

GOD'S MUSIC.

I left the daylight scene of toll
To light my pleasant evening lamp,
And gather from the world's turmoil
About the happy household camp.
Peace dwelt among us, as if God
Had spread his tender hand above
Our heads, and touched us with the rod
Of his divine and human love.

From out the far sweet depths of air,
I heard an untranslated song
Float softly and in cadence rare
The branches of the trees among.
Whence comest thou, O psalm of cheer?
I sometimes think it must have been
A message from the sweet, the clear
Soft sounding harp of olden years,
Who led Judea's martyred hosts
Unto the velle promised land,
Where angels of the Pentecost
Stood holding God by his right hand.

I could have sat forever there
Amid the stillness and my books,
With such sweet music in the air,
Half like the song of bubbling brooks;
And yet more sweet than any note
E'er chanted by a mortal's lips,
Or murmured from a human throat,
My senses seemed in brief eclipse.

And yet I know it must have been
God's music drifted unto me,
Or else the song of Seraphims
Or some lost soul's lastthrenody.
I felt a better life within,
My heart grew nearer unto God,
I thought that I could love life's sin
And tread where His evangel trod.

Ah, sweet night hour, I woo you long;
I sit and watch the full moon rise,
And think perhaps that self same song
Will float again from yonder skies;
And yet it is enough to know
God's music once hath kissed my ears,
And taught my gratitude to flow
Starward in rear of holy tears.

TELEGRAPHIC NEWS.

CITY OF MEXICO, (via Galveston), May 29.—At ten minutes to three this morning, there was felt here a violent shock of the earth, or sort of lifting motion, which lasted five seconds. Next there came prefaced by a low roar, and accompanied by a stiff breeze, a violent oscillation of the earth from east to west, which awoke nearly every one, lasting as it did 39 seconds. Houses swayed as if they were ships at sea, and persons arising from their beds were in many cases thrown with force to the floor. Bells were rung in hotels and everywhere doors were forced open. Then came

STILL ANOTHER

oscillation of much violence, proceeding from north to south. During this shock crockery was thrown down and pictures demolished in several houses. Thousands of persons dressed themselves and did not go to bed again. Reports received by Governor Ceballos, of Federal district, do not show any fatalities as a result of the earthquake, and denizens of the suburbs and towns report about the same sensations as were felt by the inhabitants of the metropolis.

At the School of Mines, Secretary Ugalde reports that seismic instruments showed that a heavy shock had taken place. These instruments are self-registering, and prove that the shock of this morning was a severe one. At the office of Gov. Ceballos it is reported that the shock was much more severe than that of 1882.

WASHINGTON, May 29.—Major Ben. Perley Poore died at the Ebbitt House in this city at 12:30 o'clock this morning. It was reported yesterday morning that he was a shade better, but at 6 last evening he grew rapidly worse. His physicians were directly summoned and a few friends sent for, but by the time the latter arrived he was dead. Maj. Poore has been a sufferer from Bright's disease for several years, which was the cause of his death. The relatives and friends of the deceased left this city with the remains of the dead journalist this afternoon for Boston. There were no funeral services here, but the body was escorted to the depot by a deputation of the Loyal Legion Masons of the 33d degree and a large number of correspondents.

BRUSSELS, May 29.—At the progress-liberal conference to-day, a resolution against universal suffrage was adopted by a vote of 317 to 127. The conference, by a vote of 379 against 45, pronounced in favor of granting the franchise to Chinese who are able to read and write.

ST. LOUIS, May 29.—A special telegram from the City of Mexico to the *Globe-Democrat* says: "Secretary of foreign affairs, Mr. S. Mariscal, has addressed a reply to the request made by the U. S. government that the death sentence pronounced against Colonel Arvizu and his companions, on account of the part they took in the recent violation of American territory at Nogales, be commuted. He states that the matter has been reported to the President. He also states by direction of the President that the

HUMANE SENTIMENTS

of the U.S. officials are duly appreciated

and that they will be borne in mind in case the sentence pronounced against the Nogales offenders should be confirmed. Mr. Bayard's appeal in favor of the condemned men has been met by the Mexican government in a friendly spirit. The desire of the present administration of Mexico is manifestly to cultivate the most cordial relations with the American government and people, and all suggestions or requests, coming from the State department at Washington, if made in a friendly spirit, have invariably been received and considered in the most amicable manner. Arvizu and his companions will hardly be executed.

ST. LOUIS, May 29.—A special from Del Rio, Texas, says: The Mexican portion of the city was startled by cries of "Murder," and as a citizen broke open the door of the room whence the cries came, the body of Sophia Garcia fell into his arms. The woman was stabbed three times with a large dagger, and any of the wounds would have proved fatal. She lived in a house with her husband, Juan Garcia, and an aged couple, who later testified that in the night they were awakened by a scuffle and the sound of a man's voice swearing; then they heard cries and the murderer disappeared.

MONTREAL, May 29.—Six men, Celestin Vezeau, his sons Charles, Joseph and Sabin, and Wilfred Herrie Vanier, and Nelson Montreuil, went out in a row boat last night on a fishing trip. They took a quantity of liquor. They attempted to come to this city this morning, but were unable to manage the boat, which capsized and all of them except Montreuil were drowned. The only body recovered was that of the elder Vezeau, who managed to get in the boat again, but being unable to sit erect from sheer exhaustion fell back and was drowned in the water in the boat.

PARIS, May 29.—A noisome smell arises from the ruins of the Opera Comique, interfering with the work of searching for the bodies. Although deodorizing fluids are thrown upon the ruins from hydrants, the stench shows that there must still be many bodies under the debris. M. Gragnon, while inspecting the work of laborers, was made ill by the smell. Policemen and laborers have been similarly affected.

CHICAGO, May 29.—Forty bodies have been removed from the Udston coal pit at Blantyre. Many of the corpses are unrecognizable; the limbs have been blown off, and the bodies are horribly charred.

CITY OF MEXICO, May 30.—Up to 1 o'clock this morning, no second shock of earthquake has been experienced. The earthquake shock has created fresh alarm about the safety of roofs in buildings of great age.

NOGALES, A. T., May 30.—There was a pretty severe shock of earthquake here this afternoon about one o'clock, which in its severity created much excitement though no damage was done. Ten minutes after there was another shock, but it was very light. Last evening a terrible dry cyclone visited this city. It came from the mountains on the east side of town and swept away a great many Mexican jackals and

unroofed several more substantial buildings. No one was injured.

CLEVELAND, May 30.—A special from Upper Sandusky, Ohio, reports that a cyclone passed over that place between five and six o'clock in the afternoon, doing great damage to trees, fences, etc. The spire of the Catholic church, 200 feet high, was blown over and the front of the church wrecked. Particulars later.

CHICAGO, May 30.—Jacob Gaudaur to-day defeated Ned. Haulan, the great ex-champion oarsman, in a race for the championship of America and \$5,000, a three mile pull on Calumet Lake. When the two men came out on the course, the water was a little rough, but this had no deterring influence, and the start was made with promptness. Haulan was at once a trifle in the lead, pulling short, quick strokes, forty-two per minute. Gaudaur kept close to him with a long, steady sweep, about thirty-eight per minute. Gradually Haulan forged ahead and at the end of the initial mile was fully a

LENGTH IN ADVANCE

Before the turn was reached, the wind suddenly freshened and rain began to pour. The lake was soon lumpy from end to end and the downpour was almost blinding. Haulan turned first, two lengths ahead; time, 10:02. He was pulling about 25 strokes a minute and rounding to when Gaudaur struck about the same gait. Haulan kept well to the front until entering the third mile, when he commenced to flag. His stroke became uneven and rowing seemed to require great exertion. Gaudaur was rowing magnificently, at the same long, steady sweep, but faster. He soon passed Haulan, first one then the another, and at last three lengths between them could be seen. Haulan then made a

TREMENDOUS SPURT

for a very short time, but could not stand the pace. He lay back an instant, and glancing over his shoulder saw himself beaten. Gaudaur was six lengths away from him. Gaudaur then slackened his speed and passed the stand an easy winner by four lengths. Time 20:20. It was a fine performance under the adverse conditions. After the race, Haulan said he did not think the best man won, although he acknowledged himself fairly beaten. He claimed to have been suffering from severe cold, which told on him at a critical time. Gaudaur said it was the hardest race he ever rowed. Haulan gets 40 per cent. of \$3,500, which were total gate receipts.

THE RECORD BROKEN.

The figures 20:20 were taken from the president of the Farragut Club, who was understood to be timekeeper. The timers of the referee boat, however, agree that three miles were made in 19:30. This has been declared official. Gaudaur, therefore, broke the record, the best previous time being his own against Teemer over the same course, 19:54, though it is announced that Haulan also broke the previous record, having finished in 19:34. His backers say he will send Haulan to Australia and if he defeats Beach he will once more put him against Gaudaur.

MINNEAPOLIS, Minn., 29.—No event since the Sullivan-Cardiff fight has caused so much interest as the fight between Tommy Warren, of Louisville, champion featherweight pugilist, and Tommy Danforth, of New York, at Washington Rink to-night. It has been an open question which is the better man and they are so nearly matched in size and weight that the contest between them depended entirely on pugilistic ability. Warren is a quarter of an inch taller than Danforth, while the latter is a little broader across the shoulders than Warren. The men were weighed this morning, Warren 118½, Danforth 117½. The articles of agreement called for a 15 round contest with two ounce gloves, Queensbury rules, the man having the best of the fight at the end to be declared the winner, fight to be for a purse of \$500 and the entire gate receipts, the winner to take all.

After several preliminary set-tos the

TWO PRINCIPLES

appeared, Warren was seconded by Paty Cardiff and John Donaldson and Danforth by John P. Clow and Daniel Needham. Both men appeared in perfect condition and when time was called responded promptly for the first round. For ten rounds the men were pretty evenly matched and it was give and take with the odds, if anything, in favor of Warren. The last three rounds Danforth was plainly beaten, but

fought bravely to the end, when he was laid out for good by a blow on the nape.

HELENA, Arkansas, May 31.—The prosecuting attorney for this district was questioned concerning the steps he had taken and contemplated taking in the apprehension of "Bill" Kissane. He said he had searched diligently for the whereabouts of witnesses and had learned that most of the material ones were dead; as for the criminal branch of his case, Kissane might rest easy on that score, as he did not believe anything could be done on the bond which was given to secure his appearance at the Philadelphia county court, time having outlawed the obligation of the bond. For six months at least no step of any kind will be taken from this court against Kissane.

AUSTIN, Texas, May 31.—The six prisoners arrested on the charge of

M. Barbey, the new minister of Marine, is a senator and was formerly in the navy. His appointment is only provisional.

He says his visit abroad will extend over more than a year, and doubtless beyond the meeting of the next national convention.

MR. BLAINE

said: "I am going abroad and expect to be away about a year. Mrs. Blaine and my two daughters, Marguerite and Hattie, will make up the party. I have engaged staterooms on board the German Lloyd's ship *Ems*, which sails June 8th—Wednesday a week. We shall stop at Southampton and go at once to London. We intend to spend considerable time traveling through Great Britain. After England, we will probably go to Scotland and Ireland. Then I think we shall spend some time in Germany, and after that take in France. By this time it will probably be getting so late in the year that Spain and Italy will be comfortable. We intend to

MAKE A TOUR

through those countries, and spend most of the winter along the Mediterranean. We will probably make long visits in Rome and Greece, and perhaps stay a brief time in Constantinople. We will visit the scenes of the recent earthquakes in the south of France and the adjoining portions of Italy. The trip will be sufficient to cover a great deal of ground without hurrying."

The correspondent asked, "How about the report Mr. Blaine, that you contemplate in some way assisting Mr. Gladstone and the home rule party?"

"That story is purely imaginative. I never had such an idea in my mind. No, indeed, I shall do

NOTHING OF THE KIND."

"It has been widely published that
