THE EVENING NEWS.

Wednesday, - - March 22, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, March 22, 1871.

Buying at $1.08; Selling at $1.11.

LOCAL AND OTHER MATTERS.

THEATRICAL.—To-night, at the Theatre, will be presented the domestic drama, in five acts, "Little Barefoot," Miss Kitty Blanchard in the title role, supported by Mr. McKee Rankin, as "Farmer Peace," Mr. Power, as "William Peace," other characters by the company.

MUSICIANS AND SINGERS, remember the meeting of the Philharmonic Society, in the City Hall to-morrow evening; it commences at half past seven o'clock. A full attendance is desirable, and especially of those who wish to become members of the Society.

WOMEN JURORS.—A mixed jury of men and women, brought in a verdict of guilty in a murder case at Cheyenne, yesterday, as will be seen by the following telegram, received this morning per Western Union Telegraph line.

Cheyenne, 22.

The District Court met here yesterday, Chief Justice Howe presiding. There were four ladies among the jurors. John Bovey, a half breed Sioux Indian, who murdered two men near Ft. Laramie, last October, was found guilty and sentenced by the Judge to be hanged on the 21st of April.

FOR A CHEAP TEN CENTS' WORTH OF illustrated literature, go to Dwyer's News Depot, and get *Every Saturday*, for March 25th. It contains portraits of Hon. Hamilton Fish, Secretary of State; Hon. E. B. Washburne, United States Minister to France, and the late T. W. Robertson, the dramatist, and a number of other very fine illustrations and a large amount of reading matter. It is the cheapest and best illustrated magazine published in this or any other country.

WOODEN RAILS.—A letter appeared yesterday in the News, advocating the laying of wooden rails for the short road from the coal mines in Summit County through Echo, to the Union Pacific. The advocacy of wooden rails is not confined to Utah. An exchange says:

"A civil engineer in Texas advocates the construction of narrow gauge railroads with wooden rails, as adapted to thinly populated districts in Texas, where traffic is light, and it is utterly impossible to get money to construct ordinary roads. Charters have been obtained for two such roads and they are likely to be built soon."

THE SIDEWALKS.—Surveyor General Jesse W. Fox has been engaged, to-day, staking off the sidewalks of the principal streets of this city, preparatory to the grading and graveling process, which they will shortly undergo.

SHE IS COMING.—Miss Rose Evans, the tragedienne, who has been creating a *furore* in the West, by her acting, will shortly appear in Salt Lake City.

PAMPHLETS.—No. 7 of "*Our Salesman*," issued by the wholesale hardware firm of Linforth, Kellog & Co., is received; it would be useful to every store keeper, as it furnishes a capital inventory of the various and numerous articles kept in stock by this firm. They have recently become agents for the sale of the Leeds Gate Fixtures, which close and fasten themselves, and which cannot be opened by cattle. *Our Salesman* says these fixtures are infallible in their operation; they have neither springs nor pullies to weaken or break, and under no circumstances can the gate be left swinging or unfastened, or opened by swine, goats, or cattle of any description.

"Mining Schools of the United States" is the title of a pamphlet received this morning, written by Professor John A. Church, and reprinted by the Trustees of Columbia College from the *North American Review*, for January, 1871. It contains a brief outline of the course of instruction given in the mining schools of Europe, and in this country, with valuable hints as to what is necessary to make such instruction really useful and practical. As the mining interests of the country are of such enormous magnitude, and are every year assuming vaster proportions, any instruction in relation to mining is extremely opportune. This pamphlet is printed by Waldron & Payne, New York.

"A Few Hints on Landscape Gardening," is the title of a pamphlet containing twenty pages, of which a copy came to hand this morning, printed for gratuitous circulation. It is devoted to Landscape Gardening in the west. Its author's name is W. H. S. Cleveland; it is published by Hazlitt & Reed, 90 Washington St., Chicago.

"A JUDICIAL ROW," ETC.—We call the attention of the public generally, and of the Federal officials to whom it refers, specially, to the article from the Omaha *Herald*, headed "A Judicial Row and Rave in Utah," re-printed in to-day's News. It clearly sets forth the state of the case at issue between the citizens of Utah and their judicial antagonist; and is important, from the fact that there are some outsiders at a distance, as well as in Utah, who take the same view, and denounce the proceedings of the present judicial regime in Utah as the result of malignity, and the principal actors therein as parties who have lent themselves to become tools in accomplishing the dirty work of the anti-Mormon "ring."

DEATHS CAUSED BY BURNING FLUIDS.—One can scarcely take up an Eastern paper without finding an account of deaths attended by horrible torture, caused by explosions of gasoline, Danforth fluid, etc., all showing that the utmost care is necessary while using them. Gasoline and other burning fluids, however much they may differ in name, are all very similar in nature; and they are coming more and more into use, both for lamps, and for cooking stoves. The Evansville, Indiana *Journal*, of the 14th instant, contains an account of the burning to death of a young girl, whose dress caught fire while lighting a gas stove. The *Journal* says:

"About half-past five o'clock, yesterday evening, people near the corner of First and Locust streets, were shocked by hearing cries proceeding from Newman's Hotel Garni, and shortly afterwards they were still more shocked by seeing a young girl rush from the house completely enveloped in flames.

The poor girl ran across Locust street, screaming as she ran, and creating great consternation among the bystanders, who made frantic and ill-directed efforts to extinguish the flames as she ran by, throwing water upon her and tearing her burning clothes from her. After a great deal of confusion she was thrown down and the fire extinguished by a carpet being wrapped about her, and she was returned to the hotel, where Drs. Thomson, Owen, Davidson and Lewis hurried to her, and did everything in their power for her relief. She was found to be terribly burned on all parts of her body except the face and feet, and the physicians express grave fears in her case.

From some who know a little of the matter it was ascertained that the poor girl went to light the fire in the gas stove, and in a moment she was in flames, and the floor of the kitchen was burning, the result being as above stated. She died last night in great agony."

Wherever these very useful but very inflammable liquids are used the utmost care should be exercised in replenishing lamps, and it should always be done during the day time. Many deaths have been caused by pouring fluids of this class into stoves, to give the fire a start; it is scarcely possible to use it, and in most greater risk. Mothers should never permit their children to handle or have anything to do with it. It is impossible to be too careful or cautious with the safest preparations of the kind; with this accidents may be avoided; but without it, it is impossible.

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Covering, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and requiring oil, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses all the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Unreliable and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterly fail on other Machines.

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of Seven Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER BUTTON-HOLE MACHINE

Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
