The president frankly intimates that he does not believe there is sufficient evidence in the Bristow report upon which to base criminal action against Heath, but he plainly is of opinion that the action he has ordered within the last few days will result in an in-dictment being found against Senator Hanna's right-hand man.

Hanna's right-hand man. For four days, at the direct order of the president, Atty.-Gen. Knox, aidel-by Charles J. to Thousands. Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be al-buminous or flesh forming food, like eggs, beefsteak, and cereatis: in oti-er words the kinds of food thit make flesh are the foods which form the greater part of our daily bills of fare. But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight: the digest the food forming beefsteak and egg and similar wholesome food. This matter consists of a letter writ-ten last summer by the president to a main of prominence in New York, who had written begging that the president intervene to save State Senator Green, of Binghamton, from being dragged into the scandal. The president's correspondent plead-ed that Green was one of the conspicu-ous Republican leaders at Albany, represented a close district that might be lost to the party at a critical time were criminal prosecution instituted against him by the government, and that the political effect might extend into the national campaign in New York state next year, to the positive harm of the president.

Who Were Elected in Yesterday's Contest.

### Men Talked of Are A. J. Davis, Republican, and A. F. Barnes and R. S. Wells, Democrats.

The next question to be determined by the councilmen-elect, is, who will be chosen as president of the council? Much discussion and speculation was indulged in today on that subject and much interest manifested in it. Inasmuch as the council stands Republicans 8, Democrats 7, it is up to the Republican councilmen to elect a president. Among the councilmen of that party, A. J. Davis is spoken of as the most likely man for the presidency.

The Democrats have two exceptionally strong men who are spoken of for the place, Ruion S. Wells and Arthur F. Barnes. The latter was president of the council during his term in that body in 1898-99. Mr. Wells, by reason of his experience in the Legislature and other parliameters. bodies is block other parliamentary bodies, is, his friends say, well fitted to preside over the deliberations of the city council.

### THE PRECINCT FIGHTS.
