DESERET EVENING NEWS: SATURDAY, MARCH 2, 1901.

BUSINESS HAS BEEN VERY GOOD.

Transactions on the Stock Exchange | Don Maguire Driving to Open Up Amount to \$120,000.

Daly-West Takes a Jump Today-Century Sells-Ajax Weakening-Lower Mammoth Firm.

Business on the exchange closed today with the sale of 19,330 shares of already made in the El Dorado mine stock for \$14,565.50. The sales for the near Willard, Boxelder county, Don Maweek amounted to 219,149 shares, which guire is now driving ahead in a lower brought \$120,766.57. The week has been notable for the inflation of a number of ing up the big copper deposit of which stocks, among which may be mentioned the surface presents abundant signs. Ajax, Daly West, Lower Mammoth and Mr. Maguire came down from Ogden to-Daly, After opening at 84 on Monday day and, In reply to a question, said Ajax sold up to 95, but it declined to the developments in the silver-lead vein 86 today on the news that the expected assures success to the company. The change has not yet been encountered. veln is from 7 to 12 feet wide, and the Daly West sold at \$33.50 on Monday, but today it reached \$34.25, the highest price yet paid for the stock. The Lower Mammoth also spurted to \$3.77 since Monday, when it was traded in at \$3.00 per share. Daly, which sold around \$2 on Monday, has since moved up to \$2.50, though it has since weakened to \$2.34. Dalton & Lark has showed some activity at lower figures, while May Day has shrunk from 47 to 44%. Mammoth remains firm around \$2.21, while Grand Central showed itself stronger today, when 200 shares changed hands at \$6.15. Century of Park valley was placed on the list during the week, and its first sale was recorded today at \$1.06 per share, Eagle & Blue Bell has been quite active owing to a report that some lead had been encountered below the 300 level. Sales were made today from 87 to 86. Star Con. has remained quite firm around 80, while Silver Shield of Bingham slumped to 10 cents on news that the dividend was passed. It has since reacted to 12, Chloride Point was handed out today at 1 cent per share, while Sunshine remains weak around 28½. Sacramento has been quite active around 37½. Ontario of Park City is much stronger at the close of the we Sales have been made as high as \$8.25. Tesora also experienced a spurt earlier in the week, when it moved from around 50 up to 62. It was weaker today, being offered at 57. Dexter has also advanced, as much as \$1.17 being offered today, with \$1.30 asked. Closing quotations were posted as follows: Stocks. Bid. Asked.

FINE SHOWING IN THE EL DORADO

a Big Body of Copper.

GRAND CENTRAL STRONGER | DALY NOT LOOKING SO WELL

The Winze is Not Flattering -New Mammoth Affairs - Dexfor Doing Very Well-Bingham Itens,

Not satisfied with the fine showing tunnel with the ultimate object of openore is said to be of excellent milling quality with bodies of first class ore through it. A force of 28 men is engaged in opening up and extracting ore for shipment from the upper tunnel. There are indications that a big increase in the copper may be looked for when the first or silver-lead vein is encountered in the lower tunnel. The ore in the upper workings already shows from 1 to 2 per cent in the red metal. The lower tunnel is now in about 300 feet and within 200 feet Mr. Maguire expects to tap the first vein at a depth of probably 500 fest. The tunnel will then be pushed in some 500 feet farther, to intercept, if possible, the big ledge of copper which shows so plainly on the surface. This tunnel will then be made the point through which the ore will be conveyed to the tramway and thence to the bins at the foot of the mountain. Bright as are the prospects in the first vein. Mr. Maguire expects to open up a big copper mine in the back vein of the El Dorado before many months elapse. The ledge as it appears on the surface is several rods wid

REPORTS FROM THE DALY.

Outlook is Not so Favorable in the

Reports reached the city today from the foreman of the Ontarlo, who has been directing a small force of men employed on the 1,200 level of the Daly. was learned at the office that there is nothing new in the work, further than that at a depth of 40 feet the winze from the 1,200 discloses anything but a flattering prospect. Both the but a flattering prospect. winze and the upraise from the above level are said to be unfavorable. In neither of them is the outlook as good as it appeared in the face of the drift. For all that, however, it is possible that pay ore may be opened in both of these places before the summer is here.

A REGULAR ORDER.

You will be sure to have the best if in ordering you insist on having Three Crown Baking Powder. If your grocer should happen to put in your order tute, you should not hesitate about call-ing his attention to the error and have him make the correction. You are sure to be satisfied in using the Three Crown Brand and we know you will find it a pleasure as well as an economy. We want to help you to satisfaction in your baking, which is why we sell this excellent article at the low price we do.

Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

A Big Mining Venture.

The Silver Plume correspondent of the Denver Post says an enterprise in mining which promises to be of great mportance to that section is the resuming of operations on the Atlantic-Pacific tunnel, to drive through the Continental divide.

This was Brick Pomeroy's great railroad tunnel, which was started about nineteen years ago, his object being to make a short and direct line to the West. It was then driven 5,540 feet on the Atlantic slope and 1,600 feet on the western or Pacific side. The dis-tance through Kelso mountain at this point is about four and one-half miles. A new company has recently been organized with a large capital to commence operations on this property, As mining venture, to say nothing of its other advantages, this has no equal throughout the State. The tunnel is ex. pected to cut no less than twenty leads of some very rich mines.

New Reduction Plant Starts Up.

A dispatch from Colorado Springs, Colo., states that the Standard Mining and Smelting company's new reduction plant at Colorado City began operations today, employing 250 men. The plant, comprising thirteen buildings and covering an area of six acres, cost \$750,-000 and will treat Criple Creek ores principally.

Cyclone Strikes the Mine. Special Correspondence.

Frisco, Beaver Co., February 28.-A cyclone struck the Horn Silver mine this evening when the men came up from underground. Sixty or more men were laid off indefinitely. The mill will also be closed down in the morning, and all the hands laid off. It is understood the management intend to try and cave the mine from the top down to the 700 level. A cave occurred several years ago, when a slip dropped one hundred A force of seven meh is engaged in low the 700. The mine has been honey. ng the old tim directions, and it is quite possible may be accomplished. It is thought it will only be a temporary lay off, but nothing definitely is known at the present. A car load of mill repairs came in toBoy smelter came up from the big plant today.

Manager Weir of the Ajax returned to town last evening from the mine and reports no change whatever.

Yesterday's shipment from the Utah was sold during the afternoon on con-trols showing 51 per cent lead and 134 ounces sliver.

Manager M. P. Gilbert, of the Blackbird Copper-Gold company, is expected home next week from the East.

Secretary M. L. Effinger of the Ophir at Stateline has returned from a trip to Detroit, Mich., in the interests of the company.

A dispatch from Carlsbad, N. M., states that oil has ben struck thirty miles from that town near the Texas State line.

George L. Moats is in the city from Omaha for the purpose of looking into Utah prospects with the object of making some investments.

Samples of rock showing free gold have been received in the city from a new strike on the lowest level of the Johnny at Stateline.

Supt. Geo. B. Sessions of the West Argent was in town today conferring with the management regarding the new strikes in that property.

A car of ore is expected from the Gundry lease on the Boss Tweed, which is expected to show close to 20 per cent in the red metal. Mr. Gundry, who is in town, is sinking a shaft near the Carisa lines.

Simon Bamberger returned last even-ing from the Park City after escorting some eastern gentlemen through the great Daly-West. Mr. Bamberger reports the ore reserves constantly increasing.

A second payment of \$20,000 has been made on the Dixie purchase. This brings the total to \$45,000 with about \$155,000 still to come. The payment came from the Utah and Eastern Cop-pe Mining company of New Haven Mining company of New Haven, Conn. and was made late yesterday.

At Opening Trading Was Much Diversified and Movements Were Irregular.

Unexpected Increase in Bank Reserves Induced Covering by Shorts and Brought About Some Rallies.

New York, March 2 .- Opening prices were higher throughout the list, the Pacifics and important industrials leading. Trading was very much diversified and movements were irregular, leading stocks tending lower. Sugar and Smelting lost a point. Among minor stocks there were some good gains. Baltimore & Ohio pfd, moved up 2 points in sympathy with a 2% rise in the common and Tin Plate pfd. was 1% higher. International Power was active and feverish. A rally of 11/2 from the lowest was followed by renewed selling, but the stock subsequently steadied, at yes-terday's close. Toward 11 o'clock Southern Railway common and Chesa-peake & Ohio were advanced, which strengthened the other railroads. Sugar fell nearly 2 points below the high point and the general list fel into neglect until the appearance of the bank statement. The unexpected increase in reserves induced covering of shorts and there were smart rallies. Sugar recovered 1%, and a number of less prominent stocks from 1 to 2 points. Consolidated Gas rose 1%, and the Bal-

timore & Ohio stocks moved up to the

best of the day, but other stocks yield.

ed and the closing was irregular and

TROUBLE SETTLED.

Mr. H. E. Bowring and John M. Whitaker met today and amicably settled the suit relating to the purchase of a one-half interest in the firm of Bowring and Best, by Mr. Bowring paying his proportion of the amount involved debts of Bowring and Best, the old firm. point up to recess.

F. H. Lathrop. Within the next 150 feet it is expected that the ledge will be encountered, when, if conditions are fa-vorable connection will be made with the upper workings. When this work is completed the oxidized ore in that day, and repairs are going to be done on the mill during the shut down. part of the mine will be handled more cheaply and it is possible that the mill may then be started up again. It is probable that copper will enter into the ore at greater depths, and if this turns 3% 1% out to be the case the use of the mill will be limited but the value of the ore 70 10 77% and of the property will be enhanced in value.

DEXTER REPORTS.

Secretary Says the Tonnage has Been Greater thus far This Month.

Reports from the Dexter-Tuscarora 2 51% property are said to be much more cheerful for the two weeks ending Feb-ruary 25. If the same improvement is noticeable until the time of the clean up on the 10th inst., the mine will doubtless produce several thousand dol-lars more than the January report At that time about 80 tons showed. only were milled during the month, but the report for the two weeks mentioned 1214 above show an average of over 100 tons per day milled. The values are reported to be practically unchanged.

SMELTER CO'S INJUNCTION.

Application to Make it Permanent Came Up Today in Newark.

New York, March 2 .- At Newark, N. J., today, Vice Chancellor Stevens gave a hearing on the application to make permanent the order restraining the American Smelting and Refining company from increasing its capital stock from \$65,000,000 to \$100,000,000 and from olidating the interest represented cons by M. Guggenheim & Sons and other interests in the United States and Mexiunder its management.

Edward Lauterbach, Eugene Tread-well and R. V. Lindabury appeared as counsel for the complainant stockhold-ers who are Williamb Donald, William H. Curtis, John Gordan, S. V. White, A Sartorius and Henry Zimmer. The directors of the smelting company were represented by Samuel Untermeyer, Thomas B. Thatcher, Robert H. Mc-Carter and William H. Corbin.

Mr. Lindabury opened the case by reading affidavits from the complainants alleging that the proposed increase of the capital stock was unnecessary. and that the amount proposed to be paid for the interest of M. Guggenheim & Sons was excessive. The affidavits alleged in fact that the value of the Guggenheim interests was problem-atical, and that they really had no specific value by reason of the posses-William H. processes. sion of secret

Corbin replied for the directors. Mr. Corbin's reply consisted mainly of affidavits of M. Guggenheim & Sons and others showing that the amount of stock held by the complainants was smaller than represented, Mr. Lindabury asked at once a new order permitting the taking of depositions of certain officers of the company. Untermeyer objected, arguing the Mr.

Items From Bingham.

In its weekly review of the camp the

Bingham Bulletin says: Another ship-ment of Northern Light concentrates is being made. Reports from the Ren Butler say it is

ooking fine and will meet all expectations General Electric, 210; L. & N., 925; General Electric, 210; L. & N., 925; Leather, 124; do pfd., 735; Manhattan, 117%; M. K. & T., pfd., 54%; Metropoli-tan Railway, 161; Missouri Pacific, 89%; Northern Pacific, 83; do pfd., 87%; The Highland Boy is said to be send-

ing to smelter this week over 500 tons of ore daily. A test run will soon be made at the Dewey on ore from Bingham C. & G. prospecting dumps. The delivery of about seventy-five tons of Ben Butler second class to the Dewey will be completed today.

Red Wing leasers are getting ready to make another shipment following the four-car lot sent out Tuesday. The ore is said to be richer as depth is

It is expected that the Shawmut mill. supplied with power by the Telluride company, will make another start about the 1st of April and be run by three shifts

The new eastern parties to operate the Starlus group of mines are ex-pected here today. There is good reapected here today. There is good rea-son to believe that they will shortly egin extensive operations. At the Louise S. (old St. James) two

large ore streaks have just been dis-covered, said to assay \$40 per ton. The vein is found to be upwards of thirty feet wide, and filling indicates that the streaks will come together and form a solid body. What ore this property has formerly produced was, as a rule, quite above average Bingham grade.

Jersey Blue Developmentss.

The Bingham Bulletin says the Jersey Blue has been cut into twenty-five feet, all ore ,with hanging wall not Refined-Quiet; crushed, 6.00; pow-dered, 5.60; granulated, 5.50. yet in sight. The mineral is similar to that of the Cottonwood-Iron pyrites -but carries higher copper values. It is a good milling proposition, and no doubt the Bingham & Eastern company will erect a large concentrator this seaor as soon as the great ore body is sufficiently developed to warrant the investment. The company is now as-sured that it has a practically inexhaustible ore supply, and with the right process for treating it the Jersey Blue Increase property should become a great moneygetter.

OGDEN HOSPITALITY.

Utah Legislature Receives a Large Bounty of IL.

Special Correspondence.

Ogden, March 2 .-- The State Legislature yesterday afternoon after leaving the State Industrial school, were taken by the street cars and carriages to the State school for the deaf and blind, where they were greeted by Superin-tendent Metcalf and wife and the teach-ers of the institution. The legislative body and their friends were ushered Lodges. into the assembly hall of the building, where a very pleasing and interesting

hour was spent. Mayor M. S. Browning, on behalf of the city, delivered an address of wel-come to the visitors as did also Hon. Jos. Stanford on behalf of the Weber Wang Land, a gardener, who lives on Eleventh South and East Temple street, was the first witness. He testified that on the 15th of February he passed Chin County officials, E. H. Anderson, on be half of the trustees of the school, an and Chin's place and saw the Chinamen gambling there. On cross examination Judge Thos. D. Dee on behalf of the city schools. After the addresses the following program was rendered by the inmates of the institution. the Chinamen who were there except

After dinner the Legislature were

taken to the city hall building, where they enjoyed a grand ball in the hall, which had been most beautifully decor-ated with the Stars and Stripes, and was elegantly and artistically lighted with red, white and blue electric lights. The Legislators and guests at the close of the ball tendered the people of Ogden a unanimous vote of thanks for the royal reception they had received at their hands. The Legislature returned to Salt Lake on the 10 o'clock evening train, pronouncing the day one of great delight and interest to all.
