riven later.

The Great FERNSTROM RAPS "AMERICAN" PART

Charges Neglect of Duty and Grafting by Heads of Departments.

ENGINEER KELSEY SCORED.

But His Resolution is Outvoted by Malority-Attack Made on the Street Sprinkling Payroll.

Three hard raps were given the 'American" administration by Counilman Fernstrom last night during the council meeting in regard to neglect of duty by heads of departments and also in relation to "grafting." Fernstrom scored City Engineer Kelsey, Health Commissioner Stewart and Street Supervisor Raleigh for neglect of duty and charged that the street department employed men who have made affidavit, which is on file on the records of the council, that they defrauded the last administration and yet these men are still in the employ of the street department. The "American" majority stood by their men, however, and outvoted Fernstrom and buried his resolutions attacking the heads of departments.

STREET SPRINKLING.

The first matter which created a stir The first matter which created a stir-was the street sprinkling payrolls which gave Crowther and Robinson credit for four or five more days than the other men. Pernstrom strongly opposed the approval of the payroll until it had been fully investigated by the committee and offered an amendment that it be referred to the com-mittee. He said that Crowther and Robinson came in with an affidavit in which they swore that they had de-frauded the last administration out of day's labor at least and he thought it a disgrace that such grafters should be kept on the payrolls. The fact that they were given credit for more time than the other men in the sprinkling department looked rather suspicious and Fernstrom contended that the matter should be investigated before the payroll was approved. He declared that the men mentioned were rascals and should not be in the employ of the city. They swore in their affidavit that they stole from the city last year and he thought they should be kicked out. Such men, he argued, would not be tolerated for one minute by a busi-ness man in his place of business and he thought it unwise for the city to keep them on the payrolls.

CARTER'S REJOINDER.

Carter explained that the two men were on the flushers and had worked Sundays as well as other days hence they were entitled to more time than the other men in the sprinkling department. He did not think the entire payroll should be held ver just because of that matter as the committee would certainly look into the matter. Martin also opposed holding up the payroll and depriving the men of their pay. With the understanding that the committee would thoroughly investigate the matter before the next payroll was sent to the council, Fernstrom withdrew his motion to refer and the payrolls were all approved.

CHARGES NEGLECT

icism from Fernstrom was the report of the committee on his resolution recommending that an ordinance be drawn up making it necessary for all heads of departments, excepting the health commissioner, city attorney and city chemist, to devote their entire time to the city's work. The commit-tee recommended that Fernstrom's resolution be filed.

Fernstrom objected to any such action and called the attention of the council to the fact that City Engineer Kelsey had been spending his time ning around in Colorado and Idaho looking for jobs while his work here was neglected. "Everyone knows," he said, "that the sidewalk contractor had to give up his contract several times because the engineer was so far behind with his work he could not furnish grade stakes when needed. Then there the sewer improvement which has been tied up for months and nothing done because the engineer has not completed the plans which he has promis-ed for two months. Then there is an other head of a city department who is spending his time out on the reservation taking up a homestead and neg-lecting the work for which the city pays him. In the former ordinance book there was an ordinance requiring the heads of departments to devote their entire time to their work, but in some manner when the ordiinces were revised it was left out."

RESOLUTION FILED AWAY.

Black did not think such a resolu-ion was necessary for the reason that whenever any of the heads of departnents neglected their work this ad-ninistration could "fire" them. Mulvey called Fernstrom's attention to the fact fice had been much less during the past seven months than they were during the same period last year.

"That's true, all right," replied Fern-strom, "but the reason for it is that the engineer has done very little work

The report of the committee was adopted over the protest of Fernstrom and his resolution was accordingly filed away.

MOTION TO EXPUNGE.

A report was received from the san hary committee recommending that Fernstrom's resolution scoring the health commissioner for the unsant-tary condition of the city, he expunged from the records of the council. resolution called for a meeting of the entire council as a committee of the whole to consider the action of Health Commissioner Stewart in neglecting his duty in regard to enforcing the sani-tary regulations. It was based upon the complaint of residents in the neighbor-hood of the Mount Pickle factory against a nuisance which existed there and which is now being remedied by the company.

When the report of the committee was read Fernstrom made a strong argument against its adoption. He declared that the resolution had already appeared on the minutes of the council and could not be suppressed, and further it had already accomplished its purpose by waking up the health commissioner and his department and causing him to attend to his duty.

RESOLUTION ADOPTED.

"If you want to expunge that resolution from the minutes," he said, "be-cause it casts a slur upon one of the departments of the city government, you should also expunge the report of the health department from the records because it shows that during the past seven months there were 142 more deaths in this city than during the same period of time for many years. There is certainly something wrong with the sanitary condition of the city with the sanitary condition of the cits when the report of the health department show so many deaths. This report tells the story and the gravestones also tell the story. Talk about spite work when one asks for an investigation of the sanitary conditions of the city? Why not wipe this report of the health department from the records too?" Notwithstanding Fernetrom's protest,

the committee report was adopted and the resolution was ordered expunged from the record,

FAVORS FRANCHISE.

The Manufacturers & Merchanis' association submitted a communication favoring the granting of a franchise to H. P. Clark for an electric railway on certain streets in the city for a terminus for an interurban line running to Garfield, Bingham Junction and other towns near Salt Lake. The associa-tion is of the opinion that the railway will be of great benefit to the city and hence ask that Mr. Clark be given due sconsideration. The matter will be considered by the streets and municipal laws committees at a special meeting tonight. A number of members of the council went over the route of the proposed railway in the city this afternoon at 2:30 o'clock.

SPECIAL POLICEMEN.

Chief of Police Sheets sent in the appointments of Fred C. Blodgett, Oscar Bousman and George Watson as spe-cial policemen at the Salt Palace to serve without pay from the city. The appointments were referred to the polee and prison committee for considerawas also the appointment of George Littley as a special policeman at the request of the Utah Fireproofing company. This action was taken upon request of Black, who said that special policemen are getting too numerous in the city now and some of them are attempting to go beyond their jurisdiction. Chief of Police Sheets will make a full report to the committee upon the number of specials and the extent of their jurisdiction.

FERRY'S RESOLUTION.

The council adopted Ferry's resolution authorizing the city recorder to act as purchasing agent to purchase all stationery and office supplies for the various departments and offices of the

The residents on Twelfth East street between South Temple and Second South streets submitted a petition ask-ing that the street be macadamized according to the plans approved for the same street between Second and Third South. The petition was granted and the recorder was instructed to ad-vertise notice of intention to make the improvement.
