

STREET KING DENY THE RUMORS

Both Assert That They Know of
No Deals Made Between
The Parties.

WILL NOT LEAVE THE TICKET

"American" Gubernatorial Nominee
Says He Will Stick—Statement
Of Democratic Chairman.

For the last day or two rumors have been spreading thick and fast to the effect that the Democrats and "Americans" of this city had entered into a combination, by which Judge John A. Street, candidate on the "American" ticket for governor, was to withdraw from the contest and Jesse Williams Knight, Democratic candidate for governor, and that the "Americans" had entered into a league to assist the Democrats to carry the state at the coming election.

The story has been circulated that S. A. King, chairman of the Democratic state committee, had consummated deals to practically the above effect with Judge John A. Street, and that the "American" ticket was to be withdrawn from the contest. Mr. King, however, has been engaged by Joe Lippman, head of the Kearns "inner circle" ring.

For the purpose of ascertaining the truth or falsity of the rumor, a representative of the "News" called on Judge Street and asked if he intended to resign from the "American" party ticket.

Judge Street said: "No, I do not intend to resign from the ticket. To my knowledge there is no movement on foot to make any sort of a trade with the Democratic party. Such a thing is ridiculous. I would never be a party to any such scheme, and I am sure the party would not be. I realize that the nomination extended to me by the 'American' party is purely complimentary as far as this year is concerned; we do not expect to elect our state candidate; but I accepted the nomination in good faith and do not propose to take my name from the ticket."

CHAIRMAN KING'S STATEMENT.
The attention of Chairman Samuel A. King was called to the articles in the Inter-Mountain Republican of Oct. 13 and 14 in relation to the Democrats entering into a deal with the "Americans." Mr. King emphatically denied any such arrangement and said: "My attention has been called to these articles and I have read them. I have consumed no deals with the Americans; I have never been approached by a solitary American upon any deal of any kind or character and have never discussed such a proposition with any individual not having any individual attempted to discuss it with me or with any other member of the Democratic committee. The statement that 'Kearns bought out the Democratic bosses' and that I made the deal is a wilful, malicious and deliberate falsehood and the party writing the article and the paper publishing it well knew when the article was written and published, that the same was absolutely untrue and that it was done with the deliberate intention of misrepresenting the Democratic party and its leaders and the purpose of creating prejudice and in favor of the Republican party. It is a deliberate attempt to hold the failing cause of the Republicans of Utah. As far as the statement made in this morning's paper is concerned, its falsity is more than probable than the statement contained in the paper of the 13th. It purports to state that the deal has been finished by which the Americans are to endorse Jesse W. Knight for governor and that this combination has been effected by Mr. Seffert, Mr. Weber, Mr. Lippman and myself. I do not know Mr. Seffert, have never seen him or spoken to him in my life and the question has never been in the slightest degree intimated to me by Mr. Weber or Mr. Lippman. The Democrats are waging an independent and winning fight and it is this fact that is driving the Inter-Mountain Republican to such dire straits. It is developing into an organ of wilful misrepresentation. It well knows that it is fighting a lost cause and for that reason it is attempting to inject into this campaign a spark of religious prejudice in the hope that it will develop into a consuming flame before the campaign ends. The good people of Utah ought not to be misled by the glaring headlines and the wilful, deliberate lies constantly published by this disreputable newspaper organization. As far as myself and my associates are concerned, we are endeavoring to conduct the campaign with the utmost uprightness and in the interest of the Democratic principles and the candidates of the Democratic party. The only time that a question of combination has ever been intimated to me has come from Republican candidates in Salt Lake county, who, knowing defeat stares them in the face, have appealed to me to combine with them for the purpose of defeating the 'American' ticket. To these people I have uniformly said that the Democrats were waging a straight fight on party lines and for party principles and we do not propose to be dragged into the turnstile strifes and contentions brought about by the Republican party."

In conclusion, I only have this to say to the Democrats and to the people of Utah, irrespective of their politics: that we stand for our principles and our party nominees. We are out to elect them and we propose that if the intelligence of the people can be aroused to the true situation prevailing in the State, the Democratic party will triumph in this election."

TAKT ELECTORS WITHDRAW.
They Will Not Allow Their Names at
Head of "American" Ticket.

The Takt electors will not allow their names to appear on the ticket of the hybrid aggregation locally known as the "Taft-Liberal" ticket, placed in the field by the "Americans." This step was decided upon at a meeting of the Republican state committee held at the state headquarters in the Judge building yesterday afternoon. The committee adopted a resolution directing that the declarations of the Taft electors to be candidates on the conglomerate ticket be sent to the secretary of state. This was done at once, and the names will be withdrawn immediately.

Considerable speculation is being indulged in as to the probable result of the action of the regular Taft electors in withdrawing from the "American" ticket. It was not only a step concerted by the "American" leaders to scoop in votes for the rest of the "American" local ticket, but the "Liberal" ticket was placed in the field; and the action of the electors may drive the Kearns outfit to resort to an effort to compel the secretary of state to disregard legal proceedings to allow the "Taft-Liberal" electors to remain on the ticket.

No action of a similar nature has as yet been taken by the regular Bryan electors, as to the "Bryan-National" ticket which the "Americans" are placing on the ballot. There are some who declare that the Taft electors, having withdrawn from the ticket, leaves the "American" tickets headless, and therefore incompetent to represent the state. It is claimed again that the hybrid Bryan ticket proposed by the "Americans" may be retied by questioning the rights of one political party to endorse the nominees of another.

He referred to the excellent administration given by the Republican governors, Wells and Cutler, and stated that the financial conditions of the state are better than they had ever been in its history. The

policy of the administration has been to distribute the moneys of the state in as many ways as the finances would permit, illustrating this with the work done by the state and board in bringing under cultivation of land in its building of canals, reservoirs, etc. The improvements named are a line with that the high school, having aided that proposition in 1896, and still believed in its importance.

The development of the state is something wonderful and one cause of this is due to the better conservation of the water, which was being the means of more home making.

Congressman Joseph Howell was the next speaker. He had no war-paint. He referred to the excellent manner in which the interests of the state had been carried on by the Republican governors and was satisfied just as strong a governor would be found in the person of William Spry. BUG HATS IN KANSAS.
George W. Martin, the veracious secretary of the Kansas State Historical Society, tells the following story of the first "bug" hats in Junction City. "It was in the year 1870, when John A. Anderson was pastor and I was a leading pillar of a high church in Junction City. Charles R. Carver, who then conducted a famous rigging business, came into the Land Office one day, and said to me, 'I have a lot of boys wanted to wear bug hats. He could not afford to send for them unless he had orders for eighteen. I insisted I would not wear such a thing, but he begged until he got an order from me and from Anderson. The hats came and were delivered Saturday afternoon. A beautiful Sabbath day followed, and Anderson and myself ventured to church wearing plug hats. Then we blurs and marched into church, single file, down the west aisle, carrying those hats most gracefully, and filled all the available front seats. They mocked Anderson silly for that service, and it was a sad blow to the plug hat in Junction City. [From the Kansas City Star.]"

ORIGIN OF OX-TAIL SOUP.
The now familiar ox-tail soup is said to have had its origin during the reign of terror in Paris, in 1793, when many of the nobility were reduced to starvation and beggary. The abbots sent their hides fresh to the tanners, without removing the tails, and in cleaning them the tails were thrown away. One day one of the noble beggars, while happening to pass a tannery, noticed a pile of discarded tails, and asking for one, it was given to him. He took it to his lodgings and made what is now famous—the first dish of ox-tail soup. He immediately told his friends of the good luck he had had, with the natural result that the tanners were again annoyed to such an extent by the demand for ox-tails that a price was put upon them.
