Consolidation Company Makes Connection with Tuscarora Shaft.

The Wyoming Press says: Two carloads of boring machinery arrived at Advices from the Dexter-Tuscarora Piedmont this week for the Wyoming property at Tuscarora, Nev., state that connection has been made with the Tuscarora shaft from the 250 level. Since the consolidation work has been Illuminating Oil company, and operations will begin just as soon as the machinery can be hauled onto the ground and set up, which will probably be the end of next week. This company is the one organized by the Nebergull people pushed in this drift in order to tap the Tuscarora vein where high values are known to exist. The shaft on the and work will be pushed with all dis-patch. The first well will be sunk on section 22, which is the second section Tuscarora intercepted the vein at a depth of 90 feet. It was continued down deeper and of course the bottom of it north of the one on which the Union Pacific well was sunk. It is now beis some distance from the vein, Col. Milner says the present development lieved the machinery for the Pettigrew & Clark company at Fossil will be ready will enable the company to mill the ores from the 90-foot level of the Tus-carora, which will be dropped to the to begin operations within the next fortnight. 250-level and conveyed thence to the m.O. It will be necessary, however, to extend the drift about 200 feet further

### Senator Clark Buys Copper Mines.

The Los Angeles Times says that Senator W. A. Clark, has purchased valuable copper claims in the low mountain range ten miles south of Maricopa, Ariz. Three Mexicans prospected the place for months, and finally unearthed one of the largest and richest copper ledges in the West. Several tons of the ore was shipped to El Paso, where it was found to be of surprising richness. Senator Clark's agents have secretly made several examinations of the prop-

erty, but all facts concerning the mat-

in order to open up the Tuscarora vein on the 250-level. As soon as this is

done the company expects to show a

material improvement in the bullion

In its weekly review of Park City the Record says: A force of men is at work timbering up the old shaft of the Homestake. onsiderable material is on the ground,

and more will be delivered by the time it is needed A, Withey has let the contract for the machinery to equip a fifty-ton con-centrating plant. It will be located just below the old Crescent mill, as stated

in the Record last week. The first lot of 180 ions was put through the new Silver King sampler Saturday last, which was sampled four times to see how the mill would check up. The result was most satisfactory. the machinery started off without a hitch of any kind, and the checking was perfect. Another lot was sampled on Wednesday, and still another yesterday, and from this time on will be taken steadily

In a description of the Silver King's Acrial tram the Record says: As an il-justration of how perfectly the system working, Foreman Fleming, operating from the depot terminal, stopped the entire machinery and started it up again in twenty seconds, by simply signaling to the engineer at the loading station at the mill end of the line. Thus it will be seen that accidents are not likely to occur from tack of speed in signaling from one end to the other. Barnes bros, are now working stead-

New York, June 10 .- Prices of stocks ter nave been suppressed. It is claimed that the reason for secrecy is that the dropped in the opening dealings, the demines are on the Indian reservation, and that the senator hopes to secure a cline reaching a point in Atchison. The weakness at the close on Saturday was a continuing influence this morning. Missouri Pacific moved independently of other reilroad stocks, rising 21/2 in the first few minutes. A number of the leading specalties showed gains, Amalgamated Copper rising 1% and the Tobacco and Sugar stocks a fraction. Trading was very spirited and very irregular for a while, but near 11 o'clock the drift was downward on heavy selling of Sugar, Amalgamated Copper and Union Pacific. These stocks reacted from 1% to over 2 points, the im-provement in Missouri Pacific causing
