

THE ARBITRATORS ARE SUMMONED

President Calls the Commission
Together.

THEY WILL MEET FRIDAY.

How Meetings Will be Held in Wash-
ington—Impossible to Say How
Long Hearings Will Continue.

Washington, Oct. 21.—Shortly before 10 o'clock this afternoon President Roosevelt received a telegram from the Wilkes-Barre informing him that the convention of miners had declared off the anthracite coal strike. The telegram was signed by John Mitchell, chairman, and W. B. Wilson, secretary of the convention, and was identical with that made public at Wilkes-Barre before noon today. Immediately upon receipt of the information, the following telegram was sent to Mr. Mitchell: "Upon receipt of your telegram of this date the president summoned the commission to meet here Friday next, the 24th inst., at 10 a. m. George B. Carvel, Secretary."

News of the termination of the strike was received by the president with great satisfaction. Before the formal telegram from Mr. Mitchell had reached him he had been informed through the Associated Press of the convention's favorable action. Soon afterward Col. Carroll D. Wright, commissioner of labor, the recorder of the arbitration commission, gave to the president the information contained in telegrams which he had received from Wilkes-Barre.

Already telegrams had been sent to the members of the commission, notifying them of the first meeting, to be held in this city on Friday morning, and summoning them to be present. The meeting will probably be held in the office of Commissioner Wright, in the department of labor. After the commission has effected its organization the members will call in a body on the president to pay their respects. At that time it is expected that he will embrace the opportunity to give the commission such verbal instructions as he may care to present to it. Besides the formal letter of instruction, the president at the time of the appointment of the commission will call in a body on the president to pay their respects. At that time it is expected that he will embrace the opportunity to give the commission such verbal instructions as he may care to present to it. Besides the formal letter of instruction, the president at the time of the appointment of the commission will call in a body on the president to pay their respects. At that time it is expected that he will embrace the opportunity to give the commission such verbal instructions as he may care to present to it.

RESOLUTIONS OF THANKS.

Wilkes-Barre, Pa., Oct. 21.—After the miners had called the strike off today, they unanimously adopted resolutions thanking all national, state and municipal governments, all organizations and individuals throughout the world for assistance rendered during the great struggle. These resolutions in full are as follows:

"Whereas, we, the anthracite mine workers of Pennsylvania, have been on strike for more than five months in defense of the constitutional right to membership in the organization of our choice and to secure for ourselves

IT MATTERS NOT

How Sick You Are or How
Many Physicians Have
Failed to Help You.

Dr. David Kennedy's Favorite Remedy will
Cure you if a Cure is Possible.

Doctors are not infallible and there are many instances where they have failed. A case was hopeless and then the patient astonished everyone by getting well and the sole cause of their cure was Dr. David Kennedy's Favorite Remedy. A case in point is that of James Lettice of Canajoharie, N. Y., who writes:

"Some years ago I was attacked with jaundice in my back and side that were fearful in the extreme. I could not control my kidneys at all and what came from them was poisonous and bloody. I was in a terrible state and suffered intensely. The partner of Dr. Vanderwey of Albany, N. Y., decided that an operation was all that would save me. I decided that and commenced to take Dr. David Kennedy's Favorite Remedy. I felt better almost instantly. When I had taken about two bottles, the flow from the bladder was much clearer, the pain stopped, and I was saved from the surgeon's knife and am now well."

Dr. W. H. Morse, the famous physician of Westfield, N. Y., has this to say of this great medicine:

"I have known it to cure chronic inflammation of the kidneys, where the attending physician pronounced the case incurable."

No form of kidney, liver, bladder or other disease, or the distressing sickness so common to women, can long withstand the great curative power of this famous specific. "A small quantity of this wonderful medicine has more curative power than barrels of other remedies," says a prominent New York physician. Its record of cures has made it famous in medical circles everywhere.

"All druggists sell Dr. David Kennedy's Favorite Remedy in the NEW KIDNEY PILLS."

Small bottles 25c and 50c. Sold by Dr. David Kennedy Corporation, Rondout, N. Y.

Dr. David Kennedy's Salt Rheum Cream cures Old Sores, Skin and Scrofulous Diseases, etc.

"A LASTING INVIGORATOR Is Pe-ru-na"—So Say the Athletes.

A Nebraska Athlete Gives a
Glowing Tribute
to Pe-ru-na—
Cured of Catarrh

DAN BALDWIN, OF OMAHA, NEB.

"IT
HAS
CURED
ME."

A Letter From the Physical Director
of the Omaha, Neb., Metropolitan
Police Force.

DAN BALDWIN of Omaha, Neb., is a wrestler of national as well as local reputation. He is Physical Director of the Omaha Metropolitan Police Force, and is considered the strongest man in the state of Nebraska. But even the finest physique and best trained muscles cannot protect a man from disease. Mr. Baldwin suffered with catarrh. Instead of waiting for the ravages of catarrh to extend through his system, destroying that magnificent strength, at its first approach he took Peru-na. He did not first try snuffs, enemas, and other kinds of local treatment, but used Peru-na, the only internal systemic catarrh remedy. In a short time he was able to write the following letter to the Peru-na Medicine Co., of Columbus, Ohio:

Omaha, Neb., Oct. 25, 1900.
"I take great pleasure in recommending Peru-na, your valuable remedy for catarrh. It has cured me with the use of three bottles, and I can cheerfully recommend it to anyone suffering with the same disease."
—Dan Baldwin, Central Police Station.

The muscles depend upon the nerve centers for their strength. The nerve centers become exhausted and weak. With weak nerve centers, the muscles become flabby and no amount of training can develop them. Thus it is that strong muscles depend upon healthy nerve centers. Healthy nerve centers depend upon good digestion. Good digestion depends upon clean mucous membranes, free from catarrh.

No man troubled with internal catarrh can ever become an athlete.

Peru-na is not a flashy, quick-saline

vomage. The schooner is now in the vicinity of Michigan canal to which it made its way by passing down the drainage canal from this city.

Corrigan is the only man of the four who has any knowledge of the mine, which is said to be in the interior of Patagonia, and to which the natives, it is said, have heretofore penetrated all white men from gaining access.

MRS. KINGSLEY RECOVERING.

Is the Woman Whose Heart Was
Sewed Up.

New York, Oct. 22.—Mrs. Annie Kingsley, a 22-year-old woman whose heart was sewed up with six stitches, at Bellevue hospital, is progressing satisfactorily and is expected to recover. Her husband who is held by the police has been remanded to await the outcome of the remarkable surgical operation.

New York Plasterers Strike.

New York, Oct. 22.—After voting not to accept an ultimatum from their employers, 1,200 plasterers have decided to strike today. Laborers to the number of 400 also will be affected. The employers' ultimatum was a scale of \$1.50 instead of \$3.00 a day and the right to select their own foremen. Work on many large buildings will be interrupted.

Builder of the Cardiff Giant Dead.

New York, Oct. 22.—George Hull, who built the "Cardiff Giant" is dead here, says a Hingham, N. Y., dispatch to the World. Hull, who was something of an inventor, was credited with having manufactured, in 1869, the figure mentioned. It was said to have been made from stone secured near Fort George, Maine. "The Giant" was taken to Cardiff, the story runs, and was later dug up as a relic of prehistoric races. It caused considerable speculation and was widely discussed.

ADOPT AMERICAN PLAN.

Glasgow Takes Up Special Property
Assessment.

New York, Oct. 22.—Glasgow, ever alert in taking up the progressive issues of municipal government is leading the way toward a new system of taxation of land values in conformity with the American practice, enables the reformers of that town have advocated for a long period a special assessment plan by which a portion of the expense of local improvement can be charged against the property directly benefited. This principle, in common use in America, is unknown in England and London progressive also have favored a betterment in the present principle and have urged the necessity for taxing ground rents and unoccupied land.

An important conference summoned by the corporation of Glasgow has been held to consider a recommendation to parliament for subjecting to taxation land values now exempt. A committee was appointed for taking direction of the movement.

The proposed changes are the natural sequence to the steady increase in the expense of local government which has fallen exclusively on the tenants, unimproved areas not being rated at all and the cost of permanent improvements being defrayed out of the ordinary rates based upon rental values.

Cleveland to Tammany.

New York, Oct. 21.—It was learned today that Tammany hall has received a letter from Grover Cleveland in response to an invitation to be present at the Tammany hall mass meeting tomorrow night, when David R. Hill is to make an address in behalf of Cleveland. The letter will be read at the meeting.

DOUBLE LYNCHING DOWN IN TEXAS.

Condemned Negroes Taken from
Authorities and Hanged.

BOTH HAD PLED GUILTY.

After Their Sentence, White Officers
Were Sitting Outside, Mob Suddenly
by Seized Prisoners.

Hempstead, Tex., Oct. 21.—After being tried in legal form and procedure for criminal assault and murder and being sentenced to death by hanging, Jim Wesley and Reddick Barton, negroes, were late this afternoon taken from the authorities of the city and lynched in the public square by an infuriated mob.

The district judge yesterday asked the governor for troops to accompany the negroes here from the jail at Houston, where they were safe.

At the request of a large number of citizens of Hempstead, who, is said, signed a written promise to aid the authorities in preventing any mob act, Judge Thompson this afternoon countermanded his request and the troops did not accompany the negroes.

Barton was tried first. He pleaded guilty to criminal assault and then to the murder of Mrs. Susan Lewis, aged 63, on Sunday, Oct. 12. The jury, on which there were several negroes, promptly returned a verdict imposing the death penalty.

During the afternoon Wesley was put on trial. He pleaded guilty to the assault and then to the murder charge. While his trial was proceeding a mob broke into the courtroom and attempted to take him, it having been ascertained that the sheriff had asked for troops.

The mob was dispersed, however, and the trial proceeded, the state putting through its testimony in corroboration of the plea of guilty. In this case, too, the officers of the court sat about the room at the conclusion of the trial when there was a sudden movement and the two prisoners were hustled to the public square and there executed by hanging.

Neither of them had been sentenced. Although District Judge Thompson had positively refused to permit them to waive the 20 days of grace allowed by law.

The suggestion to burn the negroes met with small favor. It was the general desire that they be quickly hanged. They were hanged to the arm of a telephone pole, where only last month another murderer had been hung by a tree.

REQUEST FOR TROOPS.

Austin, Tex., Oct. 21.—Late this evening Gov. Sayres received a telephone message from Sheriff Chasmon at Hempstead, asking for state troops post haste, as a mob was trying to get two prisoners away from him.

This was followed by a telephone from the district judge, asking for troops by special train. Orders were issued for the Houston and Bryan companies to respond, but before they could be assembled the mob had broken the negroes and the order was countermanded.

The governor, in view of the assurance of the citizens and officers of Hempstead, did not anticipate that soldiers would be necessary to protect the prisoners.

Many Immigrants From Italy.

New York, Oct. 21.—These are busy days for the immigration officials and the population of "Little Italy" has been swelled to the extent of 2,000 persons landed in the last 24 hours.

Arrangements are being made for the landing today of 4,700 more immigrants, three-fourths of them from Italy.

How the Mullah Got Arms.

London, Oct. 21.—An official connected with the Red Cross in an interview published in the Star today, says: "The Mullah and other turbulent chiefs have been liberally supplied with rifles by American and German in the case of the British gunboats. The rifles supplied by the Americans were done up as cotton goods. This explains the frequent reference in consular reports to the fondness of Somalis for American calicos and shirtings. It is not called the Somali prizes, but rifles inside the calico."

Old Man Brutally Murdered.

Los Angeles, Cal., Oct. 21.—A brutal murder was committed in the Chinatown district and the body of the victim discovered at 8:30 o'clock this morning. Andrew Brod, an old man who kept a little restaurant at 61 North Alameda street, was found dead in a room in the rear of his little shack. He had been literally hacked to pieces, more than 12 deep stab wounds marring the body. Six of them were on the right forearm, with which he had apparently attempted to ward off the murderous blows, and six in the body. Any one of the latter, in the opinion of the police surgeon, was sufficient to have caused death. The wounds were inflicted by a long-bladed knife, as each of the body stabs was six inches deep.

BABY'S VOICE

feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address
