

CHECK ON BUSINESS DEVELOPMENT

Stringent Money Market. Delay in Moving Crops and Unseasonable Weather Cause.

COLLECTIONS ARE IRREGULAR

COUNTRY MERCHANTS REPORT A GOOD FALL SEASON—REPORTS MUCH SAME AS LAST WEEK.

New York, Oct. 11.—Bradstreet's 10-morrow will say:

Stringency in money-market conditions, delay in movement of some leading crops to market and unseasonable warm weather in some sections have operated to check the fullest development of wholesale trade for next year and of retail trade in seasonable goods. It is worthy of note, however, that western, southwestern and southern jobbers report an increased volume of recorded business, indicating that country merchants have had a prosperous fall season so far and that early conservative buying necessitates reports of broken stocks. Collections are irregular, some improvement being noted in the south, where the cotton crop has moved in good volume. A favorable feature of the week has been the strength of all cereals and of flour, larger foreign demand being the assigned cause, although the smaller earlier indicated out-turn, as compared with last week, of most of the country's crops shown by the agricultural department's October report, is an independent influence, making for high prices of all farm products.

Reports from leading industries are not greatly changed from a week ago. The wool markets are strong, in company with foreign markets. Collections for the week ending Oct. 10, 1907, 190, against 177 last week, 192 in the week of 1906 and 183 in 1905, 194 in 1904 and 202 in 1903.

Canadian failures for the week number 24, against 22 last week and 18 in this week a year ago.

Wheat, including flour, exports from the United States and Canada for the week ending Oct. 10, aggregate 5,255,292 bushels, against 4,731,400 last week, 5,257,586 this week last year and 4,719,996 in 1905.

For the first 15 weeks of the fiscal year, the exports are 53,745,815 bushels, against 48,052,929 in 1906-07 and 58,820,351 in 1905-06. Corn exports for the week are 342,624 bushels, against 374 last week and 1,202,430 in 1906. For the fiscal year to date exports are 15,271,986 bushels, against 10,520,791 in 1906-07.

PROBLEM FOR PROTESTANT EPISCOPAL CHURCH TO SOLVE

Richmond, Va., Oct. 11.—Greater activity in restricting the marriage of divorcees, the adoption of the much-mooted phrase "This American church," in a preamble to the constitution, and the question of providing for the bishops as against missionary bishops were among the measures urged in today's proceedings of the triennial convention of the Protestant Episcopal church of America. Both houses were in session and a number of auxiliary organizations held meetings.

The constitutional preamble was also presented by the house of deputies after an hour's discussion. The preamble was the subject of a very vigorous controversy among the clergy and lay delegates, the advocates taking the position that the phrase "This American church" does not involve change of name, and the opponents claiming to the contrary. In the house of deputies the report of the committee on marriage and divorce was read, it being practically the same as that presented by the house of bishops several days ago, in which the activity of all Christian bodies in restricting the marriage of divorcees is highly endorsed. It urges the utmost vigilance and discipline in the church in securing the most perfect safeguards for the sanctity of the marriage vows. It estimates that the number of divorcees in the United States is 100,000, and that there are at all times required in seeking their past record clear in seeking the sanction of the church. The resolution to accept the report and action on the report of the bishops was laid on the table until the receipt of a message from the house of bishops.

PRESIDENT MOVES HIS HUNTING CAMP.

Stamford, La., Oct. 11.—Roosevelt camp, at the Monticello country of the Bayou Teche, has passed into history. The president is headed for Bear Lake, whence, on Sunday, he will remove to another camp, which will be pitched near Newellton, in Teche parish.

The change of location was decided upon not only because no hunt had been killed, but because the president and his friends became convinced that there were none, or practically none.

Spasms St. Vitus' Dance

Many persons who suffered untold agonies from epilepsy, fits, spasms, and St. Vitus' Dance are today well. The strengthening influence of Dr. Miles' Nervine upon the shattered nerves having restored them to perfect health.

"I endured agony that words cannot express from St. Vitus' dance, which followed a very severe spell of rheumatism. I decided with a physician, but the more I took of the medicine the worse I got. My mother's devotion saved me. After she had become almost heart-broken, as well as physically exhausted from constant care, by the advice of a neighbor she procured a bottle of Dr. Miles' Nervine. From the first dose to the last a continual change for the better was noticeable, and when I had taken several bottles I was well, and in robust health."

EDWARD D. BIRAM.
North Adams, Mass.

"Our little boy Harry, had spasms for three years, and although we were treated with many physicians, he continued to grow worse until he had ten spasms in one week. About that time our attention was called to Dr. Miles' Nervine. We began giving it to him. His improvement seemed slow, but when he had finished the fourth bottle the spasms had disappeared, and have not been seen now for years. We shall always recommend Dr. Miles' Nervine."

MRS. BELLE M. TINDALL.
Hastings, Neb.

Dr. Miles' Nervine is sold by your druggist, who can tell you where the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

A DUTY THAT EVERY WOMAN OWES HERSELF

To Guard Her Health at Important Times in Her Life When Her Physical Condition Will Decide Her Future.

It is useless to tell a hard-working woman to take life easy and not worry. That is the duty of every woman as she approaches the age of forty to save her strength as much as possible, to take her care as lightly as may be and to build up her system to meet any unusual demands upon it. It is a duty not only to herself but to her family for her future health depends upon it.

To guard against a complete breakdown in health, the blood must be kept pure and rich. No other medicine does this so well as Dr. Williams' Pink Pills, for they act both on the blood and the nerves, restore the appetite, and keep every organ toned up. All women cannot rest whenever they should but this strengthening medicine is within every woman's reach.

Mrs. Mary J. McDaniel, of 1172 N. Church street, Decatur, Ill., says:

"I became run down in health a few years ago and for over six months grew worse daily, with no prospect of relief. I suffered from terrible pains in the top of my head that I thought I should go crazy. My limbs were always cold and I was often so dizzy and short of breath that I could hardly get about the house. I lost over 30 pounds in weight. Many days I had to give up and go to bed.

"My doctor said he could not help me and later when I took a hacking cough I might go into consumption. I read about Dr. Williams' Pink Pills in our paper and had my husband bring some of them home. They helped me so much that I used to feel entirely cured. I have been able ever since to do all of my work with ease. I have the greatest faith in the pills, as a tonic for the perfect health now and do not know what it is to be sick any more."

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

on the Upper Teche. They had thrashed the woods covering the entire country around the Monticello crossroads, and it was a matter of doubt whether any fresh sign of the presence of the brain family have been discovered.

The president accepts the situation philosophically, saying that the present is not the only search for a cure, but that he might be patient out that if other game than bear had been desired it could easily have been secured.

The reports from Newellton are encouraging. Ever since the president arrived in this section he has been receiving letters telling him that there were plenty of bears within a few miles of that town.

The new camp will be on the Bayou Teche, as was the one at 40 miles south of the present site, and it will be about 12 miles inland from the railroad.

They have been devoted to searching the woods for wildcats. A messenger who came in early reported that the dogs had already struck a promising trail. The president is spending the night in an old clubhouse on Bear Lake, 12 miles south of Monticello road. He will hunt in that neighborhood tomorrow and remain at the clubhouse Saturday night.

MOROCCAN REBELLION.

Authentic Reports Indicate An Early Collapse of It.

Washington, Oct. 11.—Private but authentic reports received in this city from Morocco indicate an early collapse of the rebellion against the sultan, headed by his brother, the pretender. These reports say that the tribes that first rallied under the latter's banner are falling away so that he now has little support, and that the sultan's army is endeavoring to conduct a campaign into the southern provinces, which were the pretender's own districts. Rebellious tribes have been punished, heavy tributes having been levied, and peace and tranquility is being rapidly restored.

NEGRO BELL BOY TRIES TO MURDER PROPRIETRESS.

Los Angeles, Cal., Oct. 11.—Through the arrest of a negro bellboy in this city today, it became known that an attempt upon the life of Miss Helen Mathewson, proprietress of the fashionable Hiershey Arms hotel, had been made by means of infernal machines during the past two years, and that an effort to poison the entire family and have the crime attributed to Miss Mathewson, was frustrated only through accident. Further that this, the police are endeavoring to connect their prisoner with the burning of the Hotel Colorado, which Miss Mathewson conducted in this city, on the night of Dec. 4, 1905.

According to the evidence in possession of the detectives, which they claim is complete, Burr Harlan, the 19-year-old colored boy in custody, attempted to kill Miss Mathewson because she was the first bomb to Miss Mathewson on July 27, 1906, and that it was concealed in a book from which a portion of the leaves had been cut. It was arranged, as it exploded when the book was opened. But for some reason it failed.

A second infernal machine was sent to Miss Mathewson about three weeks later. This was wrapped in a copy of the Denver Post, which, in accordance with her wishes, was examined at the post office. While opening it, one of the postoffice employees heard the sound of a springing fuse and dropped it into a nail of water.

A third machine was sent in a book which was opened at the postoffice before reaching the place that time the detectives have worked on the case unceasingly, but without result, until today.

In September, 1906, a box of chocolates was sent to the family of W. J. Pierce, proprietor of a neighboring hotel. It was marked "From a Friend" and bore Miss Mathewson's name on the bottom. The box, when opened, was found to contain some sort of a powder sprinkled on the candy. When subjected to analysis, the powder was found to be rat poison in quantity sufficient to have destroyed an entire family. Harlan was three years of age when his mother and uncle entered the employ of Miss Mathewson in Denver. He has been a bell boy in several establishments conducted by her.

SOUTHERN PACKING AND CANNING INTERESTS MERGED

New York, Oct. 11.—Announcement is made today that an important deal involving the combination or merger of some large southern packing and canning interests has just been completed through George A. Young and his associates. The deal, which has been completed by the McHenry company of

the tobacco sales business of E. McHenry's sons, and the canning and packing business of the McHenry company, which is said to operate one of the largest modern canneries in the United States. The capitalization of the new company will be \$10,000,000.

E. A. McHenry will be president and Frederick Kopf vice president. Mr. Kopf, in speaking of the enterprise, said:

"When the company finally acquires other factories, of which a number will be taken over from present owners, and a wholesale grocery will be elected to the board.

"The company's lands and factories are situated on Avery island, Louisiana, and it has offices in New York, Chicago, San Francisco, Portland, Montreal and London. In its production of its specialties, the company will operate a fleet of 50 boats and upwards, and will employ over one thousand hands."

ASHBROWN CASE CONTINUED

San Francisco, Oct. 11.—Judge Dunne today continued for one week the arrangements of R. Porter Ashbrow and Luther Brown, indicted for the kidnapping of Fremont, managing editor of the Bulletin and former Supervisors A. M. Wilson and M. W. Coffey, indicted for accepting bribes. Luther Brown, who yesterday was indicted for subornation of perjury, in connection with the other kidnapping case, appeared before Presiding Judge Coffey this morning and furnished a bail bond for \$10,000.

TO DEFAUD GOVERNMENT.

Important Testimony Drawn Out in Case Against Goff.

Milwaukee, Wis., Oct. 11.—Testimony showing the connection of T. S. Carter and C. F. Hunter, formerly directors and officers in the Wisconsin Coal Mining company, with the firm of S. P. Peckels & Son, which drew up the incorporation papers, was brought out during the hearing in the case of G. D. Goff and others, charged with conspiracy to defraud the government, before United States Commissioner Bloodgood today.

Hunter testified that he was secretary of the company up to July 1, 1902, when Mr. Hunter said he sold his stock in the company to Fred Mansfield Nov. 14, 1906, and at the same time the stock held by G. D. Goff was sold to the same purchaser.

The first move of Hunter was to take up coal lands in Colorado was in August, 1902, when Mr. Benjamin had called at the office of Peckels & Son and told of his having taken up certain lands and his desire to form a corporation for holding them.

KILLED WIFE AND SELF.

Helena, Mont., Oct. 11.—A record special from Havre says: Roy Reed of Portland shot and killed his wife, Sylvia Reed, in the office of Hotel Havre today. He then shot himself and blew his brains out. From what can be learned Roy and Sylvia Reed had been married 10 years. Their domestic relations had been of the most unhappy and divorce proceedings were instituted by Mrs. Reed.

PUGILIST JOHNSON EXONERATED

Chicago, Oct. 11.—Arthur Johnson, the pugilist who was arrested yesterday for passing a worthless check, was discharged today. He proved that he had no knowledge of the check, and that after the check, and it was also found that the prosecution was barred by the statute of limitations.

A Criminal Attack.

on an inoffensive citizen is frequently made in this apparently useless little tube called the "appendix." It is generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, cleanse the appendix, and establish regular habits of the bowels. See at C. C. M. L. Drug Store.

AN EXTINGUISHED STAR.

Passing of the Once Famous Novelist Mary J. Holmes.

The announcement of the death of Mary Jane Holmes, the once famous author of novels of romance, was received in this city today. She was 60 years of age and had been suffering from illness for some time. Her death is caused by her demise as it might have done a generation or two ago. Then her name was a household word in home circles and those familiar with the standard works of the novelist, such as "Tempest and Sunshine," "Lena Rivers," "Meadow Brook" and the dozen other tales of love and romance from her pen, are convinced of the lacking vein of proper sentimentality to which her books made strenuous appeal. To all possessing it, no literature will ever find stronger adherents. To the girl in her teens no thrill will ever come from written romance to excel those of the love scenes and adventures of the heroines and heroes whose lives vibrated vividly in the author's pages. While the appeal, however, was mostly to sentiment, Mrs. Holmes' books were not without their serious moral and doubtless if all were known, the heart has been guided into straighter channels through the lessons outlined in her stories. Long life as her pen has been, and silent as her voice now must ever be, her name will be remembered in America's literary annals always, as one of the most popular writers the country has known.

She was certainly an exceptionally clever child, as her record shows her to have studied grammar at six, taught school at 13, began writing at 15, and to have accomplished a large amount of traveling with household and other miscellaneous work, besides her writing. "Tempest and Sunshine" was her first novel, and was published in 1854. "Tracy Diamonds" was her last long book. The most popular of her novels is given below, and most of these are still in demand. The author resided at Brookport, New York, where most of her life work was accomplished. The list follows: "Cousin Maudie," "Dorcas Deane," "Edith Lytle's Secret," "English Orphans," "Ethelyn's Mistake," "Homestead on the Hillside," "Lena Rivers," "Rosedown," "Martin Gray," "Rosedown," "Tempest and Sunshine."

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters, writes W. B. Brunson, of Chicago. 'She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well.' That's the way Electric Bitters affects the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed safe for stomach, liver and kidney troubles. By C. C. M. L. Drug Store, 25c."

Do Your Meals Fit?

Do You Feel Smug and Comfortable Around Your Waist Line After a Hearty Meal?

Did your last meal taste deliciously good to you, and did you eat all you wanted? Could you have patied your appetite and felt proud of your stomach? Do you feel free now because your last meal gave you no inconvenience whatever? If not, you have dyspepsia in some form, and probably never realized it.

If you have the least trouble in your stomach after eating, no matter how little or how much you eat, there is trouble brewing and you must correct it at once.

Most all stomach troubles come from poor, weak, watery gastric juice, that precious liquid which ought to turn your food into rich, red blood.

If you have nausea, your gastric juice is weak. If you have sour risings or belchings, your food is fermenting; your gastric juice is weak. If you have loss of appetite, your gastric juice is weak. If you have a feeling of aversion to food, your gastric juice is weak.

You need something in your stomach to supply the gastric juice which is weak, and to give power to the weak gastric juice. Stuart's Dyspepsia Tablets do this very thing.

Now think—each grain of one of the ingredients of these wonderful little tablets digests 3,000 grains of food. They are several times more powerful than the gastric juice in a good, strong stomach. They actually digest your food for you. Besides, they increase the flow of gastric juice, just what you need to get all the good possible out of everything you eat. You never have to fast, or to eat your food in your stomach nor any other stomach trouble after taking Stuart's Dyspepsia Tablets. Then everything you eat will be digested, it will give you strength, vim, energy and a rosy disposition. You'll feel good all around your waist line after every meal and it will make you feel good all over.

Stuart's Dyspepsia Tablets will make you feel happy after eating a good, hearty meal. Take one or two after meals. You'll feel fine—then your meals will fit, no matter what or when you eat.

We want to send you a sample package of Stuart's Dyspepsia Tablets free of charge, so you can test them yourself and be convinced. After you have tried the sample, you will be so satisfied that you will go to the nearest drug-store and get a 50c box.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

HARRIMAN DENIES "CUT EXPENSES" ORDER.

New York, Oct. 12.—The attention of E. H. Harriman was called today to an order which he was reported to have sent to the general managers of the Southern Pacific railway company, instructing them to reduce all expenses other than maintenance and to stop improvements on account of the stringency of the money market.

"The statement is untrue," said Mr. Harriman. "I do not send telegrams to general managers in this way and no such order has been given. We are doing everything we can to take care of the business tributary to our roads and expect to continue to do so."

FRANCOIS COPPEE DYING.

Paris, Oct. 12.—Francois Coppee, the well known French poet and playwright who has been confined to his bed for some time, is today reported to be very weak, and it is feared he cannot long survive.

ELEVATOR BURNED.

Madison, Ill., Oct. 12.—The Clover Leaf grain elevator, containing 25,000 bushels of grain, was destroyed by fire early today. Several small cottages near the elevator, together with the coal chutes of the railroad company, were also destroyed. Total loss estimated at \$100,000.

ROYAL SWEDISH YACHT CLUB HURT BY N. Y. CLUB'S ANSWER

Stockholm, Oct. 12.—The Royal Swedish Yacht club held a meeting today to discuss the reply of the New York Yacht club to its inquiry as to the conditions under which a challenge for the America's cup would be considered. After a long debate in which was emphasized the fact that the New York Yacht club had not given a clear reply to the question whether the length of the competing vessels could be fixed at 70 feet or 100, it was agreed to await the settlement of this point. The Associated Press correspondent had an interview with William Olsen, a prominent member of the club, who said:

"The members of the Royal Swedish Yacht club are greatly surprised and hurt at the slighting manner in which the New York Yacht club replied to our communication and the failure of this club to answer in plain language Sweden's civil inquiry as to whether or not it was willing to race with 70-foot boats."

"We mean business and we are not trifling. We hope that the \$200,000 Sweden in America will back us in our enterprise."

THE ASTORIA'S LAST TRIP.

New York, Oct. 12.—The Anchor Line steamer Astoria, which has been in service since 1884 has made her last trip from Glasgow to New York in the regular passenger service for the line. The California, sailing today from Glasgow on her maiden voyage, takes her place.

KILLED IN COLLISION.

Pullman Conductor in One Between Freight and Passenger Trains.

Birmingham, Ala., Oct. 12.—In a collision between a Louisville & Nashville freight and a St. Louis & San Francisco passenger train at Pratt City, Ala., this morning, Pullman Car Conductor J. C. Smith of Birmingham was instantly killed and several persons injured. They were in the last Pullman car.

GLADYS VANDERBILT.

Hetty Green Says She's Glad She Isn't Her Daughter.

New York, Oct. 12.—Mrs. Hetty Green who is referred to as the richest woman in the world is strongly opposed to international measures according to an interview with her which is published.

"I am glad Gladys Vanderbilt is not my daughter," she is quoted as saying. "There are thousands of honest young working men in the United States good enough to be any girl's husband. The girl who goes to Europe to get her husband's money, and then they get and more. If my son married a foreign woman because the union would bring him a title, I would disown him."

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that has been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too, and chilblains disappear under its healing influence. Guaranteed by Z. C. M. L. Drug Store, 25c.

ICE CREAM.

Price is to be Advanced Five to Seven Cents a Quart.

New York, Oct. 12.—Announcement is made today that the price of ice cream is to be advanced from 5 to 7 cents per quart by the largest manufacturers. Increased cost of milk and rigid requirements under the pure food laws are responsible for the rise in prices.

THE MARIPOSA OVERDUE.

San Francisco, Oct. 12.—According to advices received in this city, the Oceanic steamship company's steamer Mariposa, which is three days overdue from Tahiti, is 87 miles off the coast from Monterey, without fuel. First Mate W. D. Watson who was

rowed the entire distance to Monterey reported the steamer's predicament. The steamer W. S. Porter is reported as having left Monterey to tow the Mariposa to San Francisco. She will probably reach here some time tonight.
