Colonial- The Boys of Company as the here.

With double the appropriation, the heatty says that 1:300 more lives could be saved. The appropriation for the office this year is \$7,500, while there is now a bill in the logislature asking, for \$20,000 for the elimination of an-mails which prey more livestock. On this point Dr. Beatty says: The disease is contagious and res-riceive measures should be strictly en-tered. Every person affected be-course a menace unless he observes densite precautions as to care of the solution Many victims of tuberculosis from other parts of the country, seek-ing the benefit of the climate, come to the state to reside. The disposition of these cases has already become a serious problem and should receive the autonian, states, with a view to re-ministic precise. It is now agreed that there is no particular advantage is any pitch are of its own un-other, where the open-air treatment of the decase is applied, and each state isota, which are now provided in more states.

Annual Report of State Board of

Bealth Reviews the Past Two Years in Interesting Manner.

In the annual report of Dr. T. B. Besity, secretary of the state board of health, which was submitted to

Gevennor William Spry yestorday, it

is shown that wice the amount of

money is spent yearly by the state to protect livestock than is to protect the from preventable discases.

with double the appropriation. Dr.

Beatly says that 1.200 more lives could

There is evidence. Dr. Beatly says of the spread of taberculosis in the state, is restrictive measures the report

"Education of the public and the main press, the dissemination of Hi-rature, instruction in the schools, breather compliance with the law requiring physicians to immediately apart the disease to the board of

aution provide service of the board of saith. "Careful surveillance of the case by a board of health during its entire ourse, and the enforcement of pre-ent of spitting laws." "The carly diagnosis of the disease, the board of the precautions: the unforce-matter precautions: the unforce-ent of spitting laws. "The carly diagnosis of the disease, the is alike of the utmost lim-artance to the patient and the public. "The indercallin testing of cowe and areful inspection of meat and milk." The establishment by the state of a able samtorium for the isolation and matter of the carly cases of the dis-ase, and a hesital for incurables." Th connection with the tuberculin least of this test at little cost. Con-ress has appropriated for this test means for atales. Dr. Moblier, who is in charge of this work, had agreed o recommend Utah providing the leg-dature passes the necessary laws. Is the schools, Dr. Beatry thinks that iscase should be watched careful-s. He approves of an inspection board visit the buildings in regard to amilation and the genetal health of uplic.

He says that vaccination should be

second by again stating that since statute was abolished in 1903, that w has been 15,000 cases of smallin the state. His report also urges

is supported by an excellent compary, but the members have so little to de-lingt there is no real opportunity to judge. Malsoim Bradley as Abel Murcott, the drinken solicitor's chrik, furnishes a clear-cut character sketco in every detail. The beery butter of Rowland Buckstong, who has been with Mr. Sothern for years is an-other finished delineation. Albert 8: Howson in the small part of Dur-drary's valet makes the most of h, while Solney Mather in the character of the American coust Asa Threa-chard, a burlesque on the Yaukee of Euglish fiction, showed that he is a good actor capable of energying a diffi-cult role successfully.

good actor capable of carrying a diffi-cult role successfully. The ladios have nothing to do save carry their quaint old costurises grace-fulls, and the two new leading wo-men Virgenia Hammond and Ghdys Haosan accordingly received but little bornage. But then it was always thick with Lord Dundreary, the first pre-sentation of which in America em-braced such using on the program as Edward A. Sothern, Laura Kreene, Jo-septi Jefferson, Edmand Varrey, Miles Levick, C. W. Couldock, Mary Wells, Sarah Stevens and Effic Germon, players of approved skill and estab-lished reputation—it would be termed an all-star cast in these functioners.

an all-star cast in these unrogenerate days. The eventestra last night, teo, took upon itself the spirit of the occasion and rendered old English selections such as "Cherry Ripe," "The Bay of Biscay," and "God Save The Queen," which the audience took anto them-solves to recognize as "My Country "Its of Thee" and upplauled accord-ingly, as all patriots should. Tonight Mr. Solliern presents Rich-elieu, with Dundreary tomorrow after-noon and Hamle Longtrow right.

title role.

was shot and instantly killed early this muching by a countryman, who meaped The tragedy secured in front of a bourding house in which the Marovici murder occurred several months ago, When the shots were fired, the occucants of the house, thinking that an attack was being made upon them, around themselves and waited.

Plaste, who was one of their faction, was not discovered until an hour after-ward, when it incrume light enough to use out of the presp holes in the huld-ing. He was dead when his body was
