

PRESIDENT GETS SOME IDEAS

Tells Man Who Gave Them He Didn't Expect to Get a Single Thing.

BE REFLECTED SOMEWHERE.

Right to Hold Stock in Other Corporations Should be Denied to Interstate Class.

Washington, Nov. 10.—Homer H. Prussing, a well known Chicago lawyer, for three years president of the officers' association there, called on the president yesterday to present his views on corporate reform.

"The president read and discussed with interest the brief statement which Mr. Prussing submitted. It follows:

"Currency reform, anti-trust laws, amendments and railroad regulations naturally will claim the first place in Congress's action. General incorporation reform in its various phases may fairly be classed second in importance. Long and varied experience in corporate matters leads me to offer these suggestions:

"The first question, that of jurisdiction of the federal government, will in such be the challenge of the opposition. Successful efforts, therefore, must be along the line of the least resistance, that is to say, in harmony with the principles of state rights and local government, as well as the sentiment based upon these, even if extreme.

"National control of interstate commerce, corporations, as distinguished from national incorporation of all or most corporations, will be readily granted by most men of both parties.

"Compulsory publicity of accounts, the submission of books, papers and plans, to inspection, etc., of government officials will easily be accomplished.

"The new step advised by the association of attorneys-general, slightly modified, will be in the right direction and will be approved by state rights men as federalism's ally. The association recommends that the right to hold stock in any other corporation should be denied to all interstate commerce corporations. It seems to me that the purpose of this, namely to compel the real owners of a corporation to do business in their own state, can be achieved by requiring the corporation owning stock in another, and the corporation in which it owns stock, to list such owners and stock holdings respectively. In every case, in the department of commerce, thus revealing holding companies will be possible, and yet protected against possible attack of local taxation or other unfairly discriminating laws, just as national banks are now while the public, in turn, will have knowledge of

whom it is dealing with and can protect itself.

"The change of state banks and trust companies to national banks, which can be accomplished by a single amendment of the national banking act, will also be popular and can be along state rights.

"The proposed change is this: Give national banks two additional powers and their consequences: First, to accept and execute trusts, by complying with the general state law on that subject wherever they exist in the District of Columbia. Second, to accept trust, savings and time deposits and to keep separate accounts of the total of these, making proper rules for notices of withdrawals, and allow as small a percentage of reserve as to these deposits, and also the making of these bonds and mortgages and other savings bank investments of the funds so received.

"This every national bank becomes the full competitor of trust companies, and soon the latter will be forced to become national banks. "Give to the general corporation problem, in a similar manner. Enlist the state rights men on your side. Know the subject of incorporation and ordinary control a state concern; make the local laws harmonize if possible by appointing a commission to investigate the entire subject. Get the best talent in the country, Mr. Morawetz and others of that type will be glad to serve for patriotic reasons—and a result will be achieved in the form of a code based on principles and experience suited to our dual government and varied conditions, just as it was in Germany in 1870-75 in the enactment by Prussia and the other states of the code which has served the purpose and stood the test of time.

"I am sending my paper with a request for comment to the members of the American Bar association and to the great majority of names in the directory of directors, thus reaching thoughtful persons, mediators in each state of the situation. The replies already received indicate an intelligent, generous and critical interest and no doubt good fruit in the shape of suggestions will result.

"And now, my dear sir, I want to pay you a compliment. I did not expect you to give me a single thing—instead of that you have given me several practical suggestions in concrete form—some of which are extremely new. I may say with some reason that I am indebted to you for them.

"I am sending my paper with a request for comment to the members of the American Bar association and to the great majority of names in the directory of directors, thus reaching thoughtful persons, mediators in each state of the situation. The replies already received indicate an intelligent, generous and critical interest and no doubt good fruit in the shape of suggestions will result.

"I am sending my paper with a request for comment to the members of the American Bar association and to the great majority of names in the directory of directors, thus reaching thoughtful persons, mediators in each state of the situation. The replies already received indicate an intelligent, generous and critical interest and no doubt good fruit in the shape of suggestions will result.

Mrs. Glaze recovered consciousness tonight, but her story is "muddled." She makes allusions to attempts by her husband to compel her to swallow a prominent business man of this city, and of her refusal, as a result of which her husband struck her. Enough was gathered from her to learn that her husband was recently a well-to-do merchant in Moscow, Russia; that he had committed some crime and with his family had fled to Japan by way of Siberia. Mrs. Glaze also makes reference to the police of Japan in such a way as to cause belief that he was wanted there. The couple then came to San Francisco and from there went to Los Angeles and back. While in San Francisco the second time Mrs. Glaze said of the man's arrest for mistreating her. They arrived here about a week ago. Although Mrs. Glaze had a fine wardrobe and her husband had good clothes, they were evidently almost penniless.

Mrs. Glaze is well educated, prepossessing in appearance, and about 33 years old. Glaze was about 2 years of age, and would have been considered a fine looking man.

The district attorney stated tonight he would not lodge a charge against the woman until after the coroner's jury had rendered a verdict.

AGUINALDO ON PROBABLE RESULT OF TAFT'S VISIT.

Manila, Nov. 10.—A feature of the visit of Secy. of War Taft to Manila was the presence of Aguinaldo at several of the functions for the first time since his capture. Discussing the probable results of the visit of Mr. Taft to Manila, with a representative of the Associated Press, he said:

"It is my belief that the benefits to follow the visit, to the people of the Philippines, will be greater than they can recognize at the present time. I am at present unable to form an opinion, off-hand, of the possible future advantages, but am confident that it has done good. The inauguration of the assembly has gone a long way to cement the friendship of my people with the people of the United States. As a fulfillment of a solemn promise, which many expected would not be fulfilled, the secretary of war did not bring independence for my people in his pocket, but he brought the means of attaining it. He told us how we can get it. The Philippines are thankful for the information, and pleased at what the assembly has done, especially to the interests of legislation, education and agriculture.

"The President of the Assembly, Osmeña considers that the most important result of the visit has been the harmonizing of the feeling between the Americans and the Filipinos, and broke upon the assembly as having been the greatest thing done yet. He is confident that much more has been accomplished than appears on the surface. "Commissioner Tavera stated that Taft has demonstrated that the promises of the United States are to be fulfilled, and has shown himself the friend of the whole people.

A STRUGGLE FOR LIFE.

Badly Mutilated Body of Man Who Made One Is Found.

Johnstown, Pa., Nov. 10.—Badly mutilated and bearing marks showing that he had been shot repeatedly and

terribly beaten, the body of William "Chico," a prominent citizen of Johnstown, Pa., near here, was found today in a field a short distance from that town. The body was torn over a space of a quarter of an acre around the body, indicating that "Chico" had made a hard struggle for his life.

NUNSIUS NASI'S DEFENSE.

Milan, Nov. 10.—A local newspaper known as the organ of the law courts has published a sensational statement concerning the defense to be made by Nunzio Nasi, former minister of public instruction, who is being tried before the senate on the charge of falsifying documents and detaching to his payor, Nasi is ready to produce letters from the late Premier Zanardelli asking him for funds for the purpose of subsidizing the press. He will produce also receipts from certain publishers alleged to have been signed by Zanardelli. If Nasi follows the course indicated by the paper he will arouse much indignation.

CONFERENCE ON TAXATION.

Columbus, O., Nov. 10.—The governors of a number of states and many well known economists will attend the national conference on taxation which will open in Columbus next Tuesday, Gov. Guild of Massachusetts will preside.

The meeting promises to be the most important of its kind ever held in the United States. Arrangements have been under way for almost a year. The governors of practically all of the states have appointed delegates, leading writers on economic questions have accepted invitations to attend, and the practical tax men of the country will be present.

The conference is not in the interest of any school or theory of taxation. The object of the conference is the interchange of opinion among the men who are working earnestly for the betterment of the taxation laws of the country, federal, state and local, and to give permanent form to the ideas of these men, that the student of taxation may have an opportunity to study them.

THE CAPTAIN'S TABLE.

It Will Disappear From Steamers of North German Lloyd Company.

New York, Nov. 11.—A feature which dates back years, and one which travelers never dreamed would disappear from ocean liners, is about to pass away on the vessels of one great transatlantic line, at least. That feature is the captain's table.

All over the world, the determination to sit at the captain's right, or at his left, or if these coveted places were not available, to sit somewhere at the same board with him during meals in the first saloon, has been the motive for almost infinite maneuvering with chief stewards on the part of passengers. Glamor of brass buttons or the theory that the nearer the passenger is to the captain during meals the greater the confidence reposed by him in that pas-

senger, has been accountable for this. After the first of January, the "captain's table" will come to be on the express steamers of the North German Lloyd company. Small tables are to replace the lines-honored long tables, including the ones over which the captain now preside. The reason for this change is that transatlantic travel is on such a big and important scale nowadays that the captain must be relieved from all unnecessary strain, even conversational. And again, it is being found that where there are many first class passengers, indiscriminate association of travelers and officers is inconsistent with the latter's dignity, convenience and pleasure.

GEORGIA WILL PRESS CLAIM AGAINST UNITED STATES.

Atlanta, Ga., Nov. 10.—The claim of the state of Georgia against the federal government for the use and occupation of the Western & Atlantic railroad aggregating \$600,750 will be pressed to way immediately after the Civil war, an adjudication and settlement at the approaching session of Congress. If possible, bills providing for this will be presented by Senator Clay and Representative Livingston.

The claim is based on the use and occupation by the United States army officers of the state's road from May 11, 1862, to Sept. 25, 1864, for the transportation of troops and supplies. The revenues of the road were also collected by the officers during that period, and held by the government.

CARROLL WRIGHT DECORATED.

New York, Nov. 10.—News that the French government had conferred the Cross of the Legion of Honor upon Carroll D. Wright, former United States labor commissioner, in recognition of his efforts for a betterment of industrial conditions throughout the world, was made public last night at a dinner at the Engineers' club tendered by colleagues of Mr. Wright.

MARY DUFF DAILY DEAD.

New York, Nov. 11.—Mrs. Mary Duff Daily, widow of Augustin Daily, the playwright and theater manager, died here yesterday. Her death followed an attack of heart disease from which she had been suffering a week. She was the daughter of John A. Duff, the impresario, and was born in this city in 1848. She met Daily early in his career as a manager and from the time of her marriage until his death she was constantly with him during his theatrical ventures both in London and New York.

SAVED HIS CHILDREN AND TEN HOUSE SERVANTS

Chicago, Nov. 11.—Arthur Meeker, general manager for Armour & Co., was called upon to battle with a fire in his home early yesterday morning. He became the leader in saving his four children and 10 house servants from the flames. He himself rescued three of the children and Miss E. Udell, a governess, saved the fourth. The fire, which caused damage estimated at \$25,000, was discovered by Miss Udell in the nursery on the third floor. She had been awakened by the coughing of two of the children, Arthur, Jr., and Mary, who were asleep in the room. Though their coughing probably saved the lives of all in the house, they themselves continued to sleep soundly as Mr. Meeker and the governess lifted them from their beds and bore them from the room, the father carrying Arthur, Jr., and the governess the little girl.

Katherine and Grace, the other two children, were sleeping in a room on the second floor, and the father bore both these in his arms at one time. Mr. Meeker did not awaken. Mrs. Meeker until he had satisfied himself the children were safe. When all the rescue work was done Mr. Meeker telephoned the fire department.

ITALIAN ANTI-CLERICALS MAKE GREAT GAINS.

Rome, Nov. 10.—General municipal elections were held in this city today and it is being declared throughout Rome tonight that the Anti-Clericals have gained their greatest victory since the fall of the church from temporal power. Only municipal offices were filled, but the election assumed a distinct political character. Their importance was not only local, but extended all through Italy. The contest came as a conclusion to the Anti-Clerical campaign, which had its beginning principally with the present pontificate, for the Clericals were then allowed for the first time to participate in the political life of the country. There was a reactionary movement among the Anti-Clerical element, some of them swung over from the Conservatives to the Socialists and the municipal election in Rome was chosen as the battlefield. Defeat being inevitable, the Clericals for the first time since 1870 withdrew from the field, and as a result the Anti-Clerical victory was complete and without precedent.

JUSTICE MCOMAS DEAD.

Washington, Nov. 10.—Louis Emory McComas, associate justice of the court of appeals of the District of Columbia, former United States senator and four terms congressman from Maryland, died at his home in this city today. His death was due to heart failure.

WAR AIRSHIPS.

Predicted All American Warships Will Have Them in Five Years.

New York, Nov. 11.—Capt. T. T. Lovelace of the Aero club of America, one of the men who participated in the successful flight of the balloon, Pomona from Philadelphia to New York Saturday, predicts that within five years American men-of-war will be equipped with airships. Capt. Lovelace said: "Now that the United States government has become interested in aerial navigation as an aid to naval operations, I do not hesitate to predict that within five years every fleet of warships belonging to Uncle Sam will be equipped with an auxiliary fleet of airships. As the outcome of many conferences held with Admiral C. M. Chester, and other government officials, the widespread interest manifested by na-

val officers in the project work will be begun next week for the erection of the largest airdrome in the world at Fort George, from which point trial trips will be made to demonstrate to the government the practicability of the kind of airship we now have.

"The airship is the one equipped by Dr. Thomas, and which I thoroughly tried out last summer at Jamestown. It is the largest in the United States, having a total length of 125 feet. I made long trips in this airship over Virginia and know that it can always be held under perfect control."

Lieut. Robert M. Henderson of the battleship Missouri will represent the navy at the coming experiments with the Thomas airship. The recommendations to Congress for an appropriation which will be submitted through Secy. of War Taft, will contain a report by Lieut. Henderson of the aerial experiments.

RUBBER.

We have a fresh and very large supply of rubber goods just in. Look and see if your water bottle, a defective hot water bottle is worse than none.

Come in and see our line of fountain syringes, hot water bottles, rubber caps, etc.

GODBE-PITTS DRUG CO.

Where you get the A. D. S. Prescriptions.

Phone No. 140.

SUBJECT TO COLD FEET?
