EASTERN DISPATCHES.

WASHINGTON, 20.—The President, in a letter to General Schofield, says Howard's mission is not designed to interfere with authorized military movements. Indians who will not put themselves under the restraints required, must be forced, even to the extent of making war on them, to submit to measures insuring security to white settlers of the Territories.

Sargent, Houghton, and Coughlan are still determined to sustain the Goat Island job.

The Senate Pacific railway committee has reported favorably on Frank Blair's bill, extending the time for the completion of the Atlantic and Pacific Railway; also granting a right of way to the Utah Northern railway *via* Bear Lake valley, Soda Springs and Snake river to the Northern Pacific.

NEW YORK, 20—Andrew Johnson, in an interview with a Tennessee politician, emphatically declared he would not be a candidate for the lower branch of Congress, but intimated a desire to go to the Senate.

WASHINGTON, 21.—The House has acted on all the general appropriation bills, except that of fortifications and sundry civil expense bills, and it is probable that a resolution will be introduced in the House to-morrow fixing the 29th of May for final adjournment.

It is stated that 19 Democrats have promised to vote with the Republicans who favor a resolution for a congressional committee on pensions, considering that it will destroy the system of frauds practiced on the pension officer and bring all the participants to punishment by publishing in each county a full list of pensioners resident therein. It is estimated that one-fourth of the pension claims are fraudulent.

The American British commission will adjourn early this week until the latter part of June.

There is no prospect of Congress the present session acting on the question of the admission of Utah into the Union.

NEW YORK, 21.—The jury in the case of Fanny Hyde, on trial at Brooklyn for the murder of Geo. Watson, was discharged this morning; being unable to agree, ten being acquittal and two for manslaughter in the fourth degree.

Judges Clark, Spencer, Jones and Henry L. Clinton, and Abraham Lawrence publish an opinion that the new charter is clearly unconstitutional because it permits cumulative voting.

Ex-Congressman Wm. Wall died yesterday.

PITTSBURG, 21.—A Fire at Chambersburg, Pa., last night destroyed ten stores and shops and two hotels, loss not stated. Peter Weiss was arrested here to day for the murder of his wife. The woman was found a week since with her throat cut, speechless but not dead. She first wrote the name of her husband as the guilty person and then said she did it herself, and persisted in tearing the bandage off her throat till she bled to death. She is now believed to have made the second statement through fear of her husband.

ST. LOUIS, 21.—Joseph Brown, president of the Missouri Pacific R. R. Francis B. Hayes, president of the Atlantic and Pacific Ry., representative of the city and county, Merchant's Exchange, Board of Trade, and other officers, and stockholders in these roads left to-day for San Francisco, where a conference is to be held relative to the propositions which were recently made in California with a view to hastening the completion of the Atlantic and Pacific Ry. across the continent. Several ladies and representatives of the city press accompany the party.

The State Woman's Suffrage Society had an annual meeting yesterday and elected officers for next year.

Wm. Hyndman, banker, Girard, Ill., who is alleged to have absconded last September with $17,000 of depositors money, was brought back yesterday from California by Deputy Sheriff Cook of San Diego Co., California.

MEMPHIS, 8.—A shock of earthquake was felt here at two o'clock this a.m., continuing two minutes, and creating alarm.

LITTLE ROCK.—W. Smith, in the *New Era* of the 17th inst., gives particulars of a terrible bloody affray at Goina Snake court house in Indian Territory between Deputies U. S Marshal A. L. Owens and Peavey and posse, and a party of Indians and half breeds, partizans of a desperado named Proctor, who was on trial at the court house, for the murder of his wife. The deputy marshal had a writ for Proctor's arrest on a charge of murder, in February last, of the Cherokee wife of a white man named Kesterson, and attempting to kill Kesterson himself, and also had a writ for the arrest for the murderers of deputy U. S. Marshal Beerty, who were believed to be in the neighborhood. When the posse arrived near the court house, one of their number, Bent, a Cherokee, went up to the door to reconnoitre. As soon as Proctor's friends, who were in force inside, saw him, and who evidently were expecting the posse, they opened fire upon the party, who were halted a few yards from the court house. The attack was so sudden that seven of the party were killed, nearly all at the first volley. The remainder returned the fire, and some of Bent's friends inside the court house also commenced firing, and for several minutes a regular battle raged inside and outside the court house. The judge presiding received a load of buckshot in the knee and the sheriff was killed outright. The prisoner escaped with his friends. Three of the Indian party were killed and some seventeen or eighteen on both sides were wounded. Deputy marshal Owens was killed. Peavey escaped and sent a messenger out here for assistance. A force of 30 mounted men left here for the scene of trouble. A demand has been made upon the authorities of the nation for assistance in capturing the murderers.

WESTERN DISPATCHES.

PORTLAND, Oregon, 19.—Geo. Carroll, the submarine diver, while exploring the wreck of the *Resolute*, became entangled in the machinery, after being down two hours. He was finally extricated, but died of congestion of the brain a short time after he was removed.

J. Berringer was fatally shot by J. W. Gordon, of Oregon City, this morning. The cause of the quarrel was about a boat.

The river is still being dragged for the body of Alexander.

PORTLAND, 20.—Gen. Sheregan has consented to accept the nomination for Congress of the Republican party.

Prospects for abundant crops in Oregon were never better.

Crouise has dismissed his suit to enjoin the board of brokers from enforcing the contract for Excelsior stock.

The Lafayette guard, assisted by the McMahon and French, turned out in strong force for the festival at Hay's Park in aid of the fund for the ransome of France, and are having great success.

The Sarsfield guard excursion to San Jose and Santa Clara was participated in by about one thousand people, the different companies marching through the streets with music gave quite a gala appearance to the city during a certain part of the day.

John Wilson's famous circus horse which had been ridden 23 years in California, died yesterday of old age, and was buried with due honor at the corner of Powell and Sacramento streets.

At 2 o'clock this a.m. officers Burmer and Miles heard the cries of a man in the bay, about 100 yards off from Broadway wharf. They got boats and rescued him. He had a large cut in the abdomen and had jumped from the Pacific wharf after stabbing himself, evidently with the view of committing suicide. His name is Adam Billmeyer, and a few days since he was robbed by Jacob Harryaman, a sneak thief, at the St. Louis hotel, Pacific Street, of eleven greenbacks of $50 each, of which the bulk was recovered by the police. He cannot get his money until his case has been tried and as the landlord told him that he could not have board another day without the coin, and he was a stranger here he concluded to die. His wound was dressed and he was sent to the hospital.

LOS ANGELES, 21.—Arrivals direct from Lone Pine report the earth still shaking at intervals. No severe shocks of late.

SAN FRANCISCO, 20.—Bob Mathews the burglar who jumped out of the second story window from the municipal court room and escaped to Sacramento a few days since, but was recaptured, having at last succeeded in cutting through the wall of the jail last night, but failed on account of striking granite, still declares that they will not get him back to San Quentin, to which he was to-day sentenced for 10 years. The officers disagree with him in that opinion.

The total vote at the primaries yesterday was 4,343.

There were 29,648 shares of stock sold at a single session of the board to-day.

EUROPEAN.

LONDON, 20.—The presentation of Lady Twiss at court is officially canceled.

The prospectus of the American Atlantic Telegraph company is issued. The company propose to lay a cable from Milford Haven, Wales, to Rice Beach, New Hampshire, the rate of messages to be fixed at one shilling and five pence per word, with a charge in gross for the address of three shillings. The rate is about one-third the tariff of the present companies.

PARIS, 20.—Gambetta, in an address at Havre last night, argued the necessity of a more definite form of government; and said the first measure in that direction was the dissolution of the present legislative assembly, and the election of a republican assembly.

PARIS, 21.—A dispatch from the French ambassador at Berlin represents his relation with the German government on a very good footing.

Thiers will shortly hold a review at Longchamps of the military forces in and around Paris, to be preceded by manœuvers on a large scale.

The London papers announce the death of Bob Brittle, the pugilist, on the 7th inst.

LONDON.—The *Telegraph* of the 11th gives the report, said to be reliable, that many Alsacians liable to military duty have voluntarily enlisted in the German lancer regiment, stationed at Strasburg.

MADRID, 21.—Newspaper organs of the Carlist party publish a manifesto of Don Carlos, protesting against the late elections, signed by his secretary, and countersigned by Mocedal, and declare that henceforth Carlos and his followers will protest only in the field.

A general rising of Carlists in all parts of Spain is momentarily expected. The troops are prepared to meet it. Railway companies are ordered to hold all their rolling stock in readiness for instant use by the government. Volunteers in Madrid and elsewhere proffer their services to the government. A council of ministers was in session all last night.

The *Imperial* is assured that the king's speech to-morrow will contain the following declaration: "I will not impose myself on the country, except as a representative of and supported by the majority, but if some turbulent minority seeks to impose its will upon the nation, I know my duty and will fulfil it."

WEST INDIES.

HAVANA, 20.—An official telegram to Valmaseda says, the American consul at Kingston is actively prosecuting Mechir Agureo, the leader of the *Edgar Stewart* expedition and the captain of the *Stewart* on a charge of piracy. The Spanish man-of-war *Borga*, is anchored alongside the *Stewart*, whose arms and ammunition are being discharged, with orders to prevent her sailing at any cost. Another telegram says the *Stewart* is detained by agreement between the American and Spanish consuls.

BREVITIES.

A Texas editor contends that an M.C. from that State has a right to sell his seat because "he bought it."

The hired girls of Janesville, Wis., announce their intention to strike unless the kitchens are all furnished with rocking chairs.

Ear trumpets of a wonderful construction, by which sounds can be heard at a distance of a mile, are to be shown at the Vienna Exposition.

They say that the sun shines only once in 47 days in Portland, Oregon, and that happy occasion is used as a general washing day.

Let us, then, search out again that virtue of the government of our fathers, which consisted in recognizing its true lineaments, and tolerating no departure from its admirable adjustment of parts—its balance of powers—its rigid restraints.—*Grats Brown at Topeka.*

Some of the magnesian cements used in India are remarkably firm and durable. They begin setting in two or three hours and become hard in a few days, continuing to harden for many years. When used for plastering, they have been found within a fortnight to be "harder than any stone, except granite, marble, and stones of the first degree of hardness."

Warm baths for children.—A physician, in a very sensible article upon bathing, says: "For the wind in the eto mach children are thought to have, for their tiresome crying and for the restlessness and worrying at night with which they are afflicted; if the warm bath were resorted to oftener and the dosing of soothing syrups and worse nostrums less, it would be better for the children."

The following from the New York *Herald* is certainly excessively logical. Speaking of Washington and cable telegraphy, that paper says—

"If he could have seen the United States and England united by a tie so subtle and so immediate in its effect that no war could sever it; he would have felt that the mother country and her proud, imperial daughter were united by a tie which no war and no revolution could sever."

How easily butter is spoiled.—A farmer's wife writes: "Of all the products of the farm, butter is the most liable to be tainted by noxious odors floating in the atmosphere. Our people laid some veal in the cellar from which a little blood flowed out and was neglected until it commenced to smell. The result was that a jar of butter which I was then packing smelled and tasted like spoiled beef. Another lady reader observes that there was a pond of filthy, stagnant water a few hundred feet from their house from which an offensive effluvium would be born on the breeze directly to the milk room, when the wind was in a certain direction, the result of which was that cream and butter would taste like the disagreeable odor coming from that pond. As soon as the pond was drained we had no more damaged butter."
