He was locating some mining claims at Lion Hill and Silverado, After doing so he started to return of horseback, but before reaching Ophin he was thrown from his horse and knocked unconscious in the fall. He laid there in the bitter cold until about midnight, when he roused himself, got up and walked into Ophir. coming event, so much so that it has become imperative that additional cierical help will be required during the closing days prior to the big-event. Everybody is putting his shoulder to the wheel and the various committees are working like clockwork to bring about the very best results possible.

The one great problem that now faces the committee is that of housing the numerous visitors when they arrive. It is estimated that there will be at least .000 strangers within our gates during ho week commencing January 14th.

This big crowd can be accommodated providing those residents who have a coom to spare will throw open their doors for a few days. The committee under the leadership of Fisher Harris is vigorously canvassing the city for all available rooms, and a list of them is being kept on record at headquarters so that the visitors who have not secured accommodations in advance at the otels will not have to wander fortorn-

y around seeking accommodations. It s proposed to have men board the inoming trains some sixty miles out and make a canvass of the cars with the result that when the trains arrive in Salt Lake the visitors may be driven to their assigned apartments without delay.

The National Sporting club of San Francisco nas been granted a license by the city supervisors to hold a box-in gshow, and will open the new year with the fight between Root and Byers. This is the first club on the coast to get a permit to hold a fight, and if nothing questionable happens the chances are a few other clubs will also receive licenses. All of the prominent fighters will come to the coast if the sport is allowed to thrive here.
