

by the Godbe brothers and Dr. Stauffer of this city and Col, James L. Hackett of Louisville, Ky. It is certainly one of the biggest lead-silver mines at Pi. oche if not the entire west. Citizens of Pioche are pretty much excited about it.

ON MINING EXCHANGE.

Morning Session a Busy One, With

Prices Ruling Higher. It was nearly noon today when the forenoon call of the mining exchange was dismissed and it was not until af-ter the lunch 'hour that Sec-retary Shorten had an opportunity to compile the list of sales for the session. Trading was brisk with the Tin-tic isues leading, as they have done for sometime past, in the trading, Highor prices were obtained all along the line and Sloux Consolidated happened to be particularly attractive. Moun-tain Lake made some good gains, whil Prince Consolidated was in fair demand around 95 cents

Of the unlisted stocks, Bingham Contral Standard was the most ac-tive, but brought less money than it did last week soon after the repor

LEAD FURNACES GOING. Only the lead department of the great plant is in operation, but an average of 800 tons of ore is being put through the furnaces every day and it is difficult to discern at anytime as much smoke issuing from the top of the 250-foot stack as from an ordinary house chimney. The most of the time, a thin white vaper is visible; but to view the plant from a distance it bears

evidence of being idle.

arrangements for the crection of a 300-ton plant. This plant is to be a slime proposition, operated by means of washers, deep settling tanks and filters has been expensive to the smelters as also to the farmers and the relief that comes with the news that the United States Smelting company's operations in future will be absolutely free of CONCENTRATES.
