

be in front of the City Hall on the 3rd of August. I say, again, that there was no riot, judging from the testimony, and that the attack made upon Mr. W. F. Belding was a criminal assault, as charged in the complaint, made by the defendants Jones and Taylor. Captain Burt has not been proven to have had any hand directly in the assault on that individual, and he is discharged. The others we will hold for the Grand Jury, deeming the charge against them a fit subject for further investigation.

The bail was fixed at a thousand dollars each.

FROM THURSDAY'S DAILY, AUG. 20.

**Withdrawn.**—We understand that Mr. Funge has withdrawn his charge preferred against Captain A. Burt, for alleged beating of him over the head at the riot on election day.

**From Iowa.**—Mr. Daniel Brown, aged about seventy years, of Calhoun, Iowa, is in this City, on a visit to his son, Brother James S. Brown, having arrived here on the 18th. He is well known to many of the citizens of this Territory.

**Agreeable.**—The material backing down of the mercury ten to twenty degrees the last two or three days, with the sprinkling of rain that fell, has made the atmosphere much more agreeable than it was.

**Fine House.**—Bishop E. D. Woolley is having an excellent, substantial house built, in the 13th Ward, opposite the Assembly Rooms. It is ingeniously designed, both in point of convenience and elegance of style, and the work is being done as well as need be. It is surmounted by one of the finest looking bracket cornices on any building in the city. Mr. George Romney is the contractor, and the design of the building was made by Mr. W. H. Folsom.

**Re-union.**—The former members of the Norwich (England) Conference and their friends have concluded to have a re-union and have chosen the afternoon and evening of Tuesday, August 25th, for the time and the Lindsey Gardens for the place. The committee is composed of eight well-known gentlemen, either genuine Norwicheers, or parties who have lived and traveled in that land of "swimmers" (dumplings). Doubtless those who participate will spend a happy, genial time in social chat and in tripping it lightly on the dancing floor.

**Supposed Horse Poisoning.**—A team belonging to Captain John H. Hart, coal dealer, of the 20th Ward, died recently, and manifesting such symptoms as led their owner to suppose the animals had been poisoned. Should such really be the case, and it has that appearance, Brother Hart suspects that it was the result of an accident that probably some party had laid down some poisoned food for the purpose of dosing a dog, and that the horses came across it and swallowed it. Whether this be the case or no, however, those who indulge in throwing strychnine to canines should always see that the particular dog for which the bait is intended is the particular animal that swallows it, for if this caution be not adopted serious consequences may be the result.

The demise of Brother Hart's team places him in rather an undesirable position, as he measurably depended upon it as a material aid in making a livelihood.

**Thirty Per Cent.**—Brother Sam'l Bateman, of West Jordan, succeeded in recovering a little under thirty percent. of the sheep which were in charge of the late decamped Van Ettan. All who were known to have placed sheep in charge of the latter were notified to be at Bishop Miller's place, Mill Creek, and when they produced their receipts the animals were divided out among them, thirty per cent. of the number they had placed in care of Van Ettan, about fifteen hundred head having been allotted in this way. After this division had taken place it was discovered that there were some others who also held receipts, but who had failed to come forward, among whom were Bishop Kesler, who was out about one hundred head, and Joseph Toronto about eighty. There are still about thirty head of the recovered sheep remaining, which, we presume will be divided among those last named gentlemen. They are in charge of Brother Henry

Beckstead, of West Jordan, into whose care all those who received their share of the recovered sheep turned their proportion.

**The Coming Winter.**—There is no disguising the fact that a large number of working people are at present without employment, owing to the dullness of the times, the present season having been the flattest for business for several years. Some anxiety is being felt by numbers with regard to the "blueness" of the prospect for the approaching Winter, and it does appear as if working people generally would have considerable difficulty in "making ends meet." In view of this condition and the prospects of the future, it is the duty of those who are blessed with means to make improvements and provide labor for as many persons as possible. It would be advisable for all workmen who can do so to lay in an extra store of breadstuffs and potatoes at least, to provide against the inclement season when what little work may be in progress will generally have to be suspended.

There are but few people who have any means or income but can make some improvement, if it be no more than putting up a few rods of fence, having a coat of paint put on their houses, erecting necessary buildings, &c., and if each would do but a little the aggregate would be large, and numbers of people who are now idle would have employment, and the means of subsistence.

**More Rowdiness.**—The young fellows, six in number, who were arrested for making a *charivari* disturbance, in the 16th Ward, on Monday night, were fined \$5 each yesterday, which they paid, and it appears probable that the police officers will have to go after them again, for circumstances which transpired last night show they are a cowardly, peace-disturbing lot of rowdies.

The same parties went to the house of a young man whom they suspected of having complained against them for their doings on Monday night, and threatened and abused him in a shameful manner, but did not then strike him. They also stopped two gentlemen in the 19th Ward, about 8 o'clock, who had appeared as witnesses against them, and the young scamps cursed and swore at and threatened them because they had testified in the case. They prevented these gentlemen from passing along on their way for at least three quarters of an hour. People in the neighborhood gathered around and advised them to desist, which, however, only appeared to make them behave themselves still more obnoxiously, if that were possible.

The duty of those parties thus stopped upon the public street, assaulted, abused and threatened is straightforward and plain; they owe it to the community at large, as a duty, that they enter complaint against those would-be "hoodlums," that they may be arrested and properly punished according to their demerits. There appears to be a growing disposition on the part of a certain element among the young men to run things their own way, and who seem to imagine that they can create disturbances, assault and annoy people and play off uncouth practical jokes on them with impunity, but the sooner they are taught that such things cannot be done safely the better. Let every case that occurs, it matters not who the guilty parties may be, be brought promptly before the police authorities and as promptly disposed of by proper punishment, and this spirit of "hoodlumism" will be checked in the bud.

We advise all well disposed boys and young men not to associate with those who persist in such conduct, that they themselves may not come under the influence of such a spirit, for indulgence in it invariably leads from bad to worse. Young men who so far forget themselves as to make themselves so obnoxious to all respectable citizens, divest themselves of every manly trait of character, and they would do well to bethink themselves regarding what they are doing, and stop before they get too far along the wrong road. As for "hoodlumism," let it be put down with a strong hand and effectively.

FROM FRIDAY'S DAILY, AUG. 21.

**From Tooele.**—Sheriff Lee, of Tooele, is in town, and County Treasurer Atkin was expected in

this evening, the object of the visit of both being to appear in Court in the mandamus affair to-morrow morning.

**Narrow Escape.**—There was a runaway in the 7th Ward yesterday, and a little girl about thirteen years of age, with an infant in her arms, jumped out of the vehicle while it was going at a rapid rate, and, strange to say, both were unhurt.

**A Strange Day.**—To-day has been a strange day for August in this valley. The usual torrid heat and glaring sun of the 90's have given way to the comparatively low temperature of 64 degrees in the afternoon, gloomy clouds, with thunder, lightning, and pelting rain-storms. But it is much more tolerable than riotous carpet-baggers.

**Physical Argument.**—Yesterday two men who were playing at billiards, at the Townsend House, differed about the game, and being each unable to convince the other of his error by logic, at once commenced to beat the truth, as they understood it, into each other with their fists. The bigger of the two soon unceremoniously adjourned to wash a disfigured and demoralized head, which the other had inflicted on him.

**A Big Strike.**—A vein of rich chloride ore, four feet thick, has been struck in the "Full Moon" mine, Little Cottonwood, located east of the Vallejo, and the owners of the promising claim are consequently jubilant. A tunnel has been dug into the mine two hundred feet in length, four feet of which penetrates a fine body of ore, samples of which we have seen, and which have the appearance of being very valuable.

**Weather.**—There has been one of those thunder and lightning storms to day, accompanied by a delightful, heavy shower of rain, intermingled with a sprinkling of hail. The only harm the storm will be likely to do will be the delaying of haying for a short period, as time will have to be given that product to dry before it can be stacked. The shower will have the effect of allaying the "water fever," which has been running pretty high this season.

**That Water Tank.**—The water tank for fire purposes, which the City Council decided, last Tuesday, to have constructed on or near Commercial Street, has been located and the work of digging it has commenced, under the direction of Supervisor Hyde. Its location is on Commercial Street, midway between First and Second South Streets. This tank would be a great aid in case of a fire on that portion of the East side of East Temple Street which runs parallel with Commercial St., the most combustible portion of the buildings being in the rear.

**Severe Infliction.**—The greatest inflictions to-day of the Western Territories are carpet-baggers and codling-moths. If the people had the privilege of choosing the least of these two evils they would at once decide in favor of the moths, as being the least voracious. The moths are more successful, thus far, than the carpet-baggers, as the former succeed in boring away till they reach and devour the core of the golden orchard apple, while the latter bore with equal persistency to get into the apple of the people's prosperity, that they may gnaw at its financial core.

**After The "Celestials."**—The City Marshal has been after the Chinamen to-day. He had about half a dozen of the Mongolians taken before Justice Pyper, on charges of creating and maintaining nuisances at their wash houses, in the neighborhood of Rag Alley and Phin street. They were fined \$5 apiece.

The effluvia which arise from some of those Chinese establishments are unbearable this hot weather, and there are other places, not kept by Chinamen, which are nearly if not quite equal in point of filthiness, and which need the attention of the City Marshal.

**The Tooele Election Matter.**—By letter from Tooele we learn that papers have been served upon T. Atkin, County Treasurer, summoning him to appear before Judge McKean and show cause for refusing to file Mr. Brown's (liberal candidate for Probate Judge) bonds. The reason assigned by the treasurer for not accepting the bonds was

that the county clerk had not issued a certificate to show that any person had been elected to the office in question. Brown claims to have a certificate of the abstract of the election returns, which he says he received from F. H. Hamner, said to be a deputy county clerk, but no such clerk is known.

The hearing of this alternate mandamus case is set for tomorrow morning at ten o'clock.

**Another Sudden Death.**—This morning Mr. Edward Wilson, of the 9th Ward, an old resident of the Territory, was in his usual health, and being an industrious man, as was his custom, went to work. He was engaged in laying brick at a place near the 9th Ward School-house, when he dropped suddenly to the ground dead, with his trowel in his hand. We understand deceased was between fifty and sixty years of age. Coroner George J. Taylor went out this forenoon for the purpose of holding an inquest on the body.

For sudden and unlooked-for deaths, severe and fatal accidents, and other casualties we believe that the present year, thus far, has been unparalleled in the history of this City, this sudden and unexpected demise of Mr. Wilson being but another addition to an already somewhat formidable list.

We have just received the verdict given in the case by the coroner's jury. Here it is—

"Territory of Utah,  
County of Salt Lake."

"An inquisition holden in the First Precinct, Salt Lake City, at 11 o'clock a.m., August 21st, A. D., 1874, at the residence of Henry Lovesey, upon the body of Edward Wilson, there lying dead, before George J. Taylor, Coroner of said County, by the jurors whose names are hereto subscribed.

"The said jurors upon their oaths do say that he died of apoplexy.

"In witness whereof we hereto set our hands the day and year above written.

"WM. KEDDINGTON,  
JOHN WHITING,  
WM. CUNNINGTON.

"GEORGE J. TAYLOR,  
Coroner."

The evidence given at the inquest showed that Mr. Wilson fell suddenly forward upon his face, gave one groan and expired almost instantaneously. The Doctors Benedict and Dr. Crockwell pronounced the cause of death to be apoplexy.

Deceased was born Dec. 25, 1816, at Wixon, Leicestershire, England. He joined the Church of Jesus Christ of Latter-day Saints in 1843.

The funeral services will take place at the Ninth Ward school-house at 10 a.m. on Sunday.

FROM SATURDAY'S DAILY, AUG. 22.

**Recovering Rapidly.**—We were pleased to meet Brother Paul A. Schettler, City treasurer, to day, who is fast recovering from his late attack of paralysis. He can move his right hand and arm, and is able to walk some with a little assistance. This will be welcome intelligence to his many warm friends. He is hopeful soon to be able to resume the duties of his office.

**Another Nuisance Breeder.**—Another Chinaman was arrested and fined \$5 to-day for creating and maintaining a nuisance, and the City Marshal proposes going after other parties, not Mongolians, who make nuisances and endanger the property of citizens by having stove pipes near inflammable materials, etc., regarding all of which nuisances due notice has been given the persons interested that they must be abated.

**Wanted a Pig-Stye.**—It is suggested to us that a pig-stye is wanted for those seven porkers running at large in the streets. If pigs are to be allowed to run at large, some citizens will decidedly object to the destruction of the dogs, and will desire either the securing of the pigs or the making of them register and wear collars. Objection is preferred to these invidious distinctions between hogs and dogs on the public streets.

**University Fall Term.**—The Fall term of the Deseret University commences on Monday next, Aug. 24, with an able corps of professors in the different departments, and a determination on the part of the Chancellor and Regents and the Principal and his associates to maintain and increase the high character to which the institution has attained.

Those persons who wished to learn further particulars concerning the courses of study, terms, etc., of the institution should send to the Principal, Dr. Park, for a circular.

**The Excursion.**—The Franklin excursionists reached this city last night by the regular train, after spending a most agreeable time in Cache, no accident having occurred to mar the enjoyment of the occasion.

Thomas & Co's triple band was along and supplied excellent music, two social parties having been held, one at Franklin, on Wednesday night, and the other at Logan on Thursday night. The band also went out serenading at both places named.

Much credit is due to Messrs. Pike and Conrad for the satisfactory manner in which the excursion was conducted.

**Terrible Accident.**—Yesterday while some ore cars were being switched at Fairfield Flats, on the W. & J. V. Railroad, a boy, eleven years of age, named Firkin, attempted to climb up on the front end of the front car while it was in motion, and tried to get on to the draw-head, but was unsuccessful. A man who was near saw the dangerous predicament of the lad and shouted to him to hold on till he could pull him upon the car. This man jumped upon the car but before he could reach the boy the latter had let go his hold. He fell in front of the wheels, which passed over him, crushing and mangleing his right arm in a fearful manner, in fact almost severing it from the trunk, and breaking his right leg above the ankle.

The boy was taken to Sandy, the Drs. Benedict were telegraphed to at this City, and they went down on a special provided by W. Jennings, Esq. The surgeons named amputated the arm of the little fellow. They brought him to this City, in order that he might be under their more immediate attention.

We learn that not the slightest blame can be attached to the railroad company or any of its employees in connection with the accident.

The parents of the unfortunate boy reside at Mill Creek.

**"Utah Affairs, Congress and Polygamy."**—This is the title of a pamphlet, published at the DESERET NEWS OFFICE, and now ready for sale. It contains a series of nine letters, which, as its author states, are intended to give their readers some acquaintance with affairs in Utah, political, religious and otherwise; and to show, in some degree, the real objects certain men have in view in urging upon Congress special and proscriptive legislation for Utah. The letters have the following titles respectively: No. 1—"Poland Bill Amendment—The Governor's Course—The Judiciary—The Utah Ring." No. 2—"Powers of Territorial Legislatures—The Legislature and Judiciary—Mormon Juries." No. 3—"Polygamy—N. Y. Merchants' Memorial—The Judiciary—Utah Juries." No. 4—"Judiciary and Juries—Utah Jury Law." No. 5—"Peculiarities of Utah Bills before Congress." No. 6—"No Appeals in Criminal Cases—Exclusion of 'Mormons' from Juries." No. 7—"Jurisdiction of Probate Courts." No. 8—"The Territorial Marshalship and Attorneyship, and the Jury Law." No. 9—"The Principle of Plural Marriage." Besides the preceding letters the pamphlet contains the full text of the notorious Poland Bill. All interested in Utah and in the hardy industrious people who settled it, and have transformed it from a wilderness into the most prosperous Territory of the American Union, will find considerable information in this pamphlet regarding many of the difficulties of a political nature with which they have to contend, and also in regard to the efforts of the unscrupulous carpet-baggers—judges, marshals and federal officers generally, to bring them in conflict with the General Government, to deprive them of their rights as citizens of the American Union, and to oust them from their hard-earned but now desirable possessions; and within its pages will be found the opinions of leading men in Congress, denunciatory of the proscriptive and thoroughly anti-republican legislation so long and persistently urged against them. A good work to send to friends, and for the perusal of all interested in Utah affairs. Price twenty-five cents.
