NEWS OF THE DAY.

A deficiency of thirty thousand dollars has been discovered in the accounts of Dartmouth College.

The body of a woman, cut and mangled to death, was found near Brooklyn, yesterday.

A fire at New York, last night, destroyed five hundred thousand dollars worth of property belonging to the Wheeler & Wilson Sewing Machine Co.

Mr. T. Harrington, a member of the New York police force, died suddenly in San Francisco, last night.

A Japanese training ship has reached San Francisco.

The impact on the Deutsch-

and victims was closed yesterday.

Particulars in telegraphic columns.

General Humphreys, of the U. S. A., has been elected a corresponding member of the French Geographical Society.

The man Thomassen, accused of causing the recent explosion at Bremerhaven, is said to be an American.

The U. S. House of Representatives to-day passed by a large majority, a resolution against all railroad and other subsidies.

President Grant has nominated A. White, of Ala., for Chief Justice of Utah; and D. P. Thompson, of Oregon, for Governor of Idaho.

The wrench to whom the dynamite belonged, which caused the recent terrible explosion at Bremerhaven, has confessed his guilt.

EDITORIAL NOTES.

The Omaha Herald says President Grant in his message plays three principal cards for the third term—the free school and church taxation card, the hard money card, and the "treaty" card. Our Omaha contemporary makes no account of the Cuban mediation or intervention card.

Susan Denin, the well known actress, and sister of Kate Denin, died Dec. 4th, at Bluffton, Indiana, from the effects of a fall on the stage while playing "Leah." She was born in Philadelphia, and was thrice married—in 1852 to Mr. Woodward of Louisville, Ky.; to Harry Hart, of Chicago; and to ministers; and to Frank Barroll.

Now it is, the serpent again, and this time on Cape St. Roque, South America, engaged in conflict with a whale, the serpent coiling twice round the whale, and twirling it about with tremendous velocity. The serpent was a full-sized sperm. The serpent was three to four feet in diameter, and, besides the two coils round the whale, had about thirty and each of the head and tail ends mean. This was seen by the crew of the bark "Cynthia," who saw the serpent twice after, once very close to the vessel, with sixty feet of its length out of the water.

California had a public debt, Nov. 1, 1875, of \$4,201,650 total assets, \$3,168,294; actual debt outstanding, \$1,036.

The Cheque Bank, recently established in London, has come to an end; the shareholders having voted to wind up the concern. No money has been made, but about \$50 a share has been sold. In this bank any person might deposit any sum from \$5 upwards, without any "introduction" or special formality. Each depositor received certified checks, sure of payment, to the amount of his deposit. A sum of \$50 or less, a very convenient method of payment. The bank had not sufficient capital to keep going till it became popular.

The Denver News says Mrs. Mac Iver, of Pueblo, was recently bitten in the breast by a serpent. The part began to swell almost immediately, with distressing pain throughout the body, so that the woman became delirious. A physician administered large quantities of whiskey, which failed of intoxicating effect. Other remedies proved more effectual. The Mexicans are said to have a tradition that the only antidote for the bite of a tarantula's constant dancing appropriate music played unceasingly until the patient recovers.

Now, it is said that Speaker M. C. Kerr, of Illinois, intended for the position he holds in life to the tutelage, inspiration, and influence of his wife. What an interesting chapter it would make if every man were to state for what he is chiefly indebted to the influence of his wife for wife, generally seems to have the tutor and the tutored faculties in an eminent degree, so far as their husbands are concerned.

Prof. Zimmerman, of New Haven, invented an apparatus for self-lighting and extinguishing a lamp, simple, not liable to get out of order, and inexpensive in operation, the cost of the lamp being necessary not exceeding that of the matches. It consists of a small general combustion apparatus, what resembles a student's lamp, can be raised toward, or revolved at pleasure, and can be used with any kind of oil. A slight pressure of a finger on the light-tight lamp, and the squeezing of a guita perchal ball, with both fingers, will extinguish the lamp.

Laplains judges must be the pink of professional courtesy. Recently, in Judge Sherburne's court, the grand jury indicted his honor, before himself, for murder. Judge Sherburne, who had just committed, and was about to succeed him on the bench. Then a case came up in which George Beattie had a personal interest, so he selected Judge Sherburne from Jefferson county to preside over the case and try it, and then Judge Beattie's replacement, Judge Sherburne, to take the bench, the McKeevies however taking their seats, and the trial went on.

FOREIGN.

A Diagnosis to America.

BREMEN, 14.—The man Thomas, who is supposed to have owned the case of dynamite which exploded at Bremerhaven, is an American; he has been residing some months at Stralsund, Saxony.

Beneficial Visit by the Senate.

DRESDEN, 14.—The police made a simultaneous raid on the houses of

Thomas, in Stralsund, but failed to discover the explosive light on the terrible scene, in which the man is implicated; his wife has gone to Bremerhaven.

PRUSSIA.

Passed the Second Reading.

BREMEN, 14.—In the Reichstag, the bill to prohibit the personal conduct of the chief diplomatic and other public offices similar to Von Arnim, has passed the second hearing.

SPAIN.

Reinforcements Arrived.

HANOVER, 14.—Reinforcements of 3,000 men have arrived here.

TURKEY.

Wants Hostilities Suspended.

CONSTANTINOPLE, 14.—The Ambassador of the United States to the Grand Vizier, on demand, gave the Grand Vizier, to open negotiations with the insurgents. Some of the ministers urge the Sultan to reject the programme of reform emanating from the northern powers, and in justification to do so, they cite the example of the Foreign Minister, who intends to promulgate to-morrow.

GREAT BRITAIN.

Inquest on the "Bentwich" Victim.

LONDON, 14.—The adjourned inquest at Harwich on the bodies from the wreck of the steamer "Bentwich" was adjourned to-day. Captain Brinkstein repeated the evidence he gave before, that he was thirty-five miles out of his course when the steamer struck. Witnesses were called to prove that the "Bentwich" all that was possible had been done to save the lives of those on board, and that the vessel sank in a few moments.

Hale.—"I ask the chair whether this resolution is not of that peculiar character that it should necessarily be considered by a committee?"

Jones, of Kentucky, moved to lay the resolutions on the table.

Hale.—"On that motion I call for the year and day."

Wood.—"I ask the chair whether this resolution is not of that peculiar character that it should necessarily be considered by a committee?"

Speaker.—"The chair does not regard this as a proper parliamentary inquiry."

Hale.—"In other words the gentleman from New York wishes to put this question off."

Wood.—"I do not want it put off. I am ready to meet it quite as early as the gentleman from Maine is, who offers a mere empty vague declaration. I want the question referred to the appropriate committee, and to let the committee report the proper legislation."

Hale.—"I have asked for the years and days on the motion of the gentleman from Kentucky."

Stevenson would not object to having it referred to the committee on foreign relations.

Jones.—"I withdraw the motion. I do this under the advice of friends. So far as I am concerned, gentlemen, you know what my opinion is, and that I am ready to meet the question, but my friends advise me to withdraw the motion."

Hale.—"I withdraw my motion to lay the resolutions on the table."

Hale demanded the ayes and nays on the motion of the gentleman from Kentucky.

Starkweather introduced a bill to amend the law relating to postage on mailable matter of the 3rd class, providing that from the 1st of January, 1876, the postage on pamphlets, transient newspapers, periodicals, invalid circulars, post-cards, proof sheets and corrected proof-sheets shall be one cent for every two ounces or a fraction thereof, and that postage on all other matter than that herein now provided for, shall be one cent.

Two bills were admitted to committee.

Parsonal.—We were favored this morning with a pleasant call from Mr. T. A. Caswell, General Agent of the Tennessee Jubilee Singers.

SALT LAKE CITY.

FRANCE.

Another Senator Elected—Elected a Member of the French Geographical Social Society.

PARIS, 14.—In the Assembly, M. Fourcade, deputy for the Gironde and member of the Left, was the only person elected senator; all the other candidates failed to obtain the requisite majority. It is believed that several Legitimists and Bonapartists did not vote to-day, fearing a repetition of the previous tumults.

The French Geographical Society has elected General Andrew A. Humphreys, chief of the engineer corps of the United States army, a corresponding member.

EASTERN.

Arrested.

New York, 15.—Wm. P. Mortimer, one of the men charged with robbing the city auditor's office at Toledo, was arrested in Brooklyn yesterday.

He was taken to the city jail, and held without bail.

Starkweather introduced a bill to amend the law relating to postage on mailable matter of the 3rd class, providing that from the 1st of January, 1876, the postage on pamphlets, transient newspapers, periodicals, invalid circulars, post-cards, proof sheets and corrected proof-sheets shall be one cent for every two ounces or a fraction thereof, and that postage on all other matter than that herein now provided for, shall be one cent.

TRUSTEES' SALE.

WYMAN, PRATT & PRATT, by their attorney, M. H. Coffey, on Oct. 1, 1875, to the City of Salt Lake, described real estate situated in Salt Lake City and County, territory of Utah, and consisting of lot 10, block 10, in the Part of Lot 10 (a) in Block fifty-one (51), Salt Lake City, in Salt Valley, beginning at the corner of Main and 10th streets, running thence north six rods, thence west two rods, thence north seven rods, thence west (b) rods to the place of meeting, then west (c) rods to the place of sale.

In order to secure the payment of a certain promissory note, fully set out in said trust, due at the date of sale, and interest thereon, and costs of suit, the holder of said note, proceeded to make application to the court for a writ of execution, and the court issued such writ, and ordered that the same be served on the defendant, and that he be compelled to appear and answer to the charge of non-payment of the note, and that judgment be rendered in favor of the plaintiff, and that the same be executed according to law.

The body of a woman, scarcely cut and stoned, was found in a room in a house on Franklin Street, in Brooklyn, a negro master having picked up the body. There is no clue to the murderer.

Big Distortion Discovered.

PARIS, 15.—A telegram from Paris says that a deficiency of about \$10,000 has been discovered in the college accounts of the new treasurer of Denmark, Christopher Hansen, of Copenhagen.

Starkweather introduced a bill to amend the law relating to postage on mailable matter of the 3rd class, providing that from the 1st of January, 1876, the postage on pamphlets, transient newspapers, periodicals, invalid circulars, post-cards, proof sheets and corrected proof-sheets shall be one cent for every two ounces or a fraction thereof, and that postage on all other matter than that herein now provided for, shall be one cent.

Two bills were admitted to committee.

"Resolved, by the Senate, the House of Representatives concurring, that the people of the U. S. do not intend to interfere in the affairs of any nation, in any way, except in defense of its own rights, and that the government, in its relations with other nations, shall be guided by the principles of justice and equity, and that the same shall be observed in the conduct of its foreign policy."
