IMPORTANT TO THE TRAVEL-

ING PUBLIC. fors starting on a journey to ascer-tain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WE RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has een put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is central v located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East-

which had the effect of making it let go its hold; Mr. Ashworth then killed it with a rock,after which he "Modesty is virtue's handmaid." -T. whiskey saved the young man's life. The snake had eight rattles. —Beaver Enterprise, Aug. 7. An exchange has the following 9.15-Prof. Karl G. Masser con-tinued his lecture on the Theory and Practice of Teaching in his usual interesting and instructive manner. He answered the ques-tion, Why do you consider it danas a cure for the bite of a rattle-

gerous to give prizes in school? by reading from the works of several authors, and proving that in many cases those who are the most stu-dious often fail to obtain a prize. "A post office agent traveling in Texas tells of the successful use of the gall of a rattlesnake as an antilote fer the bite of that reptile. In the case spoken of relief was almost instantaneous to the patient, who was writhing in paroxysms of great pain, rapidly swelling and becom-ing purple. A friend of the writer, who spent several years in Califor-nia and New Mexico, saw the same He deprecated the use of vulgar or profane language by a teacher, and enlarged on the synthetical and analytical methods of teaching and merits and d esented his method of te primer class by the use of sch

nia and New Mexico, saw the same remedy successfully used among the Indians in the latter country. "In one instance an Indian's dog near the camp was bitten in the nose by a large rattlesnake. The Indians immediately opened the reptile and administered the gall. The cure was rapid and effectual." 10.10.—Prof. J. R. Park renewed the subject of Arithmetic, and wished to correct an idea that he discarded the use of tant books. He does use them, but prefers to use any work that will give instruct tion and examples on the principle before the class, giving preference to a "test example" book. Notation and numeration were examined and explained. 10.45.—Miss Josephine Cole treat-ed on the subject of Geography.
