

WALLACE AGAIN REPLIES TO TAFT.

Accuses Him of Abusing His Official Position to Make Assault
On Ex-Panama Engineer.

SAYS SECY. GARBLED LETTER.

Declares Cromwell Tried to Have
Claim Paid by Use of Improper Means.

Washington, May 23.—Former Chief Engineer John F. Wallace of the isthmian canal today addressed a letter to Senator Millard, chairman of the committee on inter-oceanic canals, in reply to Secy. Taft's recent testimony before that committee, in which he charges Secy. Taft with having abused his official position in order to make a second assault upon him and to place in a public record statements "calculated and apparently intended to affect his reputation for veracity, such as he would not make to me as one man to another, face to face." He also imputes to Gov. Magoon a breach of confidence in having advised him to take a certain course of action and then anticipating it by secretly writing to Secy. Taft. While expressly stating that he bears no ill will toward William Nelson Cromwell, Mr. Wallace speaks of the bias of Secy. Taft in favor of that gentleman, and says that he was aware that Mr. Cromwell, among other things, was trying to secure the payment by the use of improper means of a claim which was afterward disallowed by the president.

SAYS TAFT WAS PREVIOUS.

Mr. Wallace refers to the Manhattan hotel interview with Secy. Taft which was given out to the press with a statement by Secy. Taft at the time that it was not the result of a hasty outburst of anger, but a deliberate opinion formed after receiving Gov. Magoon's letter and telegram, and expresses the opinion that Secy. Taft prejudged his motive, and that the secretary's actions and remarks were prearranged. The presence of Mr. Cromwell at that interview, Mr. Wallace says, proved a free presentation of his views, because he had hoped to talk with the secretary alone, and he adds that he believes a stenographer was concealed in the room where the interview was held, or in the adjoining one thereof, in order to take notes of the conversation.

MAGOON'S QUEER COURSE.

Mr. Wallace next refers to a conversation on the isthmian with Gov. Magoon, in which he says that Gov. Magoon himself "suggested to me that I should request Secy. Taft to appoint me chairman of the committee on inter-oceanic canals." He also says that he replied that I would make no demands upon Secy. Taft; that Mr. Shonts was my personal friend, and that I much preferred, as Gov. Magoon admits, going to Mr. Shonts and putting it to him straight. I also requested Gov. Magoon to make no suggestions to Secy. Taft, but I note from his cablegram, Mr. Cromwell said that he was under the impression that I desired him to recommend my retention as an engineer member of the commission, and this despite the fact that Gov. Magoon assured me would regard the subject as confidential and give me an opportunity of first presenting the matter to Secy. Taft in a personal interview. The breach of confidence upon the part of Gov. Magoon, in advising me to take a certain line of action and then, presuming that such action would be followed, secretly writing to Secy. Taft as to what he thought I would probably do, speaks for itself.

SAYS TAFT CONTRADICTION HIMSELF.

"Secy. Taft in his testimony before your committee characterizes as an untruth the statement made by me in my letter addressed to him under date of June 8, 1905, and in my interview given out in New York on June 23, 1905, in which I stated that I was not personally in the public press, and again referred to in my testimony before your committee, that at no other time during the year would the work on the isthmian be in a better condition to permit of my absence. This was my judgment on each and every occasion specified, and still is my firm conviction. This is

TORTURED BY ITCHING ECZEMA

Suffered Tremendous Itching Over
Whole Body—Scratched Until
Bled—Worse at Night, With
Soreness and Excoriating Pains
—A Western Lady's

WONDERFUL CURE BY
CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the tortures of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over. I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I made up my mind that I would use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1903."

TORTURING, DISFIGURING Humors, Eczemas, and Itchings Cured by Cuticura

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

What Has Climate To Do With Milk?

There are no cold winters on the Pacific Coast. There are no hot summers. The cows graze outdoors the year round. The farmers do not have to bring them up to the barn to be milked.

Carnation Cream

(Sterilized)
is made from the pure, wholesome milk of contented cows, which feed on abundant pasturage in a mild, even climate. We sterilize and evaporate the milk without a moment's delay. Buy Carnation Cream if you want the best the market affords.

You'll pay less in proportion for pure Carnation Cream than for the milk your milkman sells, which may or may not be pure.

true also of the statement made by me that the only work which could be performed until after Congress, at its next session, shall take some decided action in the gradual increase in the organization and the addition of units of machinery along a well defined plan, which Mr. Daughy thoroughly understands. The statement the secretary also ventures to characterize as an untruth, although it is confirmed by his own testimony when he states, "I am advised from the isthmian that Mr. Stevens' work has so far progressed that he will soon be in a position where he must delay all work, or substantially all, until the decision is reached as to the type of canal. It seems to me monstrous that Secy. Taft should abuse his official position to place in a public record statements calculated and apparently intended to affect my reputation for veracity, such as he would not make to me as one man to another, face to face."

AN INJUSTICE TO WALLACE.

Continuing the letter says: "Secy. Taft, while publishing in his appendix my letter of March 15, 1905, in full, in his statement proper says: 'In the letter of March 15, which Mr. Wallace wrote and which I have already introduced, he uses the expression, "I prefer to remain on the firing line," indicating that at that time he had not thought of leaving, where the post of importance was for the chief engineer.' Secy. Taft does me a gross injustice in extracting this phrase from a sentence with vital modifying clauses and omitting the context. I desire to call the attention of the committee to the important words he omits: 'I prefer to remain on the firing line, provided I receive proper support and an impossible situation is not created in Washington.' This letter was written prior to any thought on my part of leaving the service and prior to the reorganization of the commission. The fundamental reasons for my desire for a personal interview with Secy. Taft are stated in that letter as with a premonition of coming events, for I was not given proper support and an impossible situation was certainly created in Washington, for Mr. Cromwell, allied to many opposing interests to those of the United States, was apparently permitted full control behind the scenes of the policy of the United States in all Panama canal affairs."

PROOF OF HOSTILITY.

"Secy. Taft in his testimony also states that he is 'sorry to have been misled into the incorrect statement of Mr. Magoon's assurance me would regard the subject as confidential and give me an opportunity of first presenting the matter to Secy. Taft in a personal interview. The breach of confidence upon the part of Gov. Magoon, in advising me to take a certain line of action and then, presuming that such action would be followed, secretly writing to Secy. Taft as to what he thought I would probably do, speaks for itself."

SAYS TAFT CONTRADICTION HIMSELF.

"Secy. Taft in his testimony before your committee characterizes as an untruth the statement made by me in my letter addressed to him under date of June 8, 1905, and in my interview given out in New York on June 23, 1905, in which I stated that I was not personally in the public press, and again referred to in my testimony before your committee, that at no other time during the year would the work on the isthmian be in a better condition to permit of my absence. This was my judgment on each and every occasion specified, and still is my firm conviction. This is

RULOGIES OF CROMWELL.

Mr. Wallace continues: "Secy. Taft's unwarranted assaults upon me are, however, less astonishing, if possible, than his eulogies of Mr. Cromwell. In his testimony on April 19, 1906, he says: 'The impression sought to be given was that Mr. Cromwell has attempted to interfere in canal matters or to exercise great influence in controlling the policies to be pursued is wholly unfounded. And yet, on June 23, 1905, Secy. Taft said on the same subject: "Mr. Cromwell has for some time been charged by the president and myself with general advisory duties in all Panama canal matters." Mr. Wallace continues: "Taft's frank to show the important position occupied by Mr. Cromwell."

QUOTES PRESIDENT.

Mr. Wallace concludes with a quotation from President Roosevelt's "muck raker" speech, in which he spoke of gross and reckless assaults on character, and adds: "Despite the labored and sustained effort upon the part of Secy. Taft to impugn my motives, simply because he felt it necessary to sustain and support his ill-advised outburst of temper and abuse treatment of me at the time I had hoped for a calm and dispassionate consideration of the questions involved, and which should have been amicably settled and adjusted without irritation and without embarrassment to the administration or injury to the work, he has been unable to refute any statement of facts made by me before your committee. On the contrary, his attempt to discredit my veracity has been confined to calling untrue certain statements that were merely questions of personal opinion."

A PISTOL DUEL.

Fought in Anadarko Between Deputy
Sheriff and Outlaw.

Anadarko, Okla., May 22.—At 1 o'clock this morning a fierce pistol duel took place on Main street between Deputy Sheriff Jim Bourland and the notorious outlaw Fred Hudson. Bourland received a wound in the abdomen, the ball passing through the leg, one being broken, necessitating its being amputated. The duel between these men is one of old standing until it was intensified yesterday, when Bourland took a revolver away from Hudson. T. J. Kennedy, a saloon man of this city, and J. Ebbertson are now under arrest. Hudson is in a very critical condition.

INCITED FOR Uxoricide.

Toma River, N. J., May 22.—Dr. Frank Brouwer was indicted and arrested today on the charge of having poisoned his wife, who died last September. Mrs. Brouwer was a member of a wealthy family and is said to have possessed some property. Dr. Brouwer is now in custody when arrested.

ONE PRICE AT HOME ANOTHER ABROAD.

Rep. Landis Frankly Admitted
That Was Practise of Am.
Watchmakers.

SAID IT WAS GOOD BUSINESS.

Mr. Williams Said He Was Encouraged
in the Fight for Tariff
Reforms.

Washington, May 23.—The issues destined to be uppermost between the two great parties during the coming campaign are already being joined, if the speeches now being made in the house of representatives are a safe index.

Several weeks ago Mr. Rainey of Illinois made a carefully prepared speech on the watch trust, asserting that the watch manufacturers of the United States had one price for watches at home and a lesser price abroad.

Today in the house Charles B. Landis of Indiana in a sense answered Mr. Rainey, frankly admitting that American manufacturers had one price at home and another abroad, and he defended the practice as in accord with good business methods, insisting that all countries sold their wares for less prices abroad than at home.

Mr. Landis also paid some attention to a speech made by Burke Cockran of Illinois, wherein the latter denounced the policy of protection as one of public plunder, the fountain source of all corruption and the cause of total demoralization of the American republic. This Mr. Landis denied. He said that every poor but ambitious emigrant who had landed here during the last 10 years would refuse the allegation. Referring to Mr. Cockran's speech he said: "This is the best country on earth, and not the worst country on earth. And if I thought about it as the gentleman from New York I would resign my seat in this house, sell out my belongings and move to some other country nearer in harmony with my political notions."

Mr. Landis displayed a number of pictures of Coxey's army and commented on its appearance in Washington and the demand of its members for work. "That was the condition in the last years of Democratic rule," said Mr. Landis.

In reply to this Mr. Williams, the minority leader, stated that he had on the firing line provided I receive proper support and an impossible situation is not created in Washington."

Mr. Williams said he was encouraged in the fight for tariff reform because of the number of Republican leaders who were desiring to see the McKinley bill at that time, and that revenues were being collected under that Republican measure.

FOR SEA LEVEL CANAL.

Sentiment in Senate Grows in Favor of
That Type.

Washington, May 23.—A growing sentiment in the senate in favor of making the proposed canal appropriation applicable only to the construction of a sea level canal across the isthmus of Panama in accordance with the majority report of the senate committee on inter-oceanic canals is proving embarrassing to the administration, which is committed to the lock type. President Roosevelt today dismissed the subject with senate leaders who called at the White House, and apparently he is much concerned as to the outcome.

As the result of the president's inquiry into the matter today to ascertain how the senate stands on the question of canal type. There were too many absentees to make an effective poll, but it was learned that several senators who had been counted upon to support the administration program, will vote for a sea level canal.

Secy. Taft has informed the senate that if the type of canal is not determined by Congress, the president will not hesitate to proceed with the plans for a lock canal recommended by the minority of the board of consulting engineers. Officials charged with the direction of canal affairs believe that the house is in accord with the administration program for a lock canal for the reason that it would cost much less and it would be easier to build than would be required for the sea level canal. With the two houses at odds, it appears that the administration plan must be successful, as the president was informed by senate leaders today that Congress would not be held long in session to contest the question.

In view of the fact that there are no political questions involved, it is not believed that any pronounced opposition from the house or even a determined fight in the senate a majority in the latter body in favor of the sea level project easily could be maintained.
