The wind played havoe with one of the large glass transoms in the county recorder's office yesterday, with the result that the county will be out about \$30 for a new glass and lettering for the same. A sudden gust of wind slammed the transom shut with such force that the glass was broken and hurled to the e floor in the corridor of the buildng and smashed into a thousand small pieces.

The gentleman, who was well known to many who have emigrated from that section, was 80 years of age, and was a prominent citizen of Bolton, where he had lived all his days. Mr. Naisby was a cousin to Henry W. Naisbit of this city and was a man much beloved by a host of friends and acquaiatances.

The board of governors of the Commercial club elected the following gen tlemen members of the club last night A. L. Hamlin, Henry Altman, G. N. Warwick, Joseph Hershaw, H. S. Daynes, G. E. Gunn, H. L. A. Cuimer, George A. Land, all of Salt Lake; T. F. Singiser of Salmon City, Ida.; W. A. Farish of Milford, Utab: A. J. Malloy of New York. A committee of five was appointed to look into the question of fire protection in Salt Lake City, and ascerain the claims of the underwriters

The committee was instructed to take its time and make the examination as thorough as possible. There was another fight on Commercial street last night, the participants being Daniel O'Connors and an unknown. Sergeant Roberts saw the fight and hastened to arrest the men. O'-Connors managed to break away from the officer's grasp long enough to land the knockout blow upon the unknown's jaw. Then he turned on the sergeant and tried a right hook for the jaw. Roberts cleverly blocked the effort and landed a loop with his club on O'Connor's cranium. The latter imme-

diately went in for a lesson in astronomy and when his senses returned he was being dragged to the station. In 13 years service on the force it is the first time, says Roberts, that he has had occasion to use his club with any force.

The special train of Col. William J. Bryan is being whirled through the western states with all the rapidity it night. can stand. Mr. Bryan's eighth Utah

speech in the Odgen Opera House last evning was listened to by a large crowd of people while the attendance was also large at the Rio Grande depot in this city where a stop was made on route to the Junction City. Mr. Bryan left Ogden for Idaho after his speech in the opera house, and is speak-ing in that state today. Tomorrow forenoon he will address the citizens of Brigham City, and in the afternoon he will speak at Corinne and Terrace, and then go direct to Nevada to partic-ipate in the campaign there.

BRYAN IN SALT LAKE.

Makes a Speech Before a Crowd of 2,000 People.

An ovation distinctly similar to that which greeted the eloquent Nebraskan all along the line, marked the reception of Col. Bryan in Salt Lake. At the Ric Grande depot fully 2,000 people had as-sembled to do him honor and these listened to a speech which was well given and equally well received. Mr. Bryan was introduced by Chairman Frank J. Cannon and spoke in substance as follows: "I first learned of Utah and of Salt

Lake City by the lake, then by the products of her mines and the products of her fields, and yet I believe today this state is more favorably known by the men it produces than by its crops and the ores in its mountains, and I believe you can better risk your fame on the manhood and womanhood of your state than on the products of its mines and farms. It is important, therefore, that you should place in public life those who will fitly represent the people.

"I have been coming to Utah for some years, and by the votes I receiv. ed, at least in 1896, I am satisfied that many of you believe that I am interest-ed in your cause, and I hope, if I live 30 years more, to convince even Re publicans that I am interested in them. "I am glad that you nominated so excellent, so able and so representative

man for the position of congressman rom this state. Down east they some times have a prejudice against a man from the west, and I have almost con-cluede that the only part of the Bible that those esatern people read is that the wise men came from the east. But you demonstrated out here that you can

He pointed to the example of Cuba, and said that he was present in Havana when the American flag was hauled down from Morro cas-He had been told that as the flag was coming down, "a Cuban sol-dier ran forward and seized it, saying that it must not be allowed to touch the He kissed the flag and pressed it to his heart. That is the way we want it loved by every one." He urged the doctrine of love rather than force in conquering the Filipinos, and the putting them on a plane similar to that of the Cubans. He also referred to the life-saving fund, to which persons nterested in Democratic success contribute \$1, and praised this method of raising money as superior to the Republican plan. A good name is rather to be chosen than great riches," he said. "Give more attention to the value of the man and

pay less attention to the influence of money. Place the man above the dollar. Return Rawlins to the senate and send King to Congress."

HIS SPEECH IN OGDEN.

The Opera House Filled to Overflow ing to Hear Him.

The Ogden Opera house was entirely too small to accommodate the crowds who desired to hear Col. Bryan last night. Fully 3,000 people clamored for admission and when the meeting start. ed it was with every part of the build-ing filled to overflowing. Mr. Bryan entered the Opera house shortly after 9 o'clock and was received with a good round of applause. The speak introduced by Senator Rawlins. The speaker was In opening Mr. Bryan paid tribute to Frank J. Cannon, Senator Rawlins and Judge King, urging that the latter be returned to Washington. two He then spoke upon the meaning of the word "civilization" and denied that

there was any analogy between the life of a man and a nation, making it sary that the latter must droop and die. He believed the nation should ontinue to grow, becoming more glori ous with the lapse of time. Referring o anarchy the speaker said he would eradicate it, not by suppression, but by putting something better in its

Mr. Bryan presented his views on im perialism and in reviewing the strike question deplored that the nonenforce. mnt of laws by the Republican admin-istration had made it necessary for its settlement in the manner in which it had to be effected. He pointed out that the settlement could not be manent, the country might have the ame thing to go all over again. Even as it is, the coal operators had dictat ed four of the members of the commis sion that will pass on the questions involved. The speaker pointed out four planks in the Kansas City platform that would have been effective in settling the strike, viz: One in favor of compulsory arbitration; the plank against government by injunction; one favoring removal of tariff on coal, and finally the one providing for govern-ment control of corporations which have become so powerful as to restrict the liberties of individual men.

Continuing Mr. Bryan said: "To my mind, one of the dangerous tendencies of the times is the tendency to limit and amend and qualify great moral principles. Take, for instance, the old commandment: "Thou shalt not steal. That is the way we learned it. It is simple and plain and strong. But now there are many who make it read Thou shalt not steal on a small scale. (Laughter and applause.) If the scale is large enough it is difficult, and I am not revealing any secret when I tell you that, as a rule, it is safer for a man to steal a million dollars in the United States than to steal \$100. But 1 yould not feel so badly about it.

my nation in my life than I was when this great republic rose superior to its great temptation, recognized the inalienable' rights of the people of Cuba and gave to them the victory for which they had sacrificed for more than a generation. Tell me we can't down the flag! I know it can be done, for they did haul our flag down Cuba, and raised in its place the flag of the Cuban republic. But there was no humiliation in it, for when we hauled our flag down we raised it higher, and when we brought it away we left it enshrined in the hearts of the people. On the night of the 20th of May I stood on a hig bluff and watched the fireworks on Morro castle and Cabanis, and they told me that when they hauled down the stars and stripes from Morro castle-that grim fortress that had been the scene of se much bloodshed and misery-that the Cuban soldiers ran forward and caught it up and said that it must not be lowed to touch the ground, and they kissed it, for they had learned to love

that flag. I want it to be loved by every human being; I want them to bow their faces before it, and thank God that there is one flag that stands for human rights."

F. E. Davey has returned from a visit with his parents in Arkansas, Mrs. Davey is visiting with her brother's family at Laramie.

Miss Caroline Paine left yesterday for a few 'week's stay in California. Mrs. Robert Glendinning returned

today from a two-months' stay in New York.

Miss Dooly gave an elegant reception Saturday afternoon. In the handsome parlors of the Commercial club to 20 adies in honor of Mrs. Adams of Denver. It was a very fine affair, and the decorations and the lunch menu were

gems.

The Pride of Brroes

Many soldiers in the last war wrote o say that for Scratches, Bruises, Cuts, Wounds, Corns, Sore Feet and Suff Joints, Bucklen's Arnica Salve is the best in the world. Same for Burns, Scalds, Bolls, Ulcers, Skin Erputions and Piles. It cures or no pay, Only It cures or no pay. Only

ublican president will be in power for tow years longer and is in a position veto any bill that at reforms in

this almed country, and therefore the Republicans of Utah are at liberty to vote for King and Rawlins without any fear that the country will be destroyed thereby. But even if it were possible for us to get the senate, the house and the presi-

dency, I think I can show you that you would not have anything to fear then "I want to call attention to some of the arguments made in behalf of Republicans, and to show that they are ulte different from those made 40 years ago. The argument now is en-tirely material. It is an appeal, not to the hearts and heads, but to the tomachs of the people. "Nothing was ever more false than

the argument that we always have good times when the Republicans are power and had times when the Demo crats are in power. It is 40 years since the Republicans first came into power and how many panles have we had!

Two. One in 1873, after the Republicans had been in power 12 years and had had time to take from the statute books every Democratic law that was unwise. The other punic occurred in 1893, under Democratic rule. So we had one panic under Republican rule and one under Democratic rule; and we had Democratic administration beginning with 1894 in which there was no pani and when times were good, which goes

to show that times are not always good under Republican rule and bad nder Democratic rule. And then strange enough, it the end of Mr. Cleveland's administration, he was so much nearer to the Republican part than to the Democratic party that he supported their ticket instead of our

and I think it was cowardly for the Republicans to take our president away rom us and use him to elect their tick t and then blame us for the hard

But I want to show you that Repub-

lican arguments have changed since 1896, and if there was reason for you to leave the Republican party in 1896 there is no reason why you should go back to it now until it has improved. In 1896 the Republicans favored bimetallism; now they want the gold standard. They tell us that we have so nuch money that we do not need any liver. I defend silver because I be-

eve in a sufficient volume of money to o business with, and today you have o loan money four times over in order to carry on the enterprises of this country and you have to have an unsafe banking system to do it.' Mr. Bryan then turned his attention

to the Fowler bill which, he explained, grew largely out of the fact that as the overnment debt is being paid off the remlum on bonds is rising and the tanks fear this will soon take the profit off bank notes. The bank feature of the blil, he pointed out, would mean that the branch would run all rivals out of town. Instead of having the management of the bank where public

He felt that the fact that American blood must be shed in the conquering of these islands for the benefit of speculators was a good reason why the people should be given

"I believe that the life of one Utah boy is worth more than all the wealth of the Philippines," he declared. "I would not give one boy of Utah for all the gold that could be piled up before Col. Bryan compared the progress made by the republic of Mexico with that of India, under British rule, and

we all know that if a man covets some-thing of small value,he is a sinner. But if a nation covets the government of another nation of 1.200 islands, there are people who call it destiny. There is a commandment that reads. Thou

shalt not kill.' Now they say that you must not kill a man-unless he has something you want. Or, as they still say, that one man must not kill other, yet, there are people who be-lieve that seventy million people car

band together to kill eight million, if they can extend their trade thereby. "Do not be deceived because the pun-ishment does not follow immediately on the crime. A man may at 50 pay th penalty for sins committed at 25, and nation may pay the penalty for sins committed 100 years before. Let me give you an illustration:

"Seventy-five years before Abraham Lincoln affixed his signature to the superlimition proclamation, Thomas emancipation proclamation, Thoma lefferson was pleading for the eman ipation of the slave. But they turned a deaf ear to his appeal, and because Utah. they would not listen to him, we paid a terrible penalty seventy years later in a war that cost us hundreds of thou-sands of precious lives and hundreds of millions of money. It is true of a nation as of an individual that th arvest is according to the sowing, and f this nation has sowed the wind it ill reap the whirlwind, though many eed times and harvests may pass be

the sowing and the reaping. "I believe that if you want to man you must give him a high ideal o take the place of the lower one, and that high ideal will lift him to a higher plane and give him a broader conception of his relation to his felows. Let me pause for a moment to apply this doctrine to a question about which we have been thinking since hat terrible act took from us our

There has been much discussion of the subject of anarchy, and many rem-edies have been proposed, but they nive all been in the line of suppres But I want to go beyond that and correct the spirit of anarchy, for there is no place in the United States for the doctrine of anarchy, but are you going to destroy the spirit of an-archy by suppression alone? No. The nations that have suppressed the man severe laws ifestations of anarchy by nave the most anarchists today.

"How are you going to destroy th spirit of anarchy? By education, and by education only. Teach the people that government is a necessity. it is. Teach them that our governmen is the best on earth. For it is. But that is not sufficient. Then it is the duty of each one to exert hims if to the utmost to make the government so good that every citizen will be will. ing to die, if need be, to preserve that government and its blessings to his The government can be great blessing or a great curse, an as the government takes from the citi zen the right to redress his own wrongs, it assumes the solemn duty protecting him from every arm up lifted for his injury; and if the gov pinion would control, it would be with rnment first disarms the citizen lrawn to another part of the country then leaves him helpless to polled by those who act under redemption of sliver was to make the sliver first mortgage on the gold, and favoritism of government, then the cit izen who has thus been despolled is then to make this an excuse for issun a good position to listen to the voice of the anarchist. He spoke of trusts, the anthracite "Yes, my friends, I believe we must

overcome evil with good. I say that I am an enthusiast in education, and American nothing made me more angry in th campaign of 1896 than the statemen of an eminent divine that we were edu cating the farm boys too much: they were getting dissatisfied with th osition that God intended for them I do not believe God ever made a man wise enough to decide in advance the position he intended my boy or your boy to fill. I do not think that God made any man wise enough to draw that line in society to say that the children of a man on one side should be educated and the children of other kept in ignorance.
