PATENT MEDICINES. A man that compounds or invents some-things that is just a little better than the next best thing, is certainly entitled to the best share of the profits to be derived from the sale of the article. So he pat-ents or copyrights to protect his inter-ests. Patented goods are good goods, poor goods are never patented. We have 20 years of trial behind us to give us the assurance that we have the best medicine compound for the eure of dyspepsia, sick-headaches, billousness, indigestion and all stomach disorders. We protect the pub-lis as well as ourselves by keeping the formula a secret, as long as we make it we know it is made right and it cures these diseases. Druggists tell us that it is the one medicine that the sale is ever on the increase. The latter informed Chief Bywater of the situation, and the head of the fire department took Chief Lynch to the scene, in his fire buggy. Chief Lynch thought he surely had the burglar, but a careful search of the premises failed to reveal the fellow. Both men had made good their escape, and had made off with the property mentioned, besides \$12 be-longing to Harvard Wilcox.

MRS. MABEL WALLACE REYNOLDS, Salt Lake Woman Who Graduated This Week From Badeliffe College, Harvard University.

The dispatch that came to the "News" earlier in the week, stating that Mrs. Mabel Wallace Reynolds of this city had graduated from Radeliffe College, the woman's department of Harvard University, was good news to her many friends, particularly those engaged in educational work. And her graduation makes one thing clear-that the advanced students of the University of Utah take strong positions in other institutions of learning. For three years Mrs. Reynolds, nee Wallace, was a student in the Utah University, but last year she married Prof. Fred Reynolds, who has been doing post graduate work and acting as instructor at Harvard, but who returns to Utah this year to resume his professional duties in his alma mater. It is worthy of note that the home credits of Mrs. Reynolds were readily accepted at Harvard, a fact that speaks well for the standing of the Utah institution. That the acceptance of these credits was based on meritorious grounds is proved by Mrs. Reynold's graduation from Harvard with honors. Mrs. Reynolds is a daughter of Henry Wallace, manager of the National Biscuit company, and a sister of Walter Wallace, the singer.

Pelvic catarrh is a phrase coined by Dr. Hartman, covering all that large class of diseases that used to be known as female weakness. The lower portion of the abdomen is called by anatomists the pelvis. The organs contained in this portion of the body are known as the pelvic organs. There are several of them, very delicate and very subject to catarrh. Few women escape entirely catarrh of these organs. While each case presents some minor difference as to detail, they are all in reality alike. Pelvic catarrh, therefore, is a generic

While contests were not settled by the com-mittee, all talk of bolting was done away with, so that when a minority report was adopted unseating 113 dele-gates favorable to Justice Collins for governor, the unseated delegates left the hall, pledging their hearty support to which ever ticket might be named. After the unseating was completed it became evident that Dunn had a large rity, Congressman Eddy with-from the race and the name of majority. Collins was not presented. Dunn's nomination was made by acclamation. As the convention indorsed Senator

Denver, Colo., July 1 .- A special to the News from Cripple Creek says: As the result of finding of the coroner's jury which investigated the

death of Roscoe McGee and John Davis, who came to their death during the riols in Victor on the afternoon of June 6, President Charles H. Moyer and W. D. Haywood, secretary-treasurer of the Western Federation of Min-ers, together with 46 other men, are charged with murder and incling riot, Judge Lewis Cunningham, sitting in the district court, has fixed the bonds of Moyer and Haywood at \$10,000 each.

Moyer and Haywood at \$10,000 each. The verdict accuses William Boyle of killing John Davis and Andrew Ballat of killing Roscoe McGee. The jury found that on the day of the riot an armed body of men, about 90, members of the Western Federation or Miners, assembled at Victor pursuant to prearranged plans from different parts of the county, and that they were appointed special policemen by Mar-shal O'Connell, but that they were in fact an unlawful assemblage or mob. Before the roit O'Connell was re-moved from office by the mayor and hia deputies, who were ordered by the moved from onice by the mayor and ha deputies, who were ordered by the sheriff to disperse. Notwithstanding this order, about 50 of them started a riot when Alfred Miller, one of their number, attempted to kill C. C. Ham-lin, and during the shooting McGee and Davis were killed and others wanded

Marshal O'Connell is charged with shooting J. J. Horner in the back dur-ing the riot. The officers of the West-ern Federation of Miners are held primarily responsible for the crimes com-mitted because of their seditious and unlawful language.

Among those who encouraged the crimes are Charles H. Moyer, W. D. Haywood, John C. William and the members of the executive board as thus constituted.

After the verdict was read informa-tion was filed against the Western Fed-eration officials and the old executive committee. Capiases for their arrest were placed in the hands of the sheriff. Bond in the case of the members of the executive committee was placed at \$5,000. The cases will be heard at the September term of court.
