

LOCAL AND OTHER MATTERS.

FROM SATURDAY'S DAILY, JAN. 11.

HORSE STEALING.—A man who lives in the Eighth Ward and whose name we are informed, is White, had a horse, saddle and bridle stolen from his stable at a late hour last night.

RETURNED.—Elder Wilford Woodruff, who has been on a visit to Woodruff and Randolph, Bear River Valley, for a few weeks, returned last night, by way of Evanston. We learn from him that there are now about one hundred families at Randolph, and that the winter has been unusually mild thus far, enabling stock to do well on the range. There is about one foot of snow on the ground in the valley.

IT HAS ARRIVED.—At last, in its westward march, the epizootic has reached this city. There are, we are reliably informed, seven genuine cases in the north-eastern part of the town. Two of the horses affected belong to Mr. Septimus W. Sears, two to Mr. Nathan Sears, two to Mr. Ralph Snowball and one to William son, of Mr. Andrew McFarlane. There may be other cases of which we have not yet been informed. The appearance of the epizootic need not create any undue fears among horse owners, for if care be taken to keep the animals warm and not overwork them the dreaded malady may not be very serious, nor spread to any great extent. After animals are attacked grain or other heating feed should not be given to them. The food should be kept soft, and easy of digestion.

In addition to the cases above mentioned we have heard of instances of horses that have been seized with violent coughing, wheezing and other premonitory symptoms.

FROM MONDAY'S DAILY JAN. 13.

CONVALESCENT.—We are pleased to be able to say that Bishop John Sharp has so far recovered from the effects of his late accident as to be able to take exercise in his carriage. He was out to-day.

LIKELY TO BE FATAL.—Yesterday there were strong indications that one of the horses of Mr. S. W. Sears, which is affected with epizootic, would die.

We believe the disease has but slight hold in this City at present, there being but few cases, so far as we have been informed.

INFORMATION WANTED.—Silas L. Jackson, of Nephi City, Juab Co., wants to know the whereabouts of Thomas Warwick, who came to this Territory about two years ago, and some time since was living at North Ogden. Address as above.

ANOTHER CASE.—By letter from Mr. L. W. Porter, of Porterville, we learn that the smallpox had reached that place, there being one case there at date of writing, Jan. 10th, the patient, however, was doing well. Precautionary measures to prevent the spread of the disease in the settlement had been adopted.

ENTERPRISING.—The Tenth Ward new meeting house is an evidence of the enterprise of the citizens who live in that part of the City. It would be well if wards which have not already taken the step, would "go and do likewise." Among the marks of progress in this city is the great improvement of late years in the character of the public buildings in the various wards.

ARRESTED.—Mathew Daley, of Payson, who, it will be remembered, had a dispute with a Danishman, named Svenson, at the Sanpete coal beds, several weeks ago, when he struck the latter over the head with a wrench, from the effects of which Svenson afterwards died, was arrested in this City on Saturday, by the police, and placed in the City jail.

MURDERED BY INDIANS.—Our readers will probably remember that a family named Lee performed at a circus which had its stand on the Groesbeck property a little over a year ago, one young lady of the family being exceedingly clever in the performance of various equestrian feats. A California exchange, of recent date, states that a gentleman of San Francisco lately received a letter from Arizona, which stated that while the whole family, eight in number, were traveling through that Territory to New Mexico, where they intended to perform, and when at Apache Pass, they were set upon by Apache Indians and all of them murdered.

WASATCH COAL COMPANY.—To this company reference has several times been made through these columns. It is in the hands of energetic and discreet incorporators. A working capital has already been paid in, which is sufficient for the development of the mines and the building of a road to the valley, so no assessment is within the range of possibility. J. R. Duff, of Pioche, the superintendent, having been upon the ground, knows of its great value, and will use all possible activity in developing the mine and in sending the coal to market. The coal beds are situated in the Wasatch mountains within four miles of Kanarra, Kane county, Utah. Veins have been opened in two or three places, and the work of development continues. A tunnel 6 x 7 feet is being run into the mountain, and the valuable deposits are being extracted. Owing to the heavy weather and the bad condition of the roads no coal is now being sent to market, but every

preparation is being made for shipping it to market early in the spring. A road from the mine to the valley is now being built, and will be completed in time for the opening of the spring trade. The coal beds are only about 90 miles from Pioche, and a road between this point and Kanarra can be constructed at a trifling expense. The Pioche and Bullionville Railroad and the various hoisting works in the camp which are driven by steam, will provide a ready market for this coal. It has been used by blacksmiths in the vicinity of the mine, and has been found to work admirably. Near to the coal beds are found vast deposits of iron, which, with coal at hand, will in a few years be utilized and added to the wealth of the world. The coal and iron so near to our doors, will cheapen the process by which silver is brought to the surface, and will permit the working of much rock now wasted on account of the expense.—*Pioche Record, Jan. 3rd.*

BY TELEGRAPH.

EASTERN DISPATCHES.

EUFALA, Ala., 12.—One of the flues of the boiler of the steamer *Julia Saint Clair*, collapsed near here last night, scalding 13, mostly colored deck hands and firemen, three fatally.

NEW HAVEN, 12.—Mrs. Lydia Sherman, the reputed poisoner of three husbands and two or three children, but who has only been convicted of manslaughter, for poisoning her last husband, was sentenced to the State prison for life yesterday. She received the sentence with the utmost indifference and at the conclusion gracefully courtesied. Her confession will be published to-morrow. It admits the poisoning of eight persons.

The details of Mrs. Sherman's confessions will fill ten columns. It shows that she murdered eight persons, and two others lost their lives incidentally by her poisoning.

The Texas frontier commissioner will leave for the frontier in a few days. Judge Moore, of Illinois, has been appointed secretary. The President has caused such instructions to be issued as to render the commission more efficient, besides which cavalry will be sent to the several exposed points to guard against Mexican raids. Private advices say that General Cortina is raising a stronger army than ever and will, on the 15th of March, issue a pronouncement, taking possession of the Mexican frontier independently of the Mexican government. The treaty for the extension of the mixed commission has failed through the adjournment of the Mexican Congress before the return of minister Nelson, and it will terminate in March or April, leaving many cases unadjusted.

The *New York Journal of Commerce*, editorially, calls the attention of the press of the country to the covert attempt to again revive the patent straw paper swindle, in Congress. The dodge now being attempted is in a proposed amendment to the patent laws, now before Congress, which is contained in the following clause: "And no extension granted prior to the passage of this act shall be held invalid by reason of the fact that the certificate of extension was not annexed before the expiration of such patent." The *Journal of Commerce* says there is no other case to which this amendment will apply, except to revive the old French Mellier patent straw paper swindle, which was defunct five years ago. This amendment has been read twice, and in a few days will be put upon its passage. The effect of its passage will be to add one cent to the cost of every pound of paper purchased by newspaper publishers.

ST. PAUL, Minn., 12.—The great storm of last week resulted in a good many fatal casualties in the State. It was entirely unprecedented in its severity, and was so blinding that persons perished within a few rods of succor, if they had known in what direction to go. Three brothers, Charles, John, and Stephen Oniel, with Thomas and Michael Holden, each with two horse teams, started for Hillmor with wheat on Tuesday. They were found on Friday, about ten miles out. Two of the O'Neils and one of the Holdens were frozen to death in the sleighs. The others were alive, but will scarcely survive.

Five ox teams in the same vicinity were found frozen to death. The drivers are supposed to have abandoned them and perished.

A man was frozen to death by losing his way while going from the depot to the tank house at Herman station, on the St. Paul and Pacific R. R.

A school boy near New Uim undertook to go home, but lost his way, and his body was found eight miles distant,

A man was found yesterday near St. Paul's, frozen to death. Many other cases will doubtless be heard of.

NEW YORK, 13.—The bill of exceptions by counsel for Stokes will be presented probably to-day. It holds that the Court erred in not sustaining the challenge against one of the jurors; in permitting the hearsay evidence of Francis Curtis; in permitting allusion to the former trial by the prosecution; in not admitting the offer to show that the prisoner was anxious to disclose his defense before the Coroner's inquest; in permitting the proof of threats to be introduced at the end of the trial; in ruling out the offer to show that the prisoner was under apprehensions of Fisk's violence, and in excluding the proof that Stokes was watched and dogged by unknown parties; also that disqualified persons were on the jury. On these points they will ask for a new trial.

CHICAGO, 13.—Mail accounts of the recent storm in Iowa and Minnesota show it to have been the most severe known since the settlement of the country. The *St. Paul Press* of the 9th instant says its effects on railroads hardly assume the shape of subjects for discussion. It has been the most disastrous which has occurred since the beginning of railroad history in Minnesota. There were neither arrivals nor departures yesterday, and some of the trains leaving on the day previous, have been heard from, struggling or shackled in the snow drifts.

DEAD.

In this city, at half past 4 o'clock this morning, at his father's residence, 18th Ward, of pneumonia, LYMAN OMER, son of Orson Omer and Josephine Omer, aged 15 months and 13 days.

The funeral services will take place at the residence of L. O. Littlefield, one block and a half West of the Court house, 15th Ward, on Monday the 13th inst., at one o'clock p. m. Friends are invited to attend.

Special Notices.

WAGONS.—We have recently made a visit to an establishment east, whose name has long been a familiar one to the people of this Territory. We refer to Semple, Birge, & Co., of St. Louis, long known as the pioneer house in Agricultural Goods and Wagons. Their trade here, now so extensive, was begun when our heavy machinery had to be transported by wagons almost the entire route, and when the freight on Reaper or a Thresher was double the original cost of it. Their WHITE-WATER WAGON factory is probably excelled by none in the country for extent and admirable arrangement, and the quality of work is well calculated to meet the rough usage of our Western thoroughfares. Their goods have for a long time been sold here by the Co-operative Stores, as will be seen by their advertisement in our columns. d & w 1 ea

FLAVORING EXTRACTS AND BAKING POWDERS.—To have these articles pure and free from poisonous oils is indeed very desirable, as such deleterious articles as are sometimes sold as Flavorings only induce nausea and indigestion. Pure Flavorings manufactured by Steele & Price, of Chicago and St. Louis, are now offered to the public and are the most delicate and delicious articles of the kind made. See their advertisement in this issue and try them. d s & w 1 ea

A CHALLENGE.—Inasmuch as various styles of Models for cutting and fitting ladies' dresses, claiming to be the best in existence, are being imported to this Territory, and being myself the proprietor of the famous Curtis Mathematical Dress Model, I hereby challenge the proprietors of any and all other models to a contest for superiority, the owner of the one adjudged the best, to receive \$200. The money is deposited in the Bank of Deseret.

THEODORE CURTIS.

Mrs. Joseph Bull, agent for the Territory, for the Curtis Mathematical Models, does not countenance and has no interest in any other.

St. S. W.

The celebrated white wire clothes line for sale at Geo. Barton's, two doors West of Z. O. M. I. Dry Goods Department.

S. M. PRICE, Agent

PRICE OF GOLD.

Corrected Daily by DESERET NATIONAL BANK
SALT LAKE CITY, January 13, 1873.
Buying at \$1.10, selling at \$1.12

Special Notices.

Dr. Sage's Catarrh Remedy produces perfect cures of the worst cases of Catarrh, "Cold in the Head," Coughs and Catarrhal Headache, as hundreds of testimonials from well-known citizens and eminent physicians who have used it in their practice abundantly testify. It is mild, pleasant and unobtrusive. The proprietor offers \$500 for a case of Catarrh that he cannot cure. Sold by druggists at 50 cents. s97 2 w 4 1

Is it any Wonder?—In view of the immense amount of Saltatus and adulterated Baking Powders used by the masses of people in food, is it any wonder that there are diseased gums, decayed teeth, weak and useless muscles, and disordered digestion? See to it that you escape these evils by using Dr. Price's Cream Baking Powder, the only kind made, by a physician, with special reference to its healthfulness, and indorsed as such by thousands who have used it for the past seven years. We do not hesitate to endorse it as the best in the market, and also as such Dr. Price's Special Flavorings, Orange, Lemon, etc. d41 w 1 w

SEMPLER BERGE & CO.,
ST. LOUIS, MO.

WHITE WATER WAGON.
Manufacturers of the
WHITEWATER WAGON.

Agricultural Machinery, Steam Engines, Threshing Machines and Burr Mills.

Agent for several extensive factories of Hardware and Iron Goods. Our goods may be had at the Co-operative Stores in Salt Lake, and their Branches throughout Utah. d44 3a

DR. PRICE'S
SPECIAL FLAVORINGS,

VANILLA, LEMON, ETC.,

For Flavoring Ice Cream, Cakes and Pastry.

With great care, by a new process, we extract from the true, select Fruits and Aromatics, each characteristic flavor, and produce Flavorings of rare excellence. Of great strength and perfect purity. No poisonous oils. Every flavor as represented. No deceit—each bottle full measure, holding one-half more than others purporting to hold same quantity. Use them once, will use no other. The most delicate, delicious flavors ever made. So superior to the cheap extracts. Ask for Dr. Price's Special Flavorings. Manufactured only by

STEELE & PRICE,
Depots, CHICAGO and ST. LOUIS.

Manufacturers of Dr. Price's Cream Baking Powder.

\$25 REWARD.

LOST between an American Fork and Springville, a Pocket Book containing \$100 or upwards in currency and other valuable papers. Any person finding it and delivering at Springville Co-Op. I will pay \$25 in currency. W 19 46 J. W. ROUNLY.

SEVENTEENTH QUORUM.

THE Members of the Seventeenth Quorum of Seventies, now resident in this city, are requested to report themselves by letter or otherwise, before the first Sunday in February next. Meetings held on the first Sunday of each month, at the residence of Pres H. B. Dawson, at 4 p. m. City members will please take notice. P. LYNCH, Clerk. s93 w 50 1m ea

ESTRAY NOTICE.

I HAVE in my possession a black and white speckled Bull, two years old, crop off right and slit in left ear, brand on left hip illegible. If not claimed and taken away within ten days will be sold as the law directs on Monday, January 21, 1873, at two o'clock p. m., at the estray pound in the 14th Ward, Salt Lake City. JOSEPH HORNE, District Pound-keeper. S. L. City, Jan. 9, 1873. d49 w 1 ea
