ignorance.

#### CONCENTRATES.

V. P. Strange has returned from a business trip to Boise.

B. N. Lehman of the Yankee Consolidated staff is in from Tintic. The Cyclone mine of Stockton will

report in the market in a few days with a car of ore. F. M. Taylor of the Taylor & Brun-

Sampling company returned to Colorado this afternoon. Manager Sidney M. Bamberger of the Fortuna mine is making an in-spection of that Bingham property to-

The ore and bullion settlements re-ported late yesterday by McCornick & Co., were as follows: Crude ore and concentrates, \$35,300; base bullion, \$41,-

The new mine motor ordered by the management of the Utah Copper com-pany has arrived in Bingham, making the second with which the mine is

equipped.

Solon Spiro of the Silver King Consolidated is going to leave for San Francisco tomorrow where he will meet Mrs. Spiro and mother on their return from Honolulu.

The Chalmers-Williams company is the latest machinery firm to enter this territory and the selection of Mr. Glendenning to take charge of its business here is a fortunate one. Supt. Nicholas Treloar of the Yam-pa mine at Bingham, who has been in

the hospital to recuperate from an at-tack of typhoid fever, is reported to be regaining his health rapidly. President John E. DuBois of the Yankee Consolidated Mining company reached the city late yesterday afternoon. The annual meeting of share-

holders was postponed until tomorrow

J. E. Meyer, assistant general man-ager of the Federal Mining company's properties in Beaver county left for the east today and before he returns expects to place a large block of stock with the investor.

ber of years has been connected with the local offices of the Allis-Chalmers company in a responsible capacity, has resigned. Mr. Glendinning has retired from the employ of the above named firm to go to the Chalmers-Williams company, as manager of a branch office to be opened in the Dooly block in this city at once.

#### ENSIGN KNITTING CO.

New Home Concern Organized With 825,000 Capital.

A new home concern called the Ensign Knitting company, comprised of strong and representative citizens, has just bee incorporated in this city, and will be ready for business in the immediate future. The officials of the company are as follows; Fred Stauffer, president; Samuel G. Spencer, vice president and general manager; C. H. Thorstensen, assistant manager; Jas. W. Saville, secretary; Frank R. Snow, treasurer, and Henry C. Lund, attorney, Messrs, Stauffer and Spencer, with Samuel H. Ailen, Richard W. Young, N. W. Clayton, and George Romney comprise the board of directors. The capital of the empany is \$2,000, nearly all of which is subscribed. The company will install an up-to-date hoise; plant, but will also do a general knit goods business.

The officials state that there are thousands of dollars worth of knit wear imported into Sait Lake and Utah, to zanothing of the surrounding states, and they feel that the field they enter is bread enough for them as well as existing concerns. They have en entirely new and up-to-date plant, and expect to be running within 50 days. They will be located on Richards street, where they will occupy a two-story building. incorporated in this city, and will b

been app bu'lding.

#### NEW WORLD'S RECORD.

Ormond, Fia., Jan. 23.—A new world's record for the mile of 32 1-5 seconds was made here today in the opening day of the annual meet by Marriot in a Freak racer in the first preliminary heat of the Dewar trophy. Erp was second.

# BEARS ADOPT RAIDING TACTICS.

Prices Were Carried Down With Great Vehemence and Violence

SUDDEN STOCK OUTPOURING

After 12 O'Clock Market Became Feverish-Soon Followed by Heavy Buying in All Quarters.

New York, Jan. 23 .- The stock market pened active and irregular. The Iron, Copper and Lead stocks were all lower. and the southwestern railroads also show ed depression. Anaconda lost 2 points. Canadian Pacific 11g. Lead 11g, Atchison a point and Missouri Pacific a large fraction. Reading was rushed up half on run ning sales. Northern Pacific gained 14, St Paul Pa, and Denver & Rio Grande, Pacific Coast a large fraction. Reading lost most of its gain within the first few min-

utes of trading.

Concern over the unseasonable weather prevailing in certain regions and the heavy sales of Reading which drove it drown to log, accounted for the sharp dip in prices after the opening dealings. St. Paul and Northern Pacific surrendered their gains and St. Louis Southwestern, Colorado Fuel, Locomotive and Virginia Chemical were driven down 1 to less supporting orders and vigorous resumption of pool operations in various specialties rallied the market substantially. Brooklyn Rapid Transit, Metropolitan, Norfolk & Western and Southern Railway 1 to la. Reading rosoe to a fraction above yesterday and there was a pictly general reduced.

& Western and Southern Railway I to %. Reading resoc to a fraction above yester-day adn there was a pictty general recovery all around for a time. Liquidation in Amalgamated Copper, which carried it to a point below yesterday, started prices on the down grade again just before II o'clock. Consolidated das feil off 2½ and North American lost 1½.

There was a sudden outpouring of stocks and bears added raiding tactics to the pressure. Prices were carried down with violence especially for the material specialties. Reading fell to 3½ below last night. Amalgamated Copper 2½, Locomotive 1½. Anaconda 7. Virginia-Carolina Chemical 2½, Great Northern preferred, St. Louis Southwestern preferred, Sugar and Lead, 2. Illinois Central and Atlantic Coast Line 1½, and the United States Steel stocks, Smelling. American Car and Louisville about 1½. Practically all active stocks were off a point or more, The bears rushed to take profits and the buysing caused railies of 1 to 1½ in many stocks.

ng caused railles of the controls.

Bonds were irregular at noon.

The market became feverish after 12 of clock, Reading and Amalgamated Copper going back to within a fraction of the previous lowest and New York Central. Southern Pacific, Norfolk & Western going lower than before. Delaware & Hudson lost 2. Heavy buying was resumed in all quarters again. Reading showing a recovery of over 2 points and other favorites a point or more. Colorado Fuel lumped to 74%, a gain of 2 points and Southern Railway was marked up to 40% with blocks of many thousand shares being bought.

# Two Cows Collected

We collected two cows for Thomas Hillyard of Smithfield, Utah. This was in settlement of an old bill 13 years of age. It had been in our hands a little over a year. Have you got any bad debts that need collecting? Do you need some cows? If Mr. Hillyard had turned this bill in 12 years ago he might have had a herd of cattle by this time. Turn in your bad debts. The longer you wait the longer the people who owe you will wait.

a business trip to Chicago where there is being held a meeting of the general agents of the company to talk up business for the past and for the current

Senator Sutherland is interesting him-Senator Sutherland is interesting him-self in securing a reversal of the ruling by the postoffice department that the "Newsmonger," the perodical published by the Y. M. C. A. of this city is not second class matter. The ruling is con-sidered here remarkable and uncalled for

Col. T. P. Murray, the real estate man formerly well known in Salt Lake during the Liberal campaign as captain of the Flambeaux club, is at the Knuts-ford hotel after an absence from this city of 11 years, and from Egypt where he has been identified with irrigation projects. The colonel expresses himself as surprised and delighted at the way Salt Lake has grown.

Mr. and Mrs. H. M. Dinwoodey are now in Chicago and on last Sunday evening on special invitation Mrs. Dinevening on special invitation ars, pin-woodey sang several solos at the ser-vices of the Epworth Methodist Epis-cepal church, of which the well known musician, Prof. L. A. Torrens is musical director. Mrs. Dinwoodey was down for two solos and being requested to render a third responded with "He Was Despised" from the "Messiah." She was warmly praised for her work by Prof. Torrens, and her auditors.

Mr. Geo. T. Odell has returned from Denver, accompanied by Mrs. Odell and Miss Marie Odell and Joseph O. Rich-ards, Jr. Mr. Odell reports that there is snow all the way from Denver where it was snowing Saturday evening when his train pulled out. However, he said there is complaint among Colorado agriculturists of a scarcity of snow out in the state, Mrs. Odeil left Miss Jean back in New York state, where she is attending school.

#### THE MONROE DOCTRINE.

French Naval Demonstration Against Venezuela Not a Violation of It.

Paris, Jan. 25 .- President Loubet preeded today at a cabinet council held in the Elysee palace at which Premier Rouvier announced that he had received Mouvier announced that he had received a communication from Ambassador Jusserand to the effect that the United States did not consider a French naval demonstration against Venezuela to be a violation of the Monroe doctrine, France, it is pointed out, thus has her hands free, but the situation is unchanged for the moment, as the council will not take decisive action until the will not take decisive action until the report of M. Taigny, the former charge d'affaires at Caracas, is received.
