IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel. We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several times the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets the Old Pioneer Route.

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

EVENING NEWS.

Thursday, September 9, 1875.

Local and Other Matters.

THERMOMETER \$5 degrees F in the shade at 1 p.m. today. Fine.

Pleasant.—Very pleasant to-day after yesterday's rain.

Dull.—Police Court business is out, and only criminal case there to-day being that of an immoderate bibulant of intoxicating fluids.

Boy Lost.—This morning a little boy, about three years old, was lost. He had on a dark calico apron, and a wide-brimmed black straw hat. Anybody seeing him around should take him to the City Hall, or to the store of J. G. James & Co.

Will Lose His Eye.—It is now almost certain that Mr. Cook, of Cedar Fort, before alluded to in the News, who had his eye accidentally scratched by a twig of rabbit brush, will be necessitated to have the injured optical organ extracted. The cause of this great loss to him was apparently trifling, and it occurs to us that pedestrians on our sidewalks are constantly in danger of having their eyes poked out at night by loosely hanging, untrimmed branches of shade trees, which have to be skillfully dodged by those who want to keep clear of them. The law bearing on the matter should be applied in a few cases.

The Cache Valley Excursion.—Between four and five hundred people went with the excursion to Cache Valley. Some of the party returned last evening, without meeting with any accident, save the jumping of a couple of cars from the track near Hampton's, on the return, which caused a short delay. Another little delay was occasioned, on the return trip, a short distance north of Brigham City, by one of the wheels of a car taking fire. Those passengers who went with the excursion appeared to have enjoyed themselves on the trip. The bulk of the excursionists are expected to return this evening.

Carelessness of Crops.—The crops throughout the Territory have, speaking in general terms, been very fair this season, and the wheat is of rather better quality than heretofore, being, for the most part, rather plump and clean. There is quite a large number of people who, in seasons of comparative plenty, are inclined to prodigality in disposing of their wheat to anybody and everybody ready to purchase, and frequently let it go for a mere song, and after disposing of the hard earned productions of their farming labors have left themselves destitute of the necessary amount for their own breadstuffs, compelling them to borrow, thus nearly consuming the prospective results of a future harvest. Or they have had to work in some way to obtain bread for perhaps a higher price for that which they purchased than they got for that which they sold.

This aliphed way of doing business is all wrong, there being not the first principle of true economy in such a course.

People who have hitherto acted with propriety and carelessness.

that regard, should take a more prudent course, and never lose sight of the fact that they should always endeavor to so shape their concerns as to at least retain sufficient breadstuffs to render them independent in that regard till another harvest, and where it can be done, to keep something on hand for a "rainy day."

Rare Musical Entertainment.

Mr. Jesse Shepard, a musical genius who has acquired great fame in Europe, makes his appearance in this city, at the Institute to-night, in the first of a series of three concerts. Mr. Shepard is said to be a highly cultivated musician—pianist and vocalist, his great peculiarity being in the possession of a voice whose compass ranges from deep bass to high soprano. He has appeared before several of the European sovereigns, also before the public in Paris, St. Petersburg and other leading cities, in all of which he has created a great sensation. The first part of his programme to-night consists of classic selections; the second of Russian and Scotch ballads, &c.

Coalville Cricket Match.

On Monday a return match game of cricket was played between the Sandy and Coalville clubs, at the latter place. The members of the Sandy club took the old-fashioned method of traveling to Coalville, going over there in wagons.

The Coalvilles went to the bat first, and scored 55 runs in the first innings. In their first innings the Sandy club scored 109 runs. The Coalvilles in their second innings scored 51 runs, being a total, in the two innings, of 56 runs, leaving the Sandy club victors by 23 runs and one innings.

The members of the Coalville club treated their guests with the greatest consideration and the warmest hospitality. The affair terminated on Monday night with a ball in the Court House, and good feelings prevailed throughout.

Accident.

Bro. G. W. Ward, who accompanied Elder Lorenzo Snow on his trip south, had his arm broken, at Gunnison, Sanpete county, yesterday morning, by a kick from one of his horses. He was conveyed to Mantli, where some of his friends reside, to be surgically attended and taken care of.

A Set Too.

Yesterday afternoon W. Woolsey and James Lawson engaged in a pugilistic encounter, by mutual pre-arrangement. The police interfered with the affair and Justice Pyper mulcted each of them in the sum of \$25.

At Richfield.

President Wells and party reached Richfield, Sevier county, at 5 o'clock yesterday afternoon. They were to hold meetings there to-day and to-morrow.

Cause of the Deep Creek Scare.

DEEP CREEK, U. T., 9.—From Indians who have been out for the past five days, and who arrived this morning from the vicinity of Cleveland's ranch, and from the best information gathered, all our Indian trouble originated in the following way:

Two Indians showed two white men some rich tracts, the white men agreeing to pay for the same, but they refused to stand to the contract. Quarrelling ensued, and the Indians caused to be shot one white man; then the two Indians were killed. As the report of the conflict circulated from point to point, without giving the cause for the same, it excited the Indians to believe that they were the injured parties, which impression resulted in their rendezvousing at prominent places, the better to facilitate an investigation into the cause of the trouble, which elicited the above. Indian Tobe has been in great dispute with his tribe for several years, the being of a vicious character, having caused trouble several times previously. He is looked upon as a wizard, having extraordinary powers, and he has killed him whenever found while scouting and following to carry out the decree. Peanup, a war chief of the Goshoots, has been greatly excited for several days, having heard that his son was among the slain, and together with Black Hawk, his brother, has exhorted their men to prepare to avenge his death, and would the report corroborated, and he has consequently been uncommunicative until this morning, when his son made his appearance, bringing the report as mentioned above regarding the killing of the Indians. The favorable impression caused by the appearance of the chief's son soon showed itself by their coming to the station and explaining the facts, but expressing regret that Tobe had not been killed in place of others. Great excitement has prevailed for several days among the Indians and the whites, each fearing they knew not what. Scouts and guards, jointly furnished, have been scouring the country to detect approaching trouble. Arms and ammunition have been ordered, and every precaution taken to withstand an attack should strange Indians make their appearance, there being no trouble apprehended from those of this valley. The Goshoots will return to their ranch to-morrow, to secure their crop, consisting of corn, wheat and other vegetables, and it is hoped that one of the most sensational excitements of the day will subside, giving the whites an opportunity to attend to their legitimate duties, and the Indians time to gather their pine nuts.

Our Country Contemporaries.

Ogden Junction, Sept. 8.—

Wm. Connell the boy whose hand was injured at Terrace, had to submit to amputation this afternoon. Dr. Condon took off the middle finger of the left hand, being assisted by Mr. Arthur Wade, who administered the chloroform. The boy is now doing well.

Utah County Times, Sept. 7.—

We are credibly informed that the crops in Wasatch county, especially the small grain, are nearly all lost. At Hobor City, Midway, Center Creek and in Round Valley, the crops never were so good and so abundant as they are this season, the late frosts doing but little damage, and the people are especially jubilant over the bright prospects before them.

On Sunday morning, last.

Mr. Wm. Jones, an old gentleman, an ardent lover of the game of golf, and who generally watches the premises on Sunday, after receiving the late frosts, the night of the 28th, very severely, that on Sunday morning, last, upon opening the door and entering the apartment from whence the smoke of the stove issued, he discovered that the smoke issued from an old pile of tag locks of wool which was fastened with the heat, in a short time the smoke and fire were subdued and no damage was sustained.

We learn that Isaac Follett, son of Wm. A. Follett, of this city.

yesterday afternoon, whilst unloading a load of hay, being very warm and sweating profusely, and the heat of the sun being very sultry, he called for a drink of water, which was brought and he drank very freely. Immediately the blood rushed to his head and he was insensible. He was conveyed to the house, and restoratives were administered, he lay in a state of semi-consciousness for nearly two hours, before any sign of returning animation was visible. We are pleased to announce, this morning, that he feels all right.

An accident which may terminate fatally occurred on Saturday last, at American Fork. A young man, the son of John McNeil, an old resident of that place, took his gun and went a short distance below town for a load of sage brush, and having got the same on the wagon, happened to think of his gun which was under the load, and whilst in the attitude of pulling the gun from under the sage brush, the hammer got caught, the gun went off, discharging its contents thereof, which entered the right side of the young man. Medical aid was rendered as soon as could be, and when last heard from was supposed to be in a critical condition.
