THE HOUSE WHICH TELEGRAPHED AID.
XVIII CONGRESS.

WASHINGTON, 11.—Senator Aldrich announced the presence of his colleague (Anthony) and asked that he be sworn in immediately.

The President sent a large number of nominations to the Senate, made during recess, among them Walter Evans, for Commissioner of Internal Revenue; Benjamin Barterworth, Commissioner of Patents; Albert M. Wyman, Treasurer of the United States; Martin S. Chandler, Surveyor General of Minnesota.

In the House, a bill for pensioning ex-prisoners of war and granting to soldiers and sailors who served 90 days in the late war 100 acres of land.

Horris' bill to establish a board of commissioners of Inter-State commerce as a bureau of the Interior Department provides for the appointment of three commissioners at a salary of \$7,500 each, to investigate complaints of discrimination in railroad charges.

The bill introduced by Stratton reduces the price of public lands with railroad limits to \$1.25 per acre; the lands are now subject to pre-emption at \$2.50.

The bill introduced by Vance to promote the faithful administration of public offices, provides a punishment by fine, not exceeding \$5,000, for any officer under the United States government, executive, legislative or judicial, who shall receive from any railroad, banking or other corporation any bribe, gift, or kick.

The bill introduced by Skinner provides an amendment of the silver coinage act of 1878, so as to authorize the coinage of silver dollars of the weight of 412 grains, the standard silver, according to the provisions of the act of 1837, bearing the devices and inscriptions authorized by the act, the standard to be legal tender for all dues to the government. It also authorizes the Secretary of the Treasury to purchase at the market prices, for coinage into dollars authorized by the bill; providing, however, that not more than one million dollars be invested in such silver bullion at any one time.

Another bill by Skinner amends that act of 1878 relating to the delivery of mails, to provide that letter carriers be employed for free delivery in every town in the United States having a population of 5,000, and they may be employed in other places having a population of not less than 5,000, and at post offices which produced a gross revenue of not less than \$2,000 the preceding fiscal year.

The bill introduced by Hutchins provides for the retirement of all legal tender notes of lower denominations than five dollars.

Denver, 11.—Payne, Potter & Co's general store at Georgetown, N. M., burned yesterday; loss \$40,000; insurance, \$27,000.

Loss to the Colorado Telephone Company in the recent storm exceeds \$3,000. The company is rapidly getting on its feet.

Wannam, Man, 11.—The entire business of the Canadian Pacific Railway is at a standstill. No trains are moving, and the workmen are all out of the country.

New Orleans, 11.—Times-Democrat, Monterey, Mexico, special: Four train robbers were arrested last evening. The names of twenty-three others are in the list of the New Orleans is involved in the matter.

Chicago, 11.—The Rock Island has given formal notice of its withdrawal from the Iowa pool. Referring to the rumor that the Burlington would immediately in August to the St. Paul, Rock Island and Union Pacific, Manager Potter stated this afternoon that his road would maintain rates as low as a right, in which event, the road would be a ruin and endeavor to keep up with the procession.

The tripartite agreement of the Chicago, Milwaukee & St. Paul, Rock Island and Rock Island roads, which was signed on Monday in New York, runs for 25 years, but is terminable at a shorter period, and shall be in effect for the years from date, and then only on one year's notice. So the agreement holds good for six years from date in any event. There is a clause allowing either road in the Iowa pool to enter on such terms as the three contracting roads shall make. The agreement calls for the interchange of all business except such as is designated to go by the Rock Island and St. Paul, and that all the Union Pacific traffic, and that of the first named roads must go to the Union Pacific. There is a clause in the agreement that the Rock Island and St. Paul, which calls for the pooling of Omaha business. The tripartite agreement goes into effect Jan. 1st, 1884.

should address Congress on the subject, and not him.

Over three millions of bonds, embraced in the 1883 call were redeemed to-day.

The annual report of the commissioner of agriculture is in print. In urging the importance of forest culture the Commissioner says: "The total value of forest products in the United States for the census year are estimated at \$700,000,000. In other words the forest products exceed the value of our crops of hay, rye, oats, barley, buckwheat, potatoes and tobacco taken together."

Two thirds of the bills introduced in the House to-day were pension bills. One of them has been introduced at every Congress since 1852.

Horris' bill to establish a board of commissioners of Inter-State commerce as a bureau of the Interior Department provides for the appointment of three commissioners at a salary of \$7,500 each, to investigate complaints of discrimination in railroad charges.

uncertain the correctness of the late news which have been made in Russell's correspondence, with the exception of the fact that Sullivan is still unable to find them. Sullivan says no doubt the members of the jury would come forward if they knew the life or death of O'Donnell hung upon the issue. For want of this information two days of the sixteen remaining to O'Donnell have been lost. He appeals through the press for the addresses of jurors in the case, and says all means of knowing the jurors have been denied. Defendant's counsel during and since the trial.

The point will be raised that the jury in the O'Donnell case should have been composed of Irish subjects and six aliens, American citizens of Irish birth or parentage, residents of London.

Five hundred and eighty tickets are sold. Great preparations are taken to prevent more than members of the National League entering the rotunda. The Lord Mayor presides.

At the banquet to Parnell, the room was crowded. Devlin, in response to the toast "Railway and a Nation," said that led by Parnell, he might believe themselves on the threshold of heralding the Irish Nation. Lord Mayor Dawson read an address to Parnell. Parnell was cheered several times, and made an eloquent speech, which was greeted with great cheering. At its conclusion Dawson presented him the testimonial fund, £23,000.

SCROFULA
and all scrofulous diseases, Sores, Erysipelas, Eczema, Itch, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has been recommended by the most eminent medical authorities as the most powerful blood purifier in existence. It cleanses the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.
"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The fluids were badly purged, and I suffered a great deal of pain. I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me."
Yours respectfully, Mrs. ANNE O'BRIEN,
147 N. 3rd St., New York, June 25, 1883.

All persons interested are invited to call on Mrs. O'Brien at the Rev. F. F. Wilds of East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of this remedy, and only in the case of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. Ball, of Rochester, N. H., writes, June 7, 1882:
"Having suffered severely for some years with Rheumatism, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla
stimulates and regulates the action of the digestive and assimilative organs, cures, and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Eczema, the Gout, Catarrh, General Debility, and all diseases arising from an impure or corrupted condition of the blood, and a weak and unstable vitality.

It is inconceivably the cheapest blood medicine, on account of the concentrated strength, and great power over disease.
