St. Louis.—A Denver despatch says that Gen. Palmer, of the Kansas Pacific Railroad, has completed the arrangements for the extension of the road to Denver. The most intelligent miners assert that St. Louis will become the chief point for smelting the silver ores of Colorado, and that thousands of tons will daily be shipped here when the road is completed, at a saving of thirty dollars a ton on the present mode of transportation. Parties here are already preparing to erect smelting works.

A large number of shots was fired, and three negroes killed and five wounded; four policemen and three other whites were wounded.

Montgomery, Ala.—The returns are still meagre, but enough is known to render it certain that Buckley and Hayes, Republicans, are elected in the second and fourth districts; that Dox and Sherman, Democrats, are elected to the fifth district. The returns from the first district are too indefinite to say with certainty, but the impression is that Buckley is elected. In the third district the vote is very close, and it will take an official count to decide.

New York.—The Cuban Junta in this city has received official information from Céspedes relative to the reception of the news in the patriot army of the late arrest of Spanish gunboats by order of the authorities at Washington. It represents that the feeling produced was one of satisfaction that our Government was about to enforce the neutrality laws with strictness and impartiality on the Spaniards as well as the Cubans. They ask that Spain shall be prohibited from making the United States an entrepot, from which to send arms and munitions of war to be used against them; they will be content to fall under the same ban, so confident are they that the issue of the struggle will be victorious for them, if Spain be the only power they have to contend against.

There are rumors in Cuban circles that a deputation of native Cubans is now at the Court of Spain, endeavoring to persuade that Government to sell the island to the insurgents. It is believed that General Sickles made a similar

proposal, which was rejected with indignation; this refusal was the cause of the prompt action of the President in ordering the seizure of the gunboats. It is rumored that Gen. Rodas, despairing of subduing the insurgents, has invited Roberts to take a voyage to the island to witness, himself, the gravity of the situation, and has advised the Home Government to grant the Cubans all the concessions compatible with its own dignity.

Chicago.—A grand banquet was given to Sing Man and Choy Chew, the Chinese visitors at the Sherman House last night; the party was very select and was composed of members of the Board of Trade, several of the most prominent business men of the city and some distinguished gentlemen from other parts of the United States. Richards, President of the Board of Trade, presided, and at the conclusion of the banquet gave an account, in a brief speech of the visit of the Chicago Commercial Party to California, speaking in the highest terms of their reception there, and expressing the belief that a great trade will so in spring up, not only between California and Chicago, but direct with China via San Francisco.

Washington specials say that late developments in New York and elsewhere, with regard to the extent of counterfeiting revenue stamps, is causing much uneasiness in the Revenue Bureau. The detectives lately captured a lot of stamps, better executed than the genuine. It is the opinion of experts that all the series of stamps should be changed, and that both the engraving and printing should be done at the Government Office. All efforts to discover the source of the die of the counterfeit ten-dollar greenback have thus far failed. It seems certain now that the question of establishing a bureau for engraving and note printing, where all the money and revenue stamps will be manufactured, will come up in Congress early next winter.

Columbus, O.—The reception of Gen. Rosecrans' dispatch, declining the nomination for Governor of Ohio, will compel the assembling of another State convention, as the central committee will hardly take the responsibility of making a new nomination. The central committee meet here on Wednesday to take action in the premises.

New York.—A partial eclipse of the sun was observed by hundreds and thousands of people in this vicinity; during a portion of the time light clouds passed before the sun, but not to such a degree as to affect the sublimity of the spectacle. When the eclipse was at its height the rays of the sun presented to the naked eye a wavy appearance, like those of the aurora borealis. The clouds in that portion of the heavens were of a rich rose color. Astronomers say that no protuberances of the sun were seen here.

Chicago.—The following is the full text of Choy Chew's speech at the banquet last night: "Mr. President and citizens of Chicago:—I am proud of the honor you have done Sing Man and myself in making us your guests on this very pleasant occasion. In behalf of our countrymen, not only those engaged as merchants in San Francisco, but those everywhere occupied in trade and commerce, whom, through us, you likewise honor, I desire to say with a whole heart that I thank you. Eleven years ago I came from my home in China to seek my fortune in your great Republic. I landed on the golden shore of California, utterly ignorant of your language, unknown to any of your people, a stranger to your customs and laws, and, in the minds of some, an intruder, and one of that race whose presence was deemed a positive injury to public prosperity; but, gentlemen, I found both kindness and justice; I found that above the prejudice which had been formed against us, there flowed a deep and broad stream of popular equality, and that the hand of friendship was extended to the people of every nation, and that even a Chinaman might live and be happy, successful and respected in free America. I gathered knowledge, and in your public schools, learned to speak, read, write, act and think as you do. I rejoice it is so, and that I have been able to cross this vast continent without an interpreter, and that here, in the heart of the United States, I can speak to you in your own familiar speech, and tell you how much, how very much, I appreciate your hospitality, how grateful I feel for the privileges and advantages I have enjoyed in your glorious country, and how earnestly I hope that your example of enterprise, energy, vitality and national generosity may be seen and understood as I see and understand them by our government. Mr. Burlingame has done much to promote good feeling in China towards the American nation; he made himself well acquainted with the authorities of Peking and won their confidence to a remarkable degree. He is an excellent man, and I believe if his advice be received and acted upon China will soon be a cordial friend of all the commercial powers of the earth. We are doing something in the way of progress and modern improvement. Steamboat lines have been established; now we want railroads and telegraphs, in which this wonderful sovereignty of the western hemisphere, where the people rule and where they are ever proclaiming peace and good will to all, has taken the lead. China must now brush away the dust of her antiquity, and is looking across the Pacific to behold and profit by the new lessons of the new world.

"I expected only in my visit to your city to study your business character and intercourse, but your generous courtesy and kindness have made our mission one of inexpressible pleasure. Sing Man and myself have been shown about the city, and everywhere made the recipients of high attention. We are delighted with what we have seen thus far; your city exceeds all our expectations, your people, even more than we can express, command our sincere and grateful regard. Chicago and her people will always be remembered by us with pleasure. We trust

our visit may be productive of good results to the United States and that the two great countries of the East and West—China and America, may be bound forever together in friendship; and that Chinamen in America or Americans in China may find like protection, and like consideration in their search for happiness and wealth."

The *Herald* says that Secretary Fish gives as a reason for the seizure of the Spanish gunboats, that they were intended to relieve the Spanish fleet now doing duty on the coast of Cuba, and permit the fleet leaving to reinaugurate a Peruvian war. He says he does not intend to permit gunboats to leave our waters, and if they leave without his permission he will send after them a force which will astonish the "Dons" and compel his authority to be respected.

MORNING DAILY PAPER.

At the request of many citizens and patrons of the Salt Lake Telegraph, the undersigned has concluded to publish the Telegraph in Salt Lake City, as a Morning Paper, commencing at the earliest possible date.

It is proposed to furnish the Telegraph to subscribers by carriers, who will collect according to subscription, and whose interest it will be to deliver the paper with punctuality and regularity at the houses of their patrons.

The credit system which has heretofore prevailed in publishing papers in this country has been very prejudicial to all concerned. It has been ruinous to the publisher and unsatisfactory to the patrons of the paper. Believing that the growth and advancement of the city demand it, we design, if the public will support us, to issue a paper that will contain the news of the whole world, and make such improvements in conducting it as our past experience will enable us to do; and to obviate the credit system, we will receive subscriptions by the week, month, quarter, half year and year.

Subscriptions can now be handed in to the office of the Salt Lake Telegraph in this city, at the following rates:

1 Year,	\$12 00
6 Months,	7 00

1 " "	1 50
1 Week,	40
Single copies,	10

MAILED TO ANY ADDRESS:
