NEWS OF THE DAY.

——A treaty has been concluded between Britain and Burmah.

——Famine prevails in the Karens country, south-east of Burmah, and many have already died.

——Twenty thousand of the inhabitants of Toulouse have been beggared by the overflow of the Garonne; and in the same city eight hundred houses have been destroyed by the same cause. The destruction in other places is also terrible. At Tremoullet five houses only are left out of four hundred. Immense destruction of crops is also reported, while the loss of life is estimated at one thousand.

——The officers of the U.S. squadron were entertained at a banquet at Kiel, yesterday, by Admiral Werner of the German navy.

——Forty thousand dollars damage by fire at Detroit, Mich.

——Judge McFadden, delegate in Congress from Washington Territory, is dead.

——A serious revolution is said to be in existence in Sonora.

Government to rescue him from service in the army of the Emperor William, into which he has just been drafted.

HIS POLICY.

THE Washington correspondent of the New York *Herald* recently wrote to that paper that Mr. Axtell was made Governor of Utah "with the understanding that he would carry out the President's policy in regard to Mormonism;" that subsequently his "official course indicated that he was directly opposed to the President's policy;" that consequently he was removed to make room "for one who, this time, is known to be in accord with the President in the government of the Mormon Territory;" and that as Governor Mr. Emery "will undoubtedly be supported by the administration as its exponent in the conduct of the affairs of the Territory of Utah."

The New York *Saratogian* has a paragraph written in a similar style upon the same subject.

From these, taking them as truly representing things in Washington, it appears that the President is a policy man, that he has a special policy in regard to "Mormonism," that in the conduct of the affairs of Utah, the Presidential policy towards "Mormonism" is the determining policy, and that it is necessary that the Governor of Utah be in perfect accord with that policy, so that he may be the undoubted exponent thereof. As to "the Mormon Territory," we do not find among the various Territories of the United States any one designated by that name.

But about the policy. Utah is to be governed by the peculiar policy of the President, by his peculiar policy towards "Mormonism." The text book of American government says human governments are institutions formed not for the purpose of the people being ruled by the policy of one man, but to secure equal and inalienable rights to the governed, to secure their safety and happiness, governments deriving their just powers from the *consent of the governed*, and that it is the right of the people to alter or abolish a government that becomes destructive of these ends. In all this there is nothing about the necessity of adherence to any special presidential policy. On the contrary, it is the consent of the governed that is specially presented as the all important point to be kept ever in view.

Again, it is the presidential policy towards "Mormonism" that is made so important a matter, and given so controlling an influence. Why should a president have a governmental policy towards "Mormonism" or towards any other religion? It is as consistent to have a public policy towards Methodism or Catholicism as towards "Mormonism." The Constitution provides for no such thing, but in letter and spirit actually forbids and prohibits it. Congress has no right to make laws concerning an establishment of religion, or prohibiting the free exercise thereof, and the Constitution and constitutional laws are the supreme law of the land, which the President is solemnly sworn to protect, preserve, and defend.

It is therefore thoroughly extra-presidential to have a public policy towards any form of religion, or any body of religionists: or to have any public policy, except to uphold the constitutional law of the land.

AN ABLEGATE.—In relation to the creation of a Roman Catholic cardinal in America, much has been said in our dispatches concerning the "ablegate," who brought from Rome the authority for the cardinalship. To "ablegate" is to send abroad; an "ablegate," therefore, is a person sent abroad, a messenger, a representative.

In the course of the visit of the papal ablegate, Monseignor Roncetti, to the Centennial Exhibition buildings, another gentleman explained to the representative of the Philadelphia *Times* the nature of the office of an ablegate thus—

"'An ablegate,' said the distinguished Monseignor Seaton to the *Times'* representative, 'is a sort of commission from the Pope. He is ranked among the primates of the church, being consecrated a bishop; yet he does not really rank as one. He is in fact, a bishop without a province—something in the nature of a brevet brigadier general. Ablegates are appointed by the Pope whenever occasion demands, and when that occasion ceases they no longer retain their title of ablegate. The title of monseignor, however, they retain for life.'"

A CLEVELANDER'S OPINION OF SALT LAKE CITY.—The Cleveland, O., *Plain Dealer* of June 19 says it has been favored with the following extract of a letter from a Clevelander, James M. Allen by name, who was on a tour to the Pacific coast, to a friend in that city, and dated Salt Lake City, June 15—

"I have been completely astonished at what I have seen here. Here is a population of 20,000—gas, street railroads, steam fire engines, large hotels, beautiful Euclid Avenue residences, and every convenience pertaining to an Eastern city. Strawberries and other fruits in great abundance. I was in the tabernacle this morning, which has a seating capacity for 12,000 people. In brief, it is a wonderful city. I could have seen Brigham this morning, but was ashamed to go with a crowd of sightseers, as if a wild beast was to be trotted out."

EASTERN.

$40,000 Fire.

DETROIT, 25.—A building occupied by Bubellion & Hinchman, as a feed mill, was burned to night; the loss is estimated at $40,000, insurance $8,000.

The O'Connell Memorial.

NEW YORK, 25.—The O'Connell Memorial Committee met to-day, and it was resolved to accept the site offered in Central Park for a statue of O'Connell. The committee resolved to prepare for the laying of the corner stone of the pedestal on the 6th of August, the centenary of the Irish liberator, and invite co-operation of the admirers of O'Connell at home and abroad.

Will Not Leave Plymouth Church.

At the Plymouth church prayer meeting to-night the Rev. H. W. Beecher created a sensation by referring to the trial for the first time since it went into the courts. He said he would still continue to act as the pastor of Plymouth church because if he felt that, no matter what the verdict of the jury in the case might be, his congregation would still have faith in and stand by him.

Movement Against Railroads.

CHICAGO, 25.—A Springfield, Ills., special says that the railroad commissioners of Missouri have sent a letter to the railroad commissioners of this State, in which they notify the latter that they have received the acceptance of the railroad commissioners of six States, to meet in Springfield on the 20th of July next, to propose a plan for uniform action against the railroads as far as may be in the enforcement of the railroad laws of the respective States.

Opposition to Swansea.

It is understood that parties from San Francisco have purchased the Balcock smelting works. It is estimated that the average daily work done will be ten tons of ore and twenty tons of fluxing. The ore will be brought from the Shasta mine, Cala., which has heretofore sent its products to Swansea, Wales.

Indian Matters.

OMAHA, 25.—The Indians have stolen a large lot of horses near Lookout, Wy.

Private advices from the Red Cloud agency say that the Indians will undoubtedly sign away their hunting rights in Wyoming and probably in Nebraska.

Steamer Sunk.

MEMPHIS, 26.—The officers of the *Minola* report that the *Belle of Shreveport* sank at Island No. 10; she was bound from St. Louis to New Orleans, with a valuable cargo. No particulars.

Governor and Council Censured.

CONCORD, N. H., 25.—In the House, to-day, a vote was taken on the resolution censuring the governor and council in the senatorial matter; it was adopted by a party vote of 174 ayes to 166 nays.

WESTERN.

Dead—Revolution.

SAN FRANCISCO, 25.—Judge McFadden, delegate to Congress from Washington Territory, died to-day at Olympia.

A dispatch from San Diego reports a rumor of a serious revolution in Sonora, and that Gen. Davalos, in command on the frontier, is said to be a prisoner in the hands of the revolutionists.

FOREIGN.

SPAIN.

Surrendered by the Carlists.

MADRID, 25.—It is officially announced that the important Carlist fortress of Misavet, on the river Ebro, after a siege of several days, was surrendered unconditionally to General Campets.

FRANCE.

Terrible Destruction.

PARIS, 25.—The loss of life by the flood at Toulouse is appalling. At the St. Cyprian Quarter 215 corpses have already been found. The violence of the torrent frustrated all efforts to rescue the unfortunate inmates of the houses, and several men were drowned in the attempt. Twenty thousand persons have been deprived of the means of subsistence in Toulouse alone. The disasters elsewhere are almost equal in magnitude. The lower part of the city of Morssac, on the Tarn, is under water; at Tremeullet in the Department of Arriege five houses only remain standing out of four hundred. In the district of Foix, in the same department, two villages are completely submerged, and many dead bodies have been found. Crops of all kinds throughout the district are inundated and destroyed. President McMahon and Minister Buffet have left Paris for the scene of destruction.

Over 1,000 Lives Lost.

Midnight.—General De Cissey, Minister of War, accompanied by the President and the Minister of the Interior, have gone to the scene of the inundation. The municipal council of Paris has voted $20,000 for the relief of the sufferers. Eighty persons were drowned in Verdun. Eight hundred houses have fallen in Toulouse. At Bordeaux the Garrone is much swollen, but no serious catastrophe is reported. It is said that altogether over 1,000 lives have been lost.

GREAT BRITAIN.

Business In The Commons—Entertaining the American Officers.

LONDON, 25.—In the House of Commons, to-day, Stackpole moved that it would conduce to the advantage of the crown if the Queen should have a permanent residence in Ireland. McCarthy Downing, member for Cork, protested against the motion. Sullivan, member for Lowth, said the motion was inconsistent with the dignity of the crown and the Irish nation. Mr. Isaac Butt, member for Limerick City, gave assurances that Her Majesty would meet with a loyal reception in Ireland. Disraeli asked that the motion be withdrawn, as the act it contemplated was one which should be left to the free will of her Majesty. Stackpole accordingly withdrew the motion.

Admiral Wirner, of the German navy, gave a banquet yesterday at Kiel, in honor of Admiral Worden and the officers of the U. S. squadron; this evening the Americans were the guests of Admiral Henk at dinner, which was followed by a grand ball given by the officers of the German navy.

Treaty Concluded—Famine.

Dispatches from India announce that the seal of the King of Burmah has been affixed to a treaty with Great Britain. The British mission to the King, with Sir Douglass Forsyth at its head, was to set out from Manadlay to-day for Burmah.

Many deaths from famine are reported in the Karen country.

IRELAND.

Rifle Practice.

DUBLIN, 25. — The Irish and American teams practiced at Dollymount to-day; the scoring of the Americans was remarkably fine, the total points made being sixteen above the victorious score of last year at Creedmore. The members of the team, accompanied by the Lord Mayor, attended a performance at the Royal Irish Academy of Music.

TO-DAY'S DISPATCHES.

EASTERN.

Jay Gould and the Utah Southern Railroad.

NEW YORK, 26.—It is now reported that Jay Gould is about to obtain a controlling interest in the Utah Southern Railroad, with the view of extending it through to Southern California and San Francisco, thus giving the Union Pacific an independent line to the Pacific. This story gains more attention and credence than the recent one attributing to Gould a purpose to build a road from Ogden to Portland, Oregon.

Waiting for the Verdict.

Many hacks are in waiting at the Brooklyn court to carry the news of the verdict, when rendered, quickly to the remote parts of Brooklyn.

Assassinated—Not Lost.

MEMPHIS, 26. — Dr. Brand, a young physician at St. Catherine, 60 miles above here, was shot in the back and killed while writing in his office; there is no clue to the assassin.

A telegram from Cairo says that the steamer *Parker* left the *Belle of Shreveport* all right last night.

At Jackson, Tenn., yesterday, fire destroyed about half a block of buildings and a Catholic church; the loss will probably amount to $35,000.

A Novel Case—In a New Dress.

CHICAGO, 26. — A Washington special says that the Attorney-General has before him a case of great international interest, the decision of which is awaited with more than ordinary anxiety. Some years ago a German named Steinberg came to this country, and settled in St. Louis. He had a son born while living there. After Steinberg had been in this country some years he took out naturalization papers, and became a citizen of the United States. He remained in this country a year afterwards, and returned to Germany, taking his son, then six years of age, renounced his citizenship acquired in the United States and resumed his allegiance to the German government, but his son is an American citizen until he renounces his allegiance here, which he has never done. He is now twenty years of age, and has been drafted into the Emperor William's army. He appeals to the U. S. government to save him from service in the German army, and says that he was not taken from here by his own free will. The attorney General regards the subject as a complicated one, and possessing more than ordinary interest, from its novelty, and the possible result involved in it.

The *Times* comes out to-day in a new costume, and printed from new type, which increase its capacity 30 per cent. The change is caused by the constantly increasing demands on its columns.

Going to Europe.

General George A. Forsyth has been ordered by the War Department to Europe, on business connected with the military service.

Treaty with the Sioux.

WASHINGTON, 26.—The following dispatch was received at the Indian Bureau this a.m.:

"Red Cloud Agency, June 24.

"To Hon. E. P. Smith:—The Red Cloud and Spotted Tail Indians have signed an agreement to relinquish their rights in Nebraska. They want $11,600 in horses, $9,000 in cows, $2,100 in harness and $2,300 in wagons. All are well pleased.

(Signed) "J. W. DANIELS,
"U. S. Indian Inspector."

$30,000 Fire.

PATERSON, N. J., 26.—This morning the extensive woolen mills of Messrs. C. Fingre & Co., at Hawthorn, were burned; loss $50,000.

Six Men Killed.

PLYMOUTH, Pa., 26.—The scaffolding at the shaft of Number 2, Susquehanna Coal Co., fell this a.m., instantly killing 6 men at work.

FOREIGN.

FRANCE.

A Relief Committee Formed.

PARIS, 26.—A committee, with President MacMahon, as chairman, has been formed to collect funds for the relief of the sufferers by the inundation.

BRAZIL.

A New Ministry.

RIO JANEIRO, 26.—The ministry of Viscount Rio Branco has resigned, and a new cabinet has been formed with the Duke of Caxais, President and Minister of War.

THE FIG CURE FOR CANCER.—Boil new fine figs in new milk, which they will thicken; when they are tender, split and apply them as warm as can be borne to the part affected, whether broken or not. The part must be washed every time the poultice is changed, with some of the milk. Use a fresh poultice night and morning, and at least once during the day, and drink a quarter of a pint of the milk the figs are boiled in twice in the twenty-four hours. If the stomach will bear it this must be persevered in for three or four months at least. The first application gives a great deal of pain, but afterward each dressing gives relief. A woman cured by this remedy had been afflicted ten years; her breast bled excessively; ten pounds cured her.
