

MORE BROKEN AGREEMENTS.

Rate Fight on Over Fares for Merchants Threatens Trouble Among Railroads.

SOUTHERN PACIFIC IS IN IT.

Harmon Road in Retaliating on the Missouri, Kansas & Texas Causes Interesting Situation.

Railroad traffic agreements, like the proverbial pie crust, seem to be made to be broken. Just prior to the commencement of the year the slogan "Retrenchment" was the battle cry. Every leak was caulked and concessions were curtailed to the limit; every man, irrespective of the consignments he had to route, had to pay full fare or walk. The agreement seems to have lasted barely thirty days. Ten days ago the idea that any compact would be broken would have been ridiculed. Today there are indications that there is a break in store all along the line, with a first-class fight between the strong lines to capture the merchants' traffic to the east.

The first break registered comes in connection with fares for merchants with the Missouri, Kansas & Texas as the culprit, and the seat of the cyclone in Texas. Other lines are reported to have met the situation while the Southern Pacific, after registering a vigorous protest, waded in and threatened to demoralize things generally. It has already announced an all-rail route at the low rates to New York in addition to its steamship service.

In the accomplishment of this the Southern Pacific has brought about a peculiar and unusual situation of the most aggravating character. According to the New York Commercial it has induced the southeastern lines operating out of New Orleans to participate in the reduced rate. In this these lines have capitulated themselves and gone squarely back on a previous declaration of policy. When New York merchants asked for special rate concessions to New York from the southeastern lines at the same time that commercial centers in the middle west applied to the southeastern lines, the southeastern lines flatly refused to grant the request. They have remained firm in that attitude to the time when they joined the Southern Pacific.

The position of the Southern Pacific is not unique because this is the third time that it has ignored an agreement, despite the same measures in the recent instance. Its competitors profess to be much mystified, particularly the Texas & Pacific, the Southern Pacific's rival in north Texas. It has been able to get a satisfactory explanation, for to get the same concession from the lines at New Orleans, The Southern Pacific seems to have some inside pull, and its position is strong because of the co-operation of the central-east and west lines of Texas. Its move is considered as a plan to attract merchant trade to New York in preference to the middle west.

By its own lines the Southern Pacific reaches San Antonio, Houston, Galveston, Dallas and Beaumont. By taking in the central-east and west lines the rate applies to Austin, Waco, Fort Worth and numerous other cities of importance in Texas. The movement is plainly calculated to diminish the business of other Texas lines to commercial centers in the middle west.

Another interesting feature of the New York merchants' rate is that the minimum required attendance is waived, giving the lines concerned an advantage over the lines bidding for

WORLD'S FAIR RATES.

Transcontinental Passenger Association Decides on Big Reduction.

St. Louis, Jan. 28.—The final meeting of the Transcontinental Passenger association was held tonight and the following rates from the Pacific coast were formulated:

From Pacific coast points to St. Louis and return, \$67.50; from Pacific coast points to Chicago and return, \$72.50; from Pacific coast points to Chicago and return by way of St. Louis, \$70.

Tickets at the above rates shall be sold three days in each month, with a ten-day limit going and ninety-day limit returning, with stopover privileges at points in transit.

The association will convene in Chicago at a special meeting, the date of which has not been set, to ratify these rates and take final action regarding tickets, regulations and prospective measures.

Later it was decided to recommend to the respective traffic organizations reduced rates to the World's fair from all parts of the United States. Specifically they agreed to ask for:

"A season excursion rate to St. Louis, beginning April 25 and continuing until Nov. 31, selling tickets during that period at 80 per cent of double the one-way fare; excursion rate with final return limit of sixty days at a rate of one and one-third fare, but not more than one day each week by each line, at rates and with limits and other conditions as may be agreed upon by interested lines."

Commission House Change.

Greer, Mills & Co., the well known commission house at all the leading stockyards of the country, have acquired the services of C. A. Mallory and C. H. Shurtle, who for a number of years were identified with the Mallory Commission company.

In addition H. H. Lawson and S. E. Todd have been appointed to look after the company's interests in Salt Lake and Haley, Ida., respectively.

SPIKE AND RAIL.

Myron Aldrich has been appointed Rio Grande agent at Fairview, vice M. A. Boyden, resigned.

General Agent Claude Williams of the Chicago, Milwaukee & St. Paul has returned from a trip north.

W. H. Bancroft, vice president and general manager of the Oregon Short Line and the Union Pacific systems, leaves for Omaha tonight.

Chief Engineer Hawgood, Right of Way Agent Hussey, Assistant Chief Engineer H. M. McCartney and other officials of the Salt Lake Route, returned from a trip down the line today.

The Salt Fe has issued a pamphlet in connection with the coming general conference of the Methodist Episcopal church at Los Angeles. The company expects to take fully 8,000 delegates to the convention.

OFF FOR THE COAST.

President Hewlett and Wife Go to California for Brief Rest.

President Frank J. Hewlett of the city council, accompanied by his wife, has gone to California, to be absent a week or 10 days for recuperation.

In the meantime, it is a question who will preside over the council during President Hewlett's absence. From all indications, A. J. Davis is the most likely one to be chosen by the council for that temporary honor.

TOOK THE WRONG PUP.

Dog Catcher Walked Off With Mr. Little's Retriever—Trouble Brewing.

That colored person known as the city dog catcher has involved himself and perhaps the city into somewhat of a predicament by making a fatal error in capturing the wrong dog and cremating it. The error will probably result in the city having to pay a good price for the dog, which met such an untimely fate at the hands of the city's colored agent. It seems that Mr. Little, who lives in one apartment of a double house on west First South street, was the owner of a fine hunting dog. His neighbor on the other side of the house owned a dog which had the disposition and he telephoned the dog catcher to come after it.

The dog catcher went after the dog, but he happened to see Mr. Little's dog tied up in the back yard and he supposed that was the dog in question. Without making any investigations, he took the dog and carted it away to the crematory, where it was cremated. None of Mr. Little's family saw the

dog catcher take the dog and hence did not know anything about the affair until probably after the dog was dead. Mr. Little now wants the city to pay him \$250 for the dog or give him another dog and \$75 as damages. In all probability a claim will be submitted to the council by Mr. Little for payment for the dog.

HERE ON SUNDAY.

Dowie Church Dignitaries to Spend the Day in Salt Lake.

A letter from John V. Callahan, general agent of the Nickle Plate road at Chicago, to Mr. W. C. Spence of this city, states that Deacon Peters, transportation agent of the Dowie church, and other dignitaries of the same organization, will be in Salt Lake on Sunday en route to the Pacific coast. It is highly probable the visitors will be extended every courtesy during their stay here and that a special organ recital will be arranged at the Tabernacle for their benefit.

Ward Entertainments.

The Twentieth ward annex was well filled last night on the occasion of the presentation by the ward dramatic association of the four-act emotional drama, "The Finger of Scorn." In the reading of their lines all the members of the cast did exceptionally well and scored a distinct hit with the audience. The play itself is above the ordinary for amateurs and the manner in which it was presented showed a deep sense of the dramatic art on the part of those participating in the entertainment. The piece will be seen again on Monday night.

AN EXPERIMENT IN CO-OPERATION.

The Once Famous Oneida Community Seems to Have Died Of Success.

ONE OF KIND THAT SUCCEEDED.

After Achieving Prosperity the Organization Disbanded—How Movement First Was Started.

Special Correspondence.

Oneida, N. Y., Jan. 18.—Most experiments in co-operative living and working of the future. The once famous Oneida community, however, seems to have died of success. At any rate, after it had been guided from small beginnings through desperate straits to wealth, handsome living and college education for its young people, then its members, in perfect harmony and accord, as always, parted their goods, consisting of houses and lands, live stock and factories and manufactured articles, "with scarcely a ripple to indicate the change from a common purse to a divided household and separate accounts," and returned to the ordinary isolated family life and economic system. Maybe they traveled, cultured young people did not like to be known coming from the only socialistic community on record that ever made a success of itself. Some of the separate families, however, still live in the community building and use the common dining hall.

It is to be specially noted that the immense community property, amounting to millions in value, was divided in proportion to the number of years' service each member had contributed to the community, and that the women shared equally with the men in the distribution. John Humphrey Noyes, who in 1848 founded the association on the old Indian reserve, near Oneida, believed in woman's rights and woman's economic value. Whatever profits the little community gradually accumulated were divided member for member, both sexes sharing alike. The women shared equally with the men the hardship, the toil and what was still worse for women, the social obliquity the settlement encountered in its first years till it got some money ahead, and the feminine half had its full part of the cream and honey of prosperity. Maybe this strict justice to women was one reason for the great financial success of the community.

Jonathan Burt had a little land and a sawmill on Oneida creek, and he donated it to the experimenters. Henry Thacker, one of the members, showed the rest how to raise fruit. The first idea of the pioneers was to live by horticulture and farming. At it they went, how spade and flat. They soon raised everything that would grow there, but there was no market near.

In the beginning, however, the members had solemnly pledged one another in the word—agreement.

Not agreement alone, however, neither all the batch of angelic qualities together, ever brought man a material living. For that he must lust. The community had no money. Several New-houses, a woodman and one of the Oneida community, had a knack for hammering and welding powerful steel traps with blacksmith's tools. He made some of these to catch wild game. In fact, they began to barter for their traps. Mr. Newhouse found they would bring money.
