light has installed a 15-horsepower gasremembered, to one of the consideroline hoist. WORK ON CHALLENGE GROUP.

A prominent Salt Lake City min-ing man thinks that this prediction is extravagant and declares that the company cannot earn as much as \$300,000 monthly. From other sources we get a statement that the machin-ety and equipment for the mill are ery and equipment for the mill are coming along so slowly as to make it improbable that the first unit will go into commission earlier than June. The estimate of \$300,000 net per month is based on the assemption that

One mile further west on the "flat" lies the Challenge City group of six claims, owned by John Taylor, Dr. S. P. Lowell and C. H. Frink of Santa Barbara, Cal. Development work has been progressing on this estate for some time past, and the shaft on the Minnie No. 2 is down 85 feet with five feet of ore that averages 320 across the vein. The values are very uniform, and the vein, which was 18 inches on the sur-face, is now over six feet in width, with both walls disclosed. The development The estimate of \$300,000 net per month is based on the assemption that the first unit of the company's new mill will treat 3,000 tons of ore daily, and that the old mill will continue treating 1,000 tons of ore daily as at present, making a total of 4,000 tons daily, or 104,000 tons monthly, pro-vided the mills run 26 days. If a re-covery of 28 to 20 pounds of copper is secured per ton of ore, the result will be a monthly production of 3,-000,000 pounds. If the cost of this copper is 10 cents per pound and it is sold at 20 cents, the result will be a profit of 10 cents 1 m pound, or net earnings of \$300,000 monthly, as es-timated. It is true, however, that the company has not as yet shown an ability, with its old or experimental mill, to recover as high an average as 28 or 20 pounds of copper to the ton. face, is now over six feet in width, with both walls disclosed. The development so far consists of the S5-foot shaft on the Minnie No. 2, a 24-foot shaft on the Galving claim and over 250 feet of trenching. The ore is similar to that found on the Wyoming-Searchlight and Golden Rod groups lying one mile east of this find. Supt. G. W. Huntington is develop-ing the Colorado group, belonging to the Superior Nevada Gold Mining com-

the Superior Nevada Gold Mining com-pany. The property is situated 10 miles west of Searchlight, near the Crescent district, Considerable work is being done in the development line and vast quantities of the ore being blocked out. Seven immense ledges traverse the large acreage of this company, and from the present showings, this district will be one of the leaders among the gold producers of the State of Nevada. The main working shaft is down 150 feet with 300 feet of drifting on the 100 level. The vein is 15 feet in width and the values range from 35.62 to 323.45 in gold. Balaklala has been under some ing pressure this week. I understand that a block of stock has been liquithat a block of stock has been liqui-dated by interests who wanted money for another venture. It is stated on what seems to be excellent authority that John Hays Hammond has just completed an examination of the Balaklala property for the Guggen-heims, and that hi greport is that the net value of the ore now in sight in the mine is cough to \$25 nor shore ABOUT GREENWATER. Donald B. Gillies Tells of Conditions

in the mine is equal to \$25 per share for the company's stock. Utah-Apex--concentrating ores, re-Utah-Apex-concentrating ores, re-cently treated at a custom mill, yield-ed a concentrate worth over \$40 per ton, equivalent to \$19 per ton of crude ore. The company's Paravenue tun-nel is now in 1,900 feet, and will prob-ably cut' the Parnell vein within 30 days. This stock is in a position where it is likel yto have a good ad-vance. vance

NEW COMPANY ENTERS FIELD.

California Corona Mining & Milling Co. Files Articles of Incorporation.

The eCalifornia Corona Mining & The eCalifornia Corona Mining & Milling company filed articles of incor-poration yesterday in the county clerk's office. The company was organ-ized under the laws of Utah and is capitalized for \$600,600, which is divid-ed into shares of the value of \$2 each. The Alpha groups of mining claims, lo-cated in the New York mining district in California and the Century, Rough and Ready, Nabob, Corona. Mascot. Trilby, and Republic claims are owned by the company.

Triloy, and Republic claims are owned by the company. The officers are: W. J. Craig, presi-dent; J. W. Currie, vice president; W. S. Zehring, secretary, and E. O. Howard, treasurer. A. T. Siahl, A. W. Smith and H. O. Shepard and the of-ficers of the company form the beard of directors. directors.

STRIKES \$200 ORE.

Manhattan Consolidated Meets With Favorable Results on 200-foot Level.

A telegram received from Manhattan A telegram received from Manhattan yesterday afternoon states that a big strike had just been made on the 200-level from the main shaft of the Man-hattan Consolidated, says the Tonopah Miner of Oct. 26. The ore fills the entire face of the drift and pannings indicate a value of at least \$200 a ton. The strike is on the same ledge that was opened up on the 50-foot level, and proves to the satisfaction of the man-ascient that the ledges and values "go down."

SHOWS GOOD VALUES.

In New District.

"We went down to examine the prop-erties of the Greenwater and Death Valley Copper company, and the United Greenwater company, all of the gentle-men in the party being interested in both companies. We are sinking five shafts on the Greenwater and Death Valley group. The greatest depth at-tained is 135 feet and all of the shafts are in ore from the surface to their present depth. The ore runs from 5 to 32 per cent copper, and will average 10 per cent. The silver values run about \$2 and the gold about \$4 a ton. On the United Greenwater we are sinking two shafts. At No. 1 shaft they have taken out 50 tons of ore that will assay 14 per cent copper, and h No. 2 shaft we are sinking on a vein about shaft we are sinking on a vein about s feet wide that runs about the same grade as in No. 1. We are also running a number of surface cuts."

than its share. "Our blg, strong, greedy, over-pros-perous trusts are animals of the like order. They crowd their smaller and weaker fellows from the feeding trough so that these don't set their fair share of our national prosperity. The problem is how to so fence off the great beasts so as to give the little ones a chance. "The Democrats propose to cut off the supply of swill, or. In other words, to destroy our prosperity by unsettling all our businces relations. No doubt this process would soon make the big hogs as thin as razorbacks, but would the small ones fare any better? "Remember, we don't complain of the former because they are themselves big and fat, but because they make others small and thin. The fatter the big pigs become the better for their owner and the more money the trusts make the better for the American people, provid-ed in the one case all the little pigs get fat too, or at all events as fat as these can, and in the other that all dealers outside of the trusts have a fair field and the trusts have no favor. "Our president wants and has always wanted a square deal for everyone, whether pig. Hon or man, and under his hedership the Republican party has tried to put and keep each of our trusts in its own roper pen where it can't crowd any of the little fellows around it. To these ends he has asked the ald of Congress and of the courts to keep the country in due subjection to the law, not to make rich men poor, for to do the wont on the interior to the law, not to make rich men poor, for to National Bank of The Republic A thoroughly modern savings depart-ment conducted in connection with the bank.
