

RUSSIAN DOCTORS ARE VERY RADICAL.

Instead of Carrying Out Plan of
Their Medical Congress Adopt
Revolutionary Resolutions.

DEMAND CESSATION OF WAR.

One Resolution Called for—Respon-
sibility of Ministry to a Repre-
sentative Assembly.

Moscow, April 5.—The congress of doctors from all parts of Russia, which was summoned to meet in Moscow under the auspices of the Pirogov Medical society to devise means for combating the expected visitation of cholera, which congress was first prohibited, but later granted permission to meet under the condition that it discuss only scientific questions, has justified the apprehensions of the authorities by adopting as its first step in the anti-cholera crusade, a set of resolutions calling for the execution of the whole of the radical political program.

This grafting of political considerations upon the ostensible medical aims of the gathering is justified, the speakers argue, by the incapacity of the present administration to cope adequately with cholera. The resolutions declare that an improvement in economic conditions of the people is necessary as a basis for the preservation of health, and that for future prevention of epidemics it is imperative to have radical changes in the tax laws, an increase in the quality of food allotted to peasants and to satisfy the demands of the industrial classes and grant concessions necessary to completely tranquilize the ignorant population, among whom otherwise it will be impossible to execute sanitary measures. Even the lives of doctors, the resolutions aver, would be in danger. The proposals culminated in a demand for the immediate convocation of a constituent assembly, on the basis of a universal ballot without distinction of sex, nationality or religion.

The congress in which there are over 1,200 delegates representing nearly every district of European Russia, also demands the immediate stoppage of the war, declaring that a policy of conquest and adventure had thrown the country into terrible and extensive poverty in which cholera would flourish. This action of the congress was not unexpected, as the medical profession of Russia is largely composed of Jews and Poles and has been subjected to the radical influence of the universities.

The delegates professed extreme alarm at alleged attempts to incite the ignorant classes against the educated liberals, and the whole spirit of the resolutions breathes overtures to the working classes for united action. Among the demands set forth in the resolutions is the transfer of power to the executive of the local governments; guarantees of freedom of speech, the press and assembly, union and strikes; amnesty for all political and religious prisoners and exiles; equality of all nationalities, languages and religions before the law; compulsory education; separation of church and state; introduction of an income tax;

GRABBED THE LAST STRAW

I. P. Crowell who suffered twenty years from Catarrh cured by Rexall Mucu-Tone.

Catarrhal sufferers who have tried all kinds of medicines can take heart now. Read what I. P. Crowell of Central Falls, R. I., writes us: "For fifteen or twenty years I was troubled with catarrh of the head and throat, which annoyed me very much. I took in the meantime many kinds of medicines and so-called cures, but found no relief, but seeing Mucu-Tone advertised I thought I would try again and see if it would not be the kind of medicine that I have been looking for, and this day I can cheerfully say that I have found the right kind of medicine for catarrh, and feel confident that I am cured, and will gladly recommend it to all persons in need of a catarrh medicine and a sure cure."

Rexall Mucu-Tone is not a hit or miss cure. It is a catarrhal specific, designed for that one purpose and sold by the Smith Drug Co., on a broad and liberal guarantee to refund the purchase price to any dissatisfied customer.

Referring to Mr. Crowell's case Mr. Druehl of the Smith Drug Co. says, "We couldn't afford to and wouldn't publish these testimonials if they were not true. Some of our best customers who receive do not half express the real value of Rexall Mucu-Tone. Our confidence in it is so great that if anyone is suffering from a haught-on cold, catarrh, or run-down system, or in any way need a tonic, we will be very glad to sell them a trial bottle for fifty cents and guarantee it to give satisfaction or refund the price." Druehl & Frank, Also Smith Co., Druggists.

abolition of indirect taxes and the main points of the Gerson petition of the St. Petersburg workmen of Jan. 22. One resolution favored responsibility of the military to a representative assembly. After the adoption of the resolutions, a number of radical speeches were made.

The congress was divided into sections for the discussion of the bacteriological and sanitary aspects of cholera and immediate preventative measures. A number of reports on dissection were presented. The congress favored it wherever possible, but declared general compulsory disinfective measures impossible. The possibility of an outbreak of cholera in the far east was also discussed.

The local authorities throughout the empire are also aroused at the danger of an epidemic, and orders are being issued by all city governments for the cleaning of slums and unsanitary districts and for measures to localize the disease wherever it appears.

Auto Victim Dead.

London, April 5.—A private telegram from Monte Carlo says that Frank Stevens, one of the two Americans injured in an automobile accident near Monte Carlo April 3, is dead. Stevens' companion, Louis Hay, who was hurt at the same time, is making progress towards recovery. The body of Stevens will be sent to America.

NEW YORK BUILDING.

Another Addition Made to the Number that Have Collapsed.

New York, April 6.—An addition has been made to the list of recent flat house collapses in the northern section of the city by the fall of 500 pounds of concrete fire proofing material through five floors of a 13-story apartment hotel in course of construction at Eighty-ninth street and Central Park West.

Charles Diehlman, a laborer, was carried down with the debris. His escape from death was remarkable.

All the floors of the new building had been laid with concrete and the contractor ascribed the accident to the moisture resulting from the recent rainfall, which caused the fire proofing to become soggy.

Diehlman was holding a bag of cement on the eighth floor, standing on a space in the flooring about four by five feet in width, when it gave way.

The seventh floor also gave way and such was the shock with every floor down to the third, where the workman and the pile of wreckage accompanying him stopped.

Diehlman probably would have been killed outright had it not been that his fall was broken at each floor by the mixture that encased him on his downward journey.

Two fellow laborers hurried to his rescue. They found him, ears, eyes and nose filled and, procuring a hose they turned a strong stream on him. When his face and head had been partly washed it was found he had suffered several severe scalp wounds but the doctors said he would soon recover.

Zeigler Mine Disaster Verdict.

Zeigler, Ill., April 5.—The coroner's jury in its verdict returned today holds that the 43 men who lost their lives in the Zeigler coal mine Monday, April 3, were killed by a gas dump due to an explosion of powder caused by parties unknown.

The belief is expressed that the mine was in a good and safe working condition so far as gas was concerned.

Senator Burton Will Resign.

Kansas City, Mo., April 5.—A special to the Journal from Abilene, Kansas, says: "Senator J. R. Burton will resign his seat as United States senator in a short time, according to information given out by one of his close personal friends here. After he was convicted and pending his appeal to the supreme court, he could not resign for fear that it would be taken as an admission of guilt. The supreme court reversed the case and Burton now stands as innocent, until convicted again. He believes this is a good time to withdraw from the senate."

The Outer Coating

or woody fibre is removed by our special process before the wheat is crushed. But only the hull is taken—all the nutriment remains in California Wheatine.

Flaked wheat food for breakfast. All good grocers.

the prison and that the life of Cotter was taken by a fellow conspirator while all were engaged in the unlawful attempt.

DR. W. R. HARPER.

Returns to Chicago Monday to Resume Work.

New York, April 6.—Dr. William R. Harper, president of the University of Chicago, is preparing to return home. He will arrive there, according to present plans, next Monday morning.

"I shall," he said, "go to my office at the university in the afternoon and get to work—of course, moderately at first."

Japanese Domestic Loan.

Tokio, April 6.—It is expected that one half of the domestic loan will be allotted to pay for the new bills issued by the government.

The whole issue, at this rate the treasury is planning a fifth domestic loan of one hundred million yen (equivalent to \$10,000,000 in U. S. dollars).

The terms of the issue will be similar to those of the fourth domestic loan.

AMUSEMENTS.

The conference rush began at the Theater last night when "The Red Player" played to a heavy audience. The same bill runs up to and including Saturday afternoon.

At the Grand Opera House another large audience last night.

Local interest in the Agricultural college revival of "She Stoops to Conquer" has been greatly increased since an all-star production of the play has been announced for the 17th in New York.

Students who have merely read the play as a literary "stunt" have no idea of the possibilities it has for rollicking, good old fashioned humor.

There will be only one performance here on Saturday night at the Theater.

The recital by the pupils of Mr. S. Molyneux Worthington occurs in the Congregational church tonight. Following is the program:

The Utah Ladies' Quartet, "Annie Laurie".....Maey
Miss Rose Smith, "All Souls Day".....Edward Lassen
Mr. Hamilton Park, "The Armourer's Song," "Robin Hood".....R. de Koven
Miss Julia Jones, "I Love Thee So".....R. de Koven
Mr. Jack Bowman, "Fear Not Ye, O Israel".....Dudley Buck
Miss Emma Saunders, "Song of a Heart".....Louis Tunison
Mr. T. E. Harper, "Crucifix".....Faure
Miss Druce, "Absent".....Metcalfe
Mr. Francis Davis, "The Lord Is My Shepherd".....S. Liddle
Miss Lizzie Thomas, accompanist.

SPECIAL \$5.00 COURSE.

In oratory or physical culture to all who enroll between April 3 and 25. Miss Pierce and Miss Davis Pierpont school, Commercial club building.

Princeton Expedition to Wyo.

New York, April 6.—The department of paleontology at Princeton university is completing its plans for an expedition to start in June for Wyoming and Montana with a view to collecting fossil bones and the skeletons of prehistoric animals.

The party will be composed of upper classmen under the direction of Dr. Marcus S. Foster, curator of the department of paleontology.

After several weeks devoted to the collection of specimens an opportunity will be given to the students to become familiar with ranch and camp life. The trip will end with a two weeks' camp in Yellowstone park.

School Belle Brings Big Price.

Chicago, April 6.—School Belle, with a trotting record of 2:16 1/4, has brought the top price at John Spian's sale at the Union Stock yards. Connelly and Shotwell of Philadelphia bid \$1,500.

School Belle was consigned by Charles McCarthy of Missoula, Mont., and is by Prodigal, out of Maria Belle.

T. H. Powers of Brooklyn, N. Y., bought 20 head of trotters with a total price from \$150 to \$400. John J. Ryan of Minneapolis paid \$1,000 for George Poppy, by Wilkes Ward out of Belmont.

Sugar Negotiations Are Off.

San Francisco, April 6.—The negotiations which have been in progress for several weeks between representatives of the various sugar plantations of the Hawaiian Islands and the American Sugar Refining company of New York relative to a renewal of a contract for the island sugar have come to an abrupt termination, with the result that the growers intend refining their own sugar in competition with the trust.

The planters wanted more advantageous terms based upon the right to deliver any portion of the product of the islands instead of upon the existing stipulated conditions under the contract. These being refused, the planters will not independently. They will now use the big Crockett refinery which they purchased some time ago, in the name of their organization, the sugar factories' association of Honolulu.

Convict Murphy Must Hang.

San Francisco, April 6.—The supreme court has affirmed the lower court in convicting Joseph Murphy of murder and decreeing that he should hang. Murphy was one of several convicts who escaped from the state prison at Folsom in January, 1903. In the beginning of the outbreak and during the first attack or rush into the captain's office, Cotter, one of the guards, was stabbed by one Andy Myers, a fellow convict and died from the wound so received. Murphy was convicted upon the theory that he was engaged in a conspiracy to unlawfully escape from

WESTERN MARKET LETTER

Special Correspondence.

Kansas City, Mo., Monday, April 3.—A moderate run of cattle last week allowed salesmen to secure another advance of 15 to 25 cents on killing grades. A larger proportion of the receipts were stockers and feeders, and although the demand for country kinds of cattle was good, it was not more than enough to clean up the supply at steady prices.

Movement of stock and feeding cattle from here during March was the largest on record for that month, at 1,800 cars, or 54,000 head of cattle.

Killing cattle have advanced steadily for several weeks, but stockers and feeders have reached a point where further advances make the market slow.

Country buyers, however, are being educated to a high range of prices for these cattle, and if the market does all that is expected of it in the next few months, the cattle now going out will make some money.

Western fed steers sold up to 5.50 last week, and some grass fed mountain cattle sold to killers at 4.60 to 4.75, and some hay fed Wyoming today at 4.75.

The run of cattle today is 7,000 head, 20 per cent of which are in the quarantine division, and a large share are stockers and feeders. Beef cattle are strong to 10 higher, stockers and feeders about steady.

Top steers sold at 6.00, which was also the top last week. A split out of the 4,000 cattle today sold at 4.35 in Chicago. The good market and the light run today indicate another good market this week.

Yearlings and lambs closed last week barely steady with the close of previous week, with both sides were firm, on account of scarcity. Market today is steady, supply 4,000, nothing very topy included.

The number of sheep and lambs in Kansas City territory is about 100,000. Demand is good, and packers had to ship in sheep last week from other markets to fill orders here.

STATE COUNCIL OF WOMEN.

There will be a meeting of the Utah State Council of Women at the Women's Exponent office Saturday morning at 10:30. All members of the council and all interested visitors are requested to be present.

MRS. F. S. RICHARDS,
President.

CATARRHAL COLDS THE TERROR OF SPRING.

Pretty Girl
Praises Pe-ru-na
For Colds and Catarrh.

Miss Alina Fay, 321 Tenth St., N. E., Washington, D. C., writes:

"I have been susceptible to colds for a number of years. I have found Pe-ru-na a remedy which has greatly reduced the discomfort I experienced with colds."

"I have not only found it good for colds, but it is good for catarrh, and an excellent tonic."

We have on file thousands of testimonials like the ones given here.

We can give our readers only a slight glimpse of the vast array of enthusiastic letters of thanks Dr. Hartman is constantly receiving for his famous catarrh remedy, Pe-ru-na.

DOES NOT FEAR A COLD

WITH PE-RU-NA ON HAND.

Miss Beesie Luckey, 3126-A Clifton Place, St. Louis, Mo., writes:

"I took Pe-ru-na some time ago, when I was all run down from a neglected cold and overwork, and in two months it restored my strength in a remarkable manner."

"I consider it a very remarkable medicine and I do not fear a cold and its consequences now as long as Pe-ru-na is to be had."

Mr. Joseph Clark, U. S. Senate Folding Room, Washington, D. C., writes:

"I contracted a severe cold. I purchased a bottle of Pe-ru-na, and in a short space of time I was entirely rid of the disease."

"Whenever I feel myself taking a cold I always take Pe-ru-na."

Those who take Pe-ru-na do not catch cold.
