WASHINGTON.

Inter-State Commerce—Balance of Trade—Duty on Paper, Etc.

WASHINGTON, 14.—Notwithstanding the general impression that the substitute for the bill adopted yesterday by a majority of the House committee on commerce, was entirely acceptable to the railroad companies, if not directly procured by their influence, it is asserted that the ninth section of the bill is extremely objectionable to them, and that on account of its incorporation in the measure, they will oppose the whole bill in the House unless it be eliminated or materially modified. The objection to it is that they are not willing to entrust the men appointed by the President, who will form a controlling majority of the proposed board of commissioners with absolute power to determine what rates of toll are fair and reasonable.

The section referred to is as follows: Sec. 9. No company or companies, railroad corporation or corporations, person or persons so engaged as aforesaid, in operating a line or lines of railroad through two or more States or parts of States, as aforesaid, shall charge, collect, demand or receive more than a fair and reasonable rate of toll or compensation for the transportation from one State or Territory to another State or Territory, or to or from any foreign country, so far as the same shall relate to commerce between the States; freight of any kind or description, or for the use or transportation of any railroad car upon its track, and for each and every violation of this act by charging, collecting, demanding or receiving more than such reasonable rates. The company or companies, corporation or corporations, organization or organizations, person or persons so offending shall be jointly and severally liable for extortion and subject to the forfeitures and penalties hereinafter provided.

The balance of trade has comparatively for so long a time been in our favor that the popular impression has been created that it is destined to remain so. Business men, however, have anticipated a return of the period when the balance of trade would shift and the outflow of specie from this country would re-commence. This has been the view of the Treasury Department, and while there has been no apprehension felt as to the ability to maintain specie payment, it has been seen that over confidence might have the effect to seriously check the era of prosperity upon which the country has entered. From returns received at the Department it is shown that the imports for the last month at New York were greater than ever before, in the same month of any year, reaching in value over $40,000,000. New York does about two-thirds of the import business of the country, and about one-half the exports. It is calculated from the figures for the month of January that the balance of trade against the United States for the last month was not less than $10,000,000, and it is thought that this balance will increase rather than diminish. Should this be the case, its effect will very soon be felt in every department of business. The character of the imports shows that our people are again running into the extravagancies and indulgence in luxuries which pertained to the war era.

A member of the ways and means committee stated to-day that neither the Fort nor Buckner bill, providing for the reduction of the duty on paper has been submitted to the full committee. The time of the committee has been so closely occupied with hearing arguments on the sugar question, tariff on steel rails and refunding measures, that other matters referred to have not even been thought of. It is probable the members opposed to a change in the tariff will object to taking up the Fort and Buckner bills. If so, and the propositions are defeated, or even postponed, Fort says he will endeavor to have his bill passed some Monday under a suspension of the rules. As yet the manufacturers of paper have not appeared in antagonism to the paper bills. It is understood, however, that strong opposition is expected.

The sub-committee of the House elections committee, in the Donnelly-Washburne (Minnesota) case, has decided to make no written report, but that each member should orally state his views to the full committee. The presumption seems to be well founded that the majority report will favor Donnelly.

At the annual assay of reserved coins from the United States mints just concluded at Philadelphia, the Director of the Mint says the coins were all found to be within the legal requirements as to weight and fineness.

Blaine's Chances in Illinois.

CHICAGO, 14.—The Blaine movement will soon be actively begun. A club will be organized here in a day or two for the purpose of forming a nucleus for the campaign. Blaine has himself gone to New York and it is not improbable his visit there will have the effect to prevent the fulfillment of Conkling's prediction that the delegation will be instructed for Grant. Blaine's friends here understand the object of his visit to New York is to ascertain how formidable the Grant movement is; whether it would be practicable to undertake to interfere with the working of the Conkling machine. Each day discloses new facts which make it seem more certain that Illinois is to be considered the pivotal State in the Blaine campaign. The first open demonstration for Blaine in Illinois will be made at a meeting of the State Central Committee at Chicago, Feb. 25th. Gentlemen very familiar with the working of the committee expect fully 1,000 Blaine men will be in Chicago at that time. The purpose of Blaine's friends is to have some skilled speakers there to advocate Blaine's cause.

Senator Cameron has, within a few days, talked very plainly to his friends in regard to Grant's nomination. He says his own purposes is to support that candidate, whoever he may be, whose chances of election seem best. As to Grant, unless those now managing his case become convinced before the convention that he can be nominated on the first ballot, his name will not be brought before the convention at all. As to the Harrisburg convention, he says the endorsement of Grant would not have been attempted, in view of the shape things took, if it had not been necessary in order to prevent his (Cameron's) defeat. To avert this he had the help of quite a number of prominent Blaine men among the delegates, whose loyalty to himself in State affairs, they placed before their support of any presidential candidate. As to the nomination of Blaine, he did not consider it an expedient thing to do.

A Benefit of Competition.

The sales of cheap tickets to Colorado points were again large yesterday. Every precaution is taken to prevent it, but scalpers, nevertheless, secured large numbers, and when the rates are restored by companies, can do a good paying business by selling at full figures or at a slight reduction, and thus have advantage over the companies in making sales.

The *Inter Ocean* says: In the possible outcome of the pending difficulty heretofore mentioned in these dispatches, a strife among the railroads out of Chicago on tickets to Colorado points has been the attracting of travel from the East via Chicago, that would otherwise have gone by way of St. Louis, and this fact makes the St. Louis officials very anxious to have peace brought about. It also affects the Wabash line, and as the Wabash does not think it can afford to stand quietly by and look on, the Fort Wayne is interested in whatever affects the Wabash. It is thus seen that there is every chance of a general war. Should this strife on Colorado from Chicago continue much longer, war will be made on west-bound rates from the East generally to all points in the West, and if this war was brought about, it would not be any great length of time before tickets would be cheap both ways and all over the country. The meeting yesterday to adjust this matter was resultless.

Blaine First or Nothing.

The *Journal's* Washington special says: Blaine in an interview says that under no circumstances will he allow his name to be used as a candidate for the Vice-Presidency in connection with General Grant or anybody else. He will not accept that nomination if he fails to get the first place, preferring to remain in active life in the Senate.

Butler's Politics.

General Butler is urged to allow the greenbackers to claim his election as one of the managers of the Soldiers' National Home as a member of their party. Thus far he has declined to do so, leaving his candidacy entirely upon his fitness for the place and not upon his political connections.

Condemning New Cable Rules.

NEW YORK, 14.—The Produce Exchange Committee on trade has been considering the new cable rules in regard to code messages, have submitted an exhaustive report which was adopted. It concludes with the following resolution:

Resolved, That the New York Produce Exchange strongly condemns the arbitrary and oppressive action of European Governments and private companies having control of our cable connection in establishing new and unnecessary rules for the government of code correspondence thereby inflicting great hardship and expense on the commerce of the world, and that this Exchange also blame the Angly-American Telegraph Company for the delay in the promulgation of their new rules, whereby the said injuries have been aggravated.

A Sherman Club.

The John Sherman Club was organized to-night by merchants, with Samuel A. Haines as president. The resolutions declare he has maintained public faith and lifted a high standard of national honor; he knows the resources of the country and its needs, and with him for president we know that the whole influence and power of the Executive office would be wielded to enforce the law, to maintain the liberty and rights of all men, white and black, throughout the length and breadth of the land; to maintain resumption; to embody into the law sound financial and economic measures; to nurture and increase our manufactures and our commerce, and build on the rock of sound finance all business interests of the country.

Storms on the Atlantic.

Vessels now arriving bring terrible stories of the storm on the Atlantic, February 1st. When the Guion steamship *Wyoming* arrived yesterday two seamen were sent to the hospital with broken legs. The anchor steamer *Decania* sent one man in the same condition. The *Wyoming* reports the storm came up in the afternoon so suddenly, that before the summons of all hands on deck could be obeyed, the storm struck the vessel and the entire deck was swept. The watch of eight men were disabled. Other vessels bring similar reports of exceedingly heavy weather.

Denver Labor Agitation.

DENVER, 14.—Denver at present is undergoing the first labor agitation in its history, and as the agitation is general, the feeling manifested amongst laboring men and others is quite intense. The laboring classes have for several months past been gradually forming unions, until 21 organizations of the kind have been perfected. They comprise printers, carpenters, plumbers, brickmasons, stonemasons, painters, plasterers, horse shoers, saddlers, cigar makers, moulders, barbers, waiters, cooks, blacksmiths, cabinet makers, locomotive engineers and firemen. The unions met in mass convention to-night and took steps to organize a trade assembly, which, it is claimed, will constitute a voting strength of 5,900 and a commercial patronage of $125,000. It is believed by the leaders of the movement that the consolidation of the working class bids fair to play a strong part in the politics of Denver and the entire State. The steps taken to-night in consolidating these different trades was caused directly by the recent action of the newspapers in reducing the price of composition. During December the local Typographical Union advanced its schedule of prices from 40 cents to 45 cents per 1,000 ems for night work and corresponding advances in all the branches of the trade. The advance was accepted at the time though with poor grace, by the proprietors. Some two weeks ago the *Evening Times* demanded a reduction on the part of its workmen on the old prices. This they declined to make, and the office was filled with non-Union men. Early the week the *Rocky Mountain News* duplicated the *Times'* demand, which was at first rejected, then accepted, and again rejected, the result being that the *News* was filled with printers, non-members of the Union.

The meeting to-night was enthusiastic though orderly, and was attended by fully 1,500 people. It was addressed by several persons, including Brick Pomeroy. Among other schemes which the Workingmen have on foot is that of starting an afternoon paper with Pomeroy at the helm.

Mexican Commercial Agency.

ST. LOUIS, 14.—At an adjourned meeting of the merchants at the Lindell Hotel, to-night, it was decided to organize a company with a capital stock of $50,000 and establish a commercial agency at the City of Mexico for the transaction of legitimate business by sample, buy and sell for mines, minerals, etc., and do such other business as promised profitable results. A committee was appointed to effect an organization of the company and put the enterprise into working order as speedily as possible.

A Malicious and Desperate Character Killed.

DENISON, Texas, 14.—For the past two years trains on the Missouri, Kansas & Texas road have been fired at just after dark near Cadda, Indian Territory. The cab windows have been smashed, cabooses perforated and employes wounded. The United States marshal caught a white man named Meyers in the act of firing on a train, and so desperately did Meyers resist that the marshal shot him 14 times before he succumbed.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 14.—The substance of the treaty between the United States and France, signed at Washington on the 15th of January, for the settlement of the claims of French citizens resulting from the war of secession, has been published here. The treaty provides that a commission of three members, one appointed by France, one by the United States and the third by the Emperor of Brazil, shall meet in six months after the exchange of ratification to arbitrate definitely on the claims of French subjects and on any counter claims of American citizens who sustained losses under like circumstances. The treaty applies solely to the demand for indemnity originating from acts of injury committed. The federal authorities of the United States Government have absolutely refused to accept the responsibility for acts of confederates, or for any loss arising from loss or emancipation of slaves.

Assurance is given that the statement of the intention of the Baroness Burdett Coutts to devote £500,000 to ameliorate the distress in Ireland, is true. Contradictions have been made in most of the London daily papers, but the fact is undoubtedly so. The money will be invested in the purchase of land in the district of Connemara, County Galloway, to be afterwards let to small tenants on long leases and moderate rents. A committee of Irish gentlemen, interested in agriculture, is associated in the scheme.

An envoy from Mexico is here to reopen negotiations for the settlement of the Mexican debt and the idea of a national bank has been revived, the government contributing $100,000,000. Four millions will be offered for European subscription until the 1st of April.

The election in Southwark for member of parliament resulted: Edward Clark, conservative, 7,683; Andrew Dunn, liberal, 6,830.

The Austrian liberal ministers, Dr. Vonstremayer, minister of justice; Baron J. Vonhorst, minister of national defence, and Baron Von Korf Wiendehim, minister of finance, persist in their intention to resign. Count Taafe, president, has opened negotiations with Besetzung for the ministry of finance and Conrad for minister of instruction. Both, however, refuse to enter the reactionary cabinet.

The Russian organ, *Le Nord*, says: The system of incitement and of provocation in respect to Russia has never had such full play as now in London. Everything seems to be done that is calculated to harass Russia and stir up public opinion against her, both by covert official denunciations and by sensational telegrams, the inventions of journals.
