LOCAL MARKETS. The local markets continue brisk. Cars of Mediterranean Sweets, lemons and new potatoes were received this morning from southern California over the Salt Lake Route, and a carload or two of bananas from Port Lomon will supply the local market, which has been rather bare of this fruit. New Potatoes are selling at reasonable prices now, wholesaling at \$2 per cwt, so that "evertody" is able to buy. There is a good supply of spring chickens arriv-ing, with the market steady; but the price of eggs is going up as the hens appear to have taken a day off after laying their first spring batch, and are getting their second wind. There is a slight reduction in mutton, also in live house. In the first market there is no more Bonita, Barracuda or fresh Mac-kerel for the present, as these interest-ing first seem to have taken a shot off into deep water. Coccanuts are among the fresh arrivals, and pine apples are down to \$2.50 and \$2.75 per dozen. Eer-muda onions are also on hand, with fresh consignments of White Crystal Wax onlinons from Texas. The Hood River strawberries are about gone, and the native Utah berry is taking their place, with Mill Creek as the champion locality for big berries. Some of these are so large that two bites are neces-sary to get away with one of them. rather bare of this fruit. New Potatoes STOCKS OPENED AT HIGHER PRICES

sary to get away with one of them Few cherries are on hand, owing to the continued stiff demand in the east, and raspherries are finding a slow sale. A few blackberries are arriving from the coast. The first shipment of Utah caull-flower was received this morning from Moapa. The prices prevailing in the markets today are as follows:

reached. There is comparatively little water in the mines this spring and no trouble from this source is anticipated this year. Two pumps only are in oper-alion now, when last season at this time, four were kept going all of the time and the breaking of a valve on one of them caused suspension of work. The management of this property cer-tainly deserve a big reward if any-one does, for five years they have worked faithfully and constantly to open up a mine, their confidence in the Thayne's canyon section, being unlim-lted. Mr. Hickey, who is a most  $14 \\ 1.50$ 2.10 1.18% 1.23%

Thayne's canyon section, being unlim-lted. Mr. Hickey, who is a most thorough and practical miner, is not giving to news paper "boosting" or ad-vertising, but he firmly believes that the hoped for "find" is about to occur. Work at the Kearns-Kelth and Al-liance properties goes steadily ahead, with the ore bodies encountered grow-ing larger and richer as they are de-veloped. The K-K-mill is turning out some of the linest concentrates in the

veloped. The K-K-mill is turning out some of the finest concentrates in the camp. Frank A, Bird, the well known as-sayer and mining man commenced work at the Columbus this week with a small force of men, which will be increased later on. The Columbus is increased later on. The Columbus is owned by W. A. McCurey of Salt Lake, eo, Fisher and others. Foreman Matt Connelley is over from the Drain tunnel today and reports the work of cleaning up the tunnel under full headway. The workmen are now in about 4,000 feet and since leaving In about 4,000 feet and since leaving the last cave-in, several smalled ones have been cleared up, the tunnel gen-erally being in good shape considering the length of time the water has been backed up in there. Another cave has now been encountered, though no idea of its exient can be given. Mr. Connelley takes a very cheerful view of the outlock and is satisfied that all will be well and in good shape again in a short time The remaining 63,000 pounds of the The remaining 63,000 pounds of the 93,000 pound shipment from the New York was sent to the market this week. The roturns show .06 gold: 145.9 silver, and 8.4 lead. Prospecting and de-velopment work is going ahead steads. by at the mine and everything is in splendid condition. There is not enough water in the mine to cause any splendid concern. U. S. COMPANY'S PLANS.

Local Shareholders Receive Notice of Increase in Capitalization.

Local shareholders of the United States Mining company have received a circular containing the information circular containing the information that the directors had decided unani-mously to increase the capital stock of the corporation subject to ratification by the stockholders at a meeting to be held on the 14th inst. This plan was devised for the purpose of raising funds to increase the smelting and re-fining capacity of the company's busi-ness. The increase in the capital stock will be 100,000 shares and it is said the entire issue will be offered to shareholders at par, or \$25 per share, This will give the company \$2,500,000 new working capital to earry out its new working capital to carry out its projects. It is proposed, among other things, to erect a copper refinery at Buffalo, N, Y, and a lead refinery at some point in the west, possibly in this eity. It is hoped to have these plants ready for commission before the close of the present year. Three additional furnaces are to be built at the com-pany's lead smelter at Bingham Junc-

### P. L. KIMBERLY DEAD.

#### Well Known Capitalist and Mining Operator Victim of Paralytic Stroke.

A message received last evening by local officials of the Western Explora-tion company conveyed the informa-tion that Poter L. Kimberly, who was identified with a large number of mining enterprises in this and other western states had died suddenly in Chicago. The cause of his untimely taking off was due to a paralytic stroke.

strake The deceased had been for a number the decensed had been for a humber of years an active fugitive in Utah mining circles and while he never made his residence here, he looked upon his field as being a favorable one for mining investments. His first suc-

# UNCLE SAM MEETING

Stockholders Are Holding Their Session Today. The stockholders of the Uncl

The stockholders of the there each Consolidated Mining company are hold-ing their annual meeting this after-noon and will elect a board of direc-tors for the ensuing year. It is likely the old board will be chosen again. The financial statement to be presented will present a very gratifying condition of affairs, there being chough funds on hand to pay several big divi-

of the proper committee whose duty it will be to determine who is entitled to vote, an adjournment was taken until 3 o'clock this afternoon. There seems to be an overwhelming majority of the shareholders of the company in favor of the resolution au-thorizing a change in the articles of in-corporation and there is not the slight-est doubt but that the proposition will go through when it is called up this afternoon. afternoon

The Star company has been handlcapped in the past with a shortage of funds to carry forward development work; but with the power vested in the board of directors to levy assessments. it is believed, the difficulty will be overcome and the mine will again be placed on a paying basis.

# BOYSEN COMPANY.

#### Will be a Factor in Wyoming Copper Mine Development.

Special Correspondence.

Special Correspondence. Thermopolis, Wyo., June 4.—The As-mus Boysen Mining company, recently incorporated with a capital stock of \$25,000,000, and having headquarters at this place, has purchased the option heid by Peter Reisgnart of Alma, Colo., on the Hidden Treasure. Trish Boy, Yankee Boy and Fremont mining claims on Copper Mountain, 25 miles southeast of this place. Mr. Reisgnart recently bonded the property for \$150,. 000 for one year. The Boysen company has now paid him \$10,000 premium for his option. They will take their dia-mond drilling outfit up to the mountain

mond drilling outfit up to the mountain and begin active work at once. It is expected that this company will be the principal factor in copper mine devel-opment in Wyoming.
