Lieut. The Utah State board of labor, conclitation and arbitration, will meet in the D. F. Walker block Monday to arbitrate its first case. The question on which it is to deliberate is the matter Charles Bischoff, celarman for the Salt Lake Brewery company, who was discharged on account of imbibling too free. ly. Miss Marie Gruner, of Walker Bros. had an experience with a fractious horse yesterday that she will remember for a long time. Miss Gruner is a splenlid horsewoman, and rather inclines to those animals that manifest spirit, but yesterday afternoon she mounted a horse that proved too much for her. The animal was from McCoy's livery stable, and had been running lo winter, it came into the city, therefore, with an exuberance of spirit that even a lady's gentle hand could not control Miss Gruner was riding down Brigham street when the horse took fright at a passing car, and at once began a series of stiff legged jumps, with the result that the lady was unseated, after retaining her seat longer than the a age man could have done so. Miss Gruner was not hurt, however, and the refractory animal was caught and taken back to the stable to think over its ungallant conduct.

Now the senators and repreecured. sentatives are aroused over the methods employed in Washington schools. The children of these congressmen have felt the effects of the peculiar system, and the Senate committee has aken the matter up, with the result that some reform is in sight. One of the complaints made is that the teachers no longer teach the children, but merely hear the recltations, the teaching being all done at home by parents. SPINNER, THE FRIEND OF WO-MEN.

It was not so many years ago that the peculiar signature of F. E. Spinner, treasurer of the United States, was familiar. It was upon all the currency of the country and became especially familiar in the "shinplaster" days. It was a very unique signature, and the comic papers at one time had many jokes about it. Spinner has something more than his signature to make him famous. As treasurer of the United States he began the movement to employ women in the government depart-He found that women ments. more adept at certain kinds of work than men, especially in the handling of money. His example was followed by other departments, and now women have equal rights with men in the government service if they can do the work.
