ant memories of the venerable old man. William Stewart Seeley was born May 18, 1812, in Pickering, Home District, Canada. He spent his early life as a sai-lor and sea captain on Lake Ontario, where it seemed the Gospel found him, and on August 28, 1838, he started for Missouri to join the Saints and shared all their persecutions, mobblogs and driving after that data till he started for Utab after that date, till he started for Utah in the fall of 1847, where he arrived Sep-tember 29. In, 1851 the moved to Mount Pleasant, Sanjeste county; married Eliza-beth D. Heart Nov. 25, 1868. In 1859 he was ordained a Bishop under the hands of George A. Smith. From the date of his artival in Mount Pleasant he was a potentiactor in settling differences be-tween whites and Indians, being particularly gifted in winning like red man's affection. He figured conspicuously in the Walker and Blackbawk wars and wonld spend woeks among the red men, talking peace to them. Nor was he wanting in liberality them. Nor was he wanting in liberality towards the aborigines; many are the gifts which he showered upon them and they always found a resting place at his home. He was a member of the party of leamsters who went back to bring emigrants, "May, 1868, which event was made memorable by the drowning of nine of their number in Green river. He filled the office of mayor of Mt. Pleasant city nine years. Twice did he visit the land of his nativity as a humble bearer of the Gonnel measage: and was bearer of the Gospel message; and was honorably released from being Bishop, May 18th, 1890, because of Bishop, May 18th, 1890, because of infimity, since which time he has been more or less confined to his room, and the 16th inst his spirit took its flight, on which closed a long, busy and useful life.

Too much good cannot be said of such vigor of youth, as it were, speut his strength and power building forts and cities, making roads and bridges, ward-ing the red men off, risking his life to sue for peace, undergoing privation and hnoger occasioned by graschoppers and crickere, giving the best of his manhood to bnild a solid commonwealth, and last-ly bequeathed it to the coming generation. The noblest heritage he could give -would that they be as worthy as the giver, and that they deliver it up to the generation to come as unsulled as they receive it. Cisco.
