

# LEGISLATION IN THE HOUSE.

## Some Post Senatorial Election Measures Introduced.

## INCLUDES SEVEN NEW BILLS

## Little Business of Importance Before the Lower Branch Yesterday After- noon—What Was Done.

But little regular business was done in the House yesterday afternoon, after the usual routine had been got through with seven new bills were introduced and had their first reading. The second reading was being proceeded with when it was announced that the Senate was ready to join the assembly and regular business was suspended. The bills are: House bill No. 34, by Holzheim, deals with the criminal jurisdiction of justice courts. It eliminates from the third clause of section 61, Revised Statutes, the feature that allows of both imprisonment and fine for one offense of breach of the peace and some minor offenses.

House bill No. 35, by Holzheim, is a bill to prevent the compelling of employees, etc., to trade with any store or board at any boarding house by means of coercion, intimidation or otherwise.

House bill No. 36, by Holzheim, is an act to amend the statutes relating to place of trial in justice courts.

House bill No. 37, by Smith, is an act to amend the statutes relating to annual exhibitions of agriculture and mineral products, manufactured articles and domestic animals. By the provisions of the act it is provided that the fair association may consider adjuvantageous. The exhibitors must be residents of the State.

House bill No. 38, by Smith, is to amend the statutes relative to appeals to the Supreme Court. This act would allow of the appealing of equity and other non-jury cases without motion for new trial.

House bill No. 39, by Evans, is to amend the statutes regarding the uses in which the right of eminent domain may be exercised. The bill makes the laying of pipe lines, convey liquids connected with the manufacture of beet sugar one of the uses.

House bill No. 40, by Evans, is to amend the statutes regarding costs on appeal from justice to district courts, providing that the appeal costs be awarded to the prevailing party. The loser in a justice court case, as the statute stands, is entitled to costs on appeal in cases in which the prevailing party's judgment before the justice is reduced by an amount greater than the appeal costs. Another provision of the bill is that if the prevailing party appeals and fails to recover in the district court a sum greater than the first judgment and costs on appeal, he shall not recover costs on appeal.

The committee on contingent expenses reported favorably on bills for the first month's salary of House employees and the compensation and mileage of members. The report was unanimously adopted.

## FIGHT LEGISLATIVE BILL.

Physicians Will Guard Their Position Before the State.

The Salt Lake Medical society met last night in the Atlas block for the purpose of taking some steps to prevent the passage of the anti-compulsory vaccination bill that is now pending in the Legislature. A committee was appointed to draw up the prerogatives of the health board against any invasion, as they termed it, and was composed of Drs. J. S. Richards, C. F. Wilcox, A. C. Maclean, E. S. Wright, H. W. Fisher and J. F. Critchlow. This committee will go before the Legislative committee that has the bill in hand and lay before it all the reasons that the doctors have, why their power and rights should be held sacred from the touch of a legislative hand. Some of the physicians present last night thought that if the State should abridge their rights in the matter of vaccination the members of the health board ought to resign and let the other fellows run the concern for awhile. But Dr. Beatty thought differently. He said the health officers are only born for martyrdom, that it was their duty to fight ignorance, fanaticism and prejudice.

There were present at the meeting Drs. S. C. Baldwin, T. B. Beatty, M. R. Stewart, J. C. King, A. C. Maclean, H. S. Scott, A. A. Kerr, P. E. Jones, J. S. Richards, H. W. Fisher, L. A. Lyon, E. Root, L. W. Snow, J. F. Critchlow, C. F. Wilcox and G. W. Baker, of Ogden.

President Lyon called the meeting to order and Dr. Beatty was called on to make a brief statement of the object of the meeting. He said that it was called for the purpose of taking some action relative to the bill that is now pending in the Legislature looking to the curtailment of the power of the health board, which he said was none too comprehensive at the present time.

In the general discussion that followed Dr. H. J. Scott stated that there had been 326 cases of smallpox in Salt Lake since last October, and that very few of the victims had been vaccinated in recent years. He expressed a serious concern that the legislative committee to see a case of the disease if they also were endowed with Missouri instincts.

An address on the subject of smallpox and vaccination was read by Dr. Beatty, who expressed the intention of circulating the address throughout the State.

After some discussion President Lyon appointed the committee named above, and the meeting adjourned.

## ST. PAUL'S RECTOR RESIGNS

Rev. Ellis Bishop Will Return to the East.

Rev. Ellis Bishop has resigned as the rector of St. Paul's Episcopal church in this city, his connection with the parish to be severed the first Monday after Easter. The victory received the resignation three weeks ago but it was kept secret until last evening. Mr. Bishop has resigned because of ill health, due chiefly to the altitude. He is now in Honolulu taking a rest but will return early in February. He has been rector of St. Paul's for three years, and has, in that time, endeavored himself to hosts of friends who will keenly regret his departure from their midst.

Mr. Bishop will go East. His successor has not yet been decided upon.

## CHINESE RAISE TROTTERS.

Ho Yow, Consul General at San Francisco, in Business.

He Has Already Purchased Three Promising Colts, a Gelding and Two Mares.

San Francisco, Jan. 24.—The Examiner says: Ho Yow, Chinese consul general at this port, is going into the business of raising trotting horses for profit and pleasure. He has completed negotiations for a farm near San Jose, which will be operated practically exclusively by Chinese. Aside from an American overseer, Chinamen will be trained to do all the work. Already Ho Yow has purchased three promising colts, a gelding and two mares. Speculatively constructed stables and all the equipment of a racing stable have been ordered, all of the most expensive kind. The horses will remain on the local track until the stock farm is ready for occupation. Ho Yow will bring a number of trotters and will be entered on the coast circuit this year, until time to go east, when they will be sent to Kentucky. He will have entries in the big stakes.

## TROUBLE OVER BASEBALL.

Protective League of Players on Verge of Disintegration.

New York, Jan. 24.—A special to the World from Baltimore says: The Protective League of Baseball players is apparently on the verge of disintegration. The officers of the organization have not been able to resist the alluring bait thrown out to them by the National league managers. Captain Joe Kelley, of the Brooklyn, is especially prominent in the action of Bill Clark and Hugh Jennings. Kelley said:

"The officers of our association are not doing right, in my judgment. They neglect to resign and let the other fellows run the concern for awhile. But I am not going to do that. I am going to stay and fight."

There are many other players who are of the same mind as Kelley, the Officers and the players to hold out and not sign. Here is Clark, our secretary and treasurer, getting a berth as a manager in the new association, and Jennings, who is our manager for a managerial position in Boston.

"That don't look right, and you may put me down as saying so. I would advise every player to sign whatever contract he likes, but I will not sign the action of the Protective Association."

There are many other players who are of the same mind as Kelley, the Officers and the players to hold out and not sign. Here is Clark, our secretary and treasurer, getting a berth as a manager in the new association, and Jennings, who is our manager for a managerial position in Boston.

## J. R. WALKER'S WILL IS FILED.

Probate Figures Place Property Value at \$1,086,000.

## THE INSTRUMENT IN DETAIL.

Where and What the Property Is—Original Provisions and Present Conditions.

As anticipated, the will of the late J. R. Walker was filed in the probate division of the Third district court late yesterday afternoon. J. R. Walker, Jr., Mary A. Cheesman, Charles A. Walker, Albert E. Walker and George R. Walker, are designated as the executors of the document. The latter, however, is not of age yet and will not act until he gains his majority—June 5th, 1901. The persons named are the only heirs of the deceased, and the valuation of the property belonging to the estate is given in the petition at \$974,496.73. This does not include the interest of Mr. Walker in the estate of his wife, who left property valued at \$99,450.

## PERSONAL PROPERTY.

By dividing the assets of the estate they are separately appraised as follows: Personal property, \$196,106.73. This consists of a life insurance policy for \$35,000; half interest in Walker Bros. bank, \$20,000; 266 shares in the Walker stock, valued at \$36,390; mining stocks and cash, etc., \$75,706.73.

## REAL ESTATE.

The real estate is valued at \$782,390, which is designated as a half interest in the Walker Mercantile block, \$125,000; the Walker farm, valued at \$20,000; half interest in the Union block, \$70,000; half interest in the Walker bank property, \$20,000; 240 acres of coal and iron lands in Iron county, \$40,000; patented mining claims in Bingham, Tintic, Cottonwood and other mining districts, \$10,000; ranch in Boxelder county, \$2,500; lands in California, 1,000 acres, \$2,500; real estate in San Francisco, \$37,500; and other Salt Lake property.

## TERMS OF WILL.

The original will was dated October 15th, 1887, and designated as a half interest in the Walker Mercantile block, \$125,000; the Walker farm, valued at \$20,000; half interest in the Union block, \$70,000; half interest in the Walker bank property, \$20,000; 240 acres of coal and iron lands in Iron county, \$40,000; patented mining claims in Bingham, Tintic, Cottonwood and other mining districts, \$10,000; ranch in Boxelder county, \$2,500; lands in California, 1,000 acres, \$2,500; real estate in San Francisco, \$37,500; and other Salt Lake property.

After the death of Mrs. Walker, the will was changed by the addition of a codicil giving each of the children \$4,000 a year for twenty years, with \$5,000 additional each out of the income from the estate's property, and the remainder of the revenues to be added to the principal for twenty years, at which time the whole estate is to be divided into four equal parts, all of whom are executors. If they decide at that time to do so, the deceased, however, expresses the wish that at the end of the twenty years the heirs will join together in harmony and keep the property altogether for the mutual benefit of all concerned.

## MRS. WALKER'S ESTATE.

Accompanying the petition of the executors of the J. R. Walker estate was a similar document asking that the executors of Mr. Walker's will also be appointed joint administrators of Mrs. Walker's estate, she having left no will and the estate never as yet having been probated, although she died July 9th, 1897. As stated above, the property is valued at \$99,450. The residence at the corner of Main and Fourth South contains \$25,000 of the value. Personal property, furniture, etc., is given at \$450; and a life insurance policy for \$15,000 represents the balance. February 9th has been set for the hearing on both petitions.

## MICROSCOPICAL SOCIETY.

The regular meeting of the Microscopical society of Utah will be held in Room 407, Templeton building, Friday, Jan. 25, at 8 p. m. A full attendance of members is requested, and the public are invited. Secretary Merrill announces that the following program is to be given:

Mosquitoes and Disease, Dr. C. P. Wilcox  
The Cell and Cell-structure, Prof. J. E. Talmage  
Exhibition of slides, Prof. J. E. Talmage

## STATE FINANCES.

James Chipman, ex-State treasurer, yesterday afternoon filed with Governor Wells his report of the State's finances for the years 1899 and 1900. Total receipts were \$2,396,506.09; this amount included a balance of \$485,015.58 that came over from 1898. Disbursements for the two years amounted to \$2,753,856.19, leaving a balance on hand at the beginning of this year of \$552,969.30, which is apportioned as follows: District school fund \$279,456.89; general fund \$21,472; sundry land funds \$52,041.01.

## THREE BOYS ARRESTED.

Charged With Stealing Pocket Knives from a Second Hand Store.

Yesterday afternoon Officers Davies and Sperry arrested three boys on the charge of breaking into a show case in front of the I. X. L. second-hand store, and stealing therefrom two dozen pocket knives. The boys are Joe Rausch, aged 12 years, Henry Teuchner, aged 9, and Andrew Anderson, aged 8. Young Rausch is considered a hard character. He has been in the State Industrial school, and has been before the district court three times. Anderson was allowed to go on his own recognizance, but the others were locked up.

## CANNOT COMPEL IT.

No Law in Utah to Enforce Compulsory Vaccination.

Attorney General Broedren last evening forwarded to A. C. Nelson, the superintendent of public instruction, the following opinion on compulsory vaccination:

"You are advised that there is no authority of law in this State for the board of health or the school board to order the vaccination of school children; that is to say, compulsory vaccination is not authorized in this State. But under the ruling of the Supreme court, in the case of State ex rel Cox vs. Board of Education of Salt Lake City, reported in Pac. Rep. p. 1913, the board of health and the school board are authorized to exclude from the schools all unvaccinated children, who are liable to carry smallpox into the

## HAVE YOU ANY OF THESE Symptoms of Very Common Trouble.

There is no disease so common in the United States as catarrh because it appears in so many forms and attacks so many different organs.

It is a common mistake to suppose that catarrh is confined to the nose and throat. Any inflammation of the mucous membrane wherever located is catarrh. Catarrh of stomach or bladder, or intestines is nearly as common as nasal catarrh and much more serious although it is true that stomach catarrh and catarrh of other internal organs is the result of neglected nasal catarrh.

A new remedy has recently appeared which so far as tested seems to be remarkably effective in promptly curing catarrh, wherever located. The preparation is sold by druggists generally under name of Stuart's Catarrh Tablets, and in addition to being very palatable and convenient, possesses extraordinary merit, in many cases giving immediate relief from the coughing, hawking and constant clearing of the throat and head, those symptoms with which everyone is familiar who has ever suffered from colds in the head and throat.

Catarrh is simply a continuation of these symptoms until the trouble becomes chronic and grows gradually worse from year to year.

Stuart's Catarrh Tablets are composed of Hydrastin, Eucalyptol, Gualacol and similar antiseptics and catarrh specifics, from which it will be seen that no secret is made of the ingredients and also that no mineral poisons are used, as is the case with many well known catarrh medicines.

For catarrh of the nose, throat, bronchial tubes, for catarrh of stomach, intestines or bladder no preparation is so safe and gives such rapid and permanent results as Stuart's Catarrh Tablets.

All druggists sell them at 50c for full sized package. You can use them with assurance that you will not contract the cocaine or morphine habit as the results from this catarrh cure are apparent from the first day's use.

schools, during the prevalence of the disease. Assuming that the order of the school board was intended to leave the matter of vaccination to the option of the parent or guardian of the child, requiring it only as a condition of attendance in the schools, and not as a condition of vaccination, it would be an order to compel vaccination against the will of the parent. I would advise you that it would be the duty of the school board to exclude all unvaccinated children from the schools, provided that smallpox is prevalent in the community. I do not think the school board would be justified in closing the school against a certain portion of the school children unless there is danger of such children carrying the disease to others."

## A Prominent Chicago Woman Speaks.

Prof. Roxa Tyler, of Chicago, vice president Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter, and threatened to die of pneumonia. I tried different remedies, but I seemed to grow worse, and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy, and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again."
