

GERMANY FEELS SHE IS VINDICATED

Equal Privileges for All in Morocco—
co One Thing She Strove
For at Algeiras.

VON BUELOW GIVES HIS VIEWS

United States' Advice and Attitude
Helpful in Latter Stages of
Conference.

Berlin, April 4.—Chancellor von Bue-low, at the request of the Associated Press, today gave the following estimate of the results of the Algeiras conference:

"The principle of equal privileges for all countries in Morocco has been asserted and maintained. That was the contention of Germany from the beginning, the one thing that German diplomacy strove for. We placed it beyond our power to ask for anything for Germany that we did not ask for all countries.

"So powerful was this simple statement of the principle of equal rights that France, Great Britain and all the countries admitted it at the opening of the conference as regards the open door for trade; but the question arose: How was the door to be held open? What guarantee could be given that no one should afterward step into the open door and block the way? Two guarantees only appeared adequate to the German government, namely, international control of the Bank of Morocco and international supervision of the police. These guarantees have been accepted by France and all the other participating countries."

Prince von Buelow continued: "While Germany has obtained those things which she sought, France has obtained, first, recognition of her special position as neighbor of the sultan by international recognition of her right to maintain order adjacent to the Algerian frontier, a right which Germany never contested; second, by a larger share in the state bank; and third, by having entrusted to her the instruction of the police, in company with Spain and under international supervision.

"Throughout this long controversy the European powers have been aware that President Roosevelt was ready to assist in any proper manner in the effort for an agreement. The American government's advice and attitude were helpful, especially during the latter stages of the conference. Mr. White was a conciliatory force."

KEEP THE KIDNEYS WELL.

Health is Worth Saving, and Some
Salt Lake City People Know
How to Save It.

Many Salt Lake City people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is the statement of a Salt Lake City citizen who has reclaimed good health by the use of this remedy: "Mrs. Thomas Lambert of 328 East Sixth South, wife of Thomas Lambert, clerk, says: 'The pain in my back, generally very persistent, was located just over the kidneys. When I attempted to do any lifting or stooping sharp twinges shot through me and in getting up I often had to observe the greatest care. I wished to incur excruciating pains. This continued in spite of my use of medicine until I was willing to try almost anything. Ever on the outlook for something which might help, I happened to see an advertisement about Doan's Kidney Pills and went to the F. J. Hill Drug Co. store for a box. The first one brought marked benefit and I bought two more boxes. The treatment proved to me that Doan's Kidney Pills act as represented.'"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

VIOSEA EXONERATED.

Washington, April 4.—Charges made against James Viosea, the American vice consul at La Paz, have been investigated by the state department and the navy department, and the result is a complete vindication of Mr. Viosea. It was charged by Charles Foxson, who until his death a short time ago was employed at the station at Pichilique bay, that Viosea withheld part of the pay of employees at the station.

WILL RETURN TO WORK.

Milwaukee, Wis., April 4.—The 1,000 union men who quit on the construction of the Allis-Chalmers shops at West Allis because of an alleged attack on one of their number by a foreman on Tuesday, will return to work tomorrow.

HURRICANE KILLS OVER A HUNDRED NATIVES OF TAHITI

Honolulu, April 4.—The steamer Moana, which arrived here today, reports that 121 persons, mostly natives, were drowned during the hurricane which recently swept over Tahiti and the neighboring islands.

Before the windstorm broke over Papeete the water rose steadily after a high tide to 20 feet above the normal mark and by 11 o'clock on the night of Feb. 7 was wrecking wooden buildings and splashing between the American and British consulates.

At first no alarm was felt, but the continuation of the rise caused a panic. The wind blew in brief hurricane blasts every few minutes, tearing up trees and sending roofs flying through the air. Signals for assistance were seen in Papeete by Leblanc, a white resident of Motu island, but it was impossible to render any help until morning, when the floating body of a woman was rescued from the top of a coconut palm.

Fears are entertained for the safety of the schooner Elmo, with seven persons on board.

The Emily Reed, which arrived from Auckland on Feb. 12, during the storm, jettisoned 150,000 feet of lumber.

The Duregan reports a hurricane south of the Loyalty Islands on Feb. 7. Thursday island experienced a hurricane on Feb. 22.

FATAL HUNTING ACCIDENT.

Duncan Clark of Wyoming Shot by a Companion.

Cheyenne, Wyo., April 4.—Duncan Clark, for years holder of the title of champion steer roper of the world, was accidentally killed today while hunting with two friends.

The three were crawling along the ground toward a herd of antelope when a gun carried by the man immediately behind Clark was discharged. The charge entered Clark's body, causing instant death.

Clark was also famous as a bronco buster and participated in all the frontier day contests in Cheyenne.

CHINESE TRYING TO INCITE ANTI-FOREIGN CRUSADE.

Peking, April 4.—The Nanchang affair of February last, during which a Chinese magistrate met death as the result of a dispute with French Catholic missionaries, which caused a riot and the killing of a number of French and British missionaries, continues to inflame the Chinese.

The native papers in the north of China this week print pictures of the missionaries' corpses, showing his wounds, with sensational articles written in a style which appeals to the lower classes, exhorting the people not to forget the outrage and to prepare to defend themselves against foreign brutalities.

The belief that a French priest murdered the magistrate is universal, and probably no other incident ever excited such widespread resentment against the missionaries.

In many places the Catholic converts and the other Chinese are living on the basis of armed neutrality, and but for the presence of the troops stationed near the missions by the government's orders the slightest friction would result in massacre.

FOREST RESERVE HOMESTEADS.

Washington, April 4.—The house committee on public lands today took favorable action on a bill providing for the opening to homestead entry under certain limitations of such portions of forest reserve lands as Secy. of Agriculture Wilson shall designate for that purpose and the secretary of the interior shall authorize.

MCKINLEY MONUMENT.

Senator Grady Charges the Commissioners With Bad Faith.

Albany, N. Y., April 4.—Charged by Senator Grady on the senate floor with bad faith toward the state, the commissioners in charge of the erection of the memorial in Buffalo to the martyred president William McKinley yesterday failed to secure an extra appropriation of \$25,000, which they asked. "They commission has broken faith with the state," said Senator Grady. "They secured the balance of money from the Pan-American exposition and they have not done a blessed thing, but are bringing around waiting for more money from the state and breaking their original pledge in regard to the memorial to President McKinley."

PROGRAM OF THE PAN-AMERICAN CONFERENCE.

Washington, April 4.—The program of subjects to be considered by the Pan-American conference which meets at Rio Janeiro in July, was unanimously approved by the bureau of American republics today. This program was prepared by a committee of which Secy. Root is chairman and includes the ambassadors from Brazil and Mexico, and the ministers from Costa Rica, Chile, Cuba and the Argentine Republic.

Probably the most interesting of the subjects are embraced in resolutions affirming the adherence of the American republics to the principle of arbitration for the settlement of disputes arising between them with an expression of hope that the coming Hague conference will agree upon a general arbitration convention; also a recommendation that The Hague conference be asked to consider

the extent to which the use of force for the collection of public debts is admissible.

Incidental to this will be the discussion of the so-called Drago doctrine, which is opposed to the forcible collection of debts of one nation by another, a doctrine long adhered to by the United States. Other matters on the program are those of a reorganization of the international bureau of American republics; the codification of public and private international law; naturalization; development of commercial intercourse; custom and consular law; patents and trade marks; sanitary police and quarantine regulations; the Pan-American railway; practice of the learned professions and future conferences.

The topics to be considered at the conference are set out under 14 general heads, some of which, in part at least, have been discussed at the two previous Pan-American conferences.

TACOMA TO JOIN THE DEWEY.

Gibraltar, April 4.—The United States cruiser Tacoma sailed today to join the Dewey drydock at Port Said, Egypt.

Washington, April 4.—At the present rate of speed, 10 miles a day, the drydock Dewey is expected to reach the Suez canal within eight days.
