PRESIDENT'S CONDITION.

Official Bulletin.

EXECUTIVE MANSION, 30, 6.30 p. m.—The President has passed comfortably through the day. He has taken the usual amount of nourishment by mouth with stimulating enemas at periods. The rise of temperature this afternoon is a degree less than yesterday at the same time, and the pulse is less frequent than at noon to-day. The parotid swelling has been discharging more freely, and is continuing to diminish in size. Pulse 109, temperature 99.5-10, respiration 18.

Signed: Bliss, Barnes, Woodward, Reyburn, Agnew.

As Good as Yesterday.

It is extremely quiet. The uneventful news from the sick room is very gratifying. Shortly after the mid-day bulletin a ripple of excitement was noticeable, owing to the rise in the patient's pulse to 116. The rise, the surgeons said, is due to a slight incision of the parotid gland this morning. They express the opinion that during the extremely enfeebled condition of the patient, no importance can be attached to slight fluctuations in the pulse. The President continues to take his usual nourishment, and during the day in addition to koumiss, milk porridge and beef tea, of which he partook freely, also a piece of milk toast, with apparent relish. The beef tea which he is now taking is prepared from raw beef chopped fine, to which is added a quantity of water and a few drops of muriatic acid. The patient greatly relishes this. Dr. Boynton said the glandular trouble is apparently much better. There was a large discharge from it this morning. Not much change in the condition of the wound, and that granulation had been renewed, but not to any great extent. He considered the general condition of the patient as good as yesterday.

Blaine to Lowell.

The President, if not rapidly advancing, is at least holding his own. The fever is less than it was last night, and the swollen gland steadily improves. The pulse continues rather higher, running this evening from 110 to 114. Perhaps the best indication in the case is the President himself feels better, and his mind being now perfectly clear he readily compares one day's progress with another.

Captain Henry's Telegram.

CHICAGO, 30.—A Washington special says: Captain Henry telegraphed as follows from the Executive Mansion at 9 p. m.:

To Friends in Ohio:

The improved symptoms I spoke of last night at this hour continued through the night and day. The swelling in the right side of the face, forward and below the ear has discharged quite freely during the day, and especially about sunset. The doctors appear to feel confident that they are nearly through with that trouble. Like an enormous carbuncle, it had for days caused intense pain to the already exhausted patient. At times he could not repress a moan with each breath. The fevered vitiated blood going fast in the head, caused the brain to wander at times until the iron will could regain its faculties. So the struggle continued for several days. The whole strength of will power was exhausted to keep reason enthroned for a little time, and still the brain worked on. It was a few days and long weary nights of pain; a terrible fight with fearful odds against the feeble, wounded man. His vitality, preserved through life by correct habits, came to his relief, and General Garfield won, as he had in a hundred conflicts. His mind is now bright and clear. The ugly sore near the ear has spent its force. This morning about three o'clock the President awoke and made some effort to clear his throat from mucous that had accumulated from the swollen gland. Dr. Boynton, who is with him almost constantly, night and day, assisted him in his efforts. The President remarked: "Ah, Silas, how many more stations must we stop at before we get through?" He referred to the parotid swelling as a long stop on the road to recovery. I saw Dr. Bliss a few moments ago. Said I, "Doctor, I am flooded with telegrams and letters, asking about the exact condition of the President; what shall I say to-night?" Said he, "You can say the President is on a higher plane toward recovery. The President did splendidly to-day. His stomach worked well. The swelling is discharging freely, and his general symptoms have improved." The Doctor rounded off with emphasis and a confident nod of the head. He is going to get well. The children have not been in the sick room, although they would very much like to see their father. They think they will go in and see him in the morning. I mention this fact to remind the reader that amid all the hopeful, rosy reports, the President is still weak and feeble, and that a little accident or incident would end any chances of recovery. Careful nursing is required from this on more than surgical science, and the nurses say the President feels more cheerful to-day than yesterday. I saw Mrs. Garfield to-day, just as she was completing a letter to the President's mother. She wore the same cheery look of sunshine, but is not as enthusiastic, as some of the papers have said, about the favorable symptoms and improvement of the President. She is thoughtful, watchful and cheerful, but not enthusiastic. She asked me yesterday, if the President's old regiment would hold its reunion this year, and where. I replied, at Galion, Ohio, on the 31st inst. She seemed pleased, and said the President did not like to have such things put off on his account.

To sum up, I think the points of great danger are now nearly passed. True, the President is very feeble, with a fearful wound not healed, almost through his body; an ugly, painful carbuncle sore on the side of his face; his strength almost gone in his struggle for life; yet he will live. Why should he not? The doctors say he will; the nurses think he will. In less than 48 hours from now there will have been 60 long days and nights spent in this memorable battle for life. For eight long weeks the nation has stood so near the verge that the whisperings of God were heard by the children of men. He will hear their prayers.

We Pay $14,000,000 of Bonds.

The Secretary of the Treasury says no call for bonds is likely to be issued just yet, as continued bonds are the only ones which can now be called. It is expected the debt statement will show a reduction of $14,000,000 during August.

And Transfer $20,000,000 in Gold to New York.

Twenty million dollars in gold were transferred to the New York assay office to pay for shipments hitherto of bullion.

Revolvers on the Railroad.

ALBANY, 30.—A train from the north, on the Delaware & Hudson Canal Company's Railroad, was the scene to-day of a most exciting affair. When the train reached Comstock, two men, supposed to be members of the Frawley and Magee gang, entered the car as the passengers did. The chief of police at Albany, and Deputy Sheriff Post, of Saratoga County, were telegraphed, and when the train reached Mechanicsville, Post and the assistant boarded the train. Post walked up to one of the men and plucked the ticket from his hat to see whether it read Albany or not. The man immediately drew a revolver and fired, inflicting an ugly wound in the neck of Post, who quickly returned the fire, hitting his man in the forehead. The second fellow fled, and Post's victim undertook to follow, but fell to the floor of the car from the loss of blood. Post pounced upon and beat him until hauled off by the train hands. No. 2 while running off was shot in the neck by the former. Both were then secured and taken to Ballston jail. The names given by the criminals were Louis Proctor and John Murray. In the firing that followed the first exchange of shots, the deputy sheriff was wounded in the breast, and J. B. Farnhamin the shoulder, but not dangerously injured. Proctor's wound is in the back of the neck. One of the prisoners said to a reporter, if his paper circulated in that State, he would like him to publish the fact that Proctor and his friend were arrested in New York State.

336 Acre Patent.

WASHINGTON, 30.—The Commissioner of the General land office has transmitted to the Surveyor-General of California, patent for a part of Rancha Cobeza De Santa Rosa, located in Sonoma county, containing 336 acres of valuable land; Felicidae Carrallo De Castro confirmed. This is the last of the five derivation claims confirmed at various times, which comprise the entire grants.

Perils of the Ocean.

NEW YORK, 30.—The ship *Sandusky* left Pensacola for Liverpool August 12th. On the 20th a strong wind began blowing, which increased to a heavy gale. The ship began to take water on the 26th, and with 10 feet of water in her hold went over on her beam ends at 8.30 p.m All provisions and water were swept overboard, with three seamen. The rest of the crew took to the rigging. The ship then righted gradually, and in the afternoon of the 28th was sighted by the steamer *Hudson*, for New York, and the survivors were relieved after 78 hours without food or water.

The schooner *Lucie Wheatley*, from Jacksonville to Baltimore, sank during the hurricane. Her crew were saved by the steamer *Chalmette*. They were four days without water.

Freights Steady.

In the freighting market the week begins much the same as during the past two months. There has been a very fluctuating fact that at this season business is concentrated in the hands of a few shippers only, and their lines of shipment are more limited than at any other period of the year, while the offerings of outside shippers are very small. Rates remain as before, and there are no signs of weakness, notwithstanding the dulness of the market. The *Prussian* and *Alameda* have sailed. The former's cargo comprises in part 297 tons of coal, 300 barrels of whisky, 200 barrels of rosin, 2,500 barrels of plaster, etc.

Demented.

The *Post's* Washington special says: The police have just arrested another "crank" at the White House gate. He was a poor colored man, manifestly insane, bent upon killing every man who was not a Garfield man, and he had a large tin can into which he proposed to place their heads.

Russian Gold.

The steamer *Moos* brought $144,000 in Russian gold.

Catholic Prayers for the President.

PHILADELPHIA, 30. — At the Catholic Men's Christian Association Union meeting, prayers for President Garfield's recovery were held to-night. There was much interest. Another will be held on Tuesday.

Iron and Steel.

The American Iron and Steel Association proposes holding a convention which shall be a demonstration in favor of intelligent and equitable revision of the tariff laws.

Terrible Explosion.

NEWHAVEN, 30.—A terrific explosion occurred to day in the loading room of the Winchester Repeating Arms Company, blowing off the roof. Nine men were badly injured.

The "Richmond" Wrecked.

CAMDEN, Me., 30.—The steamer *City of Richmond*, in the fog this morning, ran on Mark Island, in Penobscott Bay. The captain and part of the crew came here in a small boat. They chartered the steamer *Pioneer*, which has just gone to take 60 passengers to Rockland. The *City of Richmond* ran on the Portland and Mount Desert line, and is probably a total loss.

Arming the Citizens.

SANTA FE, 30.—Gov. Sheldon has returned and issued an address, announcing his intention to at once organize and arm independent companies in exposed territories, so that in the event of an outbreak a strong force can be mobilized to act in conjunction with the military for aggressive as well as defensive operations. Such a policy will certainly prevent such raids as recently occurred.

Shot.

LOS VEGAS, 30.—Henry Bishop was shot and killed Friday last at Fort Bascom by Thomas Duffy. Bishop was clerking in a store. The dispute was about some goods. The murderer was arrested.

FOREIGN.

DUBLIN, 30.—At a banquet at the Rotunda, to-night, to John Dillon, Thomas Sexton presided. Dillon, responding to a toast, referred at length to his action in regard to the land bill before his imprisonment, and said he was very strongly of the opinion that the passage of the bill would immensely increase the difficulty if it did not render it impossible in the carrying on of the Land League movement, on the old line. He feared the yoke of the landlord ascending, would be so much altered as to make the people once more bow their heads beneath it; whereas if the fight had been continued another six months. Unconditionally they would have been in a position to abolish landlordism, although the majority of the league executive body seemed to favor the trying of the land bill. Dillon believed that at this stage the league could not prevent people from trying the bill, but he could not support the league policy of trying the bill, and under the circumstances he would retire from public life for a few months and leave those who believed in this policy to carry it out unembarrassed. While fully recognizing the wisdom of Parnell's programme, Dillon said he was unprepared to acquiesce in it, and as he was unable to consistently cooperate thereon, he felt it to be his duty to stand aside for the present.

Landlords Alarmed.

The landlords view with alarm the appointment of John Givan as assistant commissioner under the land act. They declare that Givan is a pronounced partisan of tenant's rights.

Bradlaugh Again.

LONDON, 30.—Bradlaugh's manifesto to the English people, announces that he will go to the House of Commons again next session and ask them to protect him against unlawful violence.

Algerian Fires.

More forest fires are reported from different parts of Algeria. It is stated many natives are burnt in the woods of Caoul.

Friendly.

TUNIS, 30.—Roustan, the French minister, has taken leave of the heir-apparent. Prior to his departure for Paris the latter expressed himself in the most friendly terms towards France, and said the Tunisian military authorities were at the disposal of the French commander.

Steamer "Newport" Safe.

HAVANA, 30.—The steamer *Newport*, from New York, August 25th, for Havana, before reported as put into Nassau, with machinery out of order, arrived all safe. She reports terrible weather the last two days.

A Count Steals Horses.

VIENNA, 30.—Count Jourdeville, one of the oldest French legitimist nobility, has been arrested for stealing a carriage and horses at Spa and selling them and leaving the country.

Correspondence.

BEAVER, Aug. 25, 1881.

Editor Deseret News:

Since the leaders of the Ogden mob have had the impudence to send me one of their threatening circulars, it is due perhaps to them as well as myself to let them and the public know whether I am prepared to recant my religion or take chances on the terrible destruction threatened. Well, sir, I prefer the latter. I have faced many priest-ridden mobs during the past half century and have become inured to them. As an excuse for their murderous threats in their circular, among other things they say: "Nearly all Territorial offices are filled by polygamists." I cannot say positively about that; I will give the names of several of the leading officers, and ask the courts to examine into the matter. They are as follows: E. H. Murray, Governor; A. L. Thomas, Secretary; J. A. Hunter, Chief Justice; P. H. Emerson and S. P. Twiss, Associate Justices; P. T. Van Zile, Prosecuting Attorney; H. McMaster, Register Land Office; M. M. Bane, Receiver Public Money; F. Salomon, Surveyor-General; M. Shaughnessy, U. S. Marshal, Mr. Lynch, Postmaster. There are a few minor offices held by "Mormons" or Latter-day Saints but as "nearly all Territorial offices" are held by polygamists, we think these more prominent officials should have the first consideration. In fact when we consider that the Governor alone can neutralize at one stroke of the pen, or kill, by putting into his pocket all that the "Mormon" legislature can do in a whole session, the reader will see that our suggestion is quite proper and timely. These officials must understand that it is not the writer of this article who accuses them of living in violation of the law of Congress made expressly for "Mormons." It is hard to believe, gentlemen, and to you may be hard to bear, but those Christian ministers unhesitatingly say it is so, and we must leave the quarrel if there is any, between you and them. Of course, we hold you legally innocent until those pious ministers prove their broad assertions against you.

These patriotic missionaries say of the religion of the Saints, including Celestial Marriage, "it should not be reasoned with, but ought to be be stamped out." Now what does this stamping out mean? Let the history of the past answer. In Missouri and Illinois it meant if the "Mormon's" fail to leave their hard earned homes for us pious Christians led by such Methodist preachers as Samuel Bogart and others who led the mob that murdered the Apostle David Patten and others; if they fail to quit their homes peaceably we will exterminate them, men, women and children. Again are these friends of the lower regions so ignorant of Church history as not to know that religion received in sincerity can only be "stamped out" by taking the lives of those who embrace it? No, Mr. Editor, they know the fact but too well and in my view they mean the same as their murderous brethren meant in Missouri. Such a move, however, they seem aware would be hazardous for them, hence the fawning sycophants ask Congress to inaugurate oppressive measures that no honorable class of American citizens would or could in honor submit to. Rev. E. Smith, of Beaver, secretary of the mob council, I understand, denies endorsing the murderous sentiments of the circular, but that is a public document and his name has gone to the world as one of the band and he must either make his disapproval as widespread as the circular itself or be held equally responsible with the balance. This thing was not done in a corner. These pretended Christians, but real Atheists are the class of hypocrites who want the control of our children, and because we do not propose to put those heaven-born treasures under their infidel control they are angry and want to destroy us, but are too imbecile to undertake the job themselves, and, therefore, invoke Congress to aid them.

We said they were Atheists, we are able to maintain the assertion; the Methodist discipline says, "there is but one living and true God, everlasting, without body or parts." Now, kind reader, what is it? Can you imagine the smallest mote or any existence which possesses neither body nor parts? It is nothing but Atheism of the deepest die. No wonder they do not want to reason, for there is no reason in them or their man made creeds. The Scriptures say, "Come and let us reason together;" so say we, bring your strong arguments if you have any, and we will refute them.
