This Machine is the harvest gathering of twenty years' experience in the manufacture of Agricultural Machinery, and takes rank with the Printing Press, Engine, Lath and Locomotive in the qualities of precision, staunchness and durability.

Its foundation is a single piece of solid iron, of shape to resist all possible strains.

Its gearing is shaped to standard gauge, and each cut out of solid iron, with mathematical exactness.

The working parts are permanently fixed and fully protected from water, dust, grass and all other external causes of disturbance.

By these means, we reduce friction to the lowest point, stop the self-destruction common to all rough cast machines, avoid breakages in harvest, secure easy draft and the same durability which pertains to cut gear in other kinds of machinery. The WORLD has been tested four years in the hands of the most intelligent and reliable farmers in the land, who unite in declaring that, comparatively,

"There is no other Harvester."

Correspondence.

MARCH 27TH, 1871.

Editor Deseret News:—Yesterday morning, at 10 a.m., I assembled with a number of the citizens of Mill Creek Ward, to pay the last tribute of respect to Brother Thomas M. Howard, son of Thomas Howard, paper maker.

The young man was but a little over 23 years of age when he died; but through his kind deportment to his parents and all his associates he had won the love and good will of all who knew him.

He was bugler of the Cavalry Company of Mill Creek and many of the Company turned out to attend his funeral. The procession showed the genuine love and brotherhood that alone can be found among the boys in Utah, who have organized in companies of Home Guards and Militia.

Brother Howard was a young man of sterling integrity to the cause of Truth, and of exemplary habits; and being always hale and hearty, his sudden demise brought a gloom to the heart of every one who knew him, being stricken down with inflammation of the lungs in the short space of five days. He passed from his parents and friends to join the hosts of the redeemed.

Actual vs. Short Weight.—Aside from the impure substances from which are made the majority of Baking Powders, a large proportion are short of the weight represented upon the package. We not only claim that Dooley's Yeast Powder is free from any injurious substances, and that each package contains full weight, but that the quantity required to produce the desired result in the kitchen is from twenty-five to fifty per cent. less than those of ordinary manufacture. Manufactured by Dooley & Brother, 69 New Street, New York, and for sale at retail by all respectable Grocers. d115 eod w10 1
