LOCAL AND OTHER MATTERS.

NOTICE.

MEMBERS OF ZION'S CAMP.

We wish any surviving members of Zion's Camp, who may have any written concerning the history of that Camp, or who, from memory, can relate any incidents concerning the travels of that company, that they would forward the same to us at the Historian's Office, for future history.

W. WOODRUFF.

High Council.—The members of High Council are requested to meet in the Council House, to-morrow the 18th inst., at 7 o'clock p. m.

W. W. TAYLOR.

Clerk of Stake.

For West Point.—This morning Lieutenant Willard Young, accompanied by his wife, left for West Point, for the purpose of resuming his professional duties at the National Military Academy. The good wishes of a host of friends accompany both.

His Jubilee.—Yesterday was Mr. C. R. Savage's jubilee, so he is now trudging along on his second half century. The birthday anniversary was celebrated yesterday evening by a pleasant social party at the gentleman's residence. He was serenaded by the 20th Ward musical band.

Storm at St. George.—Last Saturday, August 12th, about 4 p. m., St. George was visited by a violent gust of wind accompanied by hail and rain. It came so suddenly as to do serious damage to various loose property, as well as wire doors, gates, etc.

The feelings of Brother and Sister Cliff on leaving their island home were of such a nature as to be beyond description. The sympathy of the natives whose faces were bathed in tears as they stepped into their respective modes of transport, and nothing but expressions of "aloha" could be uttered.

On the following day there was a similar deluge, except that the wind was not so high. Fruit by the ton lay strewn over the ground in and about the orchards. Several large trees on the lawns turned their tops to the sun, and things generally wore a demoralized aspect.

Accidentally Injured.—On Monday, an accident happened on the Oregon Short Line Railroad, to a man, a German, named Isadore Stenberg. He is about 22 years old. He left Denver about two weeks since to work on the Oregon Short Line road. The young man was not hired by the railroad company, but was engaged by a sub-contractor to work on a big wash-out on Snake River.

Stenberg had not yet commenced to work. He was on one of the flat cars riding near the end of it, when by some accident he was thrown between the two cars. He fell across the "buffers" and injured his back and the lower part of his body. He was taken up, placed by some persons in a cattle car and sent to Ogden, where he arrived last night.

This morning he was visited by Mayor L. J. Herriek and some others. His Honor made arrangements for proper care and attention to be given to the unfortunate young man and he will be properly cared for.—Ogden Herald.

Salt Lake Theatre.—Lovers of amusement in this city are promised a rare treat in the Hanlons, who open at the Salt Lake Theatre this evening, with their very laughable Farolan absurdity called "Le Voyage En Suisse." It is a mixture of pantomime, comedy, farce and acrobatic skill. It enjoyed a run of twenty-six weeks in New York, and has just finished one of the most successful engagements in San Francisco for four weeks of any organization for years.

For two weeks Baldwin's Theatre was so crowded every night that the sign of "standing room only" was displayed at the box office before 8 o'clock and a great many were turned away. When we take into consideration that the company raised the prices from 75c to \$1.50, and charged the same for the matinee and then did this large business, it is pretty sure evidence that it must be a good show.

Increase of the prices was necessitated by the great expense attending the bringing across the continent of so large a party. They number twenty-seven people and it requires two of the largest baggage cars of the Central Pacific to transport their paraphernalia.

This is the only city between San Francisco and Denver that they visit, as there is no theatre on the coast in the other cities with a stage large enough to work their mechanical effects, which are pronounced wonderful and never before seen on any stage.

We are glad to see that the usual prices have been retained, and doubtless our citizens will patronize this entertainment in a measure that will warrant the managers in securing other similar large attractions.

SANDWICH ISLANDS MISSION.

LAKE IMPROVEMENTS ON THE PLANTATION.

Yesterday evening we had the pleasure of meeting Elder Harvey H. Cliff, who, as stated by the Sandwich Islands, accompanied by Mrs. Cliff, Elder J. G. Knell and eight natives of the islands. On the 1st of June, 1879, Elder Cliff and wife, Margaret A. Cliff, accompanied by Elder Carl Anderson and wife, and James G. Knell, all missionaries, left home for the Sandwich Islands. Elder Cliff was called at the General Conference held in Salt Lake City in April, 1879, to preside over the Mission and take charge of the plantation at Lake.

During the three years from July 1st, 1879, to June 30th, 1882, Elder Cliff constructed a new sugar mill, at a cost of \$24,000, a flume two miles long to conduct water to the mill for the use of the vacuum pan. He commenced the erection of a new meeting house 65 x 85 feet, which was receiving the roof when he left the islands. He had succeeded, by leasing 48 acres of "trash land" in having two artesian wells dug which were flowing copiously, one of them discharging a volume of water sufficient to run a small mill, the rise being 10 inches above the pipe, which is 7 inches in diameter in the clear, thus converting land that has been idle for many years into blooming fields of rice.

In these labors he has been assisted by Elders Jos. H. Dean, W. D. Alexander, B. Cliff, Jr., J. G. Knell, Carl Anderson, H. A. Woolley, O. D. Allen, Sidney Coray, S. E. Woolley, S. Gentry John Milderum, F. M. Marchant, E. Hansen, James Gardner and J. Rhead, all of whom rendered efficient aid in the various departments to which they were assigned. All these brethren, excepting the four first named, are still engaged in the Mission with Elder Cliff in the Presidency.

The financial condition of the plantation is healthy, the greater part of the indebtedness incurred in making the improvements enumerated above, in connection with those of a minor character, having been paid by the proceeds of the crops of cane gathered since the new mill was put in operation one year ago.

A new system of managing the farming interests has been inaugurated, which is designed to modify the unpleasantness experienced by the Elders of overseeing natives in the field. Parcels of land are now given to responsible natives to cultivate on shares, teams and farming implements being furnished them, the natives being held responsible for all damage done. At the time Elder Cliff left about fifty acres of land was already under this arrangement, for planting.

The feelings of Brother and Sister Cliff on leaving their island home were of such a nature as to be beyond description. The sympathy of the natives whose faces were bathed in tears as they stepped into their respective modes of transport, and nothing but expressions of "aloha" could be uttered.

On the following day there was a similar deluge, except that the wind was not so high. Fruit by the ton lay strewn over the ground in and about the orchards. Several large trees on the lawns turned their tops to the sun, and things generally wore a demoralized aspect.

Married.—To-day, August 17th,

in this city, Mr. George Shepton and Miss E. Ellis, both of Ogden, were united in marriage, Coöminator D. H. Wells performing the ceremony. Mr. Shepton is late of Lehi and now employed at the Ogden branch of Z. C. M. L. The happy couple have our best wishes.

Another Water Squabble.—Whitely is acknowledged to be one of the most prolific causes of quarrels in existence. Strangers as it may seem water is bidding sale to be a formidable rival to it in that particular, in this city. Quite a number of squabbles from an aqueous cause have transpired here lately and yesterday produced another.

Last evening Mrs. Gardner, an aged woman, appeared at the police court with her chin in a sling and a stone in her hand. She exhibited the missile, which weighed nearly half a pound, and bore gory marks upon it. Her narrative was to the effect that in a dispute about water a party by the name of Johnson arose in his wrath, propelled the stone through the air with such violence, striking her upon the chin, inflicting an ugly hurt.

A warrant is out for Johnson's arrest but that individual prefers retirement to an interview with an officer, so he keeps himself secluded, beyond their reach. The incident occurred in the eastern part of the city.

SPECIAL BUSINESS NOTICES.

The Thirteenth District School will begin on Monday, the 21st inst., under the management of A. S. KENDALL.

WIN HONESTLY OR NOT AT ALL. Editor Deseret News: Through the columns of your widely circulated paper I desire to call the attention of all candid, fair-minded people to what appears to me to be the dishonorable methods resorted to by the D. M. Osborne & Co.'s agent in this city in exhibiting his advertisement in your columns. He has so worded his article that almost every one who reads it is led to believe that he claims that the Osborne Twine Binder had a field trial with the McCormick at Alpine, Utah County, and beat the McCormick; sold some machines in place of the McCormick, which he represents as not working well, etc., every word of which is a lie, as the Osborne agent knows. The Osborne has never had a trial with the McCormick at Alpine, the only trial it has had with the McCormick in this Territory was at Payson last year, when the Osborne was the challenging party and was beaten badly according to the unanimous decision of the committee. The attention of the agent of the Osborne Co. was called to this matter a week ago, but as he has failed to correct the misrepresentation in his advertisement, I feel compelled to expose the matter in justice to the McCormick and myself. Your's very truly,

BOOK "THE SPIN". Editor Times:—The veterinary department in your valuable paper is always read by me with great interest and I value the information received from a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing his own horse with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments on account of the success he has always had with it. The above statements from so prominent a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it was completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy is the result of an anatomical study made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy is the result of an anatomical study made for the benefit of afflicted men as well as for the poor horse, for which it was first used.

Respectfully yours, ARNOLD PARKER. Rochester, N. Y., Sept. 1st, 1881. dsdw.

ENTERPRISING DRUGGISTS. Moore, Allen & Co., the live Druggists of the town, are always up to the times and ready to meet the demands of their customers. They have just received a supply of that wonderful remedy that is astonishing the world by its marvelous cures, Dr. King's New Discovery for Consumption, Coughs, Asthma, Bronchitis, Hay Fever, Phthisis, Croup, Whooping Cough, Tickling in the throat and Lungs. This remedy is a sure cure for all these troubles can testify. If you do not believe it call at Moore, Allen & Co's Drug store and get a Trial Bottle free of cost, or a regular size bottle for one dollar. The regular size bottle give it a trial and be convinced, as thousands already have been.

RENEWATORS. When a board of eminent physicians and chemists announced the discovery that by combining some well known vegetable remedies, the wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical, but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, as a board and sold by all as benefactors.
