Last Night's Dispatches.

EASTERN.

Losses by the Failure of Netter & Co.

NEW YORK, 27.—It is now reported in Wall street that the losses by the failure of Netter & Co. will amount to nearly \$300,000. Ex-Judge Eitenhofer, counsel for the firm, received a dispatch to-day, from friends of the Netters in Cincinnati, stating that friends had started for this city to arrange the affairs of the firm.

Ohio Memorial Contest.

A World's Washington special says: Advice received from the Ohio senatorial contest are now being down between Morgan and Pendleton. The probability is the latter will be elected. There is much excitement there.

Chandler's Letter.

The tenor of Chandler's letter only re-echoes the opinions expressed in conversation for weeks past by republican Senators, with the exception of four or five, and even these are inclined to agree to that portion relating to the appointments of the session in the North.

It is predicted by Chandler's friends that with the re-opening of the session the light rigging of the republicans will be made manifest in the debates of both Houses, unless in the meantime the President should adopt a line of conduct towards these disaffected republicans which would tend to heal the existing differences. This, of course, is not probable.

The Ill-Fated "Huron"—Robbing the Dead.

WASHINGTON, 27.—Lieut. Walter Walton, inspector of the life saving service on the North Carolina Coast, makes a report in relation to the loss of the *Huron*, showing that Evan O'Neil, a fisherman of Nagasaki, discovered the wreck coming on shore at 1:30 a.m. on the morning of the disaster. She drifted and pounded along the outer edge of the bar and finally struck broadside on. He heard shouts and screams on board the stranded vessel, saw rockets go up, followed by the burning signals from end to end, so that even the light rigging and men could be plainly seen. A boat on the starboard side, full of men, disappeared when the forecastle fell. The shouting and screaming continued for about an hour and a quarter after he first discovered the ship the signaling ceased and all was darkness. O'Neil then went home, ate his breakfast and did not return to the wreck until after sunrise. He knew where the keeper of the life saving station lived, only two and a half miles distant. He had a good boat, a row wind to go and return inside of Roanoke Island, yet he remained silent and indifferent for three hours. The report concludes: "It is shocking to record that out of 91 bodies found, about 12 of whom were officers, not a single trinket, such as would be deemed a relic by the relatives of the dead, was found on the bodies. Watches and chains, money and even finger rings, had been stripped off by those whores found. The bodies as they were washed up. Good evidence is found in the case of Eaten Simonds, whose third and fourth fingers of the left hand had been scratched and gouged by the body robbers in their haste to secure their ill-gotten booty."

The Public Debt.

The public debt statement will be issued on the 2d of January instead of the 1st. No unusual sayings are made during the month excepting disbursement on account of the army, a considerable portion of which was from the amount returned in the case of the appropriation at the special session. The receipts during the month have been comparatively light, but it is believed the balance will make a better exhibit than last year, when there was considerable increase in the public debt.

Dead.

PORTLAND, MAINE, 27.—G. A. Bailey, late publisher of the *Commercial*, died at Dover, yesterday.

Rioters Sentenced.

WILKESBARE, PA., 27.—Ten men, convicted of rioting interfering with mining operations, last August, were, to-day, sentenced to terms varying from 30 days to nine months.

Horrible Tragedy.

FARMVILLE, VA., 27.—A shocking tragedy occurred here, to-day. Col. Wm. Randolph Berkeley, an eminent lawyer, was shot and killed in his office, conversing with Alfred Moth, cashier of the English and American Bank, when a knock was heard at the door and Col. Berkeley got up to answer it. On opening the door a shot was heard from without, and the Col. fell back with a bullet in his chest. Immediately afterward, Captain Wm. H. Kennedy entered the office, and stepping behind Col. Berkeley's desk, placed a pistol to his own head and fired. Mr. Moth says that all he heard was a remark by Captain Kennedy, as he fired, which intimated that he had some grievance against the Col. It is stated that Kennedy has made three previous attempts on his own life, and for a long time has been in a moody and despondent condition. Colonel Berkeley was a well-known and popular man, and his death is a great loss to the community. He leaves a large family. Kennedy still lives, but there is no hope of his recovery.

The Last Report.

BOSTON, 27.—The officers of the West Boston Savings Bank availed themselves of the provisions of the by-laws requiring notice from depositors of intended withdrawal of the bank depends upon realizations from real estate, which is greatly depreciated in value.

BLOOMINGTON, ILL., 27.—James O'Neil, a well-known Chicago locomotive engineer on the Chicago and Alton railroad, was shot dead in the street here at 3 o'clock this morning, while returning home from his trip. The shot was fired by some unknown hand. His money was untouched, so that the murder is not explained as a robbery. O'Neil was known as a brave, fortunate, honest, peaceful and highly respected man, of 35 years of age.

The Achlin-Darrell Case.

CHICAGO, 27.—The Times' Washington special says: The sub-committee of elections of the House will report through the committee to the House on its re-assembling, the Achlin-Darrell case. The Kellogg returning board gave a majority to Darrell, but Nicholls' returning board made a recount and found a majority for Achlin. This discrepancy occurred in Darrell's parish, where it is claimed certain prominent republicans voted against Darrell, owing, it is alleged, to the fraudulent printing of Achlin's name on the Darrell tickets. The returning board made these votes count for Darrell, and on this point the controversy turns, and on this evidence the committee will report in favor of seating Achlin.

Favors Restoring the Income Tax.

It is ascertained that Representatives Burdard, of Illinois, and Tucker, of Virginia, who are preparing the tax portion of the revenue bill, will report to the full ways and means committee in favor of restoring the income tax. Burdard expresses the opinion that a majority of the committee will agree to the recommendation, and that if inserted in the bill by the committee it will also pass the House. It will start with friends from both parties in the war south, and will secure aid from all who wish to lower the taxes on whisky and tobacco. There seems to be no doubt that combinations of this sort are being actively organized, and the movement for the reimposition of the tax is unquestionably gaining strength.

The Southern Pacific Railroad.

The Southern Pacific Railroad Company, through Charles Crocker, president, have made application to the Interior Department for the examination and acceptance of the eighth section of their road, beginning 100 miles south of Goshen, and running south-east about 42 miles to the point where they began to build towards Los Angeles under the clause attached to the Texas Pacific Railroad act. All the rest of their constructed lines in California have been accepted, excepted with the exception of 118 miles on the south-eastern end, in regard to the acceptance of which there is likely to be some delay.

FOREIGN.

GREAT BRITAIN.

Cabinet Meeting.

LONDON, 27.—Another cabinet council was held in Downing Street, to-day.

Eastern War News.

Prince Waide, the Austrian diplomatic agent, has informed the Servian government that Austria decisively protests beforehand against Serbia extending her action, either to the revolutionary movement in Bosnia and Herzegovina. Serbia has consequently given her formal assurance that she will not extend her action to the Drina corps to refrain from hostilities in the direction of Bosnia.

A Bucharest dispatch says the bridge across the Danube at Nicopol was totally destroyed by ice on Wednesday. The destruction of the bridge at Nicopol, and the Russian on ward movement, and it seems to look as though the campaign was over for the year.

The railways are not working regularly and the commissariat have all they can do to keep the troops supplied in the camps near Plevna without increasing the difficulty by sending them further inland.

A Berlin special says: "Russia is sounding the various Mediterranean states as to their disposition relative to the opening of the Dardanelles."

GERMANY.

The Cabinet.

BERLIN, 27.—It is probable that Herr Von Bismarck and Herr Von Forckenberg, speakers of the Prussian and German parliament and eminent members of the moderate liberal party, will become members of the cabinet, respectively. The ministry of commerce will be combined with that of agriculture, and Dr. Friesen, Prince Bismarck's motive in establishing closer relations with the moderate liberals seems to be a wish to form a strong majority for the support of his financial and political projects. It being doubtful whether an increase of direct taxes would be possible, Prince Bismarck, contrary to the recognized financial programme of the liberals, intends to resort to indirect imports, especially a heavy tobacco duty and excise. Probably other motives are connected with the cabinet changes, which it would be difficult to fathom as yet. If the Emperor approves the new appointments, which will likely be announced about the end of January, when Prince Bismarck returns to Berlin.

BRITISH AMERICA.

What have Work or Starve.

TORONTO, 27.—About a hundred unemployed laborers waited on the mayor to-day and stated that they must have work or they and their families would starve. The mayor will be called to work breaking stones to-morrow.

RUSSIA.

March to Constantinople.

ST. PETERSBURG, 27.—The Agency Russa observes that the Eng cabinet, in encouraging the Porte to further resistance, by cancelling the British Parliament earlier than usual, will compel the Russians to march on Constantinople, causing the precise result which it seeks to avert.

Will be Settled.

The Agency Russa says the Porte's request for mediation will be declined, because, according to the international law, mediation is only possible when solicited by both belligerents; otherwise mediation becomes intervention.

If all the year were playing holidays, to sport would be as tedious as to work; but when they seldom come, they are wished for.
