

LOCAL AND OTHER MATTERS.

THE MINSTRELS.—The performances at the Theatre last evening were an improvement on those of the evening previous. The theatrical efforts of the troupe were executed in much better style than the musical, with the exception of the anvil chorus, which was very creditably performed. Messrs. Dougherty, Kent and Bishop contributed most to the amusement and entertainment of the audience. Nick of the Woods was frequently and heartily applauded. In rendering this piece Messrs. Dougherty and Bishop gave evidence of ability to make their mark as burlesque actors. Mr. Kent's rendition of the female danseuse "Sangst" was very good.

PROGRESSING.—We are pleased to be able to state that Brother Robert Patrick, who got hurt in falling from the roof in the rear of Messrs. Teasdel & Co's store on Wednesday last, although suffering severely from his injuries, is progressing favorably. Dr. Anderson, who attends upon him, states that no bones were broken. Bro. Patrick's injuries are mostly confined to his back.

THE WAR NEWS.—We may now expect to have interesting dispatches from the seat of war. To-day our readers will find that the bloody work has begun in earnest. The affair at Saarbrücken was a slight matter, but the French were victorious. The storming of Weissenburg, a town on the frontiers, is quite a different thing. A division of McMahon's corps, on the side of the French, and several regiments of Prussians were engaged, and the result, if the dispatches are reliable, was victory to the Prussians, who captured several hundred prisoners, and gained possession of the French camp. This is the first fight of any importance since the declaration of war, and this taste of blood will whet the appetites of the contending forces, and make them more eager for that "big battle on the Rhine" which is so anxiously awaited.

ARRIVED.—The company of immigrating Saints, who came by the S.S. *Manhattan*, arrived at Ogden at thirty-five minutes past one this afternoon. They started for this city, switching at Kayville to permit the train that leaves Salt Lake at 2:45 to pass. They will probably reach here about five o'clock this afternoon.

MORE TWENTY-FOURTH CELEBRATIONS.—We have received an account of the celebration at Virgin City, Kane County, and Beaver City, Beaver County.

The festivities at Virgin consisted of a procession, speeches, singing and music, and terminated with a dance, which was participated in by the people generally. The committee of arrangements was composed of Charles Hilton, S. Bradehaw and Hugh Hilton; Marshal of the day, C. Hilton.

At Beaver the citizens had a magnificent time, the celebration being made up of salutes of artillery and grand procession. The orator of the day was Wm. Fotheringham, Esq., who delivered a magnificent oration. But the feature of the day was a speech composed and read by Miss Julia, daughter of President Murdoch, a young lady, 17 years of age. We have received a copy of the speech, which we consider highly creditable to its author. We should have been glad to insert both the speech and the account of the celebration in the News, but they are too far behind. The committee of arrangements consisted of O. C. Murdoch, John Hughes, A. M. Farnsworth, Wm. P. Jones and C. J. Thomas; C. J. Thomas, reporter.

MAP OF THE SEAT OF WAR.—We have received a copy of a map of the seat of war in Europe, just published by J. B. Golly & Co., San Francisco. It is a very useful map, showing all the fortifications, railroads and cities along the Rhine. A person possessing this map may read the war dispatches understandingly, for he can trace the various positions and movements of the contending armies clearly and distinctly.

EARTHQUAKE PREDICTED.—A California exchange says: An earthquake-shock in Los Angeles, predicts a tremendous shock on the 15th inst. The fact that the swallows are leaving their nests is said to be an infallible sign.

HOW TO KILL THE FLIES.—A correspondent says, "take four ounces of quassia chips, one ounce of black pepper, and two ounces of white sugar. Boil five minutes in two quarts of water. Blotting paper saturated with the above, is the fly paper used in England, and if a child two weeks old drink it, it will do no harm, but improve the appetite. Quassia is one of the best tonics known. There is no need to use paper; keep a little of the liquid in anything where the flies can get at it, and you will soon find thousands of them on the floor."

THE EMIGRATION.—It will be seen by another item in the local column that the first instalment of the present season's emigration from Europe arrived at the Terminus at Ogden to-day and in this city this afternoon. Others will doubtless shortly arrive; but the emigration this season, unfortunately, is not likely to be large on account of the poverty of the Saints in Europe. This poverty and its consequent hardships will be almost sure to be increased by the war now commencing. The perusal of the letter of President Joseph Young, in yesterday's news, will show that the condition of our co-religionists in England is deplorable; and many of us here know how faithful and true is that description, for we have lived there and experienced it. If their condition is made worse by the present excitement, as it is almost sure to be, it will be unbearable. In view of this how desirable it is that all who can possibly do so should lend a helping hand to gather to Zion those who cannot gather without assistance; and especially should this be the case with all who are indebted to the poor there. They should feel that the discharge of such obligations is one of the very first duties they owe to God, themselves and their brethren.

ELGIN WATCHES!

MANUFACTURED BY

The National Watch Company

All the grades of the Elgin Watches

INCLUDING THE

"LADY ELGIN"

READY FOR

SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER

So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their Watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R. R. officials, endorse them as the best watches for the use of R. R. employees and travelers yet introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.

UNION PACIFIC R.R., OFFICE OF GEN'L Supt., OMAHA, Dec. 16, 1869.

Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.

Dear Sir:—During the month that I have carried one of your "B. W. Raymond" Watches it has not failed to keep the time with so much accuracy to leave nothing to be desired in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compete successfully in the market of the world, with similar manufacturers of older nations. They need only to be known to be appreciated.

Yours most respectfully

C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAIL ROAD, Gen'l Supt., New York, Jan. 17, 1870.

T. M. AVERY, Esq., President National Watch Co.

Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time, and I have carried it frequently on engines, and have been on the road with it almost daily. During this time it has run uniformly with our standard clock.

Truly yours,

J. M. TOUCHEY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have recommended in recommending them to the public, on account of their general merit.
