QUIT COFFEE. Said the Great German Specialist.

It disappoints some people to be told that coffee causes the disease, But it is best to look squarely at facts and set the face towards health for that's more fun than anything else anyhow. A Cincinnati man consulted a Berlin physician on nervous diseases and says: "Four years ago I was an habitual coffee drinker having used it for 25 years and being naturally of a nervous temperament I became almost a nerv-ous wreck, greatly suffering from in-somnia, almost constantly constipated and weighing only 125 pounds. "I consulted physicians and took medicine all the time but had no relief. About three years and a half ago I went abroad and while in Berlin heard frequently of a great physician. After carefully examining me he told me there was nothing the matter with me whatever but what could be entirely cured in 30 days by letting coffee and other stimu-lants alone and dieting. "O, mamma, I didn't know, I didn't know! Why didn't you tell me that I was different—that I was only an Indian-that I was not fit to marry him?" The old lady comforted the girl as best she could and led her to her room They found her there the next morning. WILL NOT SPEAK HERE.

Col. Higgins, Salvation Army Worker, Delayed at Pueblo.

Mrs. Colonel Higgins, the distinguished Salvation Army worker who was to have lectured in the Salt Lake Theater tonight, will not be heard here owing to the fact that she missed her train in Pueblo and will not reach Salt Lake till midnight. She will lecture in Ogden, however, tomorrow night and it may be that many from this city will

go up to hear her. A telegram abnouncing the change was received by local Army workers last night and on account of it the statement is made that those who pur-chased tickets for tonight's lecture may have their money refunded by applying to the proper source.
