Local Japanese Protest Against Coming Match in Salt Lake—Declare It Unfair to Sport.

Jiu-jitsu has been the most bandied about art before the American sporting world of today, and there is hardly a wrestler of prominence that has not recently expressed some opinion derogatory or otherwise of the profession... Local Japanese protest against coming match in Salt Lake—declare it unfair to sport.

average Jap. He often wrestled on the gym floor last year with our best athletes and had no difficulty handling the biggest m.-a.-men often weighing much more than he, and tolerably skillfully in the grip and wrestling.

TODA KIMOOBE'S PROTESTS.

The protest to the coming match by the local Japanese boy follows. It is accompanied by a personal note which reads in a quaint Japanese idiom: "Though I, a captive of the illness about two months, am not able mentally or physically to write any composition, I cannot but insist upon the affair goes contrary to my country's wish."

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. I. A. Brooks, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

A silver cup, or other trophy. This is the jiu-jitsu and its present status in Japan.

"We wish the public of Salt Lake City to recognize it not the profession of a prize fighter, but a weapon beside martial weapons through all ages. Otherwise it is part of the national spirit of Japan."

PROF. ROBINSON EXPLAINS.

The above letter of protest was shown to Prof. Eddie Robinson today. He said: "I arranged the match with Sato, who agreed to furnish the Jap, and we were going to pay \$1,000 on the side. This letter seems to throw cold water on the proposition. Well, I am perfectly willing to meet any Jap of my weight and size, under any rules that allow me to use the catch-as-catch-can method. They can look us in a room, if they say the jiu-jitsu is a method of self defense, and let the one that can walk out take the purse."

SATO WANTED CHIBA.

Sato's pursuance of Mr. Chiba, according to a rumor among Japanese here, failed because of Sato's declining to bet at all, because Sato, as an individual, had negotiated on a business basis.

Mr. Chiba is not a prize-fighter and this gentleman would wish a direct negotiation with a sporting editor or with a manager of an athletic club or with any person who stands high in the community of Salt Lake City, on an invitation to show the jiu-jitsu performance.

EXHIBITION UNFAIR TO SPORT.

"Is the man who marches against Prof. Robinson a jiu-jitsu expert? We do not know anything about him, even Sato does not mention his name to us. We fear that the outcome of this contest, not that of win or lose, would not introduce the true test of jiu-jitsu before the public."

RUSSIANS CAPTURED BY IT.

"Let me write a few words regarding the great conditions of jiu-jitsu in Japan. The jiu-jitsu is not a profession of prize-fighting. It is a weapon of the last instance, when a man has charged the enemy and by their equal strength and skill their bayonets have broken, and their swords had clashed into pieces, then they go into physical combat such as that on the Manchurian front where the Japanese captured many giant Russians."

AN ANNUAL CONTEST.

"Jiu-jitsu as a national game is contested once each year at Kyoto under the auspices of Butoku-kai. Its president is a member of the royal family. Butoku-kai calls two to three hundred men from every jiu-jitsu school, and the jiu-jitsu clubs in high schools, universities, the army and the navy colleges. Here the contest is held in a scientific manner. They undergo rigid and arduous training and the winner is awarded with a diploma."

A FULL DOLLAR'S WORTH FREE. CAN ANY AILING ONE REFUSE?

I will pay outright for your first dollar bottle of Dr. Shoop's Restorative. I ask no deposit—no promise. You take no risk—you pay nothing, either now or later.

The dollar bottle is free to those who have not tried my remedy. I want no reference or security. The poor have the same opportunity as the rich. To one and all I say, "Merely write and ask." I will send you an order on your druggist. He will give you free, the full dollar package.

There is no mystery—no miracle. I can explain my treatment to you as easily as I can tell you why cold freckles, water and why heat melts ice. Nor do I

claim a discovery. For every detail of my treatment is based on truths fundamental and cannot be denied them. Every ingredient of my medicine is as old as the hills, and combined the ingredients make a medicine of which I feel certain. The paragraphs below will show you the truth.

But my years of patient experiment will avail you nothing if you do not accept my offer. For facts and reason and a cure, only this remedy can do that.

So now I have made it plain. I lay aside the fact that mine is the largest medical practice, and come to you as a stranger. I ask help where they find it. I am not a doctor, but I am a man who has tried for yourself to give you a full dollar bottle of Dr. Shoop's Restorative. One who else has ever done every possible thing for you. It is the utmost my unbounded confidence can suggest. It is as frank and fair, it is the supreme test of my limit-

Inside Nerves!

Only one out of every 28 has perfect health. Of the 27 sick ones, some are bed-ridden, some are half sick, and some are only dull and listless. But most of the sickness comes from the inside nerves. The nerves are weak. Not the nerves you ordinarily think about—not the nerves that govern your movements and your thoughts.

But the nerves that, unguided and unnumbered, night and day, keep your heart in motion—control your digestive apparatus—regulate your liver—operate your kidneys.

These are the nerves that wear out and break down.

It does no good to treat the ailing organs—the irregular bowels—the deranged kidneys. They are not to blame. But it does go back to the nerves that control them. There you will find the seat of the trouble.

There is nothing new about this—nothing that any physician would dispute. But it was forgotten by Dr. Shoop to apply this knowledge to put it to practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not dose the organs or the nerves. It does not break down the nerves—the inside nerves—the power nerve—and builds it up, and strengthens it—and makes it well.

Many Ailments—One Cause

I have called these the inside nerves for simplicity's sake. Their usual name is the "sympathetic" nerves. Physicians call them the "sympathetic"
