## BY TELEGRAPH.

PER WASHINGTON TELEGRAPH LINE.  
**FORTY-SIXTH CONGRESS—  
CONGRESSIONAL.**  
SENATE.

WASHINGTON, 26.—McDonald  
spoke against Federal interference  
with elections. He stated that the  
bill as in pursuance of the testi-  
mony taken by the Wallace commit-  
tee as to the actions of these mil-  
lionsaries about the polls, who had  
broken up the polls in a partisan  
way for partisan reasons. He hoped  
these laws would be shortly re-  
pealed, for the people were better able  
to take care of their own elections than  
the government was.

Teller discussed the tissue ballot  
business and explained its operations  
in Charleston.

Thurman moved an amendment  
that the chief supervisors should  
not be reappointed, which Ed-  
munds said sounded like the "Ohio  
idea."

Thurman said he knew of one  
superior who had been in office  
and he would not consent to his re-  
appointment.

Edmunds said this was an uncon-  
stituted provision.

The amount for the Pacific Coast  
was increased from \$161,000 to \$186,  
000. The item for furniture for pub-  
lic buildings was increased to \$186,  
000. Edmunds, Philadelphi, said  
Blount opposed such extravagant  
appropriations.

Blount urged the democrats who  
were voting with the republicans  
not to join them with campaign  
appropriations.

Calkins hoped the democrats  
whippers-in could not control the  
independent. The amendment was  
rejected. Discussion arose as to Se-  
cretary of the Treasury's request for  
an appropriation to build a place to  
store the gold.

Garfield thought it was as neces-  
sary as the appropriation for the  
clerk's desk.

The Senate amendments to the  
House Internal Revenue bill was  
discussed.

The Speaker presented a message  
from a President urging the neces-  
sity of action on the U. S. agreement  
referred.

Warner in a serio-comic vein made  
a speech on his motion to strike out  
the appropriation for funding the  
Washington monument. He was  
derisively applauded on both sides.

The committee finished half the  
bill and rose. A large number of  
members of the House were asked for  
and denied.

Finally the House adjourned after  
some filibustering.

### A Nice Little Scheme.

New York, 26.—The Tribune has  
the following Washington special: It  
is known here that the Grant lead-  
ers have arranged the following plan  
for the control of the Chicago Con-  
vention, which will convene at Cin-  
cinnati, when he calls the convention  
together will be obliged to nominate for  
temporary chairman, whomsoever  
the National committee selects, but  
it will be arranged to have a man  
leading Grant man for the place. On  
that there will have to be a vote by  
the convention, and an attempt will  
be made to enforce the unit rule  
when the vote is taken. Of course  
some delegates from Pennsylvania,  
New York and other States will in-  
sist on voting differently from the  
majority of their delegations from  
those States, but Cameron, who will  
be in the chair, will decide that the  
unit rule is binding upon all dele-  
gates, if they have any, and that it  
was adopted. If the anti-Grant men  
appeal from this decision and a vote  
is taken upon the appeal, Cameron  
will decide again that the unit rule  
must be enforced in this vote also.

Grant men are talking about this  
programme very freely to-day, and  
some of the greatest apparent con-  
fidence that by the help of Cam-  
eron and the unit rule they will not  
only get a temporary chairman, but  
also that when it comes to the  
choice of a permanent chairman, they  
will secure him likewise by the  
same kind of tactics. Of course  
Blaine's nearest friends and those  
of the Chicago case in Chicago  
know all about this scheme and are  
making preparations to checkmate  
Cameron and his followers.

### Rise in Stocks.

The World says: The stock market  
after being depressed yesterday  
morning, suddenly rallied and amid  
great excitement advanced from  
two to eight per cent above the  
lowest point. The rise was said to  
be due to the report that Gould and  
Keene had made up their difficul-  
ties, if they had any, and that a  
concerted bull movement had been de-  
termined upon. It was also said  
that large blocks of stock had been  
delivered through Keene's kind-  
ness to Mr. Connor, Gould's broker,  
to enable him to cover his shorts. At  
the office of both the principals it  
was denied that any conference had  
been held. A friend of Gould's said  
that the rise was due to Cammack  
covering 10,000 shares of the West-  
ern Union and 5,000 shares of Lake  
Shore. Both Gould and Keene were  
reported to have advanced towards  
the close of business.

### Oil Works Affair.

About half past 12 o'clock this  
morning a fire broke out in Denslow  
& Bush's oil works in Brooklyn.  
The flames spread rapidly, and in  
less than five minutes the entire  
oil tank exploded. It is reported to  
have killed and wounded a number  
of men. The flames extended to  
the main track, and a mass was  
sent back to flag the following train,  
but before getting any distance away  
the train came thundering along.  
The engineer saw the standing  
train, reversed the engine, and he  
and the fireman jumped for life.  
The train rushed along crashed into  
the stationary one, and the cars were  
broken into splinters and many cal-  
le killed.

### Cattle Smash-up.

At Mahanwa, N. J., yesterday,  
a cattle train, owing to the damage  
of the engine, was run upon a sid-  
ing. One car, however, extended  
to the main track, and a mass was  
sent back to flag the following train,  
but before getting any distance away  
the train came thundering along.  
The engineer saw the standing  
train, reversed the engine, and he  
and the fireman jumped for life.  
The train rushed along crashed into  
the stationary one, and the cars were  
broken into splinters and many cal-  
le killed.

### The Dearth.

The thermometer records 94 de-  
grees. The intense heat and long  
continued drought are working great

## disaster to the people of the rural

districts. Springs, which were  
never known to go dry, are exhaust-  
ed. Farmers in many places are  
plowing up their first crop of pota-  
toes, ruined by the potato bug, in  
order to plant as soon as there will  
be rain. No sort of fruit or vegeta-  
bles is maturing.

### A Prince Failure.

The prince says of the failure of  
Brown, Russell & Co. The an-  
nouncement of embarrassment from  
San Francisco caused much sur-  
prise here, the firm having high  
standing and claiming a surplus of  
over \$100,000. Several of the New  
York creditors took steps immedi-  
ately to protect themselves, and  
yesterday the sheriff seized property  
at 102 Chamber Street, on attach-  
ments.

### Bellows Collapsed.

Francis W. G. Bellows, brother of  
Rev. Henry W. Bellows, died here  
on Monday, of pneumonia. At one  
time he was bookkeeper for the Pa-  
cific Mail Company, and afterwards  
became its vice-president, an office  
which he filled with ability. Sub-  
sequently he was vice-president of  
the Panama Railroad Company.

### Pacific Mail.

The annual meeting of the Pacific  
Mail Steamship Company took  
place to-day. It is understood that  
all differences over the Panama and  
overland railroads have been settled,  
and that the election will be har-  
monious.

### Striking Miners.

LEADVILLE, 26.—A dispatch says:  
There is a general strike of the  
miners. There has been little or  
nothing mined as yet. The strike  
morning in a force. Wages paid are  
from \$2 to \$3.50 per day. At 7  
o'clock this morning, 400 men ap-  
peared at the Chrysolite mine and  
ordered the men to leave. After some  
consultation the demand was com-  
plied with and they joined the  
striking miners. The strike is  
maintained by the miners. To-  
night there is not a man at any of  
the mines. It is estimated that 5,000  
men are participating in the move-  
ment. The striking miners are  
remaining quiet at their homes.  
All the prominent mines are strictly  
guarded. The excitement is fe-  
verish. The strike is a general one.  
Maguire from Pennsylvania, is at  
the head of the movement. Thus  
far there has been no violence, and  
it is hoped that no serious results  
will follow, although some re-  
sistance generally show a resolution not  
to yield to the demands of the  
striking.

### Butler's Talk.

CHEYENNE, 26.—The following  
from an interview with General B.  
Butler, who is visiting the Pacific  
Coast, will appear in the Leader on  
Thursday:

"You do not contemplate support-  
ing Grant at all, General?"  
"Why certainly not my dear sir.  
The issue is not yet decided."  
"It looks now, General, as if the  
national greenback convention will  
nominate you for the presi-  
dency?"

"Well, if they only give us a good  
platform," said the General thought-  
fully, "the honor would be most  
worthy."

"You would of course accept the  
nomination?"  
"I never decline anything in ad-  
vance," quickly replied the pros-  
pective greenback candidate for  
president.

"What do you think of the out-  
come of the republican and demo-  
cratic conventions?"  
"Well, I think that Gen. Grant  
and Mr. Tilden will be nominated,  
and Grant will prove to be the  
stronger man before the public."

### The Bradbury Massacre.

DENVER, 26.—A letter from Cin-  
cinnati, New Mexico, says: In re-  
sponse to the report that the  
Bradbury party, the party passed  
my place some time since, and asked  
my advice about going on to the  
mouth of the Gunnison to pros-  
pect. They were advised not to go,  
as it was a very dangerous place,  
and the White River Utes were camped  
near South Cedar to the mouth of  
the Gunnison. The party was  
sent back, and the Indians  
got after them and O'uray and Che-  
pene interfered in person and pre-  
vented the massacre.

Another letter from the location  
of the rumored Bradbury massacre  
is at least 140 miles from the town of  
Gunnison, and nearly, if not quite,  
the same. The party was sent back,  
and the Gunnison mining country  
is in a state of preservation and is open  
to settlement.
